MATHIAS POINT.

The Captain Ward, who was killed at Mathias Point, June 27th, was Commander Ward, of the U. S. Navy, commanding the steamer Freeborn. He, with a force of about thirty or forty in all, started in sever al cutters for Mathias Point. They took about 250 sand bags on shore, with which breastworks were soon erected, the proceedings being under the direction of Lieut. Chapman. While in the act of retreating to the Freeborn for the purpose of obtaining cannon for the battery, a force of rebels, estimated at 800 to 1200, suddenly emerged from a thick wood and fired into the federal forces, who made a hasty retreat. Several swam to the Freeborn.

Capt. Ward protected his men as far as possible with his guns, and had fired 12 or 15 shot among the rebels, with what effect is not known, when he was struck in the breast with a bullet, while in the act of firing a gun, and died within an hour.—Wm. J. Bess, a sailor, was wounded in four places probably mortally. Several others were wounded. All reached the Freeborn.

It is said that immediately after the retreat the federal breastworks were occupied by the rebels, and that information had been communicated by a negro, early in the day, to Dr. Howe, whose house was burnt on Tuesday, that the rebels were in the neighborhood at least a thousand strong.

The negro had approached the federal party as a fugitiva, with a shirt on a pole as a flag of truce. He was sent to Washington, and is quite happy for his escape from the rebels.

The object of Capt. Ward in throwing up breastworks was that his boats and crew might be able to hold the place with the aid of a howitzer battery, covered by the 32-pounders of the Freeborn, until his force should be reinforced by the the N. Y. 71st Regiment, which he had sent for. It was thought, the regiment once there, they could fortify themselves to hold the place short of vastly superior numbers. The Pawnee, however, arrived at the Navy Yard with Capt. Ward's corpse before the dispatch reached the 71st.

NEW YORK, June 28th.—A dispatch to the Post says 2000 rebels were at hand to support their 600 braves. It is believed that many of the rebels were killed by the Pawnee's shells. It is reported that the N. Y. 71st go down this afternoon.

It is rumored that Gen. Lee is discontented with his position, and repents his traitorous course.

ANOTHER BLUNDER.—A Baltimore correspondent of the New York Herald writes:

"The steamer from Old Point this morning brings the news of another *faux pas* at Hampton. On Monday evening 600 troops were ferried over to Hampton with orders to make an armed reconnoissance in the neighborhood of Little Bethel. For some unaccountable reason they had not the countersign which was necessary in order to enable them to land at Hampton, and neither had the officer in command there been apprised of their coming. The consequence was, the boats were fired on by the picket guard, and five men in the nearest boat killed, and eight more seriously wounded. The boats then retreated and reported the facts to Gen. Butler.

"A deserter from Craney Island came into camp, yesterday morning. He reports that the batteries on Craney Island have been greatly strengthened, and that many new guns had been mounted there, as well as at Sewall's Point. He states that eighteen members of Bartlett's late Naval Brigade are now serving the guns at Sewall's Point, having deserted. They claim to be English gunners, and seem to understand their business."

GOOD NEWS, and very important if true, is contained in an editorial of a paper in this State, 22d ult., which says:

The imminent danger which threatened the Republic is now passed.

Just at the time when this was printed, the rebel plot to begin civil war in Baltimore was discovered, and three regiments of U. S. Volunteers marched into the city.

☞ The latest accounts from the East Tennessee Convention show that a large portion of that body are for resisting the rebel Government. A majority are for the inauguration of a Provisional Government for East Tennessee.

A DAY AT ALEXANDRIA.

WASHINGTON, June 25, 1861.

Messrs. Editors:—This afternoon being a very pleasant one, I decided to take a trip into Old Virginia, and availed myself of the little steamer Thomas Colyer, finding a comfortable seat on top of the wheel house. The steam whistle sounded, the last passenger made a flying leap just as the boat left the wharf, and we were fast leaving behind us the District of Columbia. On the right was the U. S. Arsenal; it is surrounded with fine trees, and is quite an attractive spot. Batteries of heavy cannon could be seen here and there, in position to vomit forth a shower of shell on the opposite bank. Immense piles of shot and shell were scattered about—enough, it would seem, to supply the army for many years. On the opposite side of the river the white tents of the Federal troops were scattered over a large surface of ground, and still further on, on Arlington height, could be dimly seen a second camp. Our boat had on board a large number of officers and soldiers who had been on furlough to Washington, and were on the way back to camp.

We soon arrived in sight of Alexandria. The Pocahontas is lying near the city with guns run out, ready to bombard when the signal is given. A few sailing vessels are lying at the wharves, and a large number of brick warehouses extend along the slips.—From a tall flag staff I saw the stars and stripes floating in the breeze. Landing at the corner of King street, I leisurely walked up towards the Marshall House. This street is very dirty, and most of the stores are mean appearing. After a walk of ten minutes I came in front of the famous Marshall House. It is a dingy and dilapidated hotel of the lowest grade. A sentinel paced up and down before the steps, and a number of soldiers were seated in the office. Getting a permit from a corporal, who admonished me not to take anything away or cut anything, as most of the house had been carried away by visitors already, I passed into the dining room, (now used by our troops) and then ascended the front stairs.

On the landing were five guards, one of them a private in Ellsworth's regiment. Here they watched, night and day. Many a tear had here been shed, and many a vow had here been taken to avenge the death of Ellsworth. Although there were many soldiers in the house, they spoke in low tones, and a look of sadness could be seen on each face, when I enquired about the particulars. But the murderer and his victim have passed on to the spirit home, the name of one to be referred to only with contempt, while the other will forever be remembered by an American people as a martyr to the Union and his country.

Ascending the next flight, I found myself on the precise spot where the fearful tragedy occurred. There was the hole in the wall made by the ball which pierced Jackson, and one other, where the bayonet entered that poned Jackson to the floor. The flight of eight steps, on which the brave Ellsworth stood and died, have been cut nearly away, nothing now remaining but the stringers. The paper had been torn from the walls in many places, doors taken from the hinges, cornices detached from the mantles, the banisters torn down, by the thousands of visitors. The walls of every room have been used as a register by those who have been there. In a room on the second floor, piled indiscrimi nately, was the best furniture in the house, and here I saw the mattress on which Jackson died. It was stained with his blood. Having a desire to see the roof where Ellsworth had hauled down the rebel flag, I climbed up the broken staircase. A new flag-staff had been raised, from which floated the American flag. The house is guarded by the Massachusetts 5th Regiment, who are quartered here. A number of prisoners are in their charge. In conversing with the guard I found one of them almost a townsman. He came from Hampton, and very kindly made me a present of a piece of the original flag-staff which Jackson erected. Another soldier gave me a piece of the identical step on which Ellsworth stood when murdered. It being late I postponed my visit to the fortifications, and passed down to the wharf.

The trip back was delightful. The sun was just sinking behind the distant Virginia hills, and the shades of evening were coming on as we steamed across the Potomac. At the harbor's entrance there could be seen a fleet of eight or ten sail coming up under full canvas. On my right loomed up the partly finished Washington Monument. On the distant hills the sun's rays gleamed on the white tents of a camp, while before me stretched the long line of secession soil, which may before many days be the battle ground of the two contending armies, and the last resting place of many a brave soldier.

Yours J. H. H.

☞ St. Johnsbury, Vt., jail was set on fire on Thursday night last by the prisoners, who doubtless hoped to escape. Mr. Eldridge, the jailor, wouldn't let them out, but passed in water, and the prisoners were glad enough to put out the fire to avoid being smothered.

NEW HAMPSHIRE ITEMS.

The Governor and Council have made the following appointments of County Solicitors:—Joseph B. Clark for Hillsborough, in place of Aaron F. Stevens; Asa Fowler for Merrimack, in place of Mr. Everett. Charles H. Bell, of Exeter, has been reappointed for Rockingham.

A young lady, pretending to be raising funds in aid of the deaf and dumb, has been soliciting subscriptions in Manchester to the Atlantic Monthly and other works, representing that the publishers gave her a percentage of one-half, which went to aid in the good work. She is a swindler.

Benj. Burley, Esq., of Epping, was found dead in his well, near his residence, on Wednesday afternoon. He had been unwell, but had been able to attend to business in the forenoon of that day. He was a respectable and wealthy man, between 50 and 60 years of age.

Capt. J. G. Foster, of Nashua, one of the Fort Sumter garrison, has been promoted to the rank of Major.

The running expenses of the Reform School for the past year have been $5,741.29. Outstanding bills, $2,875.24. Less, amount due from towns, cities and other sources, $1,209.10. Leaving a balance of $1,666.14 unprovided for. This includes interest of $480 due the Portsmouth Savings Bank. Number of inmates during the year, boys, 67, girls, 15—total, 82; discharged, 7; escaped, 7. Sent to the State Prison, one boy and one girl. Remaining in the Institution April 30, 1861, boys, 53, girls, 8—total, 61. The value of produce raised on the farm is estimated at $2000. Deduct this from the running expenses, and we find that the net expenses of the Institution to the State and counties is $3,741.29.

WAR ITEMS.

By Saturday evening's Washington dispatches, we get the following items.

All was quiet as far down as Falls Church to-day.

A spy was arrested this morning with four revolvers and a pound of arsenic on his person, on his way to a spring of water used by the Second Rhode Island Regiment.

The rebel force at Fairfax seems to be lessening, but it is supposed more are in the vicinity.

It is intimated Gen. Patterson has been transferred.

The 1st N. H. Regiment guards the Ferry opposite Leesburg. A small force of the rebels are on the opposite side of the river.

The most intimate friends of Mr. Botts have not seen him. If in Washington he is invisible. The Tribune of Saturday morning says Bott's letter was an imposition upon them.

The cavalry that attempted to drive off our pickets at Alexandria, last night, were sixty strong, but fourteen of our men a tonished them so much they retreated hastily.

Yesterday the rebels attempted to cross the Potomac above Monocacy, but were repulsed.

The repulse of the rebels at Edward's Ferry is said to have been a serious affair for them, and it is reported 60 were killed by Lieut. Hosbrook's howitzer shells. It is thought the movement was part of the plan to get a portion of their army in the rear of Washington, when the rebels in Baltimore would act jointly by an insurrection, and advance of traitors from Fairfax be simultaneously made, but the prompt action of Gen. Banks turned the tables.

Prominent secessionists are leaving Baltimore. Gen. Banks has 7000 troops.

☞ Dispatches to the Extra Traveller, Saturday evening, state that a gentleman from New Orleans reports that a British ship ran the blockade with several hundred tons of powder, and 20,000 stand of arms.

The Coroner's Jury, at St. Louis, have rendered a verdict, th the shooting affair in 7th street, against the U. S. soldiers. They express the opinion that the wounds were inflicted without provocation by the citizens then present, and without orders to fire by officers.

A dispatch to the New Orleans Delta of the 25th ult., from Mississippi City, says a steamer anchored off this point, and captured five schooners, with which she sailed eastward.

The Mobile mail boats are discontinued, and the blockade at that point is strict.

Some paper intimates that the India, China and English merchantmen are rich prizes for privateers.

The New Orleans Picayune of the 25th ult. says that a federal ship-of-war with eight guns, is anchored in Atchafalaya Bay, thus interrupting communication via Berwick's Bay with Texas.

The Old Colony building at San Francisco, was burned on Sunday night, April 21st. In one of its rooms a sad young lady had been shut up by her obstinate parent to keep her from her lover. As the flames approached her prison, she appeared at the window and was furnished with a rope. Love, not fear, lent her courage and nimbleness. She made the rope's end fast to the bed-post and slipped down to the pavement. She did not even stop to faint, but taking her waiting lover's arm, the twain sped to a minister's; were lawfully, though hastily married, and then returning, they stood by to see the bride's late prison resolved into smoke and ashes. This denouement is a little too dramatic for the common business of life.

TRENTON, N. J., June 28.—Three regiments of the New Jersey three years volunteers, left to-day for Washington. They took a full equipage and 80,000 rounds of cartridges.

BALTIMORE NEWS.

By Baltimore dispatches of Friday night, it appears that two regiments of U. S. Volunteers arrived there in the afternoon and evening, and encamped; one in the Park. Four more regiments were to be there by Saturday morning.

Among the articles found at Kane's office was a 12-pound cannon ball, with the inscription, "From Fort Sumter to Marshal Kane."

Immense quantities of percussion caps, estimated at a million, have been found;—also 250 muskets and rifles, two 6-pound and two 4-pound guns, half a ton of assorted shot, 400 weight of balls, and 800 rifle ball cartridges were among the discoveries. They were secreted beneath piles of coal, and some under the flooring of a room lately occupied by the Marshal.

The U. S. Marshal, having information that justified the step, issued a writ on Adams, Denmead & Sons, where the officers found several field pieces and siege guns, originally designed, it is supposed, for operations against Fort McHenry.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic*, diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease*. Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy*.

Further Testimony.

ANDOVER, N. H., Oct. 16, 1859.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings without the slightest benefit.

The disease augmented to such a degree as to defy the skill of physicians and the hopes of friends. I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as had been destroyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and deluging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours very truly, GEO. W. CHASE.

Local.

☞ It will be seen by our editorial notice,—that we have this morning again resumed our usual price for the Daily Chronicle, $4 per year in advance. Of course all those who have already availed themselves of our recent offer, and paid their $3 in advance, will be furnished at that price—and all others will be charged the regular rate. We shall, as usual, wish to settle all business to July 1st,—as, indeed, everybody's books ought to be squared at least twice a year.

When we reduced the price, three months since, we said we should "resume our old rate whenever we deemed it for our interest to do so." That time has already arrived, especially in view of the circumstances affecting newspapers, connected with the present state of the country.

We shall continue to print a half sheet Daily (which will contain nearly all the matter of the regular issue) for those who want a penny paper—but the price of the fully sheet Daily will be 2 cents.

☞ The fun-loving will bear in mind the concert to be given at the Temple this (Monday) evening, by Morris Brothers, Pell & Trowbridge's Minstrels. There is nothing like a good laugh for the diseased mind or body; and the well-known talent of this inimitable company insures to their audience more than a sufficient quantity of such pleasant medicine. They appeared in Portland on Thursday evening last, and the papers there state that "the concert was one of the most successful ever given in that city. It was decidedly the best audience that had been collected in the city for a long time—far exceeding in numbers the expectation of even the most sanguine friends of the Minstrels; and they testified their delight at the peformance by repeated applause."

"Circumstances Alter Cases."—Because the Chronicle goes in for clearing our streets of Dogs, some of our readers infer that we hate the canines; but there is no more reason for that inference, than for styling a man a woman-hater because he objects to night-walkers.

Dogs in the street are a dirty, noisy, troublesome, dangerous, useless nuisance—and we suppose a stickler for neatness would also taboo horses, cows, swine, cats, and all quadrupeds, from the compact part of any city.

☞ For some weeks past, we have issued an Extra Chronicle on Sunday afternoons, at no small expense and trouble to ourselves. As our citizens have not so far appreciated our efforts as to pay the expense, we shall discontinue the publication hereafter, except on receipt of unusually important news.

☞ Messrs. Chosley & Call estimate their loss by the fire on Friday evening, at $5000, on which there was an insurance of $3200 in the N. Y. Home Ins. Co. Te origin of the fire is unknown, but it is said a boy had been firing a cannon near the premises, during the afternoon.

☞ The U. S. frigate Sabine sailed from Pensacola, June 13th, for this Navy Yard, where she will repair. Her officers hoped to arrive at this port in season to celebrate the Fourth of July in New England.

☞ The Waashington correspondent of the Boston Herald, under date of June 25th, says:—

The New Hampshire 2d are comfortably in camp. As one of the wagons was proceeding to the camp last evening, it was fired upon from a party in ambush, and a couple of bullets whistled about the head of a member of the band, George H. True, who was walking leisurely behind. He climbed up into the cart, and it is said the speed of that vehicle was slightly increased until the camp was reached. At a later hour of the night the camp was aroused by the report of a musket, and the Regiment was instantly in line, Major Stevens being in command. It appeared that a sentinel had fired upon a spy who had been sneaking around the camp, but had failed to bring him down. In a few moments all was quiet again.

Private McCarty, of the Abbot Guard, was yesterday seriously wounded in the arm by the accidental discharge of his musket which he was removing from the stock. The 1st N.H. Regiment has never been into Virginia except in the newspapers. It is encamped in Maryland, on the banks of Potomac, 36 miles from Washington. Just across the river are rebel pickets, who constantly exchange salutations and bandy epithets with the sentinels of the N. H. Regiment. Indeed some of the rival sentinels have gone so far as to meet in the centre of the ford, shake hands and discuss the war.

The other evening H. M. Prescott, of company I, took it into his head that he needed a boat. He accordingly swam across the river, selected a satisfactory naval specimen and pushed off; discovering no movement of the enemy, he became emboldened and climbing in at the stern commenced paddling away. Presently a bullet passed under his left arm, struck the boat, rebounded, rolled along the bottom, and was afterwards secured. He leaped again into the water, and the boat was safely landed.

☞ Mr. Wm. Cornish, an aged resident of Hampden, Vt., rose Wednesday morning in good health, dressed himself, and immediately fell lifeless.

N. H. LEGISLATURE.

Friday, June 28.

In the House, a message was received from the Governor, containing a detailed account of the bills allowed on account of the war expenses, as follows:

The whole number of recruiting officers employed was 35, who have been paid at the rate of $2.00 per day in full for their services while actually employed in the service of the State.

The contracts for the clothing and equipments of the men were made by Adjt. Gen. Abbott and Hon. Thomas L. Tullock, by the order of the Governor. The prices were as follows:

Uniforms.

Coat and pants,	$7 00
Overcoat,	7.87
Cap,	1.10
Shoes,	1.25
Blouse,	3.00
2 pair socks	.62
2 shirts,	1.32
1 pair drawers,	.46
Blanket,	1.87
Knapsack,	2.25
Haversack,	.75
Canteen,	.75
Gun sling,	.50
Cartridge box and belt, scabbard and belt and cap box.	5 50
Making the total cost of uniforming and equipping each private,	$34 84

The horse equipages for the field and staff officers were made by Norman Fuller of Nashua, for which he charged $80 per set, but was allowed by the auditing committee of the Council $45 per set.

The contract for provisioning the men at Camp Union was made by Adjt. Gen. Abbott with J. G. Wyatt of this city, and at Camp Constitution and Fort Constitution, by Geo. Goodwin with William S. Hadley of Portsmouth. I have no data from which to arrive at the precise cost of provisioning the men quartered at Camp Union per day. The cost per day for each man at Camp Constitution and Fort Constitution was 281 -3 cents, which rate was not exceeded at Camp Union.

Of the amount paid soldiers, Brig. Gen. George Stark, as per his account rendered since my message of the 24th inst. to the House of Representatives:

Paid 2d Regiment at starting for Washington,	1961 58
Paid Volunteers discharged at Ft. Constitution,	1554.15
Paid Volunteers disch'gd at Camp Constitution,	2479 86
P'd Volunteers re-enlisted at Camp Constitution,	5161.58
Making a total of	$11,157.17

A considerable portion of the expenses of putting the 1st and 2d Regiments into the field was incurred by provisioning and paying men enlisted for three months, but who did not enlist under the later call for troops for three years, and were consequently discharged. We have also about two hundred men now garrisoning Fort Constitution, at the request of Gen. Wool, the expense of whose enlistment and support was included in my statement of expense of raising, equipping, and supporting the 1st and 2d Regiments.

Of the $50,000 appropriation, $3,741.87 was paid for transporting the Second Regiment from Boston to New York, from which place the U. S. Government paid transportation.

The bill appropriating $1,000,000 for war purposes passed the House in the evening by an overwhelming majority.

☞ Mr. George Marston, of this state, the present doorkeeper of the U. S. House of Representatives, is now at the residence of his wife's father, in Sandown, in devoted attendance at the bedside of his suffering wife, who is afflicted with cancer.

Mr. Marston justly is entitled to a re-election, and his many friends in this state, as well as all persons possessing the ordinary feelings of humanity, would view with contempt any one who sought to take advantage of his absence on such a mission, for the purpose of supplanting him.

When George the Second got into a heat with his minister, and insisted on being shown the documents relating to a certain subject, the next morning, the minister obeyed—and when the king rose, he saw three large wagons full of papers, neatly tied up with red tapes, packed beneath the window.

☞ Col. Kelly, who was wounded at the battle of Phillippa, Va., has been promoted to the rank of Brigadier General.

The entrance to a woman's heart is through her eye or ear; but a philosopher has said that the way to a man's heart is down his throat. Good house-wives understand this, and use Herrick Allen's Gold Medal Saleratus. If there are any so unfortunate as not to have tried it, go immediately to your grocer and get a paper, and our word for it, it will make a heart as hard as adamant soften and be joyful; and ever after you will praise Herrick Allen's Gold Medal Saleratus. Everybody sells it. Depot 112 Liberty street, New York. Try it.

To Owners and Keepers of Dogs.

City Marshal's Office,
Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 30, which is as follows:

Be it Ordained, &c. Sec. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

Sec. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

Sec. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.
June17 OREN BRAGDON, City Marshal.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

REFRIGERATORS.

One of the most economical and indispensable articles in hot weather, is a good Refrigerator, (a poor one is not worth buying at any price.) The attention of the public is invited to

WINSHIP'S PATENT UPRIGHT

Self-Ventilating Refrigerator,

Thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has given a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other. Milk, delicate fruits and meats can in this be preserved much longer than in any other Refrigerator.

Bartlett's Polar Refrigerator,

With two food chambers and a water tank; a very convenient article.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: **Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.**

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co.: Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it breaks out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head, and covered my scalp and ears with one sore, which was painful and loathsome to look at. Description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was recommended to you in the Gospel Messenger that you had prepared an alterative Sarsaparilla, for it knew from your description that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Erysipelas* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla completely cured me from a *Goitre*—a hideous swelling on the neck, which I had endured from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Weakness.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many leucorrhœa cases of Leucorrhœa by it, and none where the complaint was caused by ulceration of the uterus. The above skin itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Ulcers in the Throat and Lungs.

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ulcerous tumor on one of the females in my family, which had defied all the remedies we could employ, healed at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but amputation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 28th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have used with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the disease had eaten away a considerable part of it, so that I believed the discoloration of his nose would his brain and kill him. But it yielded to my administration of your Sarsaparilla, the ulcers healed, and he is well again, but of course without some deformity in his face. A woman who had been treated for the same disorder by mercury, and suffered excessive torture, whether from it or a damp day she suffered excruciating pain in her joints and bones, was also cured entirely by your Sarsaparilla in a few weeks. I know from the females in whom I took agent gave me, that this Preparation from your laboratory must be a good remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, C. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic Rheumatism for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me for a time, and I recovered my general health so much that I can far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Tumors, Tumor on the Spine.

John V. Gebhell, of St. Louis, writes: "I have been afflicted for years with an affection of the spine which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some time, the general attention of West-makers, Dress-makers, and all those who want Machines for light manufacturing purposes.

REAL ESTATE IN NEW CASTLE FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to be a safe and energetic landlord who can keep a hotel, a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT, MARKET SQUARE.

BININGER'S
OLD KENTUCKY
BOURBON
"1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1848, and manufactured expressly for use as a medicine, it can be relied upon as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaint, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recruit, invigorate*, while age has long contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a highly flavored palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Fearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from suffering of several years' standing.—W. E. HODGKINS, No. 1 Old State House Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.
They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.
Dr. JAMES L. LEFFERE writes from Navarre, Stark Co., O.: "The Bitters are prized by those suffering from indigestion, dyspepsia and liver complaint."
E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."
Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.
THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."
GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."
J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as of decided benefit in cases of fever and ague, dyspepsia and general debility.
D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of Quinine, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various tonic and aromatic s, and cannot fail to meet the wants of the debilitated.
It is a mild tonic to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases, and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "Just it is the best preparation of Bitters that has ever been offered to the public."
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

NEW HAMPSHIRE ITEMS.

The Hillsborough County Agricultural and Mechanical Society will hold their annual fair upon the society's grounds in Milford on the 25th and 27th of September.—This will be the third annual fair of the society on its permanent location and beautiful grounds, upon which the Society has expended, in preparing the grounds, building track, enclosing it with a substantial fence, erecting show building and seats, etc., about $1600.

The committee on the examination of the prize dissertations, at the Harvard Law School, have assigned the prizes for the present year. These are four in number, and of these four, they awarded, for dissertations "Of Covenants for Title, running with the land," to Thomas Albert Henderson of Dover, a first prize of fifty dollars; to John Woodbridge Odlin, of Concord, a second prize of forty dollars. The other first prize—of sixty dollars—was assigned to James W. Stephenson, who was a student of Phillips Exeter Academy, and resided in this State for some time.

The torch-boy of the Fire King steamer had both legs badly scalded in Manchester, Friday night, while the person acting as engineer was "letting off steam." He was at his work next day as usual, but thinks the steamer is "great on blisters."

A little child of Mr. Joseph Moore of Bedford fell into a tub of scalding hot water one day last week, and survived but a short time after the accident.

EXPRESS AND LETTERS.—The Adams Express Company were notified by the War Department, late in May last, that it was intended to stop letter communication with the seceded States, and orders were immediately given at all their offices to cease receiving letters. It was soon apparent that the only result of the movement was to start up letter expresses of a character not easily reached by the authorities, and it was considered preferable to permit private and business letters to be forwarded through a responsible channel, which would be supervised by the government.

☞ Col. Wallace, of the 3d Indiana Regiment, U. S. Volunteers, reports a skirmish of a scouting party of his men with a body of the rebels near Romney. The Colonel remarks that "the account of the affair sounds like fiction, but it is not exaggerated. The fight was really one of the most desperate on record, and abounded with instances of wonderful daring and coolness." Col. W. lost one man killed, and one wounded. "The enemy were engaged all night long in boxing up their dead. Two officers were killed. They laid over 23 in the porch of a neighboring farm house." The rebels were much more numerous than the volunteers.

A CHANGE OF COMPLEXION.—A servant girl, in Boston, was made the victim of a cruel trick on Wednesday last by a female companion, who gave her a preparation which she said would remove freckles from the face. The girl was going to a party, and being naturally anxious to appear as fascinating as possible, applied the preparation; to her horror, in a short time her face turned black, and no amount of washing and scouring would restore it to its original color. The preparation was found to be nitrate of silver.

☞ A barn and two houses were burnt in Newburyport, on Friday afternoon. The houses were on Boardman street, and were occupied by Messrs. O'Brien and Brookings. The fire originated, it is supposed, from fire crackers in the hands of boys who were playing around the barn. Mr. Brookings and family were absent from the city, and did not learn of the calamity until they had nearly reached the ruins in the evening.

IMMENSE WHEAT MOVEMENT.—The Rochester Union says, "the unprecedented amount of 1,250,000 bushels of wheat passed the weigh-lock in that city last week. This is nearly three times the quantity which passed down the canal the previous week, and considerable more than was reported for the first nine days of May, when every craft was loaded that could swim."

☞ Mr. A. P. Brigham, of Exeter, is leader of the band of the 11th Mass. Regiment. The Regiment left Boston for the seat of war on Saturday; but the band, which has been recruited by Mr. P. S. Gilmore, remains in Boston a few days longer.

MONDAY'S WAR NEWS.

A boy, 17 years of age, named E. S. Ruggles, son of Col. Ruggles, late of the U. S. Army, and now commanding a body of the rebels at Fredricksburg, Va., has been arrested at New York as an emissary of Jeff Davis.

The Tribune's Washington dispatch says: The whole number of rebel troops in Virginia, by a rebel estimate, is 80,000, of which, 55,000 are armed, but not over 20,000 can be concentrated at a given point. The largest number at one point—Manassas Junction—is 18,000. There are 9000 men at Yorktown. The number at Richmond don't exceed 6000. Norfolk is regarded as impregnable.

It is their purpose to harass and pick off our men in guerilla warfare. Gen. Beauregard's force is encamped from Springfield to Fairfax Court House, mostly in a dense forest between the river and Little River Turnpike. Into this labyrinth they no doubt wish to draw the federal troops. The premises of the farmers in the vicinity have been ransacked, and all the grain taken without an equivalent.

The 25th Pennsylvania Regiment have been sent to reinforce Col. Stone, with the New York 9th, a few miles this side of Point of Rocks.

The Herald's Washington dispatch says: At the Navy Yard the ordnance department is working all night, principally on brass rifled guns and boring heavy iron cannon cast at West Point. All the United States ships that sail have rifled guns, and in a few weeks the heaviest calibre of rifled guns will be afloat. The Navy Department has borrowed of the War Department the 15-inch Rodman gun at Fortress Monroe, and are preparing a vessel to receive it for operation near that fortress and especially upon Sewall's Point.

Information has been received from Texas to the effect that the western frontier of that State was preparing to follow the example of Western Virginia and East Tennessee, by organizing a formidable movement against secession, and adhering to the Union, in the shape of a new State. General Carpan has been nominated as an unconditional Union candidate for Congress. He has for some time been at the head of a body of Union men. It is said that, with about 200 mounted Union men, he recently routed more than twice that number of rebels. A fort is being erected on an island in the neighborhood of Brownsville, and will mount 370 guns of the heaviest calibre. The garrison is under the command of Major Arnold.

The name of the member of the South Carolina regiment captured is Benajah B. Brooks. He served in an artillery company at the bombardment of Fort Sumter. He states that the rebels stationed at Vienna, Fairfax Court House, Germantown, Centreville, and other points between the Union lines and Manassas Junction, numbered 6000: all the roads leading in the direction of Washington are obstructed by cuts, barricades of trees, etc.

The rebels were in hourly expectation of an attack by the Union troops, and slept on their arms for ten days. The time for which Colonel Greggs' regiment enlisted expired to-day. The prisoner states that owing to bad treatment not half a dozen members would remain. A meeting was held a few days ago, when an almost unanimous disposition to return home became manifest among the officers of the regiment. The food of the rebels consists mainly of hard bread and bacon and fresh meat dealt out about once a week. The troops received about two month's pay in Virginia scrip, which has a sort of forced circulation. Gen. Beauregard was at Manassas Junction night before last. The fact that his best troops occupy advance posts indicates a determination to dispute every inch of ground. About 400 members of the 8th South Carolina Regiment are down with the measles at Manassas Junction.

GEN. BUTLER. — COL. ALLEN.—*New York, June 29.*—The World has a special dispatch from Fortress Monroe stating that Col. Allen, of the N. Y. 1st regiment, was arrested to-day by order of Gen. Butler.

On Friday intelligence came that a field of wheat, belonging to Major Thompson of the rebel army, was being gathered to be sent to Yorktown for aid to the rebels, and some had the assurance to ask Col. Allen for horses, which had been confiscated, to convey the wheat to the enemy, which was refused, and a squad of men sent to prevent the wheat from being taken; soon after the wheat field was in flames, and 20 acres were destroyed. Maj. Gen. Butler thereupon ordered Col. Allen to report at headquarters under arrest, and placed the regiment under command of Lieutenant Col. Dykeman.

The dispatch further volunteers the remark that this and other movements of Gen. Butler cause his loyalty to be suspected, and says it is rumored that regular officers are preparing a petition for his removal, and that the New York regiments are clamorous to have a Major General from their own State; and also that all the officers, both regular and volunteer, will decline to act in battle under Gen. Butler.

The Tribune remarks on the above dispatch that it has no doubt that Col. Allen deserves to be arrested. He left the Police Department of New York last Fall on account of drunkenness. It considers the imputation on Gen. Butler's loyalty absurd, as do the majority of the public in this city.

☞ The Secretary of the Treasury is engaged in preparing his report for the next Congress. Various plans are proposed therein for the raising of money to carry on the war. The amount to be asked for will not exceed two hundred and fifty millions of dollars, and it is believed that sum can be reduced twenty-five millions.

DEATH OF CAPT. INGRAHAM.—Accounts from Charleston report the death, on the 10th inst., of Captain Duncan N. Ingraham, formerly of the United States Navy. He figured some years ago, in the famous case of Martin Kozsta. He deserted his flag, recently, in its danger, though he declared he would never fight against it.

REBEL ARRESTED.—P. McQuillan of Charleston, S. C., it is reported to the proper authorities, has been in New York making arrangements for sending both men and military equipments to the South. He has been to, or was about to depart for, Europe, as an agent for the Confederate States to procure warlike supplies.

Friday morning he called at the State Department with the passport of a British Consul for the purpose of obtaining thereto the signature of the Secretary of State in accordance with the new reglation of that department. He was requested to make an affidavit of his loyalty to the Government and the lawfulness of his errand, which he did, and was to call again at 2 o'clock, when, on making his appearance he was arrested, at the instance of the Secretary of State, by Capt. Starr and two orderlies. He is in prison awaiting further orders of the Government.

ARREST OF KANE.—The arrest of Geo. P. Kane, Marshal of Police at Baltimore, gives great satisfaction to everybody but rebels. He has probably done more to promote rebellion in Baltimore than any other person—and it is alleged that he had in his pocket a commission as a Brigadier General in the rebel army. Under his protection, it is said communication has been kept up with the rebels in Virginia; and there was an understanding that an attack on Washington should be followed by a proclamation announcing the defeat of the Union forces, and the capture of the capital, President and all—simultaneously tearing up railroads and cutting telegraph wires, to produce such a panic as to cause a general uprising of the people against the government. Arms in large numbers were secreted in Baltimore, to be used in such an event. A plan to destroy the railroad between Washington and Baltimore was ascertained several nights since, and frustrated by Gen. Banks.

DOGS AND SHEEP.—The Newburyport Herald gives the following dog item:

A short time ago a census showed that Essex county had 390 sheep and 3500 dogs, which was a very poor account for old Essex—more dogs 6 to 1 than sheep. There is perhaps no one thing so much needed for the renovation of our pasture, overgrown with briars and low bushes—for the redeeming of our worthless waste lands and changing them to green fields—as the use of sheep; but it is next to impossible to protect them here against the dogs that will sometimes go miles and miles in quest of such prey.

☞ A member of the 5th Maine Regiment communicates to the Portland Advertiser an account of their reception in Boston, says—

"After dinner, the 5th regiment went through a parade, which was pronounced equal if not ahead of the crack New Hampshire Second."

THE NEW POSTAGE STAMP.—The Post Office Department is in receipt of specimen numbers of the new design for postage stamps. They are printed in two colors, and are decided improvements on the old plan. They will be ready for delivery in August.

☞ The latest accounts from the East Tennessee Convention show that a large portion of that body are for resisting the rebel government. A majority are for the inauguration of a provisional Government for East Tennessee. The Governor of Tennessee has *proclaimed* the State seceded.

☞ At a regatta, which came off at Cardiff, Wales, on June 2d, the first prize £4, was won by an American boat, pulled by an American crew and commanded by a Portland boy. They came up to the Judge's stand with the old stars and stripes flying at the stern, amid the cheers of the crowds of admiring spectators.

MATHIAS POINT.—This place is about sixty miles from Washington; it is a bluff point from twenty-five to thirty feet high. It is important to us to hold, as the channel of the Potomac runs close to the point at that place. A battery erected there by the rebels would interfere much with the navigation of the river.—*Atlas.*

☞ A Florence, Ala., paper is very angry because the Lauderdale, Ala., Rifles were attacked by an armed body of Union men in East Tennessee, while the former were on their way to Virginia, and severely discomfited.

☞ The Washington Star says the lately arrived troops have brought too much baggage—wagons are too numerous, and in case of active service the vehicles will have to be abandoned or burned, as they cannot be taken care of.

☞ In a recent engagement at the Cape of Good Hope, between the English troops and some of the native insurgents, 80,000 shots were expended in killing 26 men.

☞ We imported last year twelve hundred thousand bags of coffee from Brazil, amounting in value to over sixteen millions of dollars.

☞ The three mile trot between Flora Temple and John Morgan, on the Centreville Course, L. I., last Tuesday, was won by Flora in two straights. Time 7:47, 7:48.

MONDAY EVENING'S NEWS.

A dispatch to the Tribune says army officers declare it impossible to make a forward movement until more wagons arrive. By July 15th, builders have contracted to furnish 1000.

A letter in the World from steamer Wyandotte, off Fort Pickens, announces the capture of the privateer Wm. H. Webb, when in the act of capturing brig East of New York; also the capture of the English bark Etna, with a cargo of rifled cannon for the rebels at Pensacola. [This is doubtless not strictly correct.]

A dispatch to the Herald credits the rumor of the resignation of Gen. Lee.

From Baltimore, July 1, we have the following important items:

Detachments of infantry and artillery have been sent to various sections of the city. All the members of the Board of Police Commissioners, except the Mayor, have been arrested and sent to Fort McHenry. It is said a plot was discovered of an intended outbreak.

Gen. Banks has issued a proclamation, in which he says: "Whenever a loyal citizen can be named who will execute the police laws with impartiality and in good faith to the United States, the military will be withdrawn from the central parts of the municipality at once."

[Martial law would be better for the present.]

A whole block of buildings in Donaldsonville, La., was burned on Friday last. Loss $200,000; insured $11,000.

Nine men, with some powder and arms, were captured at Hannibal, Mo., Friday night. The men intended to destroy a railroad bridge in that vicinity.

Union movements, civil and military, are making progress in Tennessee, Kentucky, Missouri and Kansas.

In Tennessee, Senator Johnson will raise a large corps of mounted riflemen, while Col. Anderson will raise 10,000 troops in Kentucky. Government will furnish arms and equipments, take possession of East Tennessee, and prevent supplies of troops and provisions from being sent to Virginia.

A skirmish, on Friday, in Western Virginia, routed some rebel cavalry, with loss.

In Missouri, the U. S. forces are homing in Gov. Jackson and his rebels, hoping to capture them. A late skirmish was bloody on both sides.

Judge Liery, 72 years old, a strong Union man and a slaveholder, was tied to a tree by some of Jackson's men, and his body literally riddled with bullets.

OUR COMPROMISE.—One compromise we would render to the South as a condition precedent of peace; the only compromise; and that is unconditional submission to the constitution of our fathers, and unconditional obedience to the law and loyalty to the Union. Then we would have peace on a true basis, and upon that basis would we recognize and protect their every right, and love and respect them as brothers.—*Bath Times.*

FAITHLESS.—The N. Y. Journal of Commerce cannot hear of *any person* who has been impressed into the military forces of the South, nor of any one who has ever suffered any injury in body or estate in that happy land. Besides this, all of the troops are well officered, well drilled and equipped. Wm. H. Russell; L. L. D., and Gen. Wise must be great liars.—*Atlas.*

☞ In Portland, Maine, since the first of January last, 35 persons have died, who were over 70 years of age, of whom 16 were between 70 and 80, 14 between 80 and 90, and 5 over 90.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic,* diseases of the *Throat, Chest and Lungs,* as well as that most dreaded of all diseases, *Consumption,* which high medical authority has pronounced to be a *curable disease.* Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy.*

Further Testimony.

ANDOVER, N. H., Oct. 15, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr. Wistar's Balsam of Wild Cherry,* and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the pure strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. But *the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and deaging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions,* whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 daw3m

The House has passed a bill, which if it becomes a law, the Statesman says, will make an essential change in educational matters. It abolishes the Board of Education and the Teachers' Institutes, and provides for a State Superintendent of Public Instruction, and two Assistant Superintendents. The Superintendent is to devote all his time to the office, and receive a compensation of $1200 a year, with $200 for traveling expenses. The Assistant Superintendents are to devote four months a year, and receive $300 each, and the further sum of $100 each for traveling expenses. Conventions of Teachers seem to be contemplated in the bill; but there is no provision made for their support. The Superintendent and his Assistants are to lecture in the towns, as the School Commissioners now do. The present bill is a direct blow at the School Book System—under which the people of New Hampshire have been annoyed past all further forbearance.

☞ The New Hampshire Free Will Baptist yearly meeting was holden at Strafford Centre on the 7th ult., and the following resolutions were passed:

Resolved. That we recognize the interposition of Divine Providence in the agitations that now convulse our world, and especially our own beloved country, which to our own vision seems plainly to foreshadow the annihilation of popery and the extinction of slavery, and to mark a new era in the progress of truth and righteousness towards their final triumph in the establishment of the universal reign of the Messiah.

Resolved, That we recommend to all Christians and all churches to observe the next 4th of July as a day of special prayer to Almighty God, that this war of secession may have a speedy termination, and be sanctified to the overthrow of slavery.

Resolved, That we will "watch unto prayer," lest the all-absorbing question of secession shall detract from our personal piety, Christian effort and special interest in missions, temperance, education and Sabbath schools.

It is stated that the U. S. Grand Jury of the New York District Court have found an indictment against the privateersmen of the Savannah, for piracy, which is punishable with death. Their trial will probably take place in a few days, and there cannot be a doubt of their conviction. The Court must sentence them to be hung, so that if their lives are spared, it must be by the act of the President, in granting them a commutation of sentence.—*Boston Post.*

It is quite probable that the President might commute the sentence of the sailors,—but the three or four principal officers would probably be hung if convicted—because the old law against piracy is of no use unless executed.

TALES OF THE DAY.—Messrs. Carter & Brothers, of Boston, have commenced a publication with the above title, to be issued in monthly numbers. The design is to furnish in a convenient form those popular tales which, appearing originally in the English periodicals, are deemed worthy of being reprinted in this country. Two numbers have been issued, and contain a large amount of matter interesting to the general reader; they are printed in beautiful style, and promise well for the future. Price, $3.50 per year, in advance.

☞ It is said the verdict of the jury in the celebrated Burch divorce case is set aside by the Court, and a new trial granted.

LETTER FROM WASHINGTON

WASHINGTON, June 27, 1861.

Messrs. Editors:—Yesterday I visited the N. H. 2d again. I found quite a number sick with the dysentery and other complaints. But all seemed to be in excellent spirits and enjoying themselves hugely. I took a seat in Capt. Sides' tent, where I found many friends. I learned that the night previous they had fired three times on spies. They were very anxious to receive their revolvers, as every one about here carries them.

In one of my letters I wrote you that the camp were called out three times in one night by alarms. I was informed that Capt. Sides was officer of the night at that time, and he it was who brought the regiment together. One of the men said he was on hand in double quick time, sword in hand.

As each company does its own cooking, before each tent large fires were burning. Camp stores and pans were scattered about, and the savory smell of fried meat and hot coffee was quite refreshing. Lieut. Col. Fiske looked into the tent while I was there and called for volunteers to assist a New York Regiment in putting up their tents. They had just arrived on the ground.

Seeing an advertisement of a new theatre to be opened last evening, I concluded to attend. The audience was composed mostly of military men. The performance was hardly passable, there being a lack of talent to sustain Miss Alice Place Mann, the star of the evening. While she was delivering an address to the American flag, some one hissed, which occasioned a general uprising of the audience, and a cry of "shoot him," "kill him," was heard from a number of voices.

Mr. Godfrey, Quartermaster of the N. H. 2d Regiment, not feeling willing to hold his office without an assistant, Mr. Edward Goodrich, formerly of the N. Y. 7th Regt., and of Portsmouth, has been recommended by the officers of the Regiment to Gov. Berry, and will probably receive the appointment of Assistant Quartermaster.

Yours, J. H. H.

BALTIMORE, June 30.—The city is remarkably quiet. There is no change in police affairs.

An organization called the Union Relief Committee has been inaugurated here for the purpose of extending aid and hospitalities to the troops en route for the seat of war, and relieving the wants of families of volunteers who have enlisted in the federal army in this city.

A Home Guard is about to be organized in this city, of 150 men in each ward, to be fully armed and equipped in the best manner.

The State Treasurer of Georgia gives notice that the interest on coupons and bonds of that State payable in New York must be redeemed in Savannah.

An advertisement announces the re-opening of the rebel loan at several places in Georgia, and says that only eleven millions of the fifteen is subscribed.

JEFFERSON CITY, June 29.—Messrs. Morrison, State Treasurer, Moseley, State Auditor, and Houston, Register of Lands, took the oath of allegiance to-day, and will enter upon the discharge of their duties. Attorney General Nott has declined to take the oath, and in consequence is held a prisoner at the capital.

BOONVILLE, June 29.—A company of about 50 home guards arrived here early this morning, from Lafayette county, for the purpose of procuring arms from Gen. Lyon for 600 home guards, who are organizing in that county.

☞ Geo. D. Prentice, editor of the Louisville Journal, has a son who is a captain in the secession army. One of the most bitter fruits of civil war is to divide the household, and array a son against a father.

The entrance to a woman's heart is through her eye or ear; but a philosopher has said that the way to a man's heart is down his throat. Good house-wives understand this, and use Herrick Allen's Gold Medal Saleratus. If there are any so unfortunate as not to have tried it, go immediately to your grocer and get a paper, and our word for it, it will make a heart as hard as adamant soften and be joyful; and ever after you will praise Herrick Allen's Gold Medal Saleratus. Everybody sells it. Depot 112 Liberty street, New York. Try it.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE,
Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 38, which is as follows:

Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

REFRIGERATORS.

One of the most economical and indispensable articles in hot weather, is a good Refrigerator, (a poor one is not worth buying at any price.) The attention of the public is invited to

WINSHIP'S PATENT UPRIGHT

Self-Ventilating Refrigerator,

Thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has given a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other.—Milk, delicate fruits and meats can be kept preserved much longer than in any other Refrigerator.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:

Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.

OAKLAND, Ind., 6th June, 1853.

J. C. AYER & CO. Gentlemen: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms, sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any things. In fact, the disorder grew worse. At length I was advised to send to the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent for one bottle and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. Now and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Vetter and Salt Rheum, Scald Head, Ringworm, Scurvy, Itch, Mange.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1850, that he has cured an inveterate case of *Erysipelas* which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and adds a decisive testimonial *Erysipelas* by large doses of the same; says he cures the common *Erysipelas* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a Goitre—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhea by it, and some where the womb plaint was caused by ulceration of the uterus. The whites ation itself was soon cured. Nothing within my knowledge equals it for these female demoralizers."

Edward S. Marvin, of Newbury, Ala., writes, "A disgusting cancer tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract Sarsaparilla. Our physician thought nothing but extirpation would afford relief, but he advised the trial of your Sarsaparilla as the last resort before resorting to the proved effectual. After taking your remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 27th August, 1853.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful. In some of the worst forms of Mercurial Disease. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, alone, soon cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it before I saw him. The disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, and a healthy color has succeeded the disfiguration in his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. The pains were so excessive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I have been its friends, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint, Dropsy.

DROPSEY, Hancock Co., Ill., 6th July, 1853.

Dr. J. C. AYER: Sir, I feel bound to inform you of the wonderful effects of your Sarsaparilla in curing me of a long chronic Rheumatism for a long time which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find. Your Sarsaparilla has done for me what no other medicine could do, and I have recommended it to many others in my neighborhood, who have tried your Sarsaparilla, because he said it was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The loss of time so well as of pay is not half good enough."

Dropsy, Costiveness, Tumors, Enlargements, Inflammation, Cramps and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy. Some of these we will not admit them. Some of these may be found in our Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into healthy action, and thus cures disorders which would be supposed beyond its reach. Such a remedy has long been required by the medical profession of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and the Relief of Consumptive Patients in advanced Stages of the Disease.

This has long been so universally known to surpass any other medicine of the kind for the cure of lungs and throat complaints, that it is now to publish the evidence of its virtues. In authenticated testimonials for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it familiar to almost the civilized nations of the earth. Few are the communities, or families, among them who have not some personal experience of its effects—some trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the deadly fatality of these disorders, and as every know too the efficacy of this remedy, we need not dwell upon its usefulness to mankind.

REAL ESTATE IN NEW CASTLE FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "who can keep a table," a handsome remuneration for a very small outlay.

BININGER'S

OLD KENTUCKY

BOURBON

"1849 RESERVE"

The established popularity of this CHOICE OLD Bourbon as a medicine, agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky whiskeys.

Being distilled in 1848, and manufactured expressly for us with great care, it can be relied upon as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recruit* and *strengthen*; while age has long contributed Regenial charm, and enriched it with a delicious flavor so grateful to the body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in fron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

☞ A correspondent of the New Orleans Delta says the popular song "I wish I was in Dixie," is n't the peculiar property of the South, by any means. It was popular in New York city seventy years ago, and originated from the following circumstances: When slavery was common in New York State, one "Dixy" owned a large tract of land on Manhattan Island, and a large number of slaves. The slaves being removed subsequently to more secure slave sections, the negroes, who were thus sent off, naturally looked back to their old homes, where they had lived in clover, with feelings of regret, as they could not imagine any place like Dixy's. Hence it became synonymous with an ideal locality, combining ease, comfort, and material happiness of every description.

WAS IT A WARNING? LAST WORDS OF MARION.—A life of Marion, by Major S. Horry, published in 1848, gives the author's account of the General's last words. Were they a warning, or a prophesy?

Ambitious demagogues will rise, and the people, through ignorance and love of change, will follow them. Vast armies will be formed and bloody battles fought. And after desolating their country with all the horrors of civil war, the guilty survivors will have to bend their necks to the iron yokes of some stern usurper, and, like beasts of burden, to drag, unpitied, those galling chains which they have riveted upon themselves forever.

Children are a good deal of trouble, no doubt, (your mother made the remark years ago) but no married gentleman's house is complete without them. The tidiest and prettiest fireside in the world is a cold affair in spite of wood and coal, if there are no "olive branches" about. We have seen such, and found them

——"Cheerless as a cold pew
In a church, without a lass in view."

☞ Queen Victoria's insanity is no longer doubted. The Prince and Princess Royal, of Prussia, with the little Prince William, are going to visit London about the middle of July, the object being to procure a salutary emotion for Her Majesty of England.

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.
They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.
Dr. JAMES L. LEPEERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."
E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."
Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.
THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles I was completely restored, and am now in robust health."
GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."
J. W. HUNT writes from Delphos, Allen Co., O., (a country where fever and ague prevails,) that he cheerfully recommends them as of decided merit in all cases of fever and ague, dyspepsia and general debility.
D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

WEDNESDAY, JULY 3, 1861.

CAROLINA OPINIONS.--The Charleston Mercury says:—

In the alternative of being compelled to choose between the *irresponsible* and *vulgar* tyranny of an unchecked *majority*, (such as that at the North,) and a constitutional monarchy, (such as that of England,) the people of South Carolina would prefer the latter. * * * We believe firmly in republican institutions, and very much prefer that form of government for ourselves as a slaveholding people. Here the *menial* classes, blacks, have no voice in the Government. It is in the hands of the superior white race, who, with us, have opportunities for virtue and intelligence, which do not exist where the *lower class* is composed of whites.

[It is doubtful what is meant by opportunities for virtue—and very doubtful as to the exclusive opportunity, north or south.]

We feel competent to have and to keep a conservative, constitutional Confederacy of slave Republics.

[In other words, a slaveholding Aristocracy.]

Northern Democracy, with the Government in the hands of the lowest, most ignorant and depraved, regardless of law, and directed only by appetite and interest, is a mobocracy utterly subversive of every principle of enlightened freedom and of order. It is a despotism we abhor. License destroys rational liberty.

[That is, no rational liberty exists, except in the shadow of monarchy or oligarchy. In this view, the American Revolution was a grand mistake—and the Northern democracy must now find Southern masters, if they would enjoy *rational* liberty.]

A LOOPHOLE IN THE BLOCKADE DISCOVERED.—It is stated that Sir Alexander Milne, the British Admiral, now cruising on the gulf station, detected an obscure loop hole about forty miles from Pensacola, at which vessels run in and deliver supplies to the rebels. The Admiral is said to have expressed his fears that if the Southern harbors were not more completely blockaded he should be under the necessity of interfering in order that the prohibition on British commerce may be removed. This according to the Times' correspondent, has induced the Powhatan, Brooklyn, Wyandotte, Crusader, and others of the fleet to move about in order to increase the efficiency of the blockade.

CAPTURE OF A $600,000 PRIZE.—A letter, received at East Boston from Newport News, dated June 25, says that a prize valued at $600,000 had been captured and brought to Fortress Monroe. She was a new clipper ship, with 40,000 stand of arms, a number of brass rifled cannon, and a large quantity of ammunition. She was captured by the Quaker City off Charleston harbor. The above report is confirmed by an extract from a letter from Lieut. Henry Benham of the Naval Brigade, dated Fortress Monroe, June 26.

The Union majority in Nelson's (1st) district, Tennessee, exceeds 7000. That of the 2d district (Maynard's) is 7235.

The Brandon (Miss) Republican says that one half of the papers published in that State have been discontinued, through the want of money to carry them on.

The New Orleans papers are boasting of the fine ripe peaches for sale in their markets.

A fatal case of Asiatic cholera occurred at Camp Lee last Tuesday. The victim was a Texan.—*Richmond Examiner.*

MAN SOLD FOR VAGRANCY.—A Cincinnati exchange says that a man named Semple, who is connected with one of the oldest and most respectable families of Covington, Ky., but who has degenerated into a mere sot, was sold at public auction by the Sheriff, recently, for inveterate vagrancy. Andy Herod, jailor, became his purchaser for the sum of *one dime*, and will have an opportunity to get his money back by Semple's services until the 1st of September next.

TALES OF THE DAY.—Messrs. Carter & Brothers, of Boston, have commenced a publication with the above title, to be issued in monthly numbers. The design is to furnish in a convenient form those popular tales which, appearing originally in the English periodicals, are deemed worthy of being reprinted in this country. Two numbers have been issued, and contain a large amount of matter interesting to the general reader: they are printed in beautiful style, and promise well for the future. Price, $2.50 per year, in advance.

The London correspondent of Wilkes's Spirit of the Times writes that Pope Pius won $25,000 betting on the Derby. Can't be possible.

FROM EUROPE.

NEW YORK, July 1.—The steamship Etna, from Liverpool 19th and Queenstown 20th, arrived this morning. The Etna brings £236,000 in specie.

The House of Commons rejected the bill for the abolition of church rates, by the casting vote of the Speaker.

The London Times opposes the shipment of troops to Canada, and says that there is no apparent reason for it, and that America is more likely to regard it as a challenge than a precaution. The London Post defends the movement as a matter of routine and precaution.

The special correspondent of the Times, writing from New Orleans, May 24, says it is impossible to resist the conviction that the southern confederacy can only be conquered by means as disrespectable as those which subjugated Poland.

At an influential meeting at the residence of Lord Brougham, relative to the suppression of the Cuban slave trade, the conduct of Spain was denounced, and the government recommended to suspend diplomatic intercourse while the trade continues. It was also resolved that it is a convenient opportunity to obtain the co-operation of the government of the United States in the terms of a treaty to remonstrate with Spain.

The recognition of the Kingdom of Italy by France is an accomplished fact.

An article published in the *Patrie*, and copied in the *Moniteur*, insinuates a belief that the Southern States of America will succeed in establishing a separate Republic.

A funeral dirge in honor of Cavour was celebrated at the Madeline Church in Paris.

The towns of Saumarco and Begriana, in Naples, had revolted, and were taken by assault by the Italian troops. Twenty of the inhabitants were shot for having burned alive four Piedmontese. Both of the towns were subsequently burnt.

Spain will preserve strict neutrality in the American war.

There were some disturbances in Syria immediately after the French troops departed, but they were quickly suppressed.

☞ It is a great downfall for the rebels to find that their privateers are not to be allowed to take their prizes into English or French ports. The Charleston Mercury thinks that thereby England and France have declared themselves, not neutral or friendly, but *hostile*, and advises that if the report is true, the Confederacy should drop *all intercourse* with the nations in question, and should prohibit exports to countries which are so unfriendly, thinking that if England and France can do without Southern friendship, the South can do without them. The Mercury says:

Possibly England and France, as well as the United States, have yet something to learn of our power and our statesmanship. The Confederate States can make themselves felt in every homestead in France and England; and we mistake the character of the statesmen who rule our councils if they do not use their power if necessary. They need not beg—they can *command* the friendship of the great nations of the world.

CHANGING THE NAMES OF TOWNS.—An attempt was made in the N. H. Legislature last week to change the name of the town of Webster to the name of Oakland. The alteration was asked for by one hundred and thirty-three voters in the town, and the committee reported a bill in conformity with the prayer of the petitioners, but the House of Representatives, after a spirited discussion, voted to indefinitely postpone the subject.

The town of "Jackson," in the White Mountain district of New Hampshire, was incorporated in the year 1800, by the name of "Adams," out of respect to the second President of the United States. The Democratic Legislature of the Granite State, at the request of the inhabitants, in 1828, changed the name to "Jackson," in honor of the Presidential successor of John Quincy Adams.

ARMY PASSPORTS.—The following are the United States military regulations concerning passports, just issued, dated, "Headquarters of the Army, July 1st, 1861:"

The General-in-Chief, by permission of the Executive, announces to all concerned that hereafter no passports by whomsoever countersigned will entitle any person to pass the lines of the U. S. Army, unless the same be also countersigned by himself or the commander of a military geographical department. This regulation will continue in force until further notice.

The above is signed by Gen. Scott, and confirmed by Mr. Seward, Secretary of State.

It appears also, that the rebel Gen. Beauregard has issued a proclamation, forbidding the passage of any person through his lines without a pass from Jeff. Davis.

WHAT HAS BECOME OF TRUTH?

Quilp, being asked the reason why
Lies are so plenty?—made reply;—
Truth, anciently, as poets tell,
Lived at the bottom of a well;
And once, when trying to get out,
She was so rudely knocked about,
She had an accident, you know,
And *kicked the bucket*—long ago!
—*Boston Post.*

FORT KEARNEY, July 1.—Reliable information from Denver June 27th, says:—A rebel force set out from their rendezvous 20 miles up Clergy Creek to-day, for the avowed purpose of taking Forts Wise and Garland. They are well armed and equipped, and expected to gain admittance to the forts by strategy and then expected to be joined by a majority of the forces inside.—The movement is watched, but we are comparatively powerless and totally without authority or leadership.

N. H. LEGISLATURE.

The million appropriation bill passed the House on Friday evening, by a vote of yeas 169, nays 94. An amendment, substituting $500,000, was rejected previously. Mr. Bingham of Littleton claimed for himself and others his constitutional protest, and promised to furnish it, with reasons, at an early day, for entry on the Journal.

On Saturday, the following resolution was read in the House:

Whereas, the Weare Bank, located at Hampton Falls, went into operation in fraud, has done business illegally, and has long since ceased to accommodate the public, and the act chartering said bank should be repealed; therefore—

Resolved, That the Bank Commissioners be authorized to send for persons and papers, and be directed to make a thorough examination into the origin, management and affairs of said bank, and report at the next session of the Legislature.

Mr. Eaton of South Hampton said the resolution ought to pass. He had been a former President of the bank, and had induced many people to invest in it. He believed that now the bank had ceased to accommodate the public and should be examined. The resolution passed.

On Monday, in the Senate, the act authorizing the appointment of an additional Justice of the S. J. Court, was laid on the table.

ITEMS FROM THE POST.—Quilp, talking of legal proceedings, wants to know, in cases where there is a "plaintiff in error" and a "defendant in error," how the deuce the judge can say which is *most* in error?—and why he don't send the parties out of court till they have reformed their errors? Quilp ought to know that legal language don't mean what it says, generally speaking.

Ex-Lieut. Randolph, the identical man who once pulled Gen. Jackson's nose, is under arrest in Washington for expressing secession sentiments.

Mrs. Gen. Lee has written a pretty billet-doux to Gen. McDowell, thanking him for taking such good care of Arlington House, protecting the property, &c. Gen. Lee hadn't time to look after it himself.

Young Prince Alfred is having a gay lark in Canada—all the fun of being a "swell" without the ennui of public recognition as a prince. Lady Head and Miss Shaw Lefevre take very good care of him, and rattling Captain Retallack, aided by Gharton shows him the Canadian lions.—He was doing Toronto at last accounts.

LOUISVILLE, KY., July 1.—Messrs. Breckenridge and Burnett have left for Washington. Senator Powell intends to take his seat.

The Owensboro,' Ky., Shield, a secession paper, reports the probable return of one of the Kentucky companies that went to Richmond, where they were not received, and have been living at their own expense.

By special order of Gen. Pillow, dated June 27, it appears that he thinks it now manifest that in consequence of the pressure on the enemy's resources in the East and the belligerent aspect of Missouri, the enemy will not find himself in a position to make a descent on the Valley of the Mississippi this summer.

From the Memphis Appeal it appears that the two million British loan has not yet been consummated. It says that J. M. Vernon has arrived at Richmond direct from Europe, and although not the bearer of dispatches, brings intelligence of a highly interesting character. He speaks hopefully of a market being opened at the proper season for tobacco and cotton.

EXECUTIVE NOMINATIONS.—The Governor and Council have made the following nominations:

Bank Commissioners—Charles H. Powers, Jaffrey; Nath'l H. Sanborn, Franklin, and John H. Peavey, Tuftonborough.

Insurance Commissioners—Cornelius V. Dearborn, Peterborough; Geo. W. Conant, Enfield; James Gordon, Laconia.

George B. Twitchell, Keene, Joseph B. Walker, Concord, John H. White, Lancaster, Trustees of Asylum for Insane.

School Commissioners—Wilson S. Abbott, Raymond, for Rockingham County; Wm. D. Knapp, Somersworth, Stafford.

☞ Charles Card, second mate of the ship Marshall, of Providence, a prize at New Orleans, en route for Maine, reports that after nine days' confinement the crew was liberated, and invited to enter the rebel service. Some finding it impossible to get food or to escape, complied. He reports that there are 8000 or 9000 troops on the line of the Jackson Railroad, mostly armed with shot guns. At Memphis there were 2000, some of whom were unarmed, and all in a miserable state. A cable was to be strung across the Mississippi, at Randolph, to prevent ships descending the river.

☞ Capt. Craven, who succeeds Capt. Ward in the command of the Chesapeake flotilla, is a native of New Hampshire, and entered the Navy on a New York appointment in February, 1829. He has lately rendered valuable service to the Government, cruising off the Cuban coast, and succeeded in overhauling several slavers.—His appointment to the Thomas Freeborn is not yet officially confirmed.

A little five-year-old girl, of Troy, who has a brother in the army, was told that she must pray for Brother Jo. The next night, on going to bed, she said—"Oh Lord, let brother Jo shot the others, but don't let the others shot Jo."

☞ The death of Captain Ingraham, reported to have taken place in Charleston, is not credited in naval circles. He was well at Pensacola on the 4th of June.

STEAMER ST. NICHOLAS.

Capt. Hollins, late of the U. S. Navy, has turned pirate, stolen the steamer St. Nicholas, of Baltimore, and taken three prizes besides. A Baltimore dispatch of July 1 gives the following particulars:

The seizure of the steamer St. Nicholas proves to have been a bold, piratical expedition. When the steamer left Baltimore on Friday evening, she had on board about 50 secession passengers, most of whom were disguised as mechanics going to different points on the Maryland shore of the Potomac.

Among the number was Capt. Hollins, late of the U. S. ship Susquehanna, who was disguised, (some accounts say as a woman,) and retired to a state-room immediately after going on board the steamer.—After the steamer left Point Lookout, Capt. Hollins threw off his disguise, and with the aid of the passengers seized the boat, which was immediately put across Coney river, on the Virginia side.

The steamer then went on a piratical cruise towards the Rappahannock river, capturing three vessels on her way, laden with ice, coal and coffee, with all of which Hollins made his way towards Fredericksburg. The rebel papers here publish accounts of this transaction, calling it a brilliant exploit.

Some accounts say that about 200 rebel troops were placed on the steamer at Coney.

WASHINGTON, July 1.—It is ascertained from an official source that about 200,000 stand of arms have already been issued, leaving half that number still on hand, and others are being constantly manufactured. These are additional to those furnished by the State authorities. None have been ordered from abroad through the Ordnance Bureau; hence the recent importations must have been on State or private account. Dealers and inventors are daily offering to supply the government with arms, which, however, prefers its own patterns of uniformity. There is no lack of facilities for arming all the troops that may be called into the field. There is an abundance of ordnance and ordnance stores and other enginery of warfare.

WASHINGTON, July 1.—Capt. Stevens was in command of the detachment of the Third Connecticut Regiment that captured two rebels and four horses, on Sunday, from a superior force of cavalry, near Falls Church. He now wears one of the revolvers taken from the enemy. But for the impatience of his men and their premature movement, more success would have attended the expedition. The discharge of musketry into the flying rebels caused one of them to rise and reel from his saddle.

☞ An old newspaper account, being a claim for seven years' subscription to the Catskill Recorder, has been adjudicated in the Supreme Court in Albany. The decision was in favor of the publisher, and the judgment and costs amount to between two and three hundred dollars.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supercogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic*, diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease*. Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy*.

Further Testimony.

ANDOVER, N. H., Oct. 15, 1859.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr. Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been deceived by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and enfeebling night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Hearing, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 daw6m

NAVAL.—On the arrival at this Navy Yard of the United States sailing frigate Sabine, Capt. Adams, now of the blockade fleet, the Navy Department will canvass the disposition of her crew, as to their desire to leave or remain in the service. Many of them have already expressed a wish to enlist again, after a few days' relaxation on shore. The Sabine is a fifty gun frigate, 1,726 tons burthen, and carries five hundred sailors and marines.

BLOCKADE OF PORTSMOUTH.—Saturday evening the steamer Nelly Baker took 150 seamen from the receiving ship Ohio, and conveyed them to Portsmouth, where they will join the ships Marion and Dale, now ready for sea. In passing the fort at the entrance of the harbor, shortly after midnight, the steamer was hailed—"What boat is that?" "The Nelly Baker, of Boston!" The answer undoubtedly was not understood, for the warning immediately came, "If you don't stop, I'll fire." The speed of the steamer was then checked, and her name and hail repeated, with the addition, "with seamen for the Navy Yard." "All right, go ahead," was the reply. Some "invited guests" who were of the party, breathed freer when the colloquy was ended.—*Transcript.*

☞ It will be seen by an advertisement in this morning's Chronicle, that Cook & Price's Union Minstrels are to perform at the Temple this, Wednesday, evening. SINGING OF THE "ARMY HYMN" BY THE 2D N. H. REGIMENT AT THE MUSIC HALL.—A correspondent of an exchange paper thus describes the effect of Holmes's Army Hymn, as sung by the soldiers and sons of New Hampshire at the Music Hall:

Near the close of the exercises in the Hall, Carl Zerrahn stepped upon the conductor's stand, and in front of the stage.—At a given signal, a hundred instruments, and the whole of the vast audience, joined, as if by magic, in the rendering of the grand old choral to which the hymn has been adapted. Never have we heard its sublime strains given with such thrilling, such overwhelming effects. The very walls and roof seemed to shake, and the compressed air—broken into massive waves—to tremble and clash in mighty shocks of sound.

The effect upon the ear, though grand, was awful and painfully oppressive. A remarkable feature in the performance was the earnest solemnity that rested upon the countenances of all. It brought forcibly to mind some similar scenes that we read of in history, but which have never before been experienced in our day—the psalmody of the early covenanters around their camp fires; the singing hosts of Cromwell advancing to battle; Martin Luther and his army of reformers marching into Worms to the solemn and measured strains, *Ein Feste berg ist Gott*, &c.

It was, indeed, a thing not soon to be forgotten nor effaced. If we mistake not, we shall hear from it again. The Regiment will cleave to it. It will become, at the same time, their hymn and their battle song, and thence will spread, like the Marseillaise, throughout the army of the North.

FORTRESS MONROE, June 30—1 P. M. The gunboat Mount Vernon has arrived from Newport News with two deserters from the rebels and two prisoners, all of them belonging to the Louisiana Zouaves. They are intelligent Germans, and state that they were impressed, and escaped at the first opportunity. Most of the company they belonged to served unwillingly.

The four agree in the statement that an attack upon Newport News Friday night was only prevented by the incessant rain. About 4500, including a strong body of cavalry and twelve pieces of artillery, advanced from Yorktown, where there are over 12,000 troops from Louisiana, North and South Carolina and Georgia. The cavalry are of the elite of Virginia, and exceedingly well mounted. The infantry are not well equipped.

Provisions were scarce at Yorktown.—The two prisoners were originally from New York and Boston. They were in Pensacola, and the regiment having almost mutinied, the men were paid $5, the only money received by them. They then went to Richmond, and lastly came to Yorktown.

Three shot were fired from Sawyer's rifled gun, from Fort Monroe, the mate of that on Rip Raps, one of which reached the opposite bank of James river—4 1-2 miles.

The Union gun is not yet mounted.

From a Richmond letter in the New Orleans Picayune of June 11, we take the following:—

"In the port of Norfolk itself the greatest activity prevails. The Merrimac, the finest steam frigate in the old United States Navy, is already high and dry out of water and is being put in serviceable condition immediately. Her machinery is not injured in the least, nor is her hull or rigging, except some small portion of the latter which was burned. The Plymouth and the United States also escaped much damage, and like the the Merrimac, will speedily be repaired and ready for whatever service they may be found fit.

Of the rifled cannon captured at Norfolk, some 1500 still remain. About 1000 have been distributed among the Confederate States, and the rest are being forwarded as rapidly as they are called for and the means of conveyance permits. They will serve to put the whole Southern Confederacy in a perfect state of defence. Most of the guns captured were admirably adapted for coast batteries."

The failure to maintain possession of Norfolk or completely destroy its munitions of war was one of the unfortunate things.

NEW YORK, July 2.—A Washington dispatch to the World says it has good authority for stating that the 4th of July will find Fairfax Court House in possession of the Federal troops. The night before, a column of 15,000 men will move on that place and drive out or capture the 5000 rebels now holding it.

The battery of the 2d Rhode Island regiment was sent to Baltimore to-night, by request of Gen. Banks.

William Brent of South Carolina, and Henry Scott of Maryland, have been arrested as spies and placed in jail.

A dispatch to the Tribune says General Fremont to-day received his commiss on as Major General in the regular army; consequently he ranks next to McClellan.

A dispatch to the Herald says that a general movement of the whole Union army southward is decided to take place on the 4th of July if circumstances do not compel an advance at an earlier moment.

Orders have been issued to serve out six days extra rations to all the regiments on the line of the Potomac.

The West Point officers recently distributed among the volunteer regiments as drill masters, have been recalled, and appointed to the staff of different commanding Generals in the field.

A sufficient supply of wagons for transportation has been received, and every thing is ready for a grand advance movement.

The section of the Sherman battery commanded by Lieut. Hanson has been ordered to cross into Virginia to-night, also several regiments of infantry.

Advices from the south side of the Potomac report great activity along our entire line.

LOUISVILLE, July 2.—The Journal says Gov. Jackson of Missouri, is in Nashville.

The 500 or 600 men employed in Norfolk Navy Yard have been required by Jeff. Davis to take an oath to obey implicitly the ordinances and articles of war.

WASHINGTON, July 2.—A Union man from Hampton, Va., is here to solicit Government to prevent outrages upon private property by the soldiers in that vicinity.

The Virginia Convention has passed an ordinance declaring it treason for any citizen of that State to hold an office under the Federal Government after July 1.

Maj. Gen. Fremont has not yet been assigned a command.

In the Virginia Convention it came up that the State now had paid, and was accountable for, $4,000,000, and could not go further: that the probability was they could not receive any aid from the confederate government until Congress meets on the 21st of July; and the probability was that they would have to take for the debt confederate bonds.—*Washington Star.*

NEW YORK, July 1.—A special dispatch from Baltimore to the Herald says Mayor Brown has left the city.

A letter from Williamsport, June 30, says 40 Union troops took 36 rebel prisoners on the Virginia shore.

☞ The U. S. troops across the Potomac ask for more artillery, which they will receive before an advance is made.

The entrance to a woman's heart is through her eye or ear; but a philosopher has said that the way to a man's heart is down his throat. Good house-wives understand this, and use Herrick Allen's Gold Medal Saleratus. If there are any so unfortunate as not to have tried it, go immediately to your grocer and get a paper, and our word for it, it will make a heart as hard as adamant soften and be joyful; and ever after you will praise Herrick Allen's Gold Medal Saleratus. To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE, }
Portsmouth, June 14, 1861. }

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 29, which is as follows:

Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and we warrant it to give better satisfaction than any yet offered to the public.

REFRIGERATORS.

One of the most economical and indispensable articles in hot weather, is a good Refrigerator, (a poor one is not worth buying at any price.) The attention of the public is invited to

WINSHIP'S PATENT UPRIGHT

Self-Ventilating Refrigerator,

Thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has given a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other.—Milk, delicate fruits and meats can in this be preserved much longer than in any other Refrigerator.

AYER'S
Sarsaparilla
FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: **Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.**

OAKLAND, Ind., 6th June, 1859.

J. C. Ayer & Co. Gentlemen: I feel in my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it broke out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my hand and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was induced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. Now and healthy skin soon began to form under the sesh, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED H. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a *dangerous Malignant Erysipelas* by large doses of the same; says he cures the common *Erysipelas* in a few days.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a bidious swelling on the neck, which I had suffered from over two years."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. S. Channing, of New York City, writes; "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhea by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before resorting to it, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

Dr. J. C. Ayer: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Venereal and *Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla steadily healed, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfigurations to his face. A woman who had been treated for the same disorder by mercury was suffering from the poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which you agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, O. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 5th July, 1859.

Dr. J. C. Ayer: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jules T. Gatchell, of St. Louis, writes: "I have been afflicted for years with an *affection of the Liver*, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and I feel so purified and healed as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of these may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions of the system, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the medical of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is now to have its publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and do they know, too, the efficacy of this remedy, we need not do more than to assure them that it is now of the virtues that it did have when making the cures which have won it strongly upon the confidence of mankind.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that their orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

BININGER'S OLD KENTUCKY BOURBON "1849 RESERVE"

The *established popularity* of this CHOICE OLD BOURBON as a medicinal agent, renders it superfluous to mention in detail the characteristics which distinguish it from the ordinary grade of Kentucky Whiskeys.

Being distilled in 1849, and manufactured expressly for its high grade, it may be relied upon as a *strictly pure* stimulant, and peculiarly effective for the treatment of Lung Complaints, Dyspepsia, Derangement of the Stomach, Nervousness, &c.

As a curative agent it has a tendency to *recreate* and *strengthen*; while age having contributed its genial charm, and enriched it with a delicious flavor and an oily body, it affords a pleasant incentive to the preservation or recovery of health, through the agreeable medium of a well pleased palate.

Put up in a variety of attractive forms, in iron-bound cases of one and two dozen bottles each, and sold by all prominent druggists, grocers and town agents. A. M. BININGER & CO.,

—FOR—

FAMILY AND MEDICINAL USE.

This natural product of the most nutritious grain, recommends itself as presenting in a *concentrated form* the *nutritive* properties of Wheat, and has received the highest encomiums from eminent medicinal authorities, as possessing qualities that are absolutely NATRITIVE; this *desideratum* renders it invaluable to those who are suffering from *Consumption, Lung Complaints, Impaired Strength, Want of Nice Appetite*, and all diseases which, in their incipient stages, require only a generous diet, and an invigorating, nourishing stimulant.

Put up in quart bottles, in iron-bound cases of one and two dozen each, and sold by all prominent Druggists, Grocers and Town Agents.

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cared him.—J. W. HAMMOND, 90 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I may leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound." After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

A VOICE FROM THE WEST!
FROM THE CLEVELAND PLAINDEALER
UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS
The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.
They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.
Dr. JAMES L. LEVEERE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."
E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."
Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.
THOMAS STANFORD, Esq., Blountville, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."
GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."
J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cheerfully recommends them as the best of merit in all cases of fever and ague, dyspepsia and general debility.
D. K. GALLESHERS, M. D., writes from Van Wert, O., that he cordially recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be a better general remedy.
One of the very best Physicians in Boston has said "*Ad ti is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, JULY 4, 1861.

INDEPENDENCE DAY.

The Fourth of July this year has an interest somewhat different from any of its predecessors; not only because the integrity of the Union is denied, and disintegration attempted; but also and more so, because the Declaration of Principles, laid down that day, is now condemned as a falsehood by the rebels who fight against it.

Dr. Smyth, a prominent scholar of South Carolina, inquires in a pamphlet, "what is the difficulty and what the remedy?"

He gives the answer thus, as to the *difficulty*: saying,—

"Not in the election of Republican Presidents. No. Not in the non-execution of the Fugitive Slave bill. No. But it lies back of all these. *It is found in that Atheistic Red Republican doctrine of the Declaration of Independence.*"

It is perfectly plain that what Dr. Smyth calls Atheistic Red Republicanism, has nothing to do with the *color* of men, whether white or black, yellow or red. What shocks him is the idea that the common people, the working people, should aid in government, and that the *majority* of all the people should rule. The same idea shocked Senator Hammond when he made his *mudsill* speech.

The red republicans of France and Italy pay no deference to color, but urge the liberty of the common people, the workmen, to engage in government,—though they do not always do it in the best manner.

Our fathers in 1776 on the whole did it wisely:—they founded their independent existence as a nation, on a declaration of *rights*, beginning with the individual, and proceeding to the community and commonwealth: and then they followed this, with a declaration of the *wrongs* which they had suffered at the hands of the Crown and Government of England, as the reason why they took up arms to recover and secure the rights of English freemen transplanted into American soil.

But, says Doctor Smyth, this is all wrong,—that Declaration is Red Republican, it is Atheistic, it is a lie and an outrage: "Until that is trampled under foot, there can be no peace."

Here we have it; an Aristocracy, consisting of the lords of the plantation, whip in hand,—who shall make laws for all working men, enforced by whip on the back,—this Aristocracy must trample under foot the Declaration, and also trample under foot those men who assert it,—and *then* there will be *peace!*

In strict accordance with this theory of Dr. Smyth, has been the practice, so far, of the seceding rebels. They have made a *declaration* to be sure, but not of *individual* rights! They begin with a *State*, and they assert for that, an absolute right of self-government,—but they do *not name* or describe a single *wrong*, as the reason why they assert that right: they only speak of wrong, outrage, insult, in a general, unmeaning lump,—simply because no such wrong exists.

Dr. Smyth *disdains* the individual wrongs,—and so do the leading rebels! But they *claim*, to rule as an *aristocracy*, the destinies of the American people,—and failing to do this, they conspire its ruin, steal its arms and treasure, seize its ports and posts, menace its capital,—and commit piracy on its commerce.

And now they ask us to trample under foot the declaration of our liberty—that we may have peace!

We go, on the contrary, for a recurrence to first principles, not to the contradiction or denial of them, and therefore quote the Atheistic Red Republican Declaration as follows:—

We hold these truths to be self-evident; that all men are created equal; that they are endowed, by their Creator, with certain unalienable rights; that among these are life, liberty, and the pursuit of happiness. That to *secure* these rights, governments are instituted among men, deriving their *just* powers from the consent of the governed.

We also quote, as appropriate to this day, the following item from the Constitution of the United States.

This Constitution, and the laws of the United States which shall be made in pursuance thereof, and all treaties made, or which shall be made, under the authority of the United States, shall be the *supreme law* of the land; and the judges in every state shall be bound thereby, any thing in the constitution or laws of any State to the contrary notwithstanding.

The seceding rebels virtually declare this *supreme* law to be *no law at all*, by their theory that any State may slip out *ad libitum*. This, however, is *not* the belief or view of the *loyal* people in Virginia, Maryland, Kentucky, Missouri, and other States,—nor do they mean to trample the declaration under foot.

They have *not* been allowed a fair vote by the *usurping* rebels: but we trust the day will come speedily, when Liberty shall be proclaimed through the whole land, to all the inhabitants—and when no writer will be so *base* as to suggest a trampling under foot of our Fathers' liberty charter, as the only way to peace!

ANOTHER REGIMENT.—It has been determined to raise another Regiment in this State immediately, and it is understood that the Governor and Council will appoint the officers in a few days.

In this connection we would state that our citizens have expressed very much surprise and indignation at the course of a member of the House, who was elected to represent, in part, one of the wards of this city. On Wednesday last, a resolution was introduced into the House, authorizing the Governor to raise a Third Regiment, and suggesting Davis' Island, in Lake Winnepiscogee, as the place of encampment.

The report of the proceedings states that "Mr. Emery, of this city, moved to strike out the place, stating that there were already barracks at Concord and Portsmouth, while it will require between $4000 and $5000 to provide new ones for 1000 men. The argument that Davis' Island would be a quiet place, should go for nothing. Whiskey would follow the men there as well as any where, if they are disposed to drink it.

"Mr. Goodall of Portsmouth disagreed with his colleague. The soldiers ought to become inured to camping out, instead of going into barracks. He thought that the soldiers did have improper access to the whiskey shops in Portsmouth and Concord. No expense for barracks is proposed.

"Mr. Emery's motion to strike out Davis' Island was rejected, and the resolution ordered to a third reading, as originally reported."

From all that we can learn there seems to be some occasion for surprise that the gentleman from this city should have particularly exerted himself to thwart the wishes of his constituents, and that he should have been the prominent mover in a course of action, which seems calculated to deprive them of advantages. The presence of such a large body of men for a few weeks, adds materially to the business and prosperity of the city, and until there is good reason given why they should not be encamped here,—until it is shown that our accommodations for a regiment are not superior to those offered elsewhere in the State, our citizens can see no good reason why Mr. Goodall should be so extremely anxious to urge the selection of another place.

THE NORTH AMERICAN REVIEW, for July, is just published by Crosby, Nichols, Lee & Co. It is an excellent and entertaining number. We have only space today to give the titles of its articles, namely, The Public Lands of the United States, Mrs. Jane Terrell, The Venerable Bede, Bouvier's Law Dictionary and Institute, Life of Major Andre, French Critics and Criticism, M. Taine, Burial, The Attic Bee, Francis Bacon, Michigan, New Books on Medicine, The Right of Secession, and Hugh Latimer. We would call particular attention to the marked ability evinced in the paper on "Secession," in which the the arguments of Calhoun and Jeff. Davis are thoroughly demolished.

☞ U. S. troops, and rebels, are both in motion in Missouri, Kentucky and Tennessee. A St. Louis dispatch of July 2 says:

A party of 50 Home Guards, while scouting for contraband articles of war near Farmington, St. Francis county, on Monday, came upon a body of 300 rebels and gave them a volley, killing their captain and several others, and then retreated to Ironton. None of the Guards were hurt.

A Louisville paper of the 2d takes it for granted that the authorities of Tennessee are informed of the introduction of arms into that State, and that arrangements have been made to take possession of every gun sent by the Administration.

The Journal says Gov. Jackson of Mo., is in Nashville. There is no doubt that an expedition against Missouri is forming in the Southern border of that State.

HOW THE BANKERS VIEW REBELLION. A letter from a British banker, received in Boston, has this view of rebellion:

"The government and the people of England are with the North in heart and soul, and they will continue to be so. The South must be so completely taken aback by the unity and energy of the North, that I should not be surprised to hear at any moment, that they showed symptoms of submitting to their fate. Happy, indeed, would it be, should it prove so; for the sufferings of your men must be terrible during the hot weather, and the mortality correspondingly great. How many a home will be made desolate by the treachery of these scoundrels! Most truly do I sympathize with you all, and most heartily do I pray that your sacrifices and sufferings may result in the blessing of peace and harmony for many generations."

LIQUOR SEIZURE.—Monday afternoon, the police made a seizure of several hundred dollars worth of liquors, of all kinds, from the store of Richard R. Robinson, on Exchange street, Portland.

Handsome features alone are incapable of expressing real beauty, as speech alone is incapable of expressing wit.

FORWARD MARCH.

The forward movement of our forces in Western Virginia has at last begun. The Potomac was forded at Williamsport during Monday night, and skirmishes with the rebels took place before daybreak. Something like a battle took place, and the rebels were defeated with a heavy loss, retiring in such haste that they left many of their accoutrements behind. The loss on our side was two killed and several wounded. A Hagerstown, Md., dispatch of July 2, says:

Between 3 and 7 o'clock this morning the troops which had been concentrating at Hagerstown and Williamsport, crossed the ford at the latter place, and Gen. Patterson reviewed them as they filed past him. The morning was bright and beautiful. Scouting parties were sent out at midnight, and frequently during the night brisk firing was heard between the rebel and federal pickets.

The proper fords having been ascertained the advance took place before daylight. The advancing column consisted of the brigades of Gens. Abercrombie, Thomas and Neyley.

McMullen's Rangers, who occupied the post of honor, behaved remarkably well, getting close up to the enemy—within a distance of 75 yards only.

Abercrombie's Brigade led the advance. Col. Jarrett and Lieut. Col. Coulter led the skirmishers at the opening on the rebels at 400 yards. The whole of the rebel force at Martinsburg, consisting of 4 regiments of infantry and 1 regiment of horse, were engaged in the action. They had 4 pieces of artillery, consisting in part of rifled cannon, commanded by Gen. Jackson.

The 1st city troops of Philadelphia were assigned a position near the regular cavalry. The casualties on our side were two killed and several wounded. Several dead and wounded rebels were left on the field in their hasty retreat; one or two were buried by our men. The loss of life by the rebels is stated to be very heavy.

In anticipation of the retreat by our forces the rebels had levelled the fences on both sides of the turnpike with the ground, so as to cut them off in the event of their retiring to the Potomac.

The first stand was made at Porterfield's farm on the turnpike, near Haynesville, where it was necessary to destroy the barn and carriage house to make a charge upon the rebels. Here the conflict was fierce, the rebels standing well up to their work, and finally slowly retreating. Knapsacks and canteens were hastily thrown aside as encumbrances to a retreat, and they left behind numbers of blankets and other articles of value, indicating a heavy loss.

NEW YORK, July 2.—The Hammonia brought 20,000 rifles.

The best scouts in Gen. Scott's service say that the whole number of armed rebel troops in Virginia does not exceed 75,000 25,000 of whom are in and around Manassas Junction.

Dr. Hurley, late editor of the Nashville Democrat, addresses a letter to the National Republican, protesting against compromise or peace until the rebels acknowledge the authority of the government.

The Washington correspondent of the Philadelphia Enquirer gives a rumor that the Secretary of the Navy, Mr. Welles, has resigned.

Treasury notes of the denomination of $50, redeemable in two years, are afloat in business circles.

The Virginia rebel convention has passed an ordinance declaring it treason for any citizen in that state to hold an office under the federal government after July 1st.

The Post's Washington dispatch says:—There is not the least foundation for the report that Secretary Wells intends to resign. It is rumored that an expedition of federal war steamers went down last night to take possession of Mathias Point.

A dispatch to the Express says:—The rebels can have a battle when they choose to advance, but no advance on Richmond is contemplated by Gen. Scott before September.

The slaver Nightingale sold at auction to-day for $13,000, and the privateer Savannah for $1250.

Barque Sally Magee, of Richmond, from Rio Janeiro, with a cargo of coffee, arrived to night in charge of a prize crew from the Minnesota, having been captured by the Quaker city while running the blockade.—

Ship Columbia, arrived to-night, was ordered off the mouth of the Mississippi by the gunboat Mt. Vernon. While between Ocracocke and Hatteras was chased three hours by a small steamer who fired ten guns, but the shots fell short.

VIRGINIA.—An Alexandria dispatch of July 2, says:

There are about 5000 rebels within an hour's march of Fairfax, with large bodies of horsemen between our pickets and that point.

Four rebels were killed by the Pennsylvanian pickets on Sunday, the fourth body having been found in the woods yesterday, and recognized as a brother of a neighboring farmer named Fairfax.

The Richmond Examiner of the 29th states that an agent of the French government was buying tobacao there. Its Portsmouth correspondent says that the 600 or 700 men employed in the Navy Yard have been required to take an oath to obey implicitly the ordinances and articles of war, by order of the President of the Southern Confederacy.—The rebel feeling at Portsmouth is weak, and it is said that many have sworn to support the new government who would not hesitate to *destroy* it should an opportunity occur.

Diving bells are used to recover small guns. It is thought the sloop-of-war Germantown will be repaired in three months. The Plymouth can be used as a floating battery.

The Georgia regiment arrived without arms, the government of Georgia refusing to allow any more arms to be taken from that State.

☞ The 2d New Hampshire Regiment was reviewed by the President and Secretary of War, on Tuesday.

N. H. LEGISLATURE.

TUESDAY, July 2.

SENATE.—The bill to aid in defence of the country, appropriating $1,000,000, was passed under a suspension of the rules.

HOUSE.—The Committee on Education reported that the bill relating to school committees in the city of Portsmouth be referred to the delegation from Portsmouth.

A joint resolution was adopted, referring the whole matter of furnishing musical instruments and uniforms for a band for the Second Regiment, to the Governor and Council.

An act was passed, establishing Thanksgiving, Fast, Christmas, 22d of February and 4th of July, as public holidays, and non-judicial days for the payment of notes, etc.

The militia bill was taken up. Mr. Emerson explained the nature of the bill and its reception by the committee. It was considered that it provided for a too expensive system. They found a great variety of plans presented to them. The expensive encampments were, however, stricken out, and the expense reduced from $50,000 per annum to about $20,000. A military bill of some kind was imperatively demanded by the people.

The amendments reported by the committee were then adopted.

A motion to further amend, by striking out a section which abolishes the office of Commissary General, was adopted.

Mr. Huntoon of Hanover moved to substitute for "able-bodied citizens," the words "*white* able bodied citizens," among those to be enrolled. Rejected—yeas 116, nays 154.

A lengthy discussion ensued, which continued until the House adjourned.

☞ This day, the Fourth of July, the most memorable in our country's annals, will be celebrated by the citizens of Portsmouth and vicinity, with the booming of cannon, the ringing of bells, and such other manifestations of enthusiasm and patriotism, as are usual on such occasions At sunrise, the bells of the churches will be rung, and a national salute will be fired. At noon, the same; at evening, ditto.

Early in the morning, fires will be lighted in different portions of the city, chiefly for cooking purposes, thus combining the *utile et dulce*.

At six o'clock, a procession will form in Congress street, with the left resting on Market. It will move through Congress, into Market street; then down Market, and repeat.

At noon, a bountiful collation will be provided, at the expense of the citizens. As crowds, excitement and enthusiasm are deemed by many objectionable features in any celebration, it has been decided not to spread this splendid and sumptuous entertainment in the new City Hall, but to divide it into several smaller ones, in order that a rush may be avoided.

The bridewell will remain open during the day and evening, for the convenience of visitors.

"The steamer Clipper will make trips up and down the river touching at the Fort." We believe the Piscataqua touches at that point.

COMET.—A most splendid comet burst upon our view in the northern heavens, on Tuesday evening. When first seen, it appeared like a dull, heavy star in the mist, but, as we gazed, it grew brighter and brighter—the nucleus clearly defined and much larger than one of the planets—and the train stretched out longer and longer till it was traced quite to the zenith. The unexpected appearance of this brilliant wanderer of the air was startling. Of all comets the present generation has seen, none has seemed so brilliant and amazing, and it is not to be wondered at that so many rushed out of their houses to the sidewalk, with exclamations of surprise at the length of the tail!

☞ A new schooner, built by Mr. Wm. Fornald, at Raynes' ship yard, will be launched this morning at 9 o'clock. She is about 200 tons burthen, is intended for the coal trade, and is to be commanded by Capt. Jona. Talpey, of York.

☞ An interesting and promising little boy, named Samuel Augustus Tobey, was drowned at Kittery Point, on Tuesday, July 2d.—He was a son of Samuel Tobey, and his age was 7 years 1 month.

☞ Latest news from Europe, June 22d. There was an immense fire in London, Saturday. The destruction of property was so great as to affect the price of many articles.

The Southern commissioners are at Paris. France will hold no communication except with the Washington government.

Lord John Russell announced that Spain had given a pledge, whether St. Domingo was annexed or not, that slavery should not be introduce into the island.

☞ Ladies are announced to read the Declaration of Independence, in some of the cities in Maine—a pleasant feature in the celebrations of to-day.

Every art is best taught by example; good deeds are productive of good friends.

LETTER FROM NEW YORK.

From our Regular Correspondent.

NEW YORK, July 2.

Dear Chronicle:—The last instalments from our city were Col. Baker's California Regiment, numbering 1500, mostly retired Californians,—a hardy, vigorous, danger-loving body of men; and a German Regiment. Col. Baker has one of the finest divisions of the many which New York has furnished, and is himself a fine-looking gentleman, with a firm cast of features and locks slightly grey, indicating that he has passed through the reckless bravado and impetuosity of youth, and merged into the intrepid bravery, calm and cautious, which fifty years of life and the experiences of the frontier so naturally engender. As for the Germans, there is no end to them. Almost every day, we see a new regiment of them marching through our streets, all good, solid men, full of lager and enthusiasm! They are truly our fighting population, and have an advantage over many others, from former participation in scenes where the canines of strife had been set free!

The New York press has undergone several changes during the week. The Courier & Enquirer, the pioneer of metropolitan journalism, has merged into the World. The Times has cut down two columns or more, and the Day Book (secession) appears to be gradually expiring, though the secession tendencies of the News seem to increase rather than diminish its circulation, as people buy it with the same impulse which prompts them to give a quarter to see a cat with two heads or a dog with two tails!

Fourth of July is coming, and one's eyes, nose and mouth are made pistol barrels for the discharge of fire-crackers, thrown by enthusiastic urchins,—while the staging on the parks indicates that "independence day has come," or is coming. NEWINGTON.

WAR ITEMS—WEDNESDAY EVENING. A Washington dispatch, July 3, mentions that 10 companies are ordered to leave at 1 o'clock in the morning, down the river to Mt. Vernon. An impression exists that a masked battery is erecting there, with the intention on the part of the rebels to command the river.

The 2d Maine regiment is the advanced guard beyond Falls Church.

The rebels are filling up the cut in the railroad, ten miles west of Alexandria.—They have fortifications at only one point this side of Manassas Junction, but have a few masked batteries at Vienna and Fairfax Court House.

Should a battle take place in this vicinity, Gen. Scott has announced that he in person will direct operations.

A Washington dispatch to the Times says that the 19th Pennsylvania Regiment has arrived at Point of Rocks, and the New Hampshire First has been ordered to march in the morning.

U. S. troops occupy Hampton, Va.

Lt. Yelverton and 18 men made a reconnoisance to within a mile and a half of Great Bethel, when they encountered five rebel pickets, who fled, leaving behind hats and coats which showed that the owners were officers. In the pockets were several letters, giving an account of the late advance of 2800 men to attack Newport News. They also describe the wretched fare of the troops, and how they were obliged to beg or steal.

WASHINGTON, July 3.—The following was received this morning at 2.15:

Hawk River, near Martinsburg, Va., July 2.—Left Williamsport at 6 A. M. to-day for this place. Drove and routed the rebels, about 10,000 strong, with 4 guns, and now occupy his camp, with the loss, I regret to say, of three killed and ten wounded.

(Signed) R. PATTERSON,
Major General Commanding.

PRIZE TEMPERANCE TALE.—The directors of the Scottish Temperance League have offered a prize of five hundred dollars for the best temperance tale. Mr. John S. Marr, 108 Hope street, Glasgow, receives the manuscripts of competitors.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic*, diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease*. Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy*.

Further Testimony.

ANDOVER, N. H., Oct. 15, 1859.

MESSRS. Seth W. Fowle & Co., Boston.—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of Dr. Wistar's *Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, withdrawn any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and dodging night-sweats soon left me, and reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health, and strength.

Yours, very truly, GEO. W. CHASE.

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 dawâm

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE,
Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 29, which is as follows:

Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring it, gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

REFRIGERATORS.

One of the most economical and indispensable articles in hot weather, is a good Refrigerator, (a poor one is not worth buying at any price.) The attention of the public is invited to

WINSHIP'S PATENT UPRIGHT

Self-Ventilating Refrigerator,

Thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific and simple a manner that Prof. Silliman has given a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other.—Milk, delicate fruits and meats can in this be preserved much longer than in any other Refrigerator.

Bartlett's Polar Refrigerator,

With two food chambers and a water tank; a very convenient article.

DEATH OF A GIRL IN A BALL ROOM.—While a party of young persons were engaged in dancing in a club-room in Birmingham, Eng., recently, a young woman of 19, named Eliza Bird, was taken suddenly ill after the first dance, and fell head foremost to the ground, and though assistance was immediately rendered, the poor girl never spoke afterwards. A post mortem examination was made, and the medical evidence at the inquest showed that death was caused by apoplexy, arising, in a great measure, from tight lacing.

AYER'S

Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints:
Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all skin Diseases.

OAKLAND, Ind., 6th June, 1858.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it burst out in ulcers on my legs, and at times it would turn to a dreadful and distressed sore at the elbow joint. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disease grew worse. At length I was advised to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got a bottle, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over 4 month, and used almost three bottles. Now and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Peebles writes from Hudson, N. Y., 12th Sept., 1858, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla. He also cured a case of *Malignant Erysipelas* by large doses of the same; says he cures the common *Erysipelas* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zelodon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous fashion. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous *ovarian tumor* on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had taken mercury in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his nose, and the alteration had taken away a considerable part of it, so that I believe the disease would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A second was for long years tormented for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that she could foretell a change by the excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LARTIGUE, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic Rheumatism for the last twelve years, to the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

JOHN V. GOTCHER, of St. Louis, writes: I have been afflicted for years with an *affection of the Liver*, which destroyed my health. Tried every thing, and every thing failed to relieve me, until I was known to all my brethren for some years from no other cause than *derangement of the Liver*. My beloved pastor, the Rev. Mr. Espy, advised me to try your Sarsaparilla, because he knew of its virtues, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make a new man of me. I feel young again. The best that can be said of you is not half good enough."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have resulted from the use of this remedy, but our space here will not admit them. Some of these may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the profession of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of these and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. For sale the renowned virtues of this remedy, among those who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtile and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the effects of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

REAL ESTATE IN NEW CASTLE FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord who can keep a hotel, a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT, MARKET SQUARE.

PURE LIQUORS AND WINES

FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of LIQUORS, WINES, &c., and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the Purity of our Goods, but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no traveling or other agents whatever. Persons who order *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. RHEUMATISM AND NEURALGIA.

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." — D. BAKER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire by cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from suffering over four years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles H. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimonig in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

A VOICE FROM THE WEST!

FROM THE CLEVELAND PLAINDEALER

UNIVERSAL, UNIVERSAL,
IS THE DEMAND FOR
DR. S. O. RICHARDSON'S
SHERRY WINE BITTERS

The celebrated New England remedy for
Habitual Constipation, Jaundice, Fever and Ague, General Debility, and all Diseases arising from a Disordered Stomach, Liver or Bowels.

They are used and recommended by the leading Physicians of the country, and all who try them pronounce them invaluable.

Dr. JAMES L. TAPERREE writes from Navarre, Stark Co., O.: "The Bitters are praised by those suffering from indigestion, dyspepsia and liver complaint."

E. S. DAVIS, Postmaster at Williamsport, Ohio, says: "They give great satisfaction. I use them myself. Having taken cold, become prostrate, and lost my appetite, it relieved me, and I can recommend it with great assurance of its merits."

Dr. WM. M. KERR, of Rogersville, Ind., writes us that they are the most valuable medicine offered. He has recommended them with great success, and with them made several cures of palpitation of the heart, and general debility.

THOMAS STANFORD, Esq., Bloomfield, Henry Co., Ind., writes us a long letter under date of May 4, 1860. He was much reduced, having been afflicted for three years with great nervous debility, palpitation of the heart of the most severe and prostrating character; "after using a few bottles, I was completely restored, and am now in robust health."

GEORGE W. HOFFMAN says he was afflicted with rheumatism in all its various forms for 20 years, and at the date of his letter he had been two years well, the Bitters effecting the cure, when several physicians attending him could do him no good. He says "for rheumatism, dyspepsia, liver complaint, kidney affection or dropsy, it is a specific certain remedy."

J. W. HUNT writes from Delphos, Allen Co., Ohio, (a section where fever and ague prevails,) that he cannot recommend them too highly of decided merit in all cases of fever and ague, dyspepsia and general debility.

D. K. GALLEHERS, M. D., writes from Van Wert, O.: "I most respectfully recommend the Sherry Wine Bitters to the notice of dyspeptic persons, and all who require a stimulating medicine."

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

SATURDAY, JULY 6, 1861.

GENERAL LYON

FORT RILEY, KANSAS, June 26.

Messrs. Editors:—Kansas is, to some extent, cut off from the East again, as during the Border Ruffian invasion of '55; but with this difference between then and now: the revolutionists of '55 were backed by a partizan government. The rebels of to-day are executing some unparalelled feats of speed in retreating before Gen. Lyon, at the head of the Federal forces. We have but little fear that our communications with the East will be closed.

Gov. Jackson uttered the roar as of a lion; but no sooner had Gen. Lyon accepted his defiance than he became, to all intents and purposes, harmless as Snug the joiner himself. He is retreating from village to village, nor gives any intimation where his retreat will stop. "Conscience makes cowards of us all."

During the troubles of '55, boats on the Missouri were repeatedly stopped. But for some reason, no doubt good and sufficient, if we could get at it, Gen. Lyon went up this river in two boats, landed at the Missouri capital, and unfurled the stars and stripes without resistance. Whether Gen. Lyon meets the Governor depends purely, we imagine, upon his ability as a foot-racer.

Gen. Lyon will be, in this great contest, a man of mark. Some men are born great: some have greatness thrust upon them. *His* present position is not an accident; it is not a piece of favoritism. It is well known to those conversant with the career of army officers, that in California and in Mexico, he won distinction for courage, resolution and skill. It is said no officer ever became such a terror to the Indians of California. On one occasion, with about two hundred troops, (infantry) he pursued a band of five hundred Indians over ravines and mountains, tiring out a company of dragoons sent to his aid, and pressing forward, with a few of the mounted men, *unmounted*, till the Indians' retreat upon an island was discovered, when an annihilating onset followed. The Indians of California are inclined to regard him as the evil one; but having the pleasure of an acquaintance with the General, I can vouch for the incorrectness and even injustice of this idea.

No man in social life has more of the *suaviter in modo*. Proverbially affable, kind, and thoughtful of others, he is as pleasant a companion in peace, as he would be efficient as a protector in war. Equally at home with the pen as with the sword, he is always able to enforce his doctrines on any subject with admirably straightforward logic and admirably discriminating language. He is an example of that saying of Bacon's—"Reading makes a full man, speaking a ready man, writing an exact man." One rarely meets his equal in conversational fluency, strength and beauty. Thoroughly read in law, medicine, politics and the different branches of his profession, he holds all at his tongue's end. Gov. Jackson will find him a very entertaining companion. We are afraid their intercourse, however, would be cut short before very many days. For Gen. Lyon has pretty stern notions about the proper fate of rebels.

It was during his administration as Commanding officer at this post that our flag-staff was erected. He was the first to raise our national colors here, and the country may depend he will be among the first to keep them floating on all the breezes that blow between the two oceans.

PORTSMOUTH ABROAD.

☞ In consequence of the treachery used towards our pickets in the direction of Leesburg, by parties approaching them and shooting at them when challenged, instead of answering—an order has been promulgated that the pickets on the Leesburg road shall, without challenging, fire upon any one approaching them.

☞ Blake's Bakery, and house adjoining, in Portland, caught fire, on Thursday night, but though the location was a dangerous one, the steam engine soon settled all.

LATEST FROM WASHINGTON.—The President says he doesn't object to having traitors Hanging around our Camp.—*Vanity Fair.*

CONNECTICUT.—*Hartford, July 3.*—The Connecticut Legislature, after a session of nine weeks, adjourned *sine die* at 10 to-night. Ex-Gov. Seymour offered a resolution in the House, to-lay, virtually upholding the South in their rebellion. He could get only 18 members to sustain him. His rebuke was emphatic.

A Game that Austria won't Play.—Burlingame.—*Vanity Fair.*

N. H. LEGISLATURE.

WEDNESDAY, July 3.

SENATE.—The act relating to the School Committees of Portsmouth was passed; also, one in relation to Registers of Probate; also, a resolution relating to a temporary loan. The resolution relating to the 3d Regiment was indefinitely postponed; also, that relating to the compens tion of the 1st Regiment.

In the evening, a resolution of thanks to the sons of New Hampshire and others abroad, for attentions to the 1st and 2d Regiments, was passed. Also, an act authorizing cities and towns to aid families of volunteers.

HOUSE.—Mr. Emerson, from the committee on Military Affairs, reported that all the business in the office of the Adjutant General is in a state of great confusion; that no record of the disposition of the public property has ever been kept, and that the Adjutant General can give no satisfactory information about it. They also report that he has never given any legal bonds and has no vouchers for the public property he has distributed. They recommend a thorough investigation into the affairs of the Department.

The committee on Education reported a resolution appropriating $300 to print the Colonial Records.

A bill was reported by the committee on Finance, providing for a State tax of $90,000. Also a resolution appropriating $500 for the contingent fund. Also a resolution authorizing the Treasurer to borrow $60,000 for the use of the State. Adopted—the rate of interest not to exceed six per cent.

The vote, refusing to insert the word "white" in the militia bill, was reconsidered, and the word was inserted. Yeas 221, nays 32.

The bill was then ordered to a third reading, and by suspension of the rules, read a third time and passed, without a division.

A bill providing for the holding of a Constitutional Convention, the delegates to be elected on the 3d Tuesday in O tober, and the Convention to assemble on the first Tuesday in November, was passed.

In Convention, Daniel L. Randall of Portsmouth, was elected Commissary General, receiving 174 votes: Wm. B. Russell of Portsmouth, had 102; scat. 11.

In the House, Mr. Goodall moved a resolution cutting down the pay of the Commissary General to $10 per annum, and specifying that he shall not perform any duties not required of him by the Constitution.—Read three times, rules suspended, and passed.

Mr. Bingham presented a protest, signed by himself and 90 other members of the House, against the passage of the Million Loan Bill.

A resolution was passed, appropriating $300 for the purchase of Hoyt's portrait of Daniel Webster, now in the State House,—on condition that $200 additional be subscribed in N. H., and $500 by citizens of Mass.

Resolutions pledging the support of the State to the General Government in the present treasonable war, were passed without a count.

THURSDAY, July 4.

The Senate postponed to the next session the bill providing for the Constitutional Convention. It also indefinitely postponed the resolution to send the proposed 3d Regiment into camp at Lake Winnipiseogee.

HOUSE.—The Declaration of Independence was read by the Clerk, and the members sang "America."

The House concurred in 17 amendments, made by the Senate, to the Militia Bill. They disperse with brigades and substitute divisions.

At half past five o'clock, the Governor sent in a message, stating that having signed all the bills and resolutions presented to him, and having been informed that all the business of the session was finished, he adjourned the Legislature to the last Wednesday of May next.

MARYLAND.—*Baltimore, July 3.*—Steamer Hugh Jenkins left here several days since, with three companies of federal troops on board, on a secret expedition to Easton, Talbot county, for the purpose of recovering certain arms said to have been sent from here by Marshal Kane to a military organization in that section of the State. The officers in charge of the expedition waited on Colonel Lloyd Tillingman, and Carrolburn, another officer, both of whom refused to give any satisfaction in regard to the arms. They were told they must find them for themselves, and both gentlemen were very offensive in their deportment, and one drew a pistol on the federal officers. Under these circumstances they were both arrested and brought to Fort McHenry. Several houses were searched, but only a few rifles were found.

☞ The volunteers write graphic letters. A member of the 1st N. H. Regiment, in a letter to the Milford Republican, says "one of the rebels climbed a tree to get a better view of us, but was shot at and came down as he went up, head first."

Lucy Stone says:—"The cradle is a woman's ballot box." Then we've known some unlawful voting, where two ballots were deposited at a time.—*Post.*

CONGRESS—EXTRA SESSION.

THURSDAY, July 4.

SENATE.—The Senate was called to order by the Vice President at noon. Thirty-six members were present, including Breckinridge and Powell of Kentucky.

Mr. Hale offered a resolution, asking the Secretary of the Navy to send a copy of all the contracts he had made to the Senate. Passed.

Mr. Wilson gave notice that he should introduce several bills to-morrow to ratify the acts of the President, &c.

HOUSE.—The Clerk called the roll, including names from South Carolina, Arkansas and Florida.

Mr. Vallandigham of Ohio gave notice of a question of privilege, objecting to Messrs. Marston, Blair and Curtis claiming seats, they having been sworn in as military officers.

Mr. Blair of Mo. denied having been sworn into the military service.

The election of a Speaker being in order, Mr. Colfax of Ind. declined being considered as a candidate.

A ballot was taken, which resulted in no choice. F. P. Blair then withdrew his name.

Another ballot resulted as follows: whole number of votes 159: Grow 99, Blair 11, Crittenden 12, rest scattering.

The ballot for Clerk resulted as follows: Etheridge 92, Forney 41, Districk 21, and Florence 2.

Mr. Carlisle of Virginia said he did not want any portion of his State unrepresented by objections to any other portion. He believed that no party in any State, by convention or otherwise, had power to absolve allegiance to the government formed by their fathers. (Deafening applause.)—He characterized the action of Eastern Virginia as gross tyranny, and said Western Virginia was determined to uphold the Union, and desired that her voice should be heard on everything pertaining to the organization of the House.

The Virginia delegation were sworn in.

On Friday, in the Senate, Mr. Chandler gave notice that he should introduce a bill to confiscate the property of all prominent civil and military officers who take up arms against the United States and abet treason; and disqualifying such persons from ever holding any office under the government.

Geo. T. Brown was elected Sergeant-at-Arms of the Senate—and Edward Ball was elected Sergeant-at-Arms, and Ira Goodenow Doorkeeper, of the House.

FIRES IN BOSTON.—On the 4th of July, in Boston, there were during the day no less than sixteen alarms—some of them very slight, but two of them the most destructive for a long time—consuming a vast amount of property, rendering scores of families temporarily homeless, and turning hundreds of men out of employment.

At a little past 1 P. M., a fire began in a carpenter's shop, 181 Albany street, and burnt piles of lumber, stables, wood and brick houses, &c., to the value of about $50,000.

The most destructive fire was at East Boston, in the afternoon. It is supposed that it originated in a large wooden building on Aspinwall's wharf, and that it was set by a fire-cracker. It swept with almost lightning speed through the buildings on the wharf, and soon reduced them to ashes.

Everything was dry, and the fire spread rapidly, destroying a foundry, ship yards, mechanics' shops, wooden houses, stables, brick houses, stores, ware-houses and wharves. 70 or 80 buildings were burnt.—The area burned over is about *ten and a quarter acres.* The pile wharves burned are entirely ruined, and will have to be re-built throughout.

Eight or nine vessels were destroyed.—Capt. McGath, in the steamer Washington, saved several vessels and a hand fire-engine. Loss from $300,000 to $400,000. Insurance large, perhaps half the loss. The fire began about 2 o'clock, and lasted all the afternoon.

The towns in the vicinity of Boston also suffered from numerous fires, resulting mainly from the careless use of fire-crackers.

FORTRESS MOOROE, July 3.—Steamer Catiline, employed as a transport between here and Newport News, was burnt last evening. Her crew had barely time to escape. She had been under a contract with the government for three months at $10,000 a month. Capt. Gordon of the Cumberland gallantly removed the rifled cannon from the burning wreck.

Col. Allen's regiment, to-day, went to Newport News.

WASHINGTON, June 5.—Gen. Patterson entered and passed through Martinsburg yesterday in hot pursuit of the enemy.

The rebel force which Gen. Patterson scattered on the 2d, when he crossed the river, had 60 killed and many wounded.—It rallied and presented front yesterday, but again retreated 7 or 8 miles, where they had been reinforced.

How exquisitely absurd to tell girls that beauty is of no value, dress of no use! Beauty is of value; her whole prospects in life may often depend upon a new gown or a becoming bonnet, and if she has five grains of common-sense she will find this out. The great thing is to teach her their just value, and that there must be something better under the bonnet than a pretty face for real happiness. But never sacrifice truth.

KENTUCKY.

LOUISVILLE, KY., July 3d.—In the Kentucky Circuit Court, the arguments in the case of Brady & Davis vs. the Louisville and Nashville Railroad, for refusing to transport goods to Tennessee, were made to-day. The Court expects to render a decision on Saturday or early next week.

To-day the Tennessee Directors of the road, who were summoned by telegraph, met here, and overruled the decision of James Guthrie. The road is now opened for freight until the decision of the Court is rendered. Shippers intend to send on freight to-morrow, but Mr. Cotter, the surveyor of this port, threatens to seize all articles destined for Tennessee, which may be delivered on the road.

There are now seven full companies in Col. Rosecan's regiment in camp. Several officers of the State Guard have resigned and entered the U. S. service under Col. Rosseau.

Col. Tilgman of the State Guard has resigned, and gone with a considerable portion of the regiment to join the Tennessee troops.

An investigation into the political opinions of the teachers in the public schools is going on. Many of them are reported to be secessionists.

The Journal has a letter from a member of Col. Duncan's regiment, giving a distressing account of affairs in Virginia. He says the men are half fed, have no clothes except what they left Louisville with, and are treated like dogs, and if the men could exercise their will they would return to Kentucky.

The Democrat has a statement to the same effect, made by a deserter who has reached here from the same regiment.

A lot of guns sent to Columbus from Union City, Tenn., lately, were returned by the citizens of Columbus.

A company of 76 men passed here today from Lexington, destined for the southern confederacy. Their expenses were paid by Governor Harris. Another company for the same destination is forming at Paris, Bourbon county.

WESTERN VIRGINIA.—*Wheeling, July 3.*—Both Houses of the Legislature organized yesterday. Lieut. Gov. Parsley took the chair of the Senate, and Daniel Frost of the House.

Gov. Pierpont's message was sent to both bodies last night, together with a document from Washington, officially recognizing the new government. The message is a very able document, and gives unusual satisfaction. It contains a succinct review of secession in Virginia, and of the causes leading to the formation of the present government, and recommends an earnest co-operation with the federal government.

Twenty-seven thousand dollars in specie, belonging to the State, was seized and brought here last night, by order of the government, from the Exchange Bank of Western Virginia. It is supposed that Governor Wise was heading for Western Virginia to get this money.

A dispatch says the Rebel Convention at Richmond formally expelled the members elected from Western Virginia, and provided for the election of a President and Vice President for the southern confederacy, to be held in November.

☞ The Connecticut Legislature, by a decisive vote, have rejected the proposed Corwin amendment to the Constitution of the United States.

The "Southern steel" which Jeff. Davis said the nation should feel, is felt in the nation's pockets, through the stealing of Jeff.'s constituents. They have stolen some millions.

☞ The new rifled cannon made by order of Gov. Andrew, and about to be sent to Washington from Boston, per steamer Susquehanna, is left behind at Boston, by order from Washington.

Breaches of Contract.—Those furnished by the army contractors to most of the new regiments.

☞ Three-fourths of the war stores held by Marshal Kane of Baltimore, are said to have been stolen from the train that carried the Sixth Massachusetts Regiment.

☞ The Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents; $1 per year, in advance.

Dr. Wistar's Balsam of Wild Cherry.

Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic*, diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease.* Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy.*

Further Testimony.

ANDOVER, N. H., Oct. 15, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr. Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.

Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings without the slightest benefit.

The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and debilitating night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.

Yours, very truly, GEO. W. CHASE.

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lo.ness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating exercises and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

☞ Guns,cannon, pistols, crackers and torpedoes seemed to be quite as effective Wednesday night in making a hideous noise, as they were when "we were boys together." The customary bonfire was built on Market Square, and somebody sustained a loss which no insurance covers. (Quo. If "one cord of wood makes one bushel of ashes," how many cords were burnt to make the pile seen on Market Square Thursday morning?) A few persons with a drum, paraded the streets a portion of the night, and hand organs discoursed their dulcet music in the afternoon, on Market Square—perhaps not alone meriting the epithet, dull act.

Flags were flying in every quarter of the city—the beautiful new one on the Custom House perhaps eliciting as high a degree of admiration as any other.

☞ A boy of 15 years, son of Mr. J. H. Finder, accidentally fired a pistol ball through the palm of his own left hand, on the 4th;—and a young man named Walden had one of his hands shattered by the discharge of a load which he was trying to draw from a gun.

☞ A slight fire, on the roof of the City Hotel, occasioned quite a general alarm in this city, about eleven o'clock on the morning of the Fourth. It was extinguished by the application of a few buckets of water.

The fish market near Liberty Bridge, on Water street, also took fire about the same time, but it was promptly extinguished. A fire in the bushes, in the western part of the town, about a mile and a half from Market Square, prolonged the alarm which was given when the City Hotel was discovered to be on fire; and some of the engines started for it, but gave up the pursuit.

OBITUARY.—Died in Kittery, July 5, Capt. Joseph Cutts, aged 97 years. Capt. Cutts was formerly a merchant in extensive trade; but met with reverses, and has been insane for the last quarter of his long lifetime. He was a descendant of the old Cutts family, so eminent among the early settlers on the Piscataqua, and was connected by marriage with the no less eminent Pepperells. He closed his life in the mansion which was built for Lady Pepperell after the death of Sir William—on the 97th anniversary of his birth.

The funeral services will be performed on Sunday afternoon.

☞ The following is the Saturday Evening Gazette's explanation of the misunderstanding, through which the Nelly Baker was stopped as she was passing Fort Constitution on Saturday night last:—"The sentry on the fort hailed the steamer with 'What boat is that?' The reply, as it indistinctly came to the sentry's ear, terminating in '—aker,' he construed it into, 'Don't you wish you may take her?' whereupon he told them to stop or he would fire. A council of war was immediately held, and, as there was no offensive weapon on board save a demijohn of petroleum, between decks, it was deemed best not to resist, and Herr Stolz, who was a passenger, seized a trumpet and, standing upon the wheel house, proclaimed her 'name and purpose' in distinct tones. The response came back —'All right—pass Nelly Baker," and the Nelly B. whisked up the Narrows to Portsmouth."

☞ We were ready, willing and anxious to publish an Extra Chronicle on Friday forenoon; but could get no dispatches from our reporters in Boston, (they being so busy with their own papers, as to be unable to accommodate us) till too late to serve our purpose. To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE, Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 29, which is as follows:

Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon the complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

WINSHIP'S PATENT UPRIGHT

Self-Ventilating Refrigerator,

Thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has given a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impart each other.—Milk, delicate fruits and meats can in this be preserved much longer than in any other Refrigerator.

TEACHING THE FUGITIVES.—The following notice appears in the last number of the American Missionary:

"The six hundred fugitives now at Fort Monroe and vicinity (and the number in the army will soon be thousands—of course not property, but free under the rules of war,) will be more useful if instructed in letters. We propose to do our part in the circulation of spelling books among them.—Soldiers will be glad to teach them. Will not liberty loving Tract Societies get up spelling books, with striking illustrations of the remarkable change of chattels into freemen, for this purpose?

From the Portsmouth Journal.

PORTSMOUTH STEAM FACTORY.—We regret to say that the wheels of our great factory have this week ceased revolving. The quantity of goods on hand rendering further operations, at the present cost, an outset to the stockholders, the directors proposed a reduction of wages as the only means of continuing employment to the operatives. The reduction was about ten per cent., and the wages at the reduced rates were higher than now paid at the mills at Dover. The spinners connected with a protective union of operatives elsewhere in New-England, after consultation agreed to dissent from the reduction, and so withdrew from the mill, and during the strike will be entitled to receive a small weekly compensation from the funds of the association to which they have contributed.

As the stock of cotton on hand will sell at a great advance on cost, the interest of the mill will suffer less by the operation than the hundreds of families who have had their regular support from the Factory. The stoppage of the distribution of $10,000 per month in our city must be sensibly felt. Under the existing state of things, when there is little hope of doing better elsewhere, it would seem to have been the wisest policy to have worked at the reduced rate. However, those who are most interested know better than we do about the matter.

NEW STABLE ARRANGEMENTS.—After twenty years' service of the public, and in a very accommodating way, our old friend, Mr. Somerby, has disposed of his establishment to Mr. FRANK H. BLAISDELL, who having ample means to fit up in handsome style, is already renewing the stock. New carriages are taking place of the old, and choice horses are being put in the stalls. We noticed on the Fourth in our streets an elegant coach, drawn by a pair of handsome black horses; the whole being in a style much above what we have seen from our stables, led us to suppose it was some private establishment. We learnt on inquiry that it was from Blaisdell's stable, and for the service of the public. Some enterprise displayed in this branch of business, and conducted upon the gentlemanly terms which the proprietor will doubtless show to the public that he can exercise, will be a matter of public utility, and we hope will meet with deserved patronage.

Tennessee has two eminent loyal sons, U. S. Senator Johnson, and Emerson Etheridge of the House. They have both *escaped*, and were to take their seats on the 4th of July. It now appears that the secession Governor of Tennessee, Harris, had issued an order to arrest Johnson; and Gen. Pillow "advertises for the *head* of Emerson Etheridge." It is added no man needs a *head* more than this same General, whose now is

"Soft, as downy pillows are."

Pillow was Mr. Polk's law partner, and with Pierce and Cushing, was made a Brigadier in the Mexican war. "Now the rest of the acts of" this famous trio, "and all which they did, are they not written in the Chronicles of" the Presidents of that and succeeding periods?

The Sabine went into commission Aug. 23, 1858—has been the flag ship of the Paraguay expedition—returned to New-York May 9, 1859—sailed from New-York June 25, for Aspinwall—remained in that locality till Sept. 1860, when she left for Vera Cruz. In Jan. 1861, left for Pensacola, reinforced fort Pickens, and remained on the blockade until leaving for Portsmouth.

At the recent Annual Commencement of Columbian College, Washington, D. C., the degree of Bachelor of Arts was conferred on Elliott Cones, of Portsmouth, N. H. He delivered the Classical Oration, and received the first medal for elocution,—the gift of Hon. Isaac Davis, of Massachusetts.

Mr. Gangooly has arrived in Calcutta, by the overland route to Bombay, and from thence passing central India by land. He writes: "My journey through India has been interesting. I have received a very kind reception from Mr. Dall, *and from my dear mother.* As you said, our meeting each other face to face will settle all the points that have been misunderstood. I shall stay here till it becomes necessary for me to live at a little distance, as my dear mother says she *would not desert me*, and let me live alone. God grant that I might find her always with me as long as she lives! as I shall be able to do her some good, and show her what Christian life is."

Mr. Dall soon after left, and has arrived in England, on his way for a visit to the United States, leaving his mission and school in charge of Mr. Chess and Mr. Gangooly.

Stabling Business.

THE subscriber having spent twenty years in the Stabling Business in Portsmouth and enjoyed the patronage of a large number of his fellow citizens, would now inform them that he has disposed of his LIVERY STABLE, &c. to Mr. FRANK H. BLAISDELL. He would tender to his old friends his grateful acknowledgements and commend his successor in business to their patronage, who will continue at the old stand on Congress street.

All persons having demands are requested to present them, and all indebted to make immediate payment.—He may be found at his old counting room for the present. SHERBURNE SOMERBY.

Portsmouth, July 6, 1861.

PROFESSOR WOOD'S

HAIR RESTORATIVE!

SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes:

ST. LOUIS, July 10, 1860.

O. J. WOOD, Esq.—*Dear Sir:*—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 5 years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity, at this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken the pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug, saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article, said to be as good, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of these charlatans have not brains enough to write an advertisement, as I notice they have copied your word for word, in several instances, merely inserting some name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, some for hair, scald head, dandruff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, but learned you were now living in New York.

You are at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1020, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper puffs. In our own vicinity it has been extensively used, and we believe in every case with every desired result, and receives the universal indorsement of all who have tried it. We therefore recommend it as one of those few genuine nostrums which accomplish all they profess, and all the bald and gray could desire.—*Columbus Sun.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried the Restorative.—*Ev'ng Mirror Branch.*

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the head had become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair. It also has curative powers of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of this remedy, and its effects can only be beneficial, as the compound, if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—*Boston Transcript, April 22, 1859.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums—but we take great pleasure in recommending Prof. Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Finley Johnson, speaks highly of its value, and its benefit on its application, and joins with us in speaking of its virtue. Let all try it, and bald heads will be as rare as snow in summer.—*Baltimore Patriot.*

WARREN SPRINGS, Perry Co., Pa., June, 7, '60.

PROF. WOOD:—*Dear Sir:*—I was induced more than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for years, and had never been able to get anything to do me any good until I saw your advertisement in a Harrisburgh paper. I bought a bottle, and am now prepared to recommend it to anyone for use, for it has completely removed all dandruff from my head, and an application once in two weeks keeps it free from itching and other unpleasantness. I must also state that my hair had become quite white in places, and by the use of your preparation, has been restored to its original color. I am now 70 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain, in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, altho' I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you. Yours, &c., H. H. ETTER.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARTICLE IN THE FIELD.—Prof. Wood stands on an eminence no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is world-wide, and thousands who have worn wigs or been bald for years, are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry. Prof. Wood studied out the human hair, its properties, its diseases, and how to restore its decayed vitality; he saw, as in his own case, that gray hair is unnatural unless the age of the individual had reached fourscore, and he believed that the hair could be re-vitalized. He tried his own case—almost bald and wholly gray at 50—he resuscitated his own hair—and the article he did it with he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Day Book.*

REAL ESTATE IN NEW CASTLE FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and in in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupancy of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "a good business" and a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT, MARKET SQUARE.

Portsmouth, N. H., May 18, 1861.

VALUABLE FARM FOR SALE.

Being out of health, and having no family, I offer for sale my FARM in Kittery, known as the "CUTTS FARM," consisting of about 125 acres of mowing, tillage, orchard and pasture land, with a two-and-a-half story DWELLING HOUSE and BARN, SHEDS and other out-buildings, all in good repair.

The land is excellent, and has a good orchard of 200 grafted fruit trees. The situation is very pleasant, on the road from York to Portsmouth, about three miles from the latter place—and would furnish to the purchasers not only an excellent farm, but a very desirable residence.

Terms of sale easy, and immediate possession given. For further information, call on the subscriber, on the premises.

NEW HAMPSHIRE ITEMS.

Capt. Gustave Von Gerber, a native of Prussia, and an officer in the army of Schleswig Holstein during the three years' endeavor to separate from Denmark, has left Manchester, where he has resided for many years, and has gone to Newport News to offer his services to the Government, in one of the German Regiments.

Joseph B. Clark, Esq., of Manchester, has gone to Washington, in behalf of the Governor, to see about the Third Regiment from New Hampshire.

In consequence of a leak in the vessel, the schooner Martin W. Bates, loaded with lime, and lying at one of the wharves in Dover, took fire on Monday evening. It was soon discovered and extinguished.

The annual meeting of the stockholders of the steamer Dover, was held on Monday, on board the boat, between Alton Bay and Centre Harbor. William Hale and William Hill were chosen Trustees, and Woodbury T. Prescott, Treasurer and Clerk. A dividend of six per cent. was paid to the stockholders.

Col. Jarvis of Claremont last week sheared from a buck less than a year old, a fleece, *well washed and of fine grade*, which weighed fifteen pounds!

The Claremont Eagle says the cut worm is doing extensive damage to the corn crop in that region. Many fields, prepared and planted with the greatest care, and from which heavy crops were anticipated, look as though fire or frost had laid them waste.

It is said a very destructive fire occurred in Bristol, on Thursday morning, by which the most of the business part of that thriving village was destroyed. The fire was discovered at about 4 o'clock, and swept all the stores and buildings on the west side of the street, from the bridge to Prescott's stable. Loss, $17,000; Partially insured. It is supposed that the fire was caused by a fire-ball thrown into a window by a boy.

A PHYSICIAN IN CANADA SENTENCED TO BE HUNG.—Dr. Jesse Patterson, of Clarenceville, Canada, had his trial last week, on a charge of murdering a young girl of that town, in an attempt to hide her shame from the world. The Court, in passing sentence of death, remarked on the deplorable state to which society would be reduced, if such crimes as the prisoner had committed, were to become frequent, dwelling with strong effect on the wickedness of the man, who for thirty dollars, had destroyed the lives of two human beings, and sent to the grave, burdened with ignominy, and pointed at with scorn, a young and beautiful girl, destined perhaps, but for his baneful arts, to lead a long and happy life. He is to be executed on Friday, Sept. 6th.

A fellow was arrested at Phillippa the other day for selling drugged liquor to the soldiers. He was compelled to swallow a pint of his own medicine. It made him awful sick, but his strong constitution was his salvation, though it is believed he will not traffic any more in drugs with the soldiers.

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Ghidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1859, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*s, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particular reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

MONDAY, JULY 8, 1861.

MAINE.

It appears from the Augusta Age and Bangor Democrat that there are to be *two* Democratic conventions and parties in Maine, this year, viz: the Breckinridge, and the Union. The former is a small party,—the latter much larger. The sparring between the two is quite brisk.

For example, the Machias Union is a Breckinridge paper, and it says of certain papers:—"They think it will pay to try to subdue the South; *perhaps* it will!"

On the other hand, the Bath Times is a Union paper, and it retorts thus:—

"So because it won't *pay*, the Union goes against the war. Treason *pays* better than loyalty, and therefore the Union turns traitor. Benedict Arnold did the same thing, and with the same motive. It didn't *pay* to go bare foot in the continental army, and Arnold was a 'soldier of *fortune*.' He has left descendents."

The Times, in speaking of the Breckinridge convention, says:—

"The fact is known that the *secessionists* of this State are to meet in a nest of their own building, and that the *Democracy*, whose convention is called for the 14th of August, at Augusta, will *not be troubled* with them."

The Bangor Democrat contains the call for the Breckinridge convention—on the ground of "opposition to this unholy civil war."

The Augusta Age replies:—

"The Committee propose to run the machine in '*opposition to this unholy civil war*' and in favor of the *immediate restoration of peace* by negotiation and compromise."—There is not probably a man in the Democratic party who is not opposed to this 'civil war'—who does not regard it as an 'unholy' one; and who is not in favor of the 'immediate restoration of peace.' But these facts do not change our duties in the premises.—For this 'unholy civil war' was inaugurated by the Southern insurgents, who can stop it at any moment by returning peacefully to their several places of abode, and rendering due obedience to the Constitution and laws of their country; and until they do so, it must be met and put down, just as the government is now meeting and putting it down. That the government will fully succeed in doing so—and that right speedily—is the prayer of every loyal American citizen.

☞ The session of the Legislature, which terminated on Thursday afternoon, had continued twenty-six working days. The resolves upon National Affairs were adopted unanimously in a full House, and the Clerk was directed to record the fact that not a vote was given against their passage. The "Corwin amendment" to the Constitution was not adopted. A large amount of business has been done. The list shows 41 Public Acts, and 21 Public Resolves: 25 Private Acts, and 14 Private Resolves—making a total of 101.

The Statesman pronounces the session "the most harmonious of any for at least a quarter of a century."

FIRST UNITARIAN CHURCH, CHICAGO. After being pastorless for nearly two years, the First Unitarian Church has invited Rev. Charles B. Thomas, late of New Orleans, to become its pastor. Mr. Thomas was pastor of the Unitarian Church in New Orleans, over which Dr. Clapp was settled with such success for thirty-eight years. He remained in that city till it was incompatible with personal safety for him to remain longer; and came to the North only when it became necessary for him to take sides with the secessionists if he would remain.—Born and reared almost within sight of Plymouth Rock, he could never prove false to the New England idea of freedom, or countenance the attempt to break in pieces this glorious republic; and so he left New Orleans, for which, we trust, Chicago will be grateful.—*Chicago Covenant.*

CASUALTIES OF THE WAR.—The total number of casualties on the side of the federal forces that occurred during the month of June, was 167. Of these, 54 soldiers were killed, and 84 wounded in battles and skirmishes; 20 were killed and 5 were wounded accidentally, either by the careless use of fire arms, or by drowning, or being run over by railroad cars; 3 died of disease and 1 was shot for disobedience of orders. On the part of the rebels it is impossible to state accurately the number of killed and wounded; and perhaps we may never be informed of the true state of facts in reference to their casualties. As far as our knowledge extends, however, there have been 84 killed and 20 wounded in battles and skirmishes. At the attack of Home Guards of St. Louis, upon citizens on the 17th ult., six persons were killed.

☞ The English authorities have refused to allow Blondin to show off his child in a dangerous exploit on the tight rope.

LETTER FROM WASHINGTON.

WASHINGTON, June 29.

Messrs. Editors:—It was on one of the finest of days, that I made a flying visit through the fortifications and camps around Washington. With a fast horse, and Dr. K. as guide, I soon arrived in the suburbs, where we passed long trains of military wagons, laden with the sinews of war, on their way to camps. Among them, I noticed two of the N. H. Regt.; they being the only ones that are lettered.

A regiment that has just arrived in the city, first came in sight. At the side of the road were piles of baggage and tents.—Wagons drawn by mules were moving down a cross road; a park of artillery was about being unlimbered and placed in position;—every one was busy, and animated with the novelty and excitement.

Passing into a piece of woods, we came to the camps of the 1st and 2d Rhode Island Regiments, which are undoubtedly the best arranged here. Gov. Sprague has spared no expense to make a model camp, for the health and comfort of his men. In place of tents, they had pretty little cottages, with verandas in front, where seats were placed, and the men were reclining with as much comfort as if they had been on the front of the St. Nicholas. Shade trees and pretty beds of flowers ornamented the sides of some; and all had an appropriate motto on the door; among them was, "Welcome Home," "Soldiers' Retreat," "Glen Cottage." All of them had rows of bunks arranged along the sides, one above another. I here received an introduction to Gov. Sprague. Entering the apartment, I found everything useful that one could wish. I noticed on the wall a large chart of the camps and surrounding country.—Gov. Sprague is about 30 years of age. When I arrived at his quarters, he was engaged in a frolic with some of the officers and men, who were about being measured for suits of clothing.

Passing on, we arrived at the N. H. 2d. I found every one in good spirits and all well. The baggage wagon that was fired into a few nights since, on the way from Washington to camp, was driven at the time by Benjamin Leake of the Portsmouth company and private Gray. They both fired into the woods, and then mounted the horses and rode into camp. Capt. Sides aroused the regiment, and sent two companies in search of the marauders.

This being my last visit to the camp, I had many a last word from the men to take home to Portsmouth. After a pleasant chat with Col. Marston, Capt. Sides, and many other friends, I bade them farewell, and drove away from the camp, leaving behind me many whose friendship I had prized in the many thrilling scenes through which we had passed during the past week. In the pleasant woods of Columbia I left them: they were all there, well and happy. Noble sons of Portsmouth and the Granite State! One of them, as I was about leaving, took me by the hand, and said: "Tell them that we are ready for the fight, and when you hear of us, in battle it will be where the shots fly thick and fast and where the strife is the hottest. Tell them that Old Strawberry Bank will do her duty."

We entered Washington again, for the purpose of getting a pass from Gen. Mansfield to go over into Virginia. We soon had the requisite document and drove to the ferry boat.

We first arrived at the N. Y. 69th Regiment. Here were thrown up immense fortifications, measuring 1600 feet around, twelve or fourteen feet high and ten feet thick at the top. In front were deep ditches, ten feet wide. The ramparts were all mounted with heavy cannon, pointing in every direction. The men were at work completing these defences, building block houses, erecting palisades of white oak, and digging in the trenches. Shot, shell, grape, and powder were at the side of each gun, ready for action. In the fields were thrown up long banks of earth for riflemen; and look-outs were erected in the highest trees, from which to watch the enemy. In the centre, covered with earth, was the magazine. A tunnel leading to the door was well guarded by soldiers.

This part of the country is admirably adapted for earth-works, the soil being free from stones and easy to work.

We visited several other camps and then strolled up to the head-quarters of Gen. McDowell, which are at the late residence of Gen. Lee, now of the rebel army. This fine old mansion of Revolutionary fame stands on the very summit of Arlington heights, and commands a magnificent view of the Potomac for many miles, and a grand bird's eye view of Washington. The mansion is quite large, built of marble and brick, and ornamented on the front with eight Doric columns, five feet in diameter. Fine lawns and gardens stretch out on every side, making it one of the most attractive spots in old Virginia.

It was nearly eight o'clock and getting dark, but we could not resist the temptation to visit the camp of Ellsworth's Zouaves.—The regiment was looking finely, but the loss of one of their captains cast a gloom over the men.

The shades of evening were coming on, and we thought it about time to turn our horse towards home. We had hardly arrived outside of Alexandria when our horse was suddenly stopped by a sentinel stationed in the middle of the road. The soldier ordered us to "give the countersign," which we did not have; but we informed our challenger that we had in our possession a pass from Gen. Mansfield. But this would not allow us to proceed, and so we were summoned to headquarters, there to await an examination. Fortunately, however, the Dr. knew the Colonel, who let us off without further delay.

After being eight times subjected to similar ordeals, we succeeded in getting into the city about midnight; and the next morning I took the cars for home, arriving in Baltimore the day after the seizure of arms and the arrest of Marshal Kane.—The city appeared quiet, although I was informed that the secessionists were ready to make a bold stroke whenever an opportunity occurred. I took tea at the Barnum House, and started for Harrisburg at eight o'clock; rode 100 miles on the night train, passing the Maine 5th and a N. Y. Regt. en route for Washington. J. H. H.

WASHINGTON, July 5.—From all the nations of northern Europe, and Spain and Italy, most hearty and sincere expressions of sympathy for the United States in the present contest are furnished to this government. No privateers will be allowed to enter any foreign port. Secession is dead and buried in Europe.

After the discharge of the 3 months men there will still be an available force of 188,000, or including the regulars, 230,000.

Excellent order prevailed yesterday, and the review of 18 or 20 New York regiments constituted the grand feature of the day.

More regiments (including Griffin's battery) marched over into Virginia last night. The Garibaldians crossed this morning with their baggage. The troops have advanced within three miles of Fairfax Court House.

LOUISVILLE, July 5.—A secession flag raised yesterday was torn down and burned by the citizens in the neighborhood.

The Unionists here celebrated the 4th enthusiastically. A magnificent national flag was raised at Walker's Exchange.

A proclamation has been issued by Gen. McCulloch calling the citizens of Arkansas to sustain the Missouri troops on their frontier and ordering a rendezvous at Fayetteville.

Governor Pettis of Mississippi issues a proclamation calling on the State officers to collect all the arms, rifles and shot guns, new or old, in or out of order, and send them to Jackson.

The Tennessee Legislature, passed a bill exempting State bonds for military purposes from taxation. Another act authorizes the Governor to issue Treasury notes to the amount of three millions.

NASHVILLE, July 4.—The up and down passenger trains on the Louisville and Nashville road were seized this morning at Camp Trousdale, by order of Major General Anderson, and both brought here.

The seizure was necessary for protection. Trains continue to run without interruption.

ALEXANDRIA, July 4.—All quiet here, and at Camp Tyler. The bars are all closed and the soldiers confined to camp, as a precaution against the possibility of an attack. The position is secure. Two balloons from the secession camps have been seen reconnoitering.

James I. Devoll of this city, one of the crew of ship Abæline of Boston, seized some time since at New Orleans, arrived home on the 2d inst., via Chicago. He states that he was imprisoned in New Orleans nine days, and his personal effects, with those of one hundred other prisoners, were confiscated.—*New Bedford Mercury.*

FROM NEW ORLEANS.—We learn by a letter of 22d June from New Orleans, that the prospects for the cotton crop are very fine. The war, however, absorbed all interest and was the constant topic. There was no business doing, except fitting out military companies, which were leaving for poor "old Virginny" every day.

MURDER IN AUBURN, ME. — A man calling his name Joel Carlton, but whose real name is supposed to be Preble, (son of Whitefield Preble, now in State Prison for murdering his wife,) murdered his wife in Auburn on Thursday evening by stabbing her with a file which had been sharpened to a point for the purpose. The deed was committed in the street. It is supposed he was instigated by jealousy. But a few days ago his wife raised money enough to take him out of jail. He fled, it is supposed, to Canada, and officers are in pursuit of him.

☞ A meeting of the Board of Trade and business men of Portland, was held on Saturday evening, to consider a proposition to close the places of business on Saturday afternoon, during the next two months.

ST. LOUIS, July 6.—A dispatch, dated Little Rock, Ark., 3d, says the military board has issued a proclamation for 10,000 men to repel invasion by Federal troops through Missouri. Each company is to arm itself, furnish their own tents and camp equipage, which will be paid for by the State.

THE PRESIDENT'S MESSAGE.

This important and able document occupies four columns of the Boston dailies of Saturday, and has been read in them by most of our readers.

A very important part of it, of a material character, is that of a call for four hundred thousand men and four hundred millions of dollars, for the purpose of making this contest a short and decisive one. This, he says, would require in number of men about one-tenth of those of a proper age within the regions where apparently all are willing to engage; and the amount of money is less than a twenty third part of that owned by the men who seem ready to devote the whole. A debt of six hundred millions now is declared to be less, proportionally, than that with which the country came out of the struggle of the revolution, and a right result at this time to be worth more than ten times the men and ten times the money.

The President clears himself from any deception as to his course in provisioning Fort Sumter, the object being simply the carrying out of the peaceful policy of the inaugural, in retaining such property as still remained in the possession of the government, relying upon time, discussion and the ballot-box to accomplish the result. Major Anderson, and Gen. Scott concurring, had given the opinion that 20,000 men would be necessary to hold the fort. Such a force not being available, and not being ready for the consummation of our national destruction, it was resolved to afford aid to the garrison, and at the same time to notify the Government of South Carolina that, if the attempt should not be resisted, there would be no effort to throw in men, arms and ammunition, without further notice, or in case of an attack. In this view, he insists that the attack upon the fort was in no sense a matter of self-defence on the part of the assailants.

The President shows up the pretended armed neutrality of some middle States, to be a cheat and a sham, cheating the loyal, honest citizen and favoring the rebel thief.

The President has no doubt that he has done his duty in arresting a few rebels, and in partially suspending the *habeas corpus* in their cases: Congress and the people will bear him out in it; but the traitors Merryman and Kane, with their associates, in Congress and out, will find fault.

The positions of the President as to the right of secession, and that this is essentially a people's contest on the side of the Union, a struggle for maintaining a popular government before the world, few persons will dissent from, save those who sympathise with secession, or have already committed themselves to the rebellion. The establishing and successful administration of the government having been settled in the so-called experiment of our government, the President says, one point only remains, that of successful maintenance against a formidable internal attempt to overthrow it. This the people are now to demonstrate, and such will be a great lesson of peace, that what cannot be taken by an election, cannot be taken by a war.

As an indication of the response to the Message, it is stated that its reading was received with great cheering, especially the portion calling for more men and money.

NEW YORK, July 6.—Gen. Johnson is within seven miles of Patterson's army, with 11,000 men, of whom 600 are cavalry. Gen. Patterson expected to reach him by sunrise this morning.

Gen. Fremont has been appointed to the command of the Western Department, including Illinois and the States and Territories between the Mississippi river and the Rocky Mountains. Headquarters at St. Louis.

Reports from Mathias Point say the rebels have a battery of rifled cannon, supported by 1600 infantry and cavalry. The steamer Philadelphia with an extra marine force under Lieut. Parker has gone there reconnoitering.

Col. Stone's column was on the point of occupying Harper's Ferry at two o'clock yesterday.

Mr. Appleton of Mass. voted with the Republicans for Grow, and on the Virginia question.

Attorney General Bates has prepared an opinion of some length fully endorsing the President in suspending the writ of habeas corpus in Merriman's case. It is stated that no compromise propositions will be presented in either branch of Congress.

Samuel Colt has received an order from the War Department for 25,000 minnie muskets.

Two South Carolina regiments are at Springfield, eight miles from Alexandria.

The rebels are advancing toward our lines, and preparing defenses to cover their retreat in case they are driven back.

Two Ohio regiments surprised a nest of rebels at Buckhammon, Va., capturing 400, killing 30, and seizing 200 horses.

FORTRESS MONROE, June 5.—The Monticello made a reconnoissance up James river this morning, five miles from Newport News. She discovered a rebel force of 700 on shore, and immediately opened a brisk fire upon them. Eight companies were sent up to sustain her.

The obnoxious flag of truce came down again from Norfolk, accompanied by a tug bearing the British flag. The British Consul at Norfolk, a noted secessionist, was on board, and persists in the effort to visit Baltimore.

Do good with what thou hast, or it will do thee no good.

All persons who sell Herrick Allen's Gold Medal Saleratus are authorized to give their customers the privilege of using one-half the paper, and if not perfectly satisfactory, to return the balance and get the amount paid for the whole. Oxygenated Bitters.—This is a remedy for Dyspepsia, Indigestion, and the numerous disorders of the stomach. It was discovered by a regular physician, after years of research. It is unlike all other medicines, and extracts the disease by its roots, leaving no vestige behind.

Dr. Wistar's Balsam of Wild Cherry.
Where this article is known, it is a work of supererogation to say one word in its favor, so well is it established as an unfailing remedy for *Coughs, Colds, Bronchitis, Croup, Whooping Cough, Asthma, Quinsy, Phthisic*, diseases of the *Throat, Chest* and *Lungs*, as well as that most dreaded of all diseases, *Consumption*, which high medical authority has pronounced to be a *curable disease*. Those who have used this remedy know its full value;—those who have not, have but to make a single trial, to be satisfied that of all others it is *the remedy*.

Further Testimony.
ANDOVER, N. H., Oct. 15, 1859.
Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—I have an earnest desire that all persons suffering from pulmonary complaints should know the wonderful virtues of *Dr Wistar's Balsam of Wild Cherry*, and make the following statement with the hope that some skeptical person may be induced to give it a trial.
Six years since I was attacked with a violent cough, and resorted to physicians, first at home and then abroad, of acknowledged skill and reputation, and made use of many patent medicines; but the result of all this only loosened the purse strings without the slightest benefit
The disease augmenting to such a degree as to defy the skill of physicians and the hopes of friends, I was induced, as a last resort, to make trial of your popular Balsam, without any confidence in its merits, as that had been destroyed by numberless trials of advertised nostrums. *But the effect was magical!* My friends were again hopeful, and I was astonished at the rapid change. The racking cough, the severe pain in my side, and deluging night-sweats which had reduced me almost to a skeleton, abated, and I was soon in a fair way of recovery, and by a continued use of the remedy was restored to good health.
Yours, very truly, GEO. W. CHASE.

American Women.
America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.
One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 dawâm

NEW HAMPSHIRE ITEMS.

In Concord, on the Fourth, a young lad named Frederick Favor brought a lighted match near the faucet hole of an empty fluid barrel, which was standing on a sidewalk in front of a store. An explosion took place, equal to that of a small cannon. The head of the barrel, which was thick bass, was broken very much, and thrown through the plastering, underneath the piazza on the store. The concussion also broke out six lights of glass in the store. A piece of the fragments hit young Favor on the side of the face, near the mouth, and made a very bad flesh wound, but it is thought he will recover. The explosion was occasioned by the ignition of the gas which had accumulated in the barrel, as it sat where the sun's rays could fall upon it during the hot day.

On Thursday evening, about 10 o'clock, Mace White, of Canaan, shot Aaron Bradbury, of the same place, the charge of shot or slugs lacerating the femoral artery so that death resulted. Bradbury was one of a party of young men who were engaged in some noisy demonstrations near the house of White, the night before the Fourth, and White made the threat that if the din was repeated, he would shoot those engaged in it. Some noise was made on the following evening, and White executed his fatal purpose. Bradbury was a laboring man, aged about 30 years, and had been all his life a resident of Canaan. After firing the fatal shot, White fled to the woods near by, but will probably be captured.

BALTIMORE, July 5.—The following is by mail from Martinburg, Thursday noon The whole army moved here yesterday and incamped, where we are now quietly passing the 4th. Gen. Patterson has given strict orders to shoot the first man caught stealing private property, and the order will be rigidly enforced.

Johnson has moved forward the heaviest part of his column to Bunker Hill, a small village ten miles below his column. He has been seriously weakened by sending 4000 men forward to assist in opposing McClellan's advance. It is, therefore, reduced to about 12,000 and is numerically less than ours by 4000.

Col. Burnside's Rhode Island battery will be here to-morrow. Major Doubleday's heavy battery is now here. The Wisconsin regiment and the 11th Pennsylvania have gone back to Williamsport to guard the battery to this point and also the provision train.

About 50 cavalry passed through here yesterday, just before the head of the federal troops reached here. They were in a very great hurry.

The people of this town received our troops with quiet but deep demonstration of joy. Ladies and children thronged the streets in perfect security, with joyous hilarity within two hours after our troops pitched their tents.

After 8 o'clock not a soldier, save the guard, was to be seen in the streets.

ALBANY, N. Y., July 5.—At about seven this morning a fire broke out in the freight house at the Boston depot in East Albany. So fierce was the conflagration that nothing could be saved from this side of the river. Five canal boats and steam dredges which were in the slip had no time to get afloat, and the persons in them barely escaped with their lives.

The destruction of property embraces two large freight depots, passenger depot, the ticket office, the elevator, fifty-four car loads of freight, eight car loads of live hogs, five canal boats and one valuable freight bridge. The long passenger bridge was partially saved. The canal boats were all loaded with grain.

The whole dock was burned, and so entire was the destruction that everything at the depot is swept clean.

The loss will exceed half a million. The buildings that were destroyed cost the company over $40,000. The company had no insurance.

☞ The Second New Hampshire, and Seventy-first New York, and two Rhode Island Regiments, now constitute a brigade under the command of Col. Burnside.

MR. AND MRS. DICKENS RECONCILED. Mr. and Mrs. Dickens have been reconciled, and are again living together. A London correspondent says:—

"Let us trust that we shall hear no more of incompatibility. The fact is, that Mrs. Dickens is a plain, matter-of-fact, sensible woman, without any literary taste, and who, possibly, has not read the whole of her husband's novels. It seems to me that this is just the part of a wife that a *litterateur* should have, seeing that they could not come in one another's way; but Dickens thought otherwise, and sees, I suppose, in the happy relation that exists between Sir Edward and Lady Bulwer a proof of the happiness which must arise when an author and an authoress are united. But Dickens is getting older, and therefore wiser, and sees that he will be most happy in the society of the mother of his family."

Captain Hollins, it is sagely reported by the telegraph, went on board the steamer "St. Nicholas," disguised as a woman. The captain of the steamer must have never seen a woman if he was taken in by the attempted deception. We can conceive of Hollins passing himself off as an "old boy," but not ever as an old woman. If ever nature wrote "masculine gender" on a face and form, she did it on his; and the owners of the St. Nicholas must invent a more plausible story of the mode of her capture if they expect to escape the suspicion that they were in collusion with the pirates who seized her. In the navy, at least, "Captain Hollins disguised as a woman," will be ranked with those stories which sailors are in the habit of recommending their narrators to tell to the marines.—*Transcript.*

Is liked by every one in preference to any other in market for many reasons:—

1. Because it is white as snow.
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
4. Because it answers a double purpose—it will mend all kinds of Crockery, from China down to the coarsest Stone Ware, and at the same time *will* mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles mended never separate.
10. Because it is no humbug, but an honest article, as thousands can testify.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE, Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 39, which is as follows:

Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

REFRIGERATORS.

One of the most economical and indispensable articles in hot weather, is a *good* Refrigerator, (a poor one is not worth buying at any price.) The attention of the public is invited to

WINSHIP'S PATENT UPRIGHT

Self-Ventilating Refrigerator,

thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Stillman has given a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other.—Milk, delicate fruits and meats can in this be preserved much longer than in any other Refrigerator.

DEATH OF A FIRE KING.—By the last steamer we learn that in a great fire in London, on Saturday, June 23d, six lives were lost, and among them was Mr. Braidwood, who was considered the greatest engineer in the work of fighting fires that has ever lived. Braidwood, the superintendent of the London Fire Brigade, was the founder of that organization, which is regarded on this side of the Atlantic, as the most efficient fire department in the world.

SINGULAR ACCIDENT AT A WAKE.—By some accident, the shroud in which the corpse of a young lady was dressed, took fire at the residence of Mr. William Wigging, in Louisville on Friday evening. One of the watchers, a sister of Mrs. Wigging, made an attempt to extinguish the flames, in which attempt her own clothes ignited, and she was so severely burned that she is not expected to recover.

AYER'S

Sarsaparilla

FOR PURIFYING THE BLOOD.

Has for the speedy cure of the following complaints, Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Blotches, Eruptions, Pimples, Pustules, Blotches, Boils, Tetter, and all Skin Diseases.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it broke out in Ulcers on my hands and arms; sometimes it settled toward and distressed me as the cancer. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I held to it, continued and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful over a month, and used almost three bottles. New and healthy skin soon began to form underneath the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel a lively interest in what I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1860, that he had used your Sarsaparilla in severe case of Dropsy, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous Mahogany Erysipelas by large doses of the same; says he cures the common Eruptions by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a very large scrofulous swelling on the neck, which I had suffered from over two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes, "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative in the numerous complaints for which we employ such a remedy, but especially in Female Diseases of the Scrofulous diathesis. I have cured many leucorrhœa cases of Leucorrhœa by it, and seen where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous cancerous tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physicians thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1855.

Dr. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of Venereal and Mercurial Disease. One of my patients had Syphilitic sores in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another patient had secondary symptoms in his nose, and the ulceration has eaten away a considerable part of it, so that I believe it discovered would soon reach his brain and destroy life. He yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfigurement to his face. Another patient I treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that she could not walk, suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which you so kindly gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, G. V. LABINEE, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

Dr. J. C. AYER: Sir, I have been afflicted with a painful Rheumatism for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle made me so much better that I ventured my health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Tiffin, 7 October, 1857. St. Louis, writes: "I have been afflicted for years with an affection of the liver, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken down man for some years from no other cause than derangement of the liver. My beloved pastor, the Rev. Mr. Lang, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so purified my blood as to make me a new man of me. I feel young again. The best that can be said of it is, I am willing to live on account of it."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have been effected by the use of this remedy, but our space here will not admit those. Some of these may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these complaints have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of these and lung complaints, that it is now left to publish the evidence of its virtues. Its extraordinary success for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known far and near, and the distant nations of the earth resort to its ministrations, or even families, among them scarcely one but has personal experience of its effects—some have to bring to their relief its virtues over the grave, and hence the general confidence of the throat and lungs. Who has not witnessed the fatality of these disorders, and of the baffling nature of the effects of this remedy, we need not stop to inquire. Suffice it to say, that it has now all the virtues that it ever had, when making the cures which have led many to speak of it as the medicine par excellence of medicine.

REAL ESTATE IN NEW CASTLE FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution by order of the U. S. Government, offer an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT,
MARKET SQUARE.

Portsmouth, N. H., May 18, 1861.

VALUABLE FARM FOR SALE.

Being out of health, and having no family, I offer for sale my FARM in Kittery, known as the "CUTTS FARM," consisting of about 60 acres of mowing, tillage, orchard and pasture land, with a two-story DWELLING HOUSE and BARN, SHEDS and other out-buildings, all in good repair.

The land is excellent, and has a good orchard of 200 grafted fruit trees. The situation is very pleasant, on the road from York to Portsmouth, about three miles from the latter place,—and would furnish to the purchasers not only an excellent farm, but a very desirable residence.

Terms of sale easy, and immediate possession given. For further information, call on the subscriber, on the premises.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of LIQUORS, WINES, &c., and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the Purity of our Goods, but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

AN INEXHAUSTIBLE BOTTLE.—The First Massachusetts regiment is encamped above Georgetown, near Frizzel's farm, on the hill north of the canal. They are picketing all the way from Georgetown to the Chain Bridge. On the side of the bluff above which they are encamped, they discovered a leaky place, where the water was dripping through, and running in an almost imperceptible rivulet down the hillside.

Taking a spade and slicing off the bank perpendicularly, they knocked the bottom off a pop-bottle, and inserted it neatly in the earth, when immediately there spouted out a splendid stream of water, which, for purity and refreshing coolness, is not to be surpassed, and which has been diligently running ever since, and from whence they obtain water for drinking purposes for the entire camp. They have christened the new springs "The Inexhaustible Bottle."—*Washington Star.*

CAUTION TO DRINKERS OF SPIRITUOUS LIQUORS.—A writer in the Investigator says:—Cases of poisoning by low priced, common spirits frequently occur, and they are caused by the fusel oil which is produced by the fermentation of mixed grains. Newly distilled spirits generally contain salts of copper, of lead, of tin, derived from the condensers in which the vapors are reduced to a fluid form. The quantity of copper salt contained in the bulk usually taken at a draught, is sufficient to produce the symptoms of metallic poisoning. The cumulative character of these poisons may even lead to fatal consequences."

A young English traveller contracted in Valencia a love affair with a pretty gipsy girl. The mother wished that he should marry her at once, but the man declared he was not rich enough to keep a wife. "What," said the gipsy, laughing, "not rich enough to keep a wife in the land of guiness? With so renowned a thief as my daughter, you will in a year be a millionaire."

A cheerful heart paints the world as it finds it, like a sunny landscape; the morbid mind depicts it like a sterile wilderness, pallid with thick vapors, and dark as the "shadow of death." It is the mirror, in short, on which it is caught, which lends to the face of nature the aspect of its own turbulence or tranquility.

The modest virgin, the prudent wife, or the careful matron, are much more serviceable in life than petticoated philosophers, blustering heroines or virago queens. She who makes her husband happy, and reclaims him from vice, is a much greater character than ladies described in romances, whose sole occupation is to murder mankind with shafts from their quiver or their eyes.—*Goldsmith.*

The injustice from which a man has most to fear is his own.

Diligence is a fair fortune, and industry a good estate.

In life's lottery, a plowshare will win the best prize.

Nothing is really troublesome that we do willingly.

COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for six months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1858, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*has it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

TUESDAY, JULY 9, 1861.

NEW HAMPSHIRE ITEMS.

The mills in Somersworth shut down last Saturday evening, and will not resume operations till the first of October.

A letter from Hanover to the Manchester American states that the custom of ringing the college bell the night before the 4th of July, was done away with this year, by the exertions of the Faculty, but with the most narrow escape of two lives. While two of the boys were tying a rope to the tongue of the bell, which was to answer the double purpose of letting them down the outside of the building to the ground, and of ringing the bell when they had reached *terra firma*, one of the Faculty, who was on the "sly watch," cut the rope off against a window in the third story. He thought, doubtless, they would come down the scuttle, when he could take them. But instead, they came hurrying down the rope, not knowing it was cut, and fell 38 feet to the hard ground; if they had fallen on some rocks near by, it must certainly have killed them. As it was, they got off safe from the Faculty without any broken limbs.

The commencement exercises at Dartmouth College will take place on Tuesday, Wednesday and Thursday, the 23d, 24th and 25th of the present month. The class-day exercises will occur on Tuesday. On the evening of Tuesday, President Pease, of Burlington (Vt.) University, will address the Theological Society. On Wednesday, Hon. Edward Everett will deliver an oration, and Rev. John Pierpont a poem, before the United Literary Societies. On the same day, Caleb Sprague Henry, D. D., will address the Alumni. On Thursday there will be the orations of the graduating class. Dodworth's Band of 18 pieces will furnish the music.

The Lake Company, large landowners and manufacturers, are about to erect a new mill at Lake Village, for the manufacture of cotton goods.

A son of Blake Foss of Tamworth, about 18 years of age, slightly affected with insanity, has wandered into the mountains and been missing since Tuesday of last week. The citizens have searched for several days for him, but without success.

Thomas J. Smith, representative from Tamworth in the House of the present Legislature, was hung in effigy in that town on Monday, the 1st. He was one of those who voted against the million loan bill.

A letter written from Camp Sullivan to the Manchester American, says "a person has to exercise extraordinary care in moving outside the lines at night, or be mistaken for a spy or secessionist by some sentinel with the magnifying glasses of fear and caution before his eyes. 'Halt t'ree times!' was the challenge of a Hibernian sentinel, a night or two since, to one of our boys, and the same instant a ball from the musket of the watchful Celt whistled through his leg. His orders were to say "halt," three times, and then fire—and he did so."

THE CAUSES OF THE CIVIL WAR.—This is the title of a ten cent pamphlet, published as No. 20 of the Pulpit and Rostrum. It is from the accomplished historian, Motley, whose fame is deservedly world-wide. It is a very brief and masterly statement of the true design and structure of our Union and Constitution, viz., to create a Government, broad, strong and permanent,—and not a temporary league, alliance or jumble, to crumble to pieces like a rope of sand.

The condition of the country under the old Confederation, is justly styled chaos;—and it is truly said, if secession were accepted and acted upon, through the country, chaos would come again.

The good people of the free States, and thousands of good people in many of the other States, are united in their efforts, and are arming themselves to *resist anarchy*, quell the rebellion, and sustain the government.

The writer of this pamphlet has done them great service. His essay ought to be printed as a tract, and sent to every company in the army, and to every school district in the States, where they keep school.

☞ There were flying rumors at Washington and Baltimore Sunday night, of a battle between the forces of Gen. Patterson and Gen. Johnson, in which the latter was defeated with great loss. There is also a report that ex-Gov. Wise was mortally wounded in a skirmish in Western Virginia. There may be some truth in both these reports, but they require confirmation.

NEW YORK CENTRAL PARK.

NEW YORK, July 1.

Messrs. Editors:— After a long ride of 150 miles, I land in the city of New York, and am now sojourning for a while at the Brandreth House, kept by a gentleman from New Hampshire. The House is conducted on the European plan. You take a room, and get your meals at a restaurant connected with the house, or elsewhere, as you choose. It was here that the grand reception dinner of the 1st and 2d Regiments took place. The proprietor very generously furnished the rooms for the occasion, and was one of the committee. The house is conducted in an admirable manner, and visitors from New Hampshire may confidently anticipate the best of accommodations.

On Sunday afternoon, accompanied by Messrs. Peterson and Frost, I visited the Central Park. This wonder of the world, it is said by foreign visitors, when completed will surpass anything of the kind on the globe. The park contains 988 acres. A portion of it resembles Boston Common; the remainder consists of the wildest and grandest combination of cliffs, hills, valleys, woods and lakes that I ever beheld. The highest spot, where is stationed a look-out, is the exact counterpart of the top of Agamenticus in Maine. Nature has done everything for the grand plan of this Paradise. The whole of the unoven part is interspersed by macadamized roads, 60 feet in width. Reaching from cliff to cliff are magnificent bridges, to the number of fifty, no two being alike. They vary from 50 to 100 feet in length. Some are of iron, others of marble, granite, free-stone, etc., and all are most elaborately ornamented in scrolls, pilasters and cornices. The sides of the road are thickly planted with shrubbery and flowers from all parts of the world. The side of every hill is covered with rare plants; shady bowers beneath overhanging cliffs and running vines, are the retreat of the tired visitor. Rustic cottages, made of the natural boughs of the grape, are erected in the more exposed spots. At one romantic spot the architect had constructed of the rough stone a perfect fac-simile of the Natural Bridge in Virginia. Descending a stair-case of about 60 feet, cut from the solid rock, we enter a large cave, capable of holding one hundred persons.

There are numbers of little ponds about the grounds, besides the large lake, which contains 85 acres, and leads nearly through the Park. It is interspersed with islands, and boats with experienced oarsmen are in readiness to convey passengers; eighty swans move about on the surface—a feature highly interesting to the lovers of the beauties of nature. In the winter, when the lake is used for skating, the entire surface is illuminated by Drummond lights. A part of the ground is reserved for the use of children.

American, French, German, Italian and English gardeners are engaged in laying out the ground, and 1000 men are employed on the works. Policemen guard every avenue, and woe be to him who steps on the grass. It is expected that the Park will be completed in five years. I walked for two hours through the finished parts, and yet did not see all. After tea, we visited the distributing reservoir, which stands near the site of the Crystal Palace. This mammoth structure is 300 feet square, with solid walls 60 feet thick and 50 feet high Around the base are beautiful gardens, and on the wall running roses and vines of fruit and flower were trailed. The effect was beautiful. I must give New York the credit of having the most exquisite taste for the beautiful, of any city I have visited. Who but a New Yorker would ever have thought of trailing blooming flowers upon a reservoir? As I gazed with delight on this mass of nature's decoration, whose perfume filled the air, the words of Laighton came forcibly to my mind:

"How many varied scenes this world displays,
To fill the heart with joy, the lips with praise!
No where we may, and beauty follows too,
With radiant smiles and shapes forever new."

J. H. H.

CONGRESS.—In the U. S. Senate, on Saturday, the Standing Committees were announced. Both branches took suitable notice of the death of Mr. Scranton of Pennsylvania.

☞ News from California is to the 26th ult. Next week we shall probably begin to receive news from that quarter daily.

H. Templeton, an experienced Indian fighter, is organizing in the interior counties of the State, a regiment of riflemen of a thousand men. One hundred have already been enrolled. He proposes to offer the regiment to the war department to guard the overland mail route.

☞ Mr. Appleton, the Union representative from Boston, voted for Mr. Grow for Speaker, and seems inclined to act with the Republicans. He gave a dinner to the Massachusetts delegation on the 5th. He considers himself the representative of the mercantile and manufacturing interests of Boston, both of which interests call for a vigorous, decisive crushing of rebellion, as soon as possible.

CAMP SULLIVAN.

WASHINGTON, D. C., July 1.

Friend Frank:—I trust it may be pleasing to you to learn that our Regiment have, as a general thing, been blessed with good health, and are in fine spirits, expecting soon to be called into active service, where we may be permitted to teach the rebels of what kind of material the Granite State boys are made. Company K, from Old Strawberry Bank, will try to render a good account of herself in the coming contest. Our officers, one and all, are trying to make our Regiment efficient in the various evolutions. They are kind to their men, and, as a general thing, they know how to treat those whom they have under them.

Col. Marston, and the rest of the field officers, do daily all that lies in their power to make their men happy, and they will be ever held in grateful remembrance by the soldiers of the Regiment. The chaplain, Mr. Parker, is, I think, one of the best of men; I believe him to be a true Christian minister, and I have faith to believe that he will be the instrument, in the hands of God, of accomplishing much good.

Since our arrival, one of our sentries, from Co. D, fired at a rebel spy, and wounded him in the head; he has since died.—There are more or less of them captured every night by some one of the sentinels on guard, and I doubt not that they will learn, ere long, the fact that it is best not for them to intrude their presence too near our camps.

We have met with a number of Portsmouth boys who have been enlisted in the following regiments, viz.: — Massachusetts 1st and 9th, New York 31st, Rhode Island 2d, and the Minnesota 1st. Some of them have brothers in Co. K, and I tell you that the greeting each met with is beyond description.

Our Regiment has received many visitors since we went into camp, and among the number I noticed Hon. John P. Hale, and our fellow-townsmen, John L. Hayes, Esq., and Samuel E. Coues, Esq. The latter gentleman has paid especial attention to the members of Company K, and has offered them any assistance in his power, for which the Company would return their warmest and most heartfelt thanks.

But I am afraid that I have about wearied your good patience in perusing this off-hand scrap, so I must draw it to a close; but before doing so, let me say one word about those revolvers. If the city authorities wish to gratify the men that have left their native city, their homes and friends, and all that is dear to them, to sustain the flag of their country in this the hour of its peril, let them forward to Company K the revolvers which we, as a company, stand so much in need of.

Monday morning, about half past two o'clock, Geo. Robinson, of Co. F, was shot in the leg by an Irish sentinel, belonging to the 9th Mass. Regt, said sentinel not understanding his duty. ONE OF THE GUARDS.

☞ The Democratic Standard newspaper, published at Concord, has on one corner a handsome flag of the United States, with the inscription, "The Union, it must be preserved;" and on the opposite column it has an article affirming the right of a State to secede, and denying any right of coercion; all its articles really upholding the rebels and the rebellion. One item we copy, entire, as the Standard's political programme for the year to come.

We are receiving letters from all parts of the State, calling for a State Convention. We think the people are correct, that no man should be put in nomination for office who will not pledge himself to oppose the war. Let us all stand united on such men, and we can elect them. Our friends must keep as quiet as they can. Large bodies move slow; the whole force will face the enemy before many weeks.

A CAR LOAD OF OIL BURNED.—As a freight train from Canada, consisting of eleven cars, was approaching Island Pond on Thursday evening, the car next to the engine was discovered to be on fire. It contained fifty barrels of crude oil from the M. Skillings wells in Canada, for the Portland Kerosene Company. The car, all of a blaze, was detached from the others and from the engine, and in this condition it ran for some distance, and through two covered bridges. Finally it came to a stand still, and was entirely consumed, with its contents.

FIRE IN LONDON.—The conflagration in London, briefly telegraphed by the Persia, was the most disastrous that has occurred for generations. Immense piles of ware houses on the Surrey side of London Bridge, filled with all kinds of produce, were destroyed. The loss exceeded two millions sterling. Some of the estimates make the extent of the loss from three to four millions sterling. Nearly all was insured. The probable sales of consols by insurance companies caused a decline in the Stock Exchange, and some articles of produce advanced in consequence of the quantities consumed.

WASHINGTON, July 7.—Yesterday, by invitation of the Andrew Johnson Guards, Hon. Andrew Johnson visited Camp Hollingsworth, on the Virginia side of the Chain Bridge.

Mr. Johnson made a very effective speech, exciting his listeners to the highest pitch of patriotic enthusiasm. Mr. Johnson afterwards visited the encampment of the 3d Michigan regiment, and made a speech that occasioned the wildest applause.

Upwards of thirty rifled cannon have been sent into Virginia since Friday.

Col. Lamon arrived this afternoon from Hainesville, and Martinsburg. There is no doubt that Gen. Johnston has been reinforced, which induced the Government to strengthen Gen. Patterson's column.

Mr. Van Wyck, of New York, in the House, yesterday, gave notice of his intention to introduce a bill to increase the pay of private soldiers.

The 3d Maine and the 19th and 28th New York Regiments started for Virginia Saturday morning. The 71st and 38th New York, and the Rhode Island Regiments, are under marching orders.

Gen. Patterson's column was at Martinsburg on the night of the 4th, and all was quiet. The rebels have plundered the people there of nearly everything. A rebel regiment of infantry fired into a detachment of rebel cavalry at Fairfax by mistake, killing 8.

Generals Patterson and McClellan are pushing forward rapidly, and will converge their columns south of Winchester, to be ready to co-operate with the column starting hence for Richmond. It is stated that ten regiments have been ordered to leave here for Martinsburg to join Gen. Patterson. A portion of Gen. McClellan's force will proceed to Cumberland Gap to aid the Unionists of East Tennessee. The rebels it is stated are making intrenchments at Centerville.

A DISORDER AND THE REMEDY.—By a late arrival from England, we learn that Sir Archibald Allison, in a letter to Cassius M. Clay, contends that the American Constitution is a failure,—and as a remedy, true to his instincts, he recommends a national church and a monarchy.

SUDDEN DEATH.—On Tuesday morning last, Dr. James Fogg, a respected citizen of Limerick, Maine, was found dead in his stable, whither he had returned from making an early professional call. He was in the act of getting some medicine from his trunk when death overtook him. He was sixty years of age; leaves a wife and two children.

PROFESSOR WOOD'S

HAIR RESTORATIVE!

SEE WHAT OTHERS SAY OF IT.

☞ *A Distinguished St. Louis Physician Writes:*

ST. LOUIS, July 10, 1860.

O. J. WOOD, Esq.:—*Dear Sir*:—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 8 years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use of it, my hair was quite thin, and at least one-third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity, at this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug; saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article, said to be as good, the quantity of a bottle for half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing the people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of these charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word, in several instances, merely inserting some name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray hair, scald head, dandruff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, but learned you were now living in New York.

You are at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1320, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the head had become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair. It also has curative powers of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of this remedy, and its effects can only be beneficial, as the compound, if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous. —*Boston Transcript, April 22, 1869.*

All persons who sell Herrick Allen's Gold Medal Saleratus are authorized to give their customers the privilege of using one-half the paper, and if not perfectly satisfactory, to return the balance and get the amount paid for the whole. It is the best in the world. It is a great deal better than soda to use with cream tartar. Try it. Mo t of the Grocers and Druggists keep it.

Oxygenated Bitters.—This is a remedy for Dyspepsia, Indigestion, and the numerous disorders of the stomach. It was discovered by a regular physician, after years of research. It is unlike all other medicines, and extracts the disease by its roots, leaving no vestige behind.

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—Dyspepsia, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

LAKE VILLAGE, N. H., Nov. 4, 1859.

MESSRS. SETH W. FOWLE & CO., Boston.—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition. I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

Prepared by SETH W. FOWLE & CO., Boston, and sold by

Preston, Kimball, Hutchings, J. H. Thacher, N. P. Thacher, Portsmouth; James P. Packer, Greenland; S. Hanson, Jr., New Market; Porter & Thyng, and Wm. B Safford, Exeter; J. W Green, Hampton Falls; and by dealers every where.

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases connected with a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 dawâm

Local.

☞ Fire was discovered about half-past one o'clock this, (Tuesday) morning, in a pile of lumber between two buildings near the foot of Daniel street; and although the alarm was at once given by the city watchmen, quite a large amount of property was destroyed before the flames were subdued.

The lumber where the fire was first discovered, was owned by Messrs. Barker, Adams & Co. The flames spread rapidly in all directions, and in a few minutes the small building occupied by N. L. Merrill & Son, lumber dealers, as an office; another in the rear, filled with lumber; a small double-tenement house owned by Mr. Nath'l Folsom; a lumber-shed of Barker & Adams, the stable of Mr. Joseph Cooper, and the large two-story building of the Pier Co., were wrapped in flames.

A long one-story building at the head of the wharf, adjoining the Pier Co's building, was also nearly destroyed.

One of Mr. Folsom's tenements was occupied by Mr. William Hook; most of his furniture being saved. The other tenement was vacant.

The attic of the Pier Co's building was occupied by Mr. Charles Walker as a sail-loft: and he had a large stock of materials on hand. We understand he has insurance for $1700—his loss is reported $5000.—On the second floor were offices of J. M. Tredick, Esq., and Capt. Marshall, wharfinger.—The first floor was occupied by Messrs. Charles Robinson & Son, as a storehouse for corn; on which is insured $3000 in the Etna office.

The total amount of property consumed, probably will not fall below $10,000 or 12,000.

The heat of the fire was intense, yet the firemen worked like Trojans, and by their efforts preserved several buildings which were for a long time in imminent danger, as everything was "dry as tinder" and the flames spread with great rapidity.

We are informed that two of the watchmen passed around the spot not more than fifteen minutes previous to the alarm, and there were no indications of fire then.

There seems something suspicious in the fact of two lumber yards being burnt within a few days.

☞ Rev. A. J. Patterson, pastor of the Universalist Society of this city, who, on account of feeble health, has been absent from his pulpit during the past three months, on Sunday last resumed the active discharge of the duties, in the performance of which he has heretofore been so successful. The members of his congregation joyfully welcomed him back, and most sincerely congratulated him, as well as themselves, on his somewhat renewed health and strength.

For the present there will be but one service at this church on the Sabbath, this taking place in the morning.

Mr. Editor:—Having seen a paragraph in your paper, taken from the Portsmouth Journal of July 6, that the Spinners of the Portsmouth Steam Mill are the cause of stopping of said Mill, we assert we are not. We are willing to submit to a reduction of 10 per cent, but we are not willing to submit to a reduction of seventeen to eighteen per cent, which we, as a body of workmen, know it will be on our pay. SPINNERS.

☞ A sale of useful and fancy articles, by the Ladies' Domestic Missionary Society of the Unitarian Parish, will take place on Wednesday, July 10, from 3 to 8 o'clock P. M., at the Court street Chapel;—the proceeds are to be devoted to the City Mission. 2t

☞ The stockholders of the Eastern Railroad held their annual meeting in Boston on Monday. The old board of Directors was re-elected.

☞ Monday was the hottest day of the season, the thermometer indicating 94°.

NEW YORK, July 8.—The World's correspondent says the Pocahontas lies off Mathias Point, ready to bombard the rebels the moment they attempt to mount guns.

The heat is so intense that the 5th N. Y. regiment, while marching to the cars, suddenly halted, and a free application of water, externally and internally, was necessary to revive the men.

Gen. Sanford takes command of the forces sent to Gen. Patterson, who will also be reinforced on Monday by Col. Stone's regiment. Gen. Patterson has now 17,000 men and 20 pieces of artillery; Johnson has 16,000 infantry, 600 cavalry, and 22 pieces of artillery.

The Tribune dispatch says, "Monday is the day agreed upon by the President and his advisers, including Gen. Scott, for a combined movement on Manassas Junction."

A bill to reconstruct the Supreme Court will soon be introduced in the House.

A majority of the Democratic caucus, Saturday night, strongly favored giving thorough support to the government.

Vallandigham visited the Ohio troops, where his reception consisted of yells, hoots, onions, stones, and an effigy labelled "Vallandigham, the traitor." His speedy exit probably saved his neck.

A dispatch to the Herald says the forests between Manassas and Fairfax Court House are levelled, and the road choked up with fallen trees, which is supposed to have been done by Beauregard to prevent an advance on him, while he has sent large reinforcements to Gen. Johnson.

BALTIMORE, July 8.—A letter from Martinsburg announces the arrival of Doubleday's and the R. I. Batteries. Gen. Johnson had been reinforced by 7000 troops fr m Manassas, and had taken a stand for a fight at Bunker Hill, seven miles distant, with 16,000 troops.

LOUISVILLE, Ky., July 5.—The Chairman of the Board of Trustees of the Common Schools contradicts the statement that any investigation is progressing or contemplated in regard to the political or religious opinions of teachers. The recent case was a female teacher who prohibited the singing of National and Southern airs because the children quarrelled with each other from the antagonistic feeling engendered by such tunes.

WASHINGTON, July 8.—Troops have been passing into Virginia at a rapid rate for the last forty-eight hours.

It is reported that Gen. Scott will go over with his staff to-night.

Fletcher Webster's regiment is ordered to report at Harrisburg, Pa., at the earliest possible moment.

COMBINED GLUE AND CEMENT.

Is liked by every one in preference to any other in market for many reasons:—

1. Because it is white as snow.
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
3. Because it answers a double purpose—it will mend all kinds of Crockery, from China down to the coarsest Stone Ware, and at the same time *will* mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles mended never separate.
10. Because it is no humbug, but an honest article, as thousands can testify.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE,
Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 28, which is as follows:

Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

REFRIGERATORS.

One of the most economical and indispensable articles in hot weather, is a *good* Refrigerator, (a poor one is not worth buying at any price.) The attention of the public is invited to

WINSHIP'S PATENT UPRIGHT

Self-Ventilating Refrigerator,

thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Stillman has given a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other.—Milk, delicate fruits and meats can in this be preserved much longer than in any other Refrigerator.

PEACE.

"Peace!" Shall the world outwearied ever see
Its universal reign? Will States, will kings
Put down those murderous and unholy things
Which fill the earth with blood and misery?
Will nations learn that love—not cavalry—
In heaven's first lesson, which beneath the wings
Of angels, brooding o'er land and sea,
Fills the earth with joy by its soft ministerings?
'Twere a sad prospect—'twere a vista dark
As midnight—could this wearied mortal eye
Through the dim mists that veil futurity,
Discern not that heaven bright though distant
spark
Lighted by prophecy, whose ray sublime
Sends a soft glow of hope o'er the dull path of
time.
—*Dr. Browning.*

Punch, while pretending to jest, really speaks the sober sentiment of many English minds in the following couplet:

"O Jonathan and Jefferson, come listen to my
song;
I can't decide, upon my word, which most is in
the wrong;
I do declare I am afraid to say which worst be-
haves,
The North, imposing bonds on trade; or South,
that man enslaves."

That is to say, John Bull can't determine whether it is worse to injure a man fairly in his purse, or unjustly in his person—for that's the British of this morality of tariffs and of slavery.—*Boston Post.*

AYER'S
Sarsaparilla
FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: **Scrofula and Scrofulous Affections, such as Tumors, Ulcerous Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all Skin Diseases.**

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. Gents: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous humor, I have suffered from it in various ways for years. Sometimes it burst out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Goodwardsville and got it, and used it till it cured me. I took it, as you advise, in small doses of a teaspoonful three times a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel well I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured many cases of Scrofula, Dropsy, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by the use of the same; says he cures the common *Erysipelas* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from over two years."

Leucorrhea or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying, I have found your Sarsaparilla a most efficacious alterative in the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhea by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for those female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ovarian tumor on one of the females in my family, which had defied all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla at the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remains."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Diseases*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks, and he has since attended to secondary symptoms in his nose, and the ulceration had eaten away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. He is yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, not of course without some disfiguration to his face. A woman who I also treated for the same disorder by mercury was suffering from the poison in her bones. She had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me.

Fraternally yours, C. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of physicians, and stuck to me in spite of all the remedies I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks. My health is now as good as it ever was, and I can now do as much work as any man. I feel grateful for my health so much that I am far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Jacob Y. Gerhardt, of St. Louis, writes: "I have been afflicted for years with an affection of the Liver, which destroyed my health. I tried every thing, and every thing failed to relieve me; and I have been a broken-down man for years from an affection of the Liver, brought on by the use of Calomel. My beloved pastor, the Rev. Mr. Epp, advised me to try your Sarsaparilla, because he said he knew you, and any thing you made was worth trying. By the blessing of God it has cured me, and has so perfected my blood as to make a new man of me. I feel strong again. The best thing can be said of your Sarsaparilla is, it cures the Liver."

Schirrus, Cancer Tumors, Enlargement, Ulceration, Caries and Exfoliation of the Bones.

A great variety of cases have been reported to us where cures of these formidable complaints have been effected by the use of this remedy, but our space here will not admit them. Some of them may be found in our American Almanac, which the agents below named are pleased to furnish gratis to all who call for them.

Dyspepsia, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these afflictions have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its reach. Such a remedy has long been required by the necessities of the people, and we are confident that this will fill for them all the medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly astonishing cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Even in the communities, or even families, among them who have not some personal experience of its effects—who have not some personal experience of its effects—there is hardly a family in their midst of its victory over the most dangerous disorders of the throat and lungs. As we know the dreadful fatality of these disorders, and as they know, too, the efficacy of this remedy, we need not preface this to induce them that it has now all the virtues it had in days when making the cures which have given it its high place among the confidence of mankind.

Portsmouth, N. H., May 18, 1861.

VALUABLE FARM FOR SALE.

Being out of health, and having no family, I offer for sale my FARM in Kittery, known as the "CUTTS FARM," consisting of about 125 acres of mowing, tillage, orchard and pasture land, with a two-story DWELLING HOUSE and BARN, SHEDS and other out-buildings, all in good repair.

The land is excellent, and has a good orchard of 300 grafted fruit trees. The situation is very pleasant, on the road from York to Portsmouth, about three miles from the latter place—and would, perhaps be the permanent home of an excellent farm, but a very desirable residence.

Terms of sale easy, and immediate possession given. For further particulars call on the subscriber, on the premises.

SIGNS OF RANK.—The relative rank of officers in the regular army is designated in the fatigue uniform, worn in accordance with the following manner:—A Major General is distinguished by two silver stars on his shoulder strap; a Brigadier General has but one star; a Colonel has a silver embroidered spread eagle; a Lieutenant Colonel has a silver embroidered leaf; a Captain is known by two gold embroidered bars; a First Lieutenant has but one gold bar on the strap; a Second Lieutenant none at all. The cloth of the strap is as follows:—Staff Officers, dark blue; Artillery, scarlet; Infantry, light (or sky) blue; Riflemen, medium (or emerald) green;—Cavalry, orange color.

LEVENWORTH, July 6.—Gov. Jackson's Secretary has called a session of the Missouri Legislature to meet at San Croix, seventy miles southeast of Fort Scott, for the purpose of passing an ordinance of secession. The rebels in Western Missouri were concentrating at that point. Fugitives from Jasper county are hourly arriving at Fort Scott and report a bad state of affairs in that section. It was reported that leading Union men had been hung. In some cases the escaping fugitives had been followed into Kansas by the rebels. Montgomery with 400 men entered Missouri on the morning of the 27th ult., but his object has not yet transpired.

NEW YORK, July 6.—Hanks, one of the Police Board, has been released on parole by Gen. Banks. Merriman is allowed to visit his family twice a week.

The brig Hannah Baleh has been recaptured by the steamer Winslow of the North Carolina navy, while on her way North in charge of a prize crew.

CREDITABLE.—It is stated as a fact not unworthy of mention, that the entire regiment of New York Fire Zouaves individually signed their own proper names upon the pay roll, a day or two since, when they were paid off; an indication that this corps is not amenable to the allegation of the rebels that our "Northern troops are an ignorant and illiterate tribe."

A COLORED VIEW OF THE WAR.—A young lady was sitting at the window in Camden, N. J., a few days ago, when she observed a colored girl cutting up some antics, and she commenced laughing. The darkey observed it, turned up her nose, and said:—"You white girls needn't laugh—you've got no beaux now—they're all gone South to fight for us niggers."

When you find a person a little better than his word, a little more liberal than his promise, a little more than borne out in his statement by his facts, a little larger in deed than in speech, you recognize a kind of eloquence in that person's utterance, not laid down in Blair or Campbell. —*Holmes.*

The New Orleans Picayune of the 3d inst. says that the Confederate ship of war Sumter run the blockade on Saturday, putting to sea. She has a crew of 65 men and 20 marines.

☞ About $5000 have already been raised in Washington for a monument to Senator Douglas.

CERTAIN CURE, CERTAIN CURE.
CERTAIN CURE, CERTAIN CURE.
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1858, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

WEDNESDAY, JULY 10, 1861.

THE OLD PURITANS.

The present time, when the effort is made to break up and destroy the foundations of republican government in this country, is a favorable season for recalling to memory some great facts in the history of New England—which go to show why the descendants of the Puritans happen to be not only the sturdy friends of their own liberties, but also why they claim and defend liberty for others.

The planting of the colony at Plymouth, as a safe asylum for religious liberty, is familiar to all; and the American Revolution of 1775, caused, as some of the books say, by a three-penny tax on tea, and as others say, by taxation without representation, is remembered every July, to say the least.

The careless reader, who never does any more thinking than what he cannot avoid, is satisfied that religious liberty was secured by the first move, and political liberty, as it were, *created* by the second. But a careful reading of the records of 1660, and on to 1700, even in brief, will show that the seeds of free principles were thickly sown here in those forty years following the death of Oliver Cromwell and the restoration of Charles II.

There was a considerable emigration of refugees from Old England to New. Men who had held office and done duty under the Protector, but had no favor under the crown, came over singly and by scores.—Among them were Goffe, Whalley and Dixwell, who were among the judges that condemned King Charles I. to lose his head.

Of them, Gov. Hutchinson, in his History of Massachusetts, gives an interesting account.

Cols. Goffe and Whalley came from London to Boston, arriving July 27, 1660. At first they did not conceal themselves, but went to meetings on the Lord's Day, lectures, fasts, thanksgivings and sacraments. Goffe kept a diary from 1660 to 1667, which embodied many curious facts.

When the act of indemnity came out from England in 1660, these judges were not found among the forgiven,—and from that time they removed from one hiding place to another, sometimes in great danger and always liable to seizure.

They lived sometimes at Milford and New Haven, Conn.,—sometimes at Cambridge, and sometimes at Hadley, Mass.

In 1664, the commissioners from King Charles arrived at Boston. Upon the news of it, they retired to their cave, where they tarried eight or ten days. Soon after some Indians, in their hunting, discovered their cave with the bed; and the report being spread abroad, it was not safe to remain near it. On the 13th of October, 1664, they removed to Hadley, nearly 100 miles distant, travelling only by night; where Mr. Russell, the minister of the place had previously agreed to receive them. Here they remained concealed fifteen or sixteen years, very few persons in the colony being privy to it.

Tee last account of Goffe is from a letter, dated *Ebenezer*, (the name they gave their several places of abode,) April 2, 1679.—Whalley had been dead some time before. The tradition at Hadley is, that two persons, unknown, were buried in the minister's cellar.

The minister was no sufferer by his boarders. They received more or less remittances every year, for many years together, from their wives in England. Those few persons who knew where they were, made them frequent presents. Richard Saltonstall, Esq., who was in the secret, when he left the country and went to England, in 1672, made them a present of fifty pounds; and they take notice of donations from several other friends.

"They were in constant terror, though they had reason to hope, after some years, that the enquiry for them was over. They read with pleasure the news of their being killed, with other judges, in Switzerland. Their diary for six or seven years, contains every little occurrence in the town, church, and particular families in the neighborhood. They had indeed, for five years of their lives, been among the principal actors in the great affairs of the nation: Goffe especially, who turned the members of the little Parliament out of the house, and who was attached to Oliver and to Richard to the last; but they were both of low birth and education. They had very constant and exact intelligence of every thing which passed in England, and were unwilling to give up all hopes of deliverance. Their greatest expectations were from the fulfilment of the prophecies. They had no doubt that the execution of the Judges was the slaying of the witnesses. They were much disappointed, when the year 1666 had passed without any remarkable event, but flattered themselves that the Christian era might be erroneous. Their lives were miserable and constant burdens. They complain of being banished from all human society."

After the second year, Goffe writes by the name of Walter Goldsmith, and his wife of Frances Goldsmith; and the correspondence is carried on, as between a mother and son. There is too much religion in their letters for the taste of the present day; but the distresses of two persons, under their peculiar circumstances, who appear to have lived very happily together, are very strongly described.

SEVEN OF THE ST. NICHOLAS PIRATES CAUGHT.—*Baltimore, July* 8.—Lieut. Carmichael, of Provost Marshal Kenley's police, went down the river in a tug and boarded steamer Mary Washington, to arrest a man named Neill Green, who is charged with being engaged in the riot on the 19th of April, and who it was thought would come on board at Patuxent. On coming up the river he learned that Capt. Thomas of St. Mary's county, who took command of the St. Nicholas and headed the pirates, was also on board with seven of his confederates, their object being, it is supposed, to seize another steamer in a similar manner.

Carmichael, on getting abreast of Fort McHenry, ordered the captain to stop at the wharf, where he made known the facts to Gen. Banks, who ordered a company of Massachusetts troops to arrest all on board. Seven of the pirates were found, but Capt. Thomas had hid himself. After an hour's search, he was found in a large bureau drawer in the ladies' cabin. It will be remembered that he went on board the St. Nicholas disguised as a French lady. They were all detained at the Fort, with several witnesses who were on board the St. Nicholas at the time of the seizure, including the captain and engineers.

GRAND EXCURSION.—Mr. Josiah Perham announces in our columns this morning that he has arranged an excursion party to visit Baltimore, Washington, Fortress Monroe and other places of interest at and near the seat of war. This will give an opportunity for New Englanders to visit their friends in the grand army and the capital while Congress is in session. Mr. Perham has just returned from Washington, and is assured by those high in authority that all who join this party will have the usual facilities extended to them.

A YOUNG MAN KILLS HIS BETROTHED AND THEN DROWNS HIMSELF.—A terrible tragedy occurred at Ithaca, N. Y., on Thursday. It appears that a young man named Cornell, nineteen years old, was engaged to a girl of seventeen. The friends of the parties objected to the marriage.—Cornell invited his betrothed to ride, and on reaching a point beyond the city, he drew from his pocket a pistol and shot her, killing her instantly. Placing her body in the bottom of the carriage, he returned to the village, fastened the horse to the door of his house, proceeded to the inlet and threw himself in. He was subsequently taken out dead.

"Timothy Titcomb" says bile is the prolific mother of moods. The stream of life flows through the biliary duct. When that is obstructed, life is obstructed. When the golden tide sets back upon the liver, it is like back-water under a mill; it stops the driving-wheel. Bile spoils the peace of families, breaks off friendships, cuts off man from communion with his Maker, colors whole systems of theology, transforms grains into putty, and destroys the comfort of a jaundiced world. The famous Dr. Abernethy had his hobby, as most famous men have; and this hobby was "blue pill and peccac," which he prescribed for everything, with the supposition, that all disease has its origin in the liver.

FROM CALIFORNIA.

FORT KEARNEY, July 6.—The following is the conclusion of the dispatch per Pony Express, interrupted Saturday night by a storm.

The destructive fire at Coltonwood, Syccejan Co., destroyed all the business portion of the town. Loss $40,000.

The grain harvest has commenced in all parts of the State. The crop is magnificent, and larger than any previous one.

FROM WESTERN VIRGINIA.—*Buchanan, Va., July* 8.—A courier arrived from Webster reports four companies of the 19th Ohio regiment at Glenville, about 40 miles distant to the southwest, besieged by a picked regiment of Virginians and 1500 militia, under O. Jenness Wise. Col. Tyler, of the 7th regiment, marched to their relief from Weston, and the 10th, Col. Lyle, has just gone forward to their rescue from here.

FORTRESS MONROE, July 7.—The Susquehanna is being towed up with one of her shafts broken.

The Cumberland sails for Boston within 48 hours.

Young Raymond, son of the principal of the Chesapeake Female College, came in to-day as a deserter from the rebel army. He was impressed into their ranks, and represents their case as desperate.

NEW YORK, July 8.—The Tribune's Washington despatch states that a member of Company C of the Mozart regiment, named Robez was invited into a house in Washington yesterday, by two persons in citizens' dress, and partook of some liquor which proved to be poisoned. There is little hope of his recovery.

THE BOSTON POST.—This paper, well known as the leading Breckinridge paper in New England, says the following good words in favor of the President's Message: So far as the presentation of the facts of our recent past, and the determination to stand by the Government are concerned, it is a frank and patriotic State paper; and its recommendations of men and money, for the sole object of supporting the Government, will meet the approbation of loyal citizens.

The single topic of the Message is the insurrection; the single purpose announced is that of sustaining the Government; and from beginning to end it has the merit of keeping clear of the party platform. In this the paper represents the public sentiment. It was the Government, the Flag, the Country, at which the series of attacks on our Forts, that culminated in the guns that roared around Fort Sumter, were aimed; and this brought to a head the distinct issue whether this Government should be dissolved, or whether the war-power, to preserve it, should be invoked. The order of events, on this point, here clearly stated, shows that there could be but one path for the Government to pursue. It now went as far as it could go legally, and the President frankly admitting, in some things, illegality, pleads necessity. The Post remarks:

If Jefferson felt like taking a bold step—what he termed an illegal step—in the purchase of Louisiana, President Lincoln ought to be justified in following this precedent, when insurrection threatened the National Capital. However, the President urges that no step has been taken that Congress has not full power to sanction.

WAR NEWS,—TUESDAY EVENING.

NEW YORK, July 9.—A dispatch to the Times says a flag of truce from the rebels came into Col. Tyler's camp this afternoon bringing a proposition for a cessation of hostilities, but Scott and Cameron protest against any such proposition.

Gov. Hicks urges the sending of a Union force to the eastern shore of Maryland, to sustain the Union men there.

Gen. Scott is in hourly expectation of a battle between Patterson and Johnson's forces near Martinsburg.

The Secretary of the Navy has made an arrangement for numerous transports to supply the blockading squadron with fresh provisions during the summer.

It is believed a dozen of the enemy were killed at Great Falls, in the skirmish yesterday.

Gen. Wheat of Va. says ten full regiments can be raised there, and is arranging for arms and ammunition.

7000 horses are ordered to be purchased for use at Washington, and several thousand for Fortress Monroe and Gen. Patterson.

There is a great deal of sickness in rebel army. It is reported that Richmond is being additionally fortified on all sides.

The Herald's dispatch says in the neighborhood of the recent battle at Hainesville over one hundred new-made graves were dug.

LOUISVILLE, July 9.—A recruiting office for traitors has just been opened here.

Large quantities of goods and arms are passing by the southern frontier of Kentucky, for the rebels. The surveyor of this port is taking active measures to intercept them.

Gov. Harris of Tenn. on the 6th issued a proclamation for 3000 troops for the traitors.

☞ In the U. S. House of Representatives on Tuesday, a bill providing for the payment of the volunteers called into service by the President, from the time they were called into service until June 30, was passed, no one objecting. It appropriates six millions.

Mr. Lovejoy offered a resolution that, in the judgment of the House, it is no part of the duty of soldiers to capture or return fugitive slaves. Passed, 92 to 55.

IS THE BLOCKADE EFFECTIVE?—The Southern papers for a while were very brave, ridiculing the possibility of a blockade, styling it a paper blockade merely, and in the vain hope of injuring the North, pointed to their own prohibition of cotton export to the North, as the last blow required to bring the United States Government to terms. Alas! how vain were their expectations, and to what humility must they have been reduced to be obliged to say, as in a recent number of the New Orleans Picayune:—

"Freights—Nothing has been done, *the blockade suspending operations.*"

ALEXANDRIA, July 8th.—Reports from the camp and outposts represent all quiet to-day and no movements whatever made. The weather is extremely hot.

A locomotive recently sunk in the Potomac has been raised. It was but slightly damaged.

☞ The Washington correspondent of the N. Y. Journal of Commerce says General Beauregard is probably stronger now than he will be again; and he is very desirous that Scott should attack him in his entrenchments.

The Salisbury Mills are very busy at this time, running extra hours to fill a contract with the government for army goods, which is to be completed on the 10th. We understand that they have further work of the same kind which will keep all their hands employed.—*Newburyport Herald.*

☞ A rumor has obtained in France and England that Prince Napoleon has been formally invited by President Lincoln to visit America.

EASTERN RAILROAD.—About two hundred stockholders attended the annual meeting of the Eastern Railroad corporation, in Boston on Monday; The whole number of votes thrown for Directors was 2968, and the last year's board, consisting of Messrs. George M. Browne and Samuel Hooper of Boston, Micajah Lunt of Newburyport, Franklin Haven of Boston, Nathan D. Chase of Lynn, William L. Dwight of Portsmouth, Henry L. Williams of Salem, were re-elected.

A vote was passed unanimously, authorizing the Directors to take such measures as they judge best for the protection of the interests and mortgages held by this corporation in the Conway and South Berwick Branch Railroads, and Essex Railroad. The President stated that the interest was valuable, and the Board only needed the legal sanction of the stockholders for the necessary action in the case.

It was then unanimously voted that the annual meetings of the Corporation be held hereafter on the first Monday of February, and that the by-laws be altered to that effect.

Mr. Lowe of Gloucester started anew the question of a limitation of free passes over the road, but was ably answered by Messrs. Chase and Huntington of Salem. The President stated that the Directors now limited the privilege of free passes as much as practicable with the undoubted interests of the road. The whole subject was indefinitely postponed, and the meeting dissolved.

☞ At the annual meeting of the stockholders of the Eastern Railroad in New Hampshire, holden at Hampton, on Tuesday, the following named gentlemen, composing the old board of Directors, were unanimously elected Directors for the ensuing year, viz.:—Benjamin T. Reed, Robert W. Hooper, E. P. Bancroft, of Boston; Wm. H. Y. Hackett, Wm. M. Shackford, of Portsmouth. 995 shares were voted upon at the meeting.

We likewise tender to the Chief Engineer, Charles E. Main, Esq., our best obligation for furnishing us with a bountiful supply of good, cool Lemonade, which was found very agreeable and serviceable during the extreme heat of the atmosphere, as well as the fire. We likewise tender to Mr. A. J. Penhallow our heartfelt thanks for his untiring exertions during the fire, in promoting and adding to our comfort by supplying us with good, cool Water, and for other services. And further, we cannot refrain from naming the volunteer services of a large part of the crew of the U. S. ship Marion, who "worked with a will" on the brakes, and rendered us great assistance. In fact, we tender to all who assisted us, not heretofore named, our sincere thanks and respects. Per order,

The Oxygenated Bitters.

For years medical science had been taxed, to the skill of the physician exhausted, in the hope of discovering some remedy available to cure the most distressing of all diseases—DYSPEPSIA—as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers.

LAKE VILLAGE, N. H., Nov. 4, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition. I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; all the various medicines which I had taken reduced no favorable alteration in the disease. I continued in this miserable condition for seven months, until a brother-in-law (Mr. Joseph Brill of East Boston) sent me a bottle of the GREEN'S OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. The remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

American Women.

America is justly proud of its beautiful women, but how many die annually, or prematurely lay their health and youth for want of a remedy suitable to their peculiar infirmities. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success. In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*considerating cause and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 daw

Local.

☞ It was a matter of great surprise to the spectators, that our firemen were enabled to confine the flames on Tuesday morning,to the buildings above the wharves. For a long time it seemed impossible to prevent a much larger and more destructive conflagration. The sailors from the frigate Sabine labored most zealously and efficiently, and merit the thanks of our citizens generally.

A boat from the Sabine, manned by a strong and ready crew, under charge of Lieut. Hopkins, crossed the river immediately upon the alarm being given, and a voluntary offer was made by them to tow a fine ship lying at the Pier, into the stream. Fortunately it did not become necessary for the captain to avail himself of the kind offer.

☞ The Independent Christian Society, of this city, now worshiping at the Hanover Street Chapel, have invited Rev. I. F. Waterhouse, of Providence, R. I., to become their pastor. He has accepted the charge, and will enter upon the duties on the next Sabbath. Rev. O. T. Wyman, of western New York, who some time since received a call here, did not accept. Mr. Waterhouse is favorably known to many of our citizens,—more particularly as a lecturer on Temperance, and without doubt will prove an able and popular pastor and citizen.

COUP DE SOLEIL.—We are informed that two men, employed upon Mark H. Wentworth's farm on the banks of the Piscataqua, were completely prostrated on Tuesday afternoon by the heat. One of them, named Welch, was placed in a wagon by his friends, who intended to convey him to his home on Water street; but his injuries were so severe as to cause death in a few moments. The other will probably recover.

☞ We regret to learn that on Monday morning, Charles B. Amazeen, a son of Lieut Amazeen of the revenue cutter Caleb Cushing, was drowned at Chelsea, Mass. He, with other members of the family, was visiting at the time a friend in that city, and about 12 o'clock on that day, with another young lad, went to one of the wharves, for the purpose of bathing. While they were in the water, one of the Chelsea Ferry boats came into the slip near by, and the waves from the motion of the wheels of the boat probably lifted young Amazeen from his feet, and he was drowned before any assistance could be rendered him. The body was recovered about 3 o'clock near the wharf, and was brought to this city for interment.

PERFUMERY.—*Messrs. Editors*:—Please to call attention to the fact that when the wind blows from the south-west and the weather is hot, a smell, unlike roses or vanilla beans, comes across the South Millpond into our houses,—so thick and strong, that whether we eat or drink, or whatever else we do, we snuff the breeze and ask the questions, What can this vile odor be? where can it come from? and why is it so much worse than it was last year?

Surely the bad odor *cannot* come from the slaughter house, because the petit jury last year decided it was right, sweet and wholesome, all good and no bad! But it *does come from somewhere*;—and we hope the Health Officers, the Mayor and City Marshal will come down and snuff the breeze with us, and then follow the scent to headquarters, removing the nuisance when they find it. So doing, they will receive the thanks of PLEASANT STREET.

☞ One of the crew of the Sabine, in a letter to the Boston Journal, dated off Pensacola, June 18th, denies most emphatically the reports, which have been somewhat extensively circulated in the North, in regard to the crew and their captain; and expresses much surprise that "the false tongue of calumny has associated our *noble* old captain's name with *dishonor* and *treason*,—as if the name of Adams had ever been coupled with disgrace." The writer says:

"We arrived here about four months ago. This is the only ship that never lost sight of Fort Pickens during that time, and although we came very near being driven on a lee shore, still our noble old captain held his position, from which he could reinforce the fort in a short time with two hundred sailors, who were ready to land at the signal from the fort.

We have been short of provisions and water, living on half rations, and that of the worst kind, for some time, scurvy breaking out among the crew, and yet there was no grumbling or complaint among them. When the new administration came in we were promptly supplied with provisions, and since the fort was first reinforced, the men have been at work day and night discharging transports, and yet there is but one wish expressed among the men, and that is for the ball to open soon, so that they may have a fair chance at the secessionists."

☞ A sale of useful and fancy articles, by the Ladies' Domestic Missionary Society of the Unitarian Parish, will take place on Wednesday, July 10, from 3 to 8 o'clock P. M., at the Court street Chapel;—the proceeds are to be devoted to the City Mission. 12

☞ It will be seen by their advertisement that several of the crew of the U. S. frigate Sabine, (under the style of the Minstrels and Brass Band,) are to give an entertainment at the Temple, this evening. Speaking of a concert given by this Troupe, at Aspinwall, New Granada, the N. Y. Clipper says:

It seems that our friends of the Sabine are gentlemen of universal genius--being as ready to amuse the strangers they are among, as to vindicate the honor of "Uncle Sam," wherever they go. Equally apt at wielding the sword and the pen, the written programme they have on this as well as on a former occasion, favored us with, prove their rare accomplishment in the latter connection. We trust to hear more of these gentlemen, who, though they do blow the trumpet, are the least egotistical we ever knew.

☞ Ex-President Pierce, and Gen. Peaslee, accompanied by Col. Clement March, visited the Navy Yard on Tuesday morning, and were received with the customary salute.

☞ The organization of the Third N. H. Regiment will be commenced at once.—A strong inclination is said to exist on the part of the governing power to locate it remote from cities, where military discipline will be strictly enforced and all inclination to license as strictly prohibited.

The men are to go under canvas at once, the tents being already ordered. Rations will be issued, upon their arrival in camp, and the regular duties of camp life will commence.

PASSION.—The man who gets into a passion is said to forget himself; but the fact is, he forgets other people. The man or woman who buys any other Saleratus but Herrick Allen's Gold Medal, not only forgets other people and themselves, but runs the risk of scattering broadcast dyspepsia, and many other evils naturally attending the human system. As you value health and good eating, never buy any other. Have the Gold Medal or none. Most everybody sells it. Depot 112 Liberty Street, New York. 3t

A. RICHARDS & CO.'S COMBINED GLUE AND CEMENT.

is liked by every one in preference to any other in market for many reasons:—

1. Because it is white as snow.
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
4. Because it answers a double purpose—it will mend all kinds of Crockery, from China down to the coarest Stone Ware, and at the same time *will* mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles mended never separate.
10. Because it is no humbug, but an honest article, as thousands can testify.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE, Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 39, which is as follows:

Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

REFRIGERATORS.

One of the most economical and indispensable articles in hot weather, is a *good* Refrigerator, (a poor one is not worth buying, at any price.) The attention of the public is invited to

WINSHIP'S PATENT UPRIGHT

Self-Ventilating Refrigerator,

thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and is so scientific yet simple a manner that Prof. Silliman has given a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other.—Milk, delicate fruits and meats can in this be preserved much longer than in any other Refrigerator.

Bartlett's Polar Refrigerator,

With two food chambers and a water tank; a very convenient article.

AYER'S Sarsaparilla

FOR PURIFYING THE BLOOD.

And for the speedy cure of the following complaints: **Scrofula and Scrofulous Affections, such as Tumors, Ulcers, Sores, Eruptions, Pimples, Pustules, Blotches, Boils, Blains, and all skin Diseases.**

OAKLAND, Ind., 6th June, 1859.

J. C. AYER & Co. GENT: I feel it my duty to acknowledge what your Sarsaparilla has done for me. Having inherited a Scrofulous infection, I have suffered from it in various ways for years. Sometimes it would out in Ulcers on my hands and arms; sometimes it turned inward and distressed me at the stomach. Two years ago it broke out on my head and covered my scalp and ears with one sore, which was painful and loathsome beyond description. I tried many medicines and several physicians, but without much relief from any thing. In fact, the disorder grew worse. At length I was rejoiced to read in the Gospel Messenger that you had prepared an alterative (Sarsaparilla), for I knew from your reputation that any thing you made must be good. I sent to Cincinnati and got it, and used it till it cured me. I took it, as you advise, in small doses at first, and increased it by degrees. I used it for a month, and used almost three bottles. New and healthy skin soon began to form under the scab, which after a while fell off. My skin is now clear, and I know by my feelings that the disease has gone from my system. You can well believe that I feel what I am saying when I tell you, that I hold you to be one of the apostles of the age, and remain ever gratefully, Yours,

ALFRED B. TALLEY.

St. Anthony's Fire, Rose or Erysipelas, Tetter and Salt Rheum, Scald Head, Ringworm, Sore Eyes, Dropsy.

Dr. Robert M. Preble writes from Salem, N. Y., 12th Sept., 1859, that he has cured an inveterate case of *Dropsy*, which threatened to terminate fatally, by the persevering use of our Sarsaparilla, and also a dangerous *Malignant Erysipelas* by large doses of the same; says he cures the common *Erysipelas* by it constantly.

Bronchocele, Goitre or Swelled Neck.

Zebulon Sloan of Prospect, Texas, writes: "Three bottles of your Sarsaparilla cured me from a *Goitre*—a hideous swelling on the neck, which I had suffered from ever two years."

Leucorrhœa or Whites, Ovarian Tumor, Uterine Ulceration, Female Diseases.

Dr. J. B. S. Channing, of New York City, writes: "I most cheerfully comply with the request of your agent in saying I have found your Sarsaparilla a most excellent alterative for the numerous complaints for which we employ such a remedy, but especially in *Female Diseases* of the Scrofulous diathesis. I have cured many inveterate cases of Leucorrhœa by it, and some where the complaint was caused by ulceration of the uterus. The ulceration itself was soon cured. Nothing within my knowledge equals it for these female derangements."

Edward S. Marrow, of Newbury, Ala., writes, "A dangerous ovarian tumor on one of the females in my family, which had baffled all the remedies we could employ, has at length been completely cured by your Extract of Sarsaparilla. Our physician thought nothing but extirpation could afford relief, but he advised the trial of your Sarsaparilla as the last resort before cutting, and it proved effectual. After taking your remedy eight weeks no symptom of the disease remained."

Syphilis and Mercurial Disease.

NEW ORLEANS, 25th August, 1859.

DR. J. C. AYER: Sir, I cheerfully comply with the request of your agent, and report to you some of the effects I have realized with your Sarsaparilla.

I have cured with it, in my practice, most of the complaints for which it is recommended, and have found its effects truly wonderful in the cure of *Venereal and Mercurial Disease*. One of my patients had Syphilitic ulcers in his throat, which were consuming his palate and the top of his mouth. Your Sarsaparilla, steadily taken, cured him in five weeks. Another was attacked by secondary symptoms in his bones, and his physicians had taken away a considerable part of it, so that I believe the disorder would soon reach his brain and kill him. But it yielded to my administration of your Sarsaparilla; the ulcers healed, and he is well again, out of course without some disfiguration to his face. A woman who had been treated for the same disorder by mercury was suffering from this poison in her bones. They had become so sensitive to the weather that on a damp day she suffered excruciating pain in her joints and bones. She, too, was cured entirely by your Sarsaparilla in a few weeks. I know from its formula, which your agent gave me, that this Preparation from your laboratory must be a great remedy; consequently, these truly remarkable results with it have not surprised me. Yours,

G. V. LARIMER, M. D.

Rheumatism, Gout, Liver Complaint.

INDEPENDENCE, Preston Co., Va., 6th July, 1859.

DR. J. C. AYER: Sir, I have been afflicted with a painful chronic *Rheumatism* for a long time, which baffled the skill of Physicians, and took away from me my business. I tried every remedy I could find, until I tried your Sarsaparilla. One bottle cured me in two weeks, and restored my general health so much that I feel as far better than before I was attacked. I think it a wonderful medicine. J. FREAM.

Dropsy, Heart Disease, Fits, Epilepsy, Melancholy, Neuralgia.

Many remarkable cures of these affections have been made by the alterative power of this medicine. It stimulates the vital functions into vigorous action, and thus overcomes disorders which would be supposed beyond its touch. Such a remedy has long been required by the necessities of the people, and we are confident that this will do for them all that medicine can do.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the Relief of Consumptive Patients in advanced Stages of the Disease.

This is a remedy so universally known to surpass any other for the cure of throat and lung complaints, that it is useless here to publish the evidence of its virtues. Its unrivalled excellence for coughs and colds, and its truly wonderful cures of pulmonary disease, have made it known throughout the civilized nations of the earth. Few are the communities, or even families, among them who have not some personal experience of its effects—some living trophy in their midst of its victory over the subtle and dangerous disorders of the throat and lungs. As all know the dreadful fatality of these disorders, and as they know, too, the efficacy of this remedy, we need not do more than to assure them that it has now all the virtues that it did have when making the cures which have won so strongly upon the confidence of mankind.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods**, but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE, and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive prompt attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

15 Greatest Medical Circular Ever Published! 15

sent free on receipt of large letter pages for two 3 cent stamps.

DRS. JACKSON, HERBERT & CO. are Associated Proprietors of the **National Dispensary**, No. 167 Sycamore street, Cincinnati, established Jan. 1, 1859, for the cure of Private Diseases.

Drs. Egbert Jackson, Dr. Robert Herbert and M. Velpeau. Thorough cures effected with almost incredible rapidity, of Gonorrhœa, Syphilis, Gleet, Nocturnal Emissions or Seminal Losses, Impotency, Stricture, Female Diseases, *Diurnal Emissions*, in short, every possible form and variety of Secret Disease, and at the same time the *general health* of the patient improved, where any improvement in that respect is needed.

Our Dispensary Circular, of 16 large 8 in. by 11 in. letter pages, with full and special written Reply, sent promptly, well sealed, to any address for the amount of the postage, six cents! Every young man, whether

SICK OR WELL,

should have one. Also, a Circular intended for ladies only, nine large letter pages, for 3 8 cent stamp. The "Mountain of Light, or Medical Protector," a new book of three hundred pages, one hundred engravings; price, in stamps or money, 60 cts. and 3 ct. stamp, or for $1 and nine cents in stamps This book is fully described in our Circular. It is by far the most valuable and deeply interesting book on the subject treated of, now extent; matters that in former works were merely hinted at, are here fully explained; it contains a full and explicit key to all the secrets of marriage, love and beauty never before

SATISFACTORILY

revealed in any book in the English language.

Dr. Jackson's Perpetual Preventive—*send for Circular.*

Dr. Jackson's Female Pills, $1—*send for Circular.*

Dr. Jackson may be seen at the Consulting Rooms, The Dispensary, No. 167 Sycamore street, from 8 A. M. till 1 P. M., and from 4 P. M. till 8 P. M.; at other hours either Dr. Herbert or M. Velpeau will be in attendance.

Male patients, when desired, will be furnished with large, airy, comfortable rooms, suitable board and careful attendance, for the few days ordinarily necessary to effect a cure. Patients do not see each other. The most ample guaranties of our ability and good faith promptly given when desired. Fees as reasonable as the very highest modes of treatment known to modern medical science, and a very long and varied experience, will admit of, in 1853 and 1859. Send for Circular, and state your case plainly and fully,—and you will receive the Circular and our written reply by return mail. We will answer no letter unless it contains six cents in stamps. Medicine and instructions sent promptly and carefully to any part of the world.

THE LAW OF SOLON.—Solon's law against neutrality has been often referred to, of late. The following is Plutarch's account of it:—

"The most peculiar and surprising of his other laws is that which declares the man infamous that stands neuter in the time of sedition. He would not have us indifferent, it seems, and insensible to the fate of the public, when our own concerns are in safety, nor backward when we ourselves are in health to sympathize with the distempers and distresses of our country.—He would have us espouse the better and juster cause, and to hazard everything in its defence, rather than wait in safety to see to which side the victory will incline."

IMPROVING A WILD PASTURE BY SHEEP.—Mr. Fay, of Lynn, Mass., (good and reliable authority,) at the last Agricultural Meeting in Boston, stated that "on a tract which was overrun with woodbox, briers and other shrubs he turned 150 sheep. At that time, a cow could not have lived on the whole tract. The sheep were kept there several years, and so killed out the wild growth that the tract now affords good pasture for 15 cows." We suppose the sheep were fed elsewhere, and were occasionally turned on this waste land, merely to enrich it by their droppings, and kill out the useless herbage and shrubs.—*Genessee Farmer.*

They were doubtless fed in winter with hay,—but in such a bush and rock pasture as that in Lynn, sheep will do well.

They have got an officer down at Cairo named Lieut. Col. Mersey. The other day some ladies of Belleville went there to present a flag to the Ninth Regiment, and there was considerable speechifying on the occasion. Calls were made for "Mersey, Mersey," when a voice in the crowd cried out, "Yes, for God's sake, do show us Mersey!"—*Post.*

☞ A Zouave company of deaf mutes from the American Asylum, in Hartford, Conn., has been formed. They are handsomely uniformed, and attract much attention.

A female military company, named the Union Captivators, has been formed at Falmouth, Ky., and over thirty of the young ladies of the place have joined the organization.

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try Gardiner's Rheumatic and Neuralgic Compound." I have taken but one bottle, and am entirely well."—D. D. BAXTER, Dry Goods Dealer, No. 4, Mapleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 90 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I take leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*, and can not fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has told *what it is the best preparation of Bitters that has ever been offered to the public.*
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

THURSDAY, JULY 11, 1861.

NEW HAMPSHIRE ITEMS.

A Sabbath School at the House of Reformation was organized eleven weeks since. The Superintendent announced that he would give three prizes to the three pupils who committed to memory the greatest number of verses from the Bible in nine weeks. The prizes consisted of two elegant Bibles, and a book entitled "Eighteen Lessons for the Young," and were assigned as follows: Master Edward Carns, first prize, 1129 verses; Master John Carns, second prize, 954 verses; Master Danforth, third prize, 948 verses.

Mr. J. C. H. Vance was prostrated by sunstroke in Manchester on Monday.

Chas. Cole, son of John S. Cole, was run over by a coach in Manchester, on Monday, and had the integuments torn off from nearly one-half of his forehead, and was otherwise injured.

The Mirror says it is well enough to make a record of the heat of July 8th.—100° in the shade at 1 o'clock, in the same place where it was 93 Friday last, 90 Saturday, and 93 Sunday.

Col. Marston expects to have with his command the newly invented breech-loading cannon made in Nashua, and it is said has authority from the War Department for the same.

Martin A. Haynes, formerly a printer in Manchester, but who went to the war with the Abbott Guards, has been appointed Commissary Clerk in the Second Regiment, now at Camp Sullivan, near Washington.

The Concord Patriot, speaking of President Lincoln's call for 400,000 men and $400,000,000 for the first year's prosecution of the war, says:—"Divided according to population among the loyal States, New Hampshire's share of this will be 75,000 men and $7,500,000. This is one-sixth of our able-bodied male population, and one-fifteenth of the assessed value of all the taxable property in the State. This is in addition to our present taxes. But large as it is, all patriotic men will cheerfully submit to it if thereby the Union can be restored."

B. F. Ayer, Esq., formerly of Manchester, who removed to Chicago three or four years ago, has returned to this State, and taken up his residence in Exeter, where he will pursue the practice of his profession.

☞ A serious accident befell the wife of Prof. Longfellow, Thursday afternoon, in Cambridge. She was sealing a package with wax, when her dress caught fire, instantly wrapping her in flames. Her body was terribly burned, and so serious were her injuries that hope of her surviving was nearly abandoned. In endeavoring to extinguish the flames which enveloped his wife, Prof. Longfellow had his hands and wrists severely burnt. Mrs. L. is a daughter of Hon. Nathan Appleton.

THE NEW BALTIMORE POLICE.—Col. Kenly has enrolled six hundred good and true men to serve as policemen in Baltimore. There are now, it is said, on Col. Kenly's table twelve hundred applications of respectable working men proffering their services in the new police, without pay or reward, as long as needed; and this in addition to the thousands who are eager to serve in the usual way, having been thrown out of work by the rebellion.

OMAHA, N. T., July 8.—Steamer Chippewa, bound to Washington Territory with Government freight and supplies for the American Fur Company, and having on board 170 tons of powder, was discovered to be on fire on the 23d of June, above the mouth of the Yellow Stone. The boat was abandoned and she became a total loss, together with her cargo.

☞ The celebrated P. T. Barnum was thrown from his carriage one day last week, and received injuries which, it is feared, may prove fatal. The accident was caused by his horse becoming suddenly frightened at the blowing of a locomotive whistle.

☞ The 1st Baptist Society, of Concord held a picnic in Greenland on Wednesday, and a train of twelve cars, on the Concord & Portsmouth railroad, brought six hundred persons to take part in it.

EXECUTIVE APPOINTMENT.—Stillman B. Allen, of Boston, has been appointed and commissioned by his Excellency Gov. Andrew as Justice of the Peace within and for the county of Suffolk, Mass.

Such a violent storm raged round Rice Lake, Upper Canada, during the last week, that one of the most beautiful islands, called Riordan's island, has disappeared.

A VISIT TO GREENWOOD.

NEW YORK, July 5, 1861.

Messrs. Editors:—A visit to Greenwood at this season of verdure and flowers, is one of the indispensables to a stranger sojourning in or near New York. A more varied combination of elements to attract attention and awaken thought cannot be found in this country. The spot was selected by one thoroughly alive to the beauties of Nature, and neither care nor expense has been spared in the efforts to enhance its great natural advantages. There are beautiful views in every direction, from the elevated grounds; but from no direction is the cemetery noticeable at any distance, except on the south-eastern side. It is shut out from the world, a calm retreat, though near the rapid tide of life.

Crossing Fulton Ferry, you arrive in Brooklyn, and after a short ride on the country road, you reach the main entrance to this "City of the Dead." The carriage-way is through a massive granite arch, built in the Gothic style. The avenues, which are wide and very firm, are shaded on each side by thickly-growing evergreen. Through the vistas of the trees there are charming views of the bay and the distant city, and in other directions, farm-houses, villas and cottages, with here and there a church spire rising above the distant wood. A more varied combination of works of art in stone and marble, of the monumental order, cannot be found on this continent, and visitors from foreign climes say that it cannot be excelled across the water. The first noticeable feature that we met with was the Fireman's Monument. It was erected by the corporation of New York to the memory of the firemen who lost their lives in the great fire of 1852. It is built of marble, and ornamented with coats of arms of fire men, fire steps, ladders, &c. At the top is a large figure of a fireman, holding a trumpet with the right hand, while the left grasps a sleeping infant. The design is elegant. Over the entrance is a large fire bell, which is tolled when a body is interred in the lot.

On the main path is an elegant monument erected by an eccentric, but wealthy, sea captain. It consists of a massive base of marble, on the sides of which, in bass-relievo, are ships on the ocean, anchors, cordage, &c. By it stands a life size figure of the captain, in marble. Beneath the monument is a large vault, lined with costly marble and furnished with rich and durable furniture. The old Captain visits the spot every week. I was told that while he was there last season, the wind blew the door down and confined him below. He was missed from his home, and his family, knowing his habits, came to the tomb and released him.

On another avenue is the figure of a small dog, well executed in marble, and inscribed, —"Little Dace, died July 12, 1856." On Fountain avenue, in a plain slab, was inserted a large ambrotype of an aged gentleman, seated in an arm-chair. Over it were the words—"The Major." It was very simple, but from its odd appearance attracted much attention. On 27th avenue is a beautiful bust in marble with the touching inscription, "My wife and our mother." The work has been recently erected at a cost of two thousand dollars. But the richest work of art in the grounds is that erected to the memory of a young lady who was killed by being thrown from a carriage, on the seventeenth anniversary of her birthday. She was on her way to attend a party in the city of New York, when the horses took fright and precipitated her from the carriage. Her father spent all of her large fortune, and the greater part of his own, in erecting the mausoleum to her memory. The architecture is Gothic. It is of the finest imported white marble, and is highly finished. The pedestal has a richly sculptured child, bearing her name. The exterior is ornamented in scrolls and cornices of the most elaborate description. In a niche on the front, is a life-size statue, which is said to be a correct likeness. She is dressed in her party costume, her face beaming with smiles, and so natural does it appear that it almost mocks life itself. Within ten feet of the monument, on either side, are life-size figures in marble, representing guardian angels; other ornaments are interspersed within the enclosure, which is reached by flights of steps on eight sides. Lower down is a border of shrubbery and flowers. A low iron fence encloses the whole. Here were congregated many visitors, and at all times friends and strangers are found gazing with admiration and solemnity on the works of a fond parent.

"Can storied urn or animated bust,
Back to its mansion call the fleeting breath!
Can honor's voice provoke the silent dust,
Or flattery soothe the dull, cold ear of death?"

In various parts of the cemetery were elegant tombs of marble and sandstone, the exterior of which were wrought in the most elaborate manner, and I was informed that the interior of most of them were fitted up in a gorgeous style. From the 5th Avenue, surrounded by all that wealth could give, they at last repose in the avenues of Greenwood, in all the "boast of heraldry and pomp of power."

Near by are the remains of the ancient cemetery, filled with common head stones, "with uncouth rhymes and shapeless sculpture decked, free from the passing tribute of a sigh."

Hundreds and thousands of beautiful works of art fill this secluded burial-place, but time would admit of our seeing but a few of the many interesting ones. Weeks could be spent in roaming through the avenues, and the eye would not become weary of looking upon its beauties. With a desire to remain longer, we turned our horses to the gate-way. Yours, J. H. H.

WASHINGTON, July 9.—Within the last 24 hours the 4th and 5th Maine regiments and the New York 29th passed into Virginia.

The steamer Pocahontas has been actively cruising the past week in the neighborhood of Acquia Creek and Mathias Point. At the former place on Saturday, she approached within 1000 yards of the Confederate steamer George Page, which lay far up the river, and fired 13 shells into her, taking her smoke-stack as the target. Those on board were in great commotion, showing that the shots from the Pocahontas were not all ineffectual. While engaged in this duty, the Pocahontas was fired at from the upper rebel battery, but sustained no damage.

The 33d N. Y. regiment from Ontario county arrived this evening.

The disaffected soldiers of the 1st German N. Y. regiment, who were yesterday put in jail for refusing the arms allotted to them by the Government, have repented of their folly, and are now willing to render obedience.

The revolting Garibaldians are still under arrest.

The bill introduced into the House to-day by Mr. Stevens from the Committee of Ways and Means, proposes a loan of two hundred and fifty millions.

FORTRESS MONROE, July 8.—Commodore Pendergrast has gone southward with the Roanoke, and the Cumberland and Daylight sail to-morrow. The Roanoke will be the flag-ship of the West India squadron.

The Quaker City was ordered to Old Point early this morning, to participate in the contemplated attack on Sewall's Point. Including a frigate and gunboats, there were this morning in Hampton Roads a force of 200 guns and 3500 men.

Col. Duryee is acting Brigadier General.

Last night two rebel deserters arrived from the rebel gunboat Teaser, which guards James River from Richmond to the vicinity of Newport News. While she was at anchor last night they escaped with the yawl and long boat, and were picked up this morning by the Monticello. A small boat pursued them from the shore, but withdrew on the appearance of the Monticello. They belong in New York and Baltimore, and report that they were impressed. They say there are only 2000 troops in Richmond, and the same number is posted on James River. The situation of the rebels they represent as very desperate.

MARTINSBURG, Va., Sunday night.—Two deserters from Gen. Johnston's camp came in yesterday. They estimate Johnston's force at 15,000 with 22 pieces of artillery. Reliable information has since been received that Gen. Johnston has been reinforced from Manassas Junction with five regiments and one piece of artillery.

The 15th Pennsylvania pickets took five horses and three rebel troopers this afternoon.

The farmers near Hainesville showed us the graves of ten rebels killed in the late fight, found by them in the woods, horribly mutilated by exploded shells from Perkins' howitzers. The staff estimate the number of the killed and wounded at sixty, but I do not make it so large. They say one of the wounded at Hainesville declared to his officers that he had not fired during the engagement, and showed the nipple of his gun, which was closed up with lead.

Reinforcements are now approaching us from Williamsport, which will give us an available force of 20,000 fighting men to move forward with, and we may expect a forward movement in twenty four hours.

Our men are all grumbling at the delay, and are eager to move on, but it is believed Gen. Jackson will fall back to Winchester, and there we will have the first battle.

KANSAS AND INDIAN TERRITORY.—*Leavenworth, July 9.*—G. W. Coffin, the Superintendent of Affairs for the Indian Territory, has arrived here. He was unable to penetrate over 115 miles, being threatened with capture by the secessionists. His predecessor, Rector, claims to hold the office by virtue of a commission from the *Confederate States.*

Since the evacuation of the forts by the Federal troops, the secessionists have gained control of affairs in the Territory, and confiscated money and provisions intended for the Indians. A convention of Indians, called by Governor Harris of the Chickasaws, broke up in a row.

BUCKHANNON, VA., June 8.—A courier from Werton, reports that Col. Tyler, of the 7th Ohio, had succeeded in throwing one company of his regiment into Glenville last night, with provisions for the nine companies of the 17th and the 8th Ohio regiments, and was awaiting the arrival of the 10th Ohio to move to attack Gen. O. J. Wise.

Gen. McClellan left Middle York bridge, where he was encamped last night, early this morning, with the evident design of reaching a point 20 miles east of here, where the rebels are reported in large force and strongly entrenched.

NEW VIRGINIA GOVERNMENT.—*Wheeling, Va., July 9.*—This afternoon John S. Carlile was unanimously elected U. S. Senator, for the long term, in place of Hunter, and Waitman T. Willey of Monongahela, in place of Mason, for the short term. Elections for various State officers also took place to-day. The new Government is now under full headway, and its recognition is gradually extending over Western Virginia.

BALTIMORE, July 10.—The appointment of Mr. Dodge as Marshal gives great satisfaction to the Union men; others keep quiet.

Extravagant rumors relative to Patterson's command, which has been defeated, cut up and drowned every day for a week, are again started. This time he is perfectly annihilated. Can only say they lack confirmation.

LOSS OF COWS.—On Monday, Capt. Daniel Noyes of Byfield, had a cow die; and on Tuesday he lost a second, while two more were sick in the field. One of his neighbors also has a cow that has been sick for several days. They have not determined whether their animals were poisoned or affected by disease.—*Newburyport Her.*

☞ B. P. Shillaber, Esq., delivered the poem before the Mathetician Society at Tufts College, at the annual commencement, on Tuesday. The oration was by Ralph Waldo Emerson.

MARTINSBRG, VA., July 9.—We have a rumor here this evening, which was received with great enthusiasm, that Gen. McClellan had routed Gen. H. A. Wise at Buckhannon and Laurel Hill.

☞ The Portland Courier is informed that Hon. Neal Dow has applied to Gov. Washburn for the post of Brigadier General, to command the volunteer forces of Maine.

A. RICHARDS & CO.'S
COMBINED GLUE AND CEMENT.

Is liked by every one in preference to any other in market for many reasons:—

1. Because it is ready for use.
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
8. Because it answers a double purpose—it will mend all kinds of Crockery, from China down to the coarsest Stone Ware, and at the same time will mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, which are worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles mended never separate.
10. Because it is no humbug, but an honest article, as thousands can testify.

SPALDING'S PREPARED GLUE, too well known to need puffing.

PREPARED MUCILAGE, always ready to stick a postage stamp, or fasten a loose leaf; will not mould or sour.

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—DYSPEPSIA, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until Dr. *Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

LAKE VILLAGE, N. H., Nov. 4, 1859.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had quite exhausted the contents before the effect was visible, and have added encouragement to persevere in its use; and I was in due time restored to a comfortable state of health: This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARK'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 daw3m

ARMING GOSPORT.—We learn that some steps have been taken towards arming the Isles of Shoals. Everybody knows that the principal island, where the people live, is a strong natural fortress; and those who have been into the little church there, are aware that it is not only founded on a rock, but also built of rocks.

It may not be generally known, but it is nevertheless a fact, that the minister resident there is acquainted with the mounting and use of great guns, and the handling of small arms, as he made a campaign in the U. S. military service, under Gen. Scott, in Mexico.

It is proposed to mount one good heavy cannon at Gosport, and furnish the men there with a musket each, under the care of the pastor, who would also be the leader of the forces.

This armament, it is thought, would be an ample protection against the approach of such privateer or cutter as would be likely to look in there for provision or plunder,—and the islanders, thus armed, could prevent the landing of a formidable force.

Isles of Shoals Roads are a shelter from some storms, and a vessel having any designs against Portsmouth, might use Gosport as an outport.

☞ The man who died in this city, from sunstroke, Tuesday, was named Richard Welch;—he was an Irishman, and we are told, of respectable habits. His age was 49, and he leaves a widow and six young children. He was at work with a gang of mowers, on the farm of Mr. M. H. Wentworth; and we are told by a fellow-mower there, that, complaining of fatigue, he was advised by the foreman to lie in the shade a while; and when he was visited, a short time afterwards, he was found to be dead.

☞ The fire at the foot of Daniel street, on Wednesday night still gave unmistakeable evidences of its presence. A dense volume of smoke arose from the ruins, and Laconia Engine Co. No. 2 were detailed to watch them Tuesday night. They found it necessary to turn a stream of water upon them, in order to keep the flames from breaking out anew.

☞ There is to be an Exhibition of the Girls' High School, this, Thursday, afternoon, at half past two o'clock, at their school-room on Daniel Street. That of the Boys' school will take place on Friday. It will be seen by the advertisement that the examination of candidates for admission will take place on the 15th and 16th inst.

☞ The Concert by the Sabine Minstrels and Band, at the Temple in this city, Wednesday night, was a very attractive and agreeable entertainment to many, and the performances embraced several features which were novel to most of their large audience.

☞ A very pleasant trip on the river and to Fort Constitution, may be made in the steamer Clipper this afternoon or evening, should the weather prove favorable.

☞ The crew of the frigate Sabine are to be paid off to-day, we hear.

BATTLE IN MISSOURI.

KANSAS CITY, MO., July 10.—The Fort Scott Democrat of the 7th contains an account of a battle between the Missouri State troops, numbering by their own accounts from 10,000 to 13,000, and a federal force of 1500 under Col. Siegel.

On Wednesday, 3d inst., the State troops left Rupes Point and moved south about 6 miles. On Friday they marched south in the direction of Carthage. At Brier Fork, 7 miles north of Carthage, they were met by Col. Siegel with 1500 men, who gave battle. The first onset resulted in the State troops being driven back some distance, and their officers ordered a retreat. Their centre gave way, but the order not being heard on the flanks, the advancing federal troops were in danger of being surrounded themselves, and slowly fell back, keeping up a fight, our artillery making fearful havoc among the rebels.

At the crossing of the Dry Fork, our lines were near being broken, when by the timely arrival of 200 Union men, they crossed with a loss of two killed and five wounded. The battle continued by the federal troops alternately fighting and retreating until dark, when they reached Carthage. The fighting on the retreat was all done with artillery, Col. Siegel retreating as soon as they got them in position, and firing on the rebels as they advanced. The loss of the rebels is not less than 300 or 500.

The whole country is laid desolate; fences are torn down, crops trampled, and houses plundered. Parties of women stated that everything had been taken from them but what they had on.

FORT SCOTT—8 P. M.—A citizen of this place has just arrived from Sherman, Jasper county. He states that after leaving Carthage, Siegel encamped two miles southeast of that town, where he was attacked in the night and badly cut up.

His loss is variously estimated at from 300 to 1000, and that of the traitors from 1000 to 2000 killed and wounded.

Col. Brown, with 3000 troops from Springfield, is said to have joined Siegel.

On Friday Ben McCulloch and Price arrived at Neosha, 20 miles south of Carthage, with 10,000 men.

200 Union men, who were left there by Siegel, were surrounded and taken prisoners. One report says all were murdered; another that but a small portion were killed.

McCulloch sent 2000 men to assist Jackson, and expects 5000 additional troops from Arkansas.

☞ The sale of fancy and useful articles, at the Court street Chapel, will be continued this afternoon, from 2 o'clock till 6.

PASSION.—The man who gets into a passion is said to forget himself; but the fact is, he forgets other people. The man or woman who buys any other Saleratus but Herrick Allen's Gold Medal, not only forgets other people and themselves, but runs the risk of scattering broadcast dyspepsia, and many other evils naturally attending the human system. As you value health and good eating, never buy any other. Have the Gold Medal or none. Most everybody sells it. Depot 112 Liberty Street, New York. 3t

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE, Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 39, which is as follows:

Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and warranted to give better satisfaction than any yet offered to the public.

A large lot just received, and for sale by the dozen or single box, by BLACKETT HUTCHINGS, 4 Market street. apr24

REFRIGERATORS.

One of the most economical and indispensable articles in hot weather, is a *good* Refrigerator, (a poor one is not worth buying at any price.) The attention of the public is invited to

WINSHIP'S PATENT UPRIGHT

Self-Ventilating Refrigerator,

thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has given a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other.—Milk, delicate fruits and meats can in this be preserved much longer than in any other Refrigerator.

PROFESSOR WOOD'S

HAIR RESTORATIVE!

SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes:

ST. LOUIS, July 10, 1869.

O. J. WOOD, Esq.—*Dear Sir*:—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 5 years. I commenced using your Restorative in January, 1865, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity, at this late day, as I am well aware they are all well known already; and even more wonderful ones throughout the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken a deep interest in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug, saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new wonderful one throughout the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken a deep interest in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug, saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new wonderful one throughout the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken a deep interest in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug, saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article, said to be as good, and selling at about half the price. I have noticed two or three articles myself inserted as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of these charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word, in several instances, merely inserting some name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray hair, scaly scalp, dandruff, and every disease the scalp and head are subject to.

I failed to see you, personally, at your original place of business here, but learned you were now living in New York.

You are at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1520, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WARREN SPRINGS, Perry Co., Pa., June, 7, '70.

PROF. WOOD—*Dear Sir*:—I was induced more than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for years, and had never been able to get anything to do me any good until I saw your advertisement in a Harrisburgh paper. I bought a bottle, and am now prepared to recommend it to universal use, for it has completely removed all dandruff from my head, and although one is two weeks keeps it free from itching and other unpleasantness. I must also state that my hair had become quite white in places, and by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, I have not the slightest knowledge of it, as I allow a few gray hairs to remain, in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, although I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you. YOURS, &c., H. H. EITER.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARTICLE IN THE FIELD.—Prof. Wood stands on an eminence no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is world-wide, and thousands who have worn wigs or been bald for years, are now, through the use of his preparation, wearing their own natural hair. Wonderful! Wonderful! So much for chemistry. Prof. Wood studied out the human hair, its properties, its diseases, and how to restore its decayed vitality; he saw, as in his own case, that gray hair is unnatural unless the age of the individual had reached fourscore, and he believed that it could be re-vitalized. He tried his own case—almost bald and wholly gray at 37—he restored his own hair—and the article he did it with he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Day Book.*

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the head has become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair. It also has curative powers of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of this remedy, and if effects be what we want claimed, as the compound, if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—*Boston Transcript, April 22, 1869.*

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual merit, and its sale cannot be enhanced by newspaper puffs. In our own vicinity it has been extensively used, and we believe in every case it has proved a good article, and receives the universal indorsement of all who have tried it. We therefore recommend it as one of the few genuine articles, and one which will do all they profess, and all the bald and gray could desire.—*Columbia Spy.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried the Restorative.—*Boston Olive Branch.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums,—but we take great pleasure in recommending Prof. Wood's article to all who desire a beautiful head of curling gray. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all try it, and bald heads will be as rare as snow in summer.—*Baltimore Patriot.*

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as Importers, is not only sufficient guarantee for the **Purity of our Goods**, but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

15 Greatest Medical Circular Ever Published! 15

Fifteen large letter pages for two 3 cent stamps.

Dns. JACKSON, HERBERT & CO. are Associated Proprietors of the **National Dispensary**, No. 167 Sycamore street, Cincinnati, established Jan. 1, 1859, for the cure of Private Diseases.

Prof Egbert Jackson, Dr. Robert Herbert and M. Velpeau. Thousands cures effected with almost incredible rapidity, of Gonorrhea, Syphilis, Gleet, Nocturnal Emissions or self-abuse, Impotency, Stricture, Venereal Diseases, *Diseased Emissions*, in short, every possible form and variety of Sexual Disease, and at the same time the *general health* of the patient improved, where any improvement in that respect is needed.

Our Dispensary Circular, of 15 large 8 in. by 11 in. letter pages, with full and special written Reply, sent promptly, well sealed, to any address for the amount of the postage, six cents! Every young man, whether

SICK OR WELL,

should have one. Also, a Circular intended for ladies only, nine large letter pages, for a 3 ct. stamp. The "Mountain of Light, or Medica Protector," a new book of 300 three hundred pages, one hundred engravings; price, in stamps or money, 50 cts. and one 3 ct. stamp, or 3 for $1 and nine cents in stamps. This book is fully described in our Circular. It is by far the most valuable and deeply interesting book on the subjects treated of, now extant; matters that in former works were merely hinted at, are here fully explained; it contains a full and explicit key to all the secrets of marriage, love and beauty never before

SATISFACTORILY

revealed in any book in the English language.

Dr. Jackson's Perpetual Preventive—*send for Circular.*

Dr. Jackson's Female Pills, $1—*send for Circular.*

Dr. Jackson may be seen at the Consulting Rooms of the Dispensary, No. 167 Sycamore street, from 10 A. M. to 1 P. M., and from 4 P. M. till 8 P. M.; at other hours either Dr. Herbert or M. Velpeau, or both, will be in attendance.

Male patients, when desired, will be furnished with large, airy, comfortable rooms, suitable board and careful attendance, for the few days ordinarily necessary to effect a cure. Patients do not see each other. The most ample guarantee of our ability and good faith promptly given when desired. Fees as reasonable as the very highest modes of treatment known to modern medical science, and a very long and varied experience, will admit. P. O. Box 436. Send for Circular, and state your case ☞ plainly and fully,—and you will receive the Circular and our written reply by return mail. ☞ We will answer no letter unless it contains six cents in stamps. Medicine and instructions sent promptly and carefully to any part of the world.

BININGER'S OLD DOMINION WHEAT-TONIC
—FOR—
FAMILY AND MEDICINAL USE.
This natural product of the most nutritious grain, recommends itself as presenting in a concentrated form the nutritive properties of Wheat, and has received the highest encomiums from eminent medical authorities, as possessing qualities that are absolutely PATTERING; this desideratum renders it invaluable to those who are suffering from Consumption, Lung Complaints, Impaired Strength, Lack of Vital Energy, and all diseases which, in their incipient stages, require only a generous diet, and an invigorating, nourishing stimulant.
Put up in quart bottles, in iron-bound cases of one and two dozen each, and sold by all prominent Druggists, Grocers and Town Agents.

A. RICHARDS & CO.'S
COMBINED GLUE AND CEMENT.
Is liked by every one in preference to any other in market for many reasons:—
1. Because it is white as snow.
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
4. Because it answers a double purpose—it will mend all kinds of Crockery, from China down to the coarsest Stone Ware, and at the same time will mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles mended never separate.
10. Because it is no humbug, but an honest article, as thousands can testify.

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk Street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1860, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound." After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonics* and *stomachics*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after protracting diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pints as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

FINANCE AND BUSINESS.

It is perfectly clear, now, that encouraging words on trade may be spoken truly. In the Boston Post's article on Finance and Business, it is said that "the public mind seems to have already attained the condition that must speedily cause the revival of traffic. The great excitement has passed away. The crushing out of rebellion has not only taken a definite character, but it has been extraordinarily successful. For it has stayed the progress of the evil, and has visibly diminished its extent, by thousands of square miles. The Federal Government has been energetic, the people have been liberal and loyal, and the grand result has been the growth of an unwavering confidence in the good conduct and happy termination of the abominable conflict to which necessity has compelled this rich and powerful nation."

As the proper consequence of all this, people begin to think of some other things, besides the war.

This present mid-summer is not duller than its predecessors. Upon the whole, remarks the Post, there is more doing than there was a month ago. And people are beginning to talk of the future, as they realize the plain and great fact that a war at Richmond is of little more injury to the loyal States than a war at Vera Cruz—costing treasures of blood and gold, alas—but not interfering greatly with the course of trade by which much of that gold is to be acquired, and the community sustained, under the loss of the labor of its absent warriors. People are realizing that the world must be fed and clothed, even if Old *Virginia has* chosen to become the cats-paw of traitors; and that, with our rich crops, untiring industry, and the profitable manufacture of all sorts of war materials, there is no reason in the world why we should not be fed *well* and clothed *well*.

As to money and business, the well-informed writer says "there is absolutely nothing new, unless this quality is to be found in the announcement of the wants of the Government. Even this is really no news to most people, since all the world knows that each soldier in arms costs something like $1000 a year. As to the manner of obtaining the large sums required, the Secretary's plans are various. Which will be the most successful, it is impossible to say; but, at home or abroad, at one price or another, the United States will find no difficulty in borrowing as rapidly and largely as is necessary. Money is very dull, and abundant for first class securities."

CIGARS.—Contrary to expectation, the price of cigars declines, and the manufacture is much depressed. Under the idea that the slave States furnished the raw material, says the Newburyport Herald, it was supposed that cigar smoking would become a costly luxury; but of late years the tobacco for cigars has been grown in the free States—Connecticut, New York, Ohio and other States furnishing the bulk of the material; while Richmond remains the great mart of the country for chewing tobacco. We can see how fast the production has increased in the North by taking the case of Ohio. In 1840 the total crop of Ohio was 6,600,000 pounds; in 1850 it had reached 11,000,000 pounds, and since that it has advanced in the same ratio.

DEATH OF A CENTENARIAN.—A few days since, there died in Philadelphia, at the advanced age of 102 years, a woman named Dinah Geary. According to her own statment, she was born in the year 1759. Her eldest child is now 76 years of age, and her baby 65. She often spoke of having attended Washington's receptions during his Presidency. The grandparents of the deceased were Germans, and were among the first settlers in Pennsylvania.—The old lady retained her memory and most of her faculties to the last.

☞ The injuries which the wife of Prof. Henry W. Longfellow received on Tuesday from her dress taking fire, resulted in her death at 11 o'clock Wednesday morning. The sad event will throw a large circle of friends into the deepest distress, and engage the heartfelt sympathy of all communities to whom the poet is known. Mr. L. was burned principally upon the hands, but so severely that his sufferings have been intense. Both were kept under the influence of ether during the entire night.

☞ Mail service in the west and middle portions of Tennessee is discontinued.

IMPORTANT BILLS.

In the U. S. House of Representatives on Wednesday, several important bills were passed, as follows.

1. The Senate bill remitting the duty on imported arms, 135 to 10. In the debate, Mr. Burnett of Ky. opposed the action of government, but Mallory of the same State, pledged the support of Kentucky to the government. The following are the nays:

Burnett, Harden, Norton, Pendleton, Reed, Robinson, Vallandigham, Voorhees, Wadsworth, Ben Wood.

Not a very strong party, certainly.

2. The Loan Bill was passed. Yeas, 149; nays 5—viz., Burnett, Norton, Reed, Vallandigham and Ben. Wood. — A weaker party still, but making up in bitterness what it lacks in strength. This Loan Bill authorizes the Secretary of the Treasury to borrow within twelve months $250,000,000, for which he is authorized to issue certificates of coupon, or registered stock or Treasury notes, the stock to bear interest not exceeding 7 per cent. per annum.—Notes of $50 and upwards will be issued. The faith of the United States is pledged for the payment; the duties on tea, coffee, sugar, spices, wines and liquors are pledged; also such excise and other internal duties and taxes as are received into the Treasury.

3. A bill permitting the President, when the collection of duties at the Custom House at any port is obstructed, to collect it on shipboard, or on land at other ports in the district,—in *cash*. The President is empowered to employ such part of the army, navy or militia as is deemed necessary, and if the duties on imports cannot be effectually collected, he can close the ports of entry in the District by proclamation. The President may at discretion, license and permit commercial intercourse with any part of a State or section, the inhabitants of which are declared in a state of insurrection.

In the U. S. SENATE on Wednesday, the bill authorizing the employment of volunteers for the suppression of the insurrection was considered, amended, and finally passed. *It authorizes the President to accept such a number of volunteers as may become necessary, not exceeding half a million, and provides for the franking privilege to Colonels, Lieut. Colonels, Majors, Adjutants, Captains and Quartermasters.* The President may appoint Major and Brigadier Generals from the regular army.

In the debate, Mr. Saulsbury moved to strike out 500,000 and insert 200,000. He said the Union had no warmer friend than himself, and Delaware was eminently loyal, but he believed there could be a peaceful settlement of this trouble. He was willing to vote for any number of men to defend the Capital, but believed that if Congress would to-day adopt the compromise of Mr. Crittenden and turn the Richmond Government over to our people, we would have peace. We could not save the Union in the manner proposed by this bill.

Mr. Foster said 200,000 was too many to make peace, too few to make war.

Mr. Saulsbury said he would defend the Capital.

The amendment was disagreed to, yeas 5, nays 33. The yeas were as follows:—Johnson of Missouri, Kennedy, Polk, Powell, Saulsbury.

Nays — Anthony, Bingham, Browning, Collamer, Chandler, Clark, Cowan, Dixon, Doolittle, Fessenden, Foote, Foster, Grimes, Hale, Harlow, Harris, Howe, Johnson of Tennessee, King, Lane of Indiana, Lane of Kansas, Latham, McDougal, Morrill, Nesmith, Pomeroy, Rice, Sherman, Sumner, TenEyck, Trumbull, Wade, Wilson, Wilkinson—34.

The bill was then passed—yeas 34, nays 4.

These decisive votes show the tone and temper of Congress, to be firm, deliberate, determined to crush the rebellion.

It will be seen that Senator *Breckinridge* did not vote, and it is reported that he will in a few days make a speech against the war and in favor of peace, compromise and union. He is the only great orator from the slaveholding States now in the Senate, and his previous position will give interest to what he may say. But the only reply to be now made to him is—"Too late!"

☞ In U. S. Senate, Thursday, resolution expelling Mason and other traitors was called up, and a motion to strike out the word "expel" was disagreed to—11 to 32. Resolution approving the acts of the President was passed—32 to 10.

☞ Our attention has been called to new and beautiful signs on the building recently erected by D. R. Rogers, Esq. On inquiry, we found they were executed by Mr. Edward D. Coffin, a young man of great ability and good taste as a painter and letterer. Such workmen as Mr. Coffin are a great benefit to any place. 2.

☞ The General Association of Presbyterian and Congregational Ministers in New Hampshire, will meet in the North Church in Portsmouth, Tuesday, August 27, and continue three days. The Association has become a State Conference, as lay delegations are sent from each county.

SENTENCE FOR ROBBERY FROM THE PERSON.—John Kelly was sentenced in the Superior Court, Boston, Wednesday, to five years' imprisonment in the State Prison for robbing a sailor of his money at a place in North street.

FROM ST. DOMINGO.—The news from St. Domingo is important, a bloody reaction having taken place against the invasion by Spain. The Spaniards find the work upon their hands growing warmer every day, and a reinforcement has consequently been called for from Porto Rico.—It was thought at first that ten thousand soldiers would have been more than sufficient to subjugate the country, but already they begin to feel that twenty thousand will not be too many.

It may be worth while to recollect that Bonaparte sent thirty thousand men to reenslave the Haytian side of the Island,—and then thirty thousand more,—of whom eight thousand only returned to France.

☞ Joel Carlton Preble, who so inhumanly murdered his wife at Auburn, Me., on the evening of the 4th of July, and escaped, delivered himself up on Tuesday evening. After he made his escape he took to the woods, and has been travelling hither and thither ever since, concealing himself in the day time and travelling at night.

He had become completely exhausted, having eaten only strawberries, and a little milk, since the 4th.

Tuesday afternoon, in a pasture near Auburn, he saw a boy, and called to him, telling him who he was. He entreated the lad to take him to his home and give him something to eat and drink, for he was almost famished, and could hardly walk. The boy assisted him to his father's house, when refreshments were provided for him, and some neighbors were dispatched for the officers, who came and conveyed him to the Auburn jail.

The Charleston Courier, in consideration of the mustering of such large numbers of Union forces, armed with the best weapons, and under the instruction of the most competent officers, is of opinion that the South "should prepare for defeat."

Some citizens of Virginia still holding civil office a Washington, have been duly notified by some Virginia authorities that unless they resign within thirty days, they will be outlawed, and their property within the State, if any they may have, confiscated.

Two can play at this game of confiscation.

☞ A new gunpowder has been discovered, which has more efficiency than the, old and all the cleanliness of gun cotton. Its composition is twenty-eight parts of ferrocyanide of potassium, cane sugar twenty-three parts, and chlorate of potash forty-nine. Its explosive gasses are twice in volume those of common gunpowder.

☞ Capt. Dumaresq was drowned from the steamer Empire State, in the Sound, June 25, and his body has just been found. Several members of the family have met death by drowning. A year or two since his wife and daughter were drowned together in the Kennebec, and his father was drowned some years ago.

☞ A very charming girl in Lowell, of English birth, who had the misfortune to lose about all her teeth, and had used a false set for some time, now finds a new and promising supply coming forward, in both jaws, and will soon have a full set of natural teeth.

☞ The Second N. H. Regiment were ordered to have four days' rations put up, and to be in readiness to march Sunday; but in the morning the order was countermanded, and the boys were thus disappointed.

☞ United States stocks have advanced three per cent. within a few days. The confidence of the people is increasing, very much in consequence of the firmness, decision and promptness of Congress.

☞ A report from Washington says it is very generally credited there from reliable information, that Gov. Wise has been shot, and either killed or wounded.

☞ Gen. McClellan reports the enemy strongly entrenched within two miles of his camp, and has summoned all the federal forces within a radius of 40 miles, to join him at once.

☞ Col. Thomas, the heroine of the St. Nicholas steamboat affair, has been presented by the Baltimore grand jury, for trial for piracy and treason, and is now in jail. It will go hard with him.

FORT CONSTITUTION.—The soldiers stationed at Fort Constitution, are soon to be discharged. A Lieutenant there "looks as hardy as a tiger, and boasts of having gained seventeen pounds in the two months' service he has had."

☞ The Piscataqua Association will meet in Scotland Parish, York, Me., with Rev. Mr. Partridge, on Tuesday the 16th inst, at 10 o'clock A. M.

DEATHS IN PORTSMOUTH IN JUNE.—Males 5—aged 61, 42, 39, 21 years, 4 mos. Females 4—aged 95 years 10 months, 84, 45, 41 years. Total 9.

MINISTERIAL JOCKEYING.—Rev. Dr. Sloan, of New London, Conn., has commenced a suit against Rev. L. R. S. Brewster, of Wilbraham, for damage in a horse trade.

THE ANGEL OF PATIENCE.

BY FLORENCE PERCY.

Beside the toilsome way,
Lonely and dark, by fruits and flowers unblest,
Which my worn feet tread sadly, day by day,
Longing in vain for rest;

An angel softly walks,
With pale sweet face, and eyes cast meekly down,
The while from withered leaves and flowerless stalks
She weaves my fitting crown.

A sweet and patient grace,
A look of firm endurance, true and tried,
Of suffering meekly borne, rests on her face,
So pure—so glorified.

And when my fainting heart
Despends and murmurs at its adverse fate,
Then quietly the angel's bright lips part,
Murmuring softly, "Wait!"

"Patience!" she sweetly saith,—
"The Father's mercies never come too late;
Gird thee with patient strength, and trusting faith,
And firm endurance—wait!"

Angel! behold, I wait,
Wearing the thorny crown through all life's hours,—
Wait till thy hand shall ope the eternal gate,
And change the thorns to flowers!

BATTLE IN MISSOURI.—*New York, July* 10.—The World has the following special dispatch:—

"*St. Louis, July* 10.—Authentic intelligence from an officer in Springfield on the 6th, states that Gen. Sweaney with his entire force reinforced Col. Seigel, and at last accounts were pursuing the State troops near Vernon. The reports of engagements near Carthage are exaggerated, but all accounts agree in stating the death of Lieut. Col. Wolff."

NEW YORK, July 10.—The Post's Washington dispatch says Gen. Fremont leaves for Illinois to-night.

A bill will be introduced into Congress prohibiting the sale of liquor to soldiers.

The Union Congressman, May, of Baltimore, reached Jeff. Davis' headquarters on the 3d.

It is expected that the President will soon lay before Congress the instructions to the American minister, and the British correspondence relative to privateering.

NEW YORK, July 11.—A dispatch to the Herald says Mr. May is on a peace mission to Jeff. Davis, self-appointed.

☞ The officers recently from Texas are detailed for duty at Forts Kearney and Laramie.

Trouble is apprehended in Nevada by the resistance of the people, through Mormon influence, to the Federal authority of Gov. Nye.

It is reported that Gen. Lee has resigned his office in the traitors' army, and retired to Western Virginia.

An organization is forming in Washington, composed of refugees from the South, to detect the rebel spies.

Tee 1st Artillery and part of the Fort Sumter garrison have gone to the seat of war, taking their Sumter flag with them. They left Fort Hamilton yesterday.

A dispatch to the World says the Administration refused to give May of Baltimore any commission to go to Richmond.

A dispatch to the Tribune says that a dispatch from Com. Stringham states that a flag of truce was sent up the river for Col. Segur's daughter, which was fired on from Craney Island, and when he afterward sent a message to Gen. Huger, the messenger received no answer, and returned after waiting four hours. Com. Stringham expresses his unwillingness to hold further communication with the rebels till this insult is explained satisfactorily.

FORTRESS MONROE, July 10.—The frigate Santee sailed this afternoon for the Gulf.

Several persons came down from Baltimore this morning to go to Norfolk, but Com. Stringham would not permit a flag of truce to leave the harbor.

The Quaker City this morning captured the brig Amy Warwick, of and for Richmond from Rio Janeiro, with 5100 bags of coffee.

The rebels are felling and burning trees at Sewall's Point, indicating that they intend to hold the place.

CINCINNATI, July 11.—A special dispatch from Beallington, near Laurel Hill, says, yesterday afternoon, the enemy advanced under cover of the woods. Our skirmishers rushed forward, pouring in a sharp volley, killing several. The rebel cavalry then advanced to take our skirmishers by the flank, but our boys rapidly retreated, and the artillery dropped a couple of shells, one exploding among their cavalry. The rebels scattered in the woods.—Several more shells were thrown in, and our men made a final rush, driving them clear through their own rifle pits, bringing back several of their canteens, blankets and guns. It was a crack Georgia regiment, of 1200 men. Their supplies of provisions are cut off, and they must soon come to extremities.

Our loss is 1 killed and 8 wounded. Indications are that the enemy is about to cut a new road through the woods to effect escape or obtain provisions. Arrangements are being made to head them off. Every outlet is watched.

BUCKHANNON, Va., July 11.—A messenger from Gen. McClellan reports that the rebels are so strongly intrenched that it will be necessary to carry their fortifications by assault. He was making preparations last night, and was to commence work this morning.

A courier left Laurel Hill last night. The forces are within a mile and a half of each other. The rebels are strongly entrenched and number 8,000. They have only six-pounders. The messenger saw the bodies of 15 or 20 rebels, as he passed.

LOUISVILLE, July 11.—The Ky. Circuit Court, in case Brady & Davis v. Louisville & Nasbville R. R. has decided in favor of right of Federal Government to interdict freight to the South.

Lt. Crittenden, son of John J. Crittenden, denies having joined the rebels.

The Richmond Enquirer says Gen. Polk's command will comprise the land and water defences from mouth of Red river to Northern boundery of the Confederacy. This supersedes Pillow.

☞ Cotton growing has beep commenced in the British colony of Queensland, Oceanica, with a good prospect of success.

☞ A fire-board in a house near the foot of Atkinson Street, caught fire on Thursday night about 12 o'clock; but was discovered by the Watchmen, and extinguished by the Irish occupants before the firemen could arrive.

DISCONTINUED.—The pressure of the times has fallen so heavily on the Atlas and Bee newspaper as to compel a suspension of the publication of that journal.

☞ The wheat harvest in Maryland is generally finished, and the accounts of the yield are very flattering.

☞ The members of the First New Jersey Regiment, First Brigade, it is stated, have sent home or deposited in savings banks at Washington, $10,000 out of $18,000 recently paid them.

NEW ENGLAND

Single Stitch Family Sewing Machine.

This little Machine stands confessedly at the head of everything now offered to the public.

In Cheapness, Simplicity, Compactness, Durability & Beauty,

IT HAS NO RIVAL!

There is no complicated machinery to get out of order or perplex the operator.

It is made with special reference to the wants of a family; simple in its arrangements, perfect in its motion, and durable in its parts. Any one can understand and work it with perfect success; doing all kinds of work, from the finest muslin to the coarsest fabric. It gives the best satisfaction where it is sold; and all who use or examine it, pronounce it better adapted to meet the wants of every family than any other machine now offered to the public.

Price only $12,

Table $8.....Hemmer $1.

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—DYSPEPSIA, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of its sufferers:

LAKE VILLAGE, N. H., Nov. 4, 1859.

MESSRS. Seth W. Fowle & Co., Boston,—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition. I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken, produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

Prepared by SETH W. FOWLE & CO., Boston, and sold by

Preston, Kimball, Hutchings, J. H. Thacher, N. P. Thacher, Portsmouth; James P. Packer, Greenland; S. Hanson, Jr., New Market; Porter & Thyng, and Wm. B Safford, Exeter; J. W. Green, Hampton Falls; and by dealers every where.

American Women.

America is justly proud of its beautiful women; but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 dawSm

Bryan's Pulmonic Wafers!

References can now be given to some of the principal Physicians and numerous individuals in this vicinity, who have used the above remedy with the fullest success in various cases of Coughs, Colds, Asthma, Sore Throat, Influenza, Irritation of the Lungs, &c., &c. The success of this remedy has been fully tested in various parts, where the moisture of the climate induces great prevalence of Colds, &c., and a certainty of the efficiency of a remedy is required to avoid Consumption and ultimate death. This remedy, although only recently introduced in this vicinity has met with a great demand, and every confidence is placed in its merits by those who have given it a fair and impartial trial.

A lady resided with an only daughter for many years in Alexandria. About nine nine months since, a mutual friend introduced a young gentleman from Richmond to the family. The young people soon became intimately acquainted, and quite naturally fell in love. They were betrothed, and the marriage day was fixed. In the meantime, however, Virginians were called on to decide on which side they would stand. The gentleman joined the forces of his State. On the 4th of July, exactly within an hour of the time originally fixed for the marriage, intelligence came that the young man had been shot by a sentry two days before, while attempting to desert from the rebels in order to join his bride. His betrothed did not shed a tear, but standing erect, smiled, and then remarking to her mother, "I am going to desert too," fell to the floor, while the life blood bubbled from her lips.

From Paris we learn that rice straw is the bonnet most in vogue. The trimmings are generally of black velvet, with bunches of grass, daisies, and other summer flowers. There are also dress bonnets of figured tulle and roses, with the curtain of pink silk and tulle; straw-colored crape with a baby crown and a drum front, having between the crown and the front a wreath of yellow roses, from which falls a drooping feature on the left side. These bonnets are often lined with a colored silk, which is very becoming.

One day last week a well known citizen of Portland received a severe castigation at the hands of a respectable lady, whom he had been in the habit of annoying by his insulting language. She collared him, gave him some severe cuts across the head and face with her weapon, and he sung diminutive, not always pleasant to trifle with the downeast girls.

AGGRAVATED ASSAULT.—Lieut. John E. Mullaly and lady, of South Danvers while walking through Harmony Grove on Monday evening, about 9 o'clock, were attacked by two ruffians, who struck, kicked and stabbed the lieutenant, severely bruising and wounding him. Some friends, who happened to be near, heard the alarm and rescued him. No motive is known for the assault. One of the parties, named Reed, has been arrested, and the officers are on the track of the other.—*Salem Register.*

No more puny children, decayed teeth, or yellow bread, if you will use Herrick Allen's Gold Medal Saleratus. There is nothing equal to it. It is far superior to soda to use with cream tartar. Bread or Biscuit raised by it is more easily digested than by any other. Try one paper, and you will not fail to use it ever after. Have the Gold Medal or none. Grocers and Druggists keep it.

Dr. Wistar's Balsam of Wild Cherry is truly a balsam. It contains the balsamic principle of the Wild Cherry, the balsamic properties of tar and pine. Its ingredients are all balsamic. Coughs, colds and consumption disappear rapidly under its balsamic influence.

To Owners and Keepers of Dogs,

CITY MARSHAL'S OFFICE,
Portsmouth, June 26, 1861.

Having received directions from the Honorable Mayor and Aldermen to strictly enforce Ordinance No. 29, which is as follows:

Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

june17 OREN BRAGDON, City Marshal.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

REFRIGERATORS.

One of the most economical and indispensable articles in hot weather, is a *good* Refrigerator, (a poor one is not worth buying at any price.) The attention of the public is invited to

WINSHIP'S PATENT UPRIGHT

Self-Ventilating Refrigerator,

Thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has given a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other.—Milk, delicate fruits and meats can in this be preserved much longer than in any other Refrigerator.

Bartlett's Polar Refrigerator,

With two food chambers and a water tank; a very convenient article.

PROFESSOR WOOD'S

HAIR RESTORATIVE!

SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes:

ST. LOUIS, July 10, 1860.

O. J. WOOD, Esq.—*Dear Sir:*—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 5 years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity, at this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in travelling the greater part of the last five or six years, and have taken pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug; saying they had used it and without effect. In every instance, however, it proved by probing the matter, that they had not used your article at all, but had used some new article, said to be as good, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of these charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word, in several instances, merely inserting some name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect satisfaction—some for baldness, gray hair, scald head, dandruff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, but learned you were now living in New York.

You are at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1629, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WARREN SPRINGS, Perry Co., Pa., June, 7, '59.

PROF. WOOD:—*Dear Sir:*—I was induced more than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for years, and had never been able to get anything to do me any good until I saw your advertisement in a Harrisburgh paper. I bought a bottle, and am now prepared to recommend it as universal use, for it has completely removed all dandruff from my head, and an application once in two weeks keeps it free from itching and other unpleasantness. I must also state that my hair had become quite white in places, and by the use of your preparation, has been restored to its original color. I am now 60 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow it to grey my hair to remain, in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, although I do not like to expose myself, I consider it my duty to pay it. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you. Yours, &c., H. H. KITER.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARTICLE IN THE FIELD.—Prof. Wood stands on an eminence as chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is world-wide, and thousands who have worn wigs or been bald for years, are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry. Prof. Wood modest enough to disclose his properties, its diseases, and how to restore its decayed vitality; he saw, as in his own case, that gray hair is unnatural, unless the age of the individual had reached threescore, and he believed that its hair could be re-vitalized. He tried his own case—silvered, bald and wholly gray at 37—he restored his own hair—and the article he did it with, he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Day Book.*

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the head had become bald from long prevalence of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes, the ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair. It also has curative powers of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attending to the trial of this remedy, and its effects can only be beneficial, as the compound, if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—*Boston Transcript, April 22, 1859.*

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper puffs. In our own family it has been in constant use, and we believe in every case with every desired result, and receives the universal indorsement of all who have tried it. We know of no preparation, of all of those few genuine *nostrums* which accomplish all they profess, and all the bald and gray could desire.—*Columbia Spy.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried the Restorative.—*Bo ton Olive Branch.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in time cases out of ten they are quack nostrums;—but we take great pleasure in recommending Prof. Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtue. Let all try it, and bald heads will be as rare as snow in summer.—*Saturday Patriot.*

REAL ESTATE IN NEW CASTLE
FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, good shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution, promise here to an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARLTON, on the premises, or to WILLIAM H. HACKETT, MARKET SQUARE.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

15 Greatest Medical Circular Ever Published! 15

"Fifteen" on large letter pages for two 3 cent stamps.

DRS. JACKSON, HERBERT & CO. are Associated Proprietors of the **National Dispensary**, No. 167 Sycamore street, Cincinnati, established Jan. 1, 1859, for the cure of Private Diseases.

Prof. Egbert Jackson, Dr. Robert Herbert and M. Velpeau. Thorough cures effected with almost incredible rapidity, of Gonorrhea, Syphilis, Gleet, Nocturnal Emissions or self-abuse, Impotency, Stricture, Female Diseases, *Uterine Emissions*, in short, every possible form and variety of Secret Disease, and at the same time the *general health* of the patient improved, where any improvement in that respect is needed.

Their Dispensary Circular, of 16 large 8 in. by 11 in. letter pages, with full and special written Reply, sent promptly, well sealed, to any address for the amount of the postage, six cents! Every young man, whether

SICK OR WELL,

should have one. Also, a Circular intended for ladies only; nine large letter pages, for a 3 ct. stamp, on "The Mountain of Light, or Medical Protector," a new book of three hundred pages, one hundred engravings; price, in stamps or money, if one and one 3 ct. stamp, or 3 for $1 and nine cents in stamps. This book is fully described in our Circular. "It is by far the most valuable and deeply interesting book on the subjects treated of, now extant; matters that in former works were merely hinted at, are here fully explained; it contains a full and explicit key to all the secrets of marriage, love and beauty never before

SATISFACTORILY

revealed in any book in the English language.

Dr. Jackson's Perpetual Preventive—*send for Circular.*

Dr. Jackson's Female Pills, $1—*send for Circular.*

Dr. Jackson may be seen at the Consulting Rooms of the Dispensary, No. 167 Sycamore street, from 9 A. M. till 3 P. M., and from 4 P. M. till 8 P. M.; at other hours either Dr. Herbert or M. Velpeau, or both, will be in attendance.

Male patients, who visit the city, will be furnished with large, airy, comfortable rooms, suitable board and careful attendance, for the few days ordinarily necessary to effect a cure. Patients do not see each other. The most ample guarantee of our ability and good faith promptly given when desired. The cheapest as reasonable as the very highest modes of treatment known to modern medical science, and a very long and varied experience, will attest. P. O. Box 1629. Send for Circular, and state your case fully, plainly and fully,—and you will receive the Circular and our written reply by return mail. We will answer no letter unless it contains six cents in stamps. Medicine and instructions sent promptly and carefully to any part of the world.

is liked by every one in preference to any other in market for many reasons:—
1. Because it is white as snow.
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
4. Because it answers a double purpose—it will mend all kinds of Crockery, from China down to the coarsest Stone Ware, and at the same time will mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles mended never separate.
10. Because it is no humbug, but an honest article, as thousands can testify.

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have been but one bottle, and am entirely well.—D. D. BASTEN, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.

SATURDAY, JULY 13, 1861.

THE MISSOURI BATTLE.

The latest accounts of the battle near Carthage, Mo. show Col. Seigel, of the U. S. forces, to be a superior officer,—and that his forces were much more successful then at first reported.

A St. Louis, dispatch of July 11, informs us that Lieut. Toskin, Col. Seigel's Adjutant, and bearer of dispatches to Col. Harding, gives the following additional particulars of the battle near Carthage:—

The State troops were posted on a ridge in the prairie, with five pieces artillery, one 12-pounder in the centre, two 6-pounders on the right and left, cavalry on each flank, and infantry in the rear of the artillery.

Col. Seigel approached within 300 yards, with four cannon in the centre body, infantry and one 6-pounder under Lieut. Col. Hassendar on the left. Colonel Solomon's command with a six-pounder on the right, and a body of infantry behind. The centre, infantry and Col. Seigel's left opened fire with grapnel, and soon the engagement became general.

The rebels had no grape, and their artillerists being poor, their balls flew over the Federals' heads. After two hours firing the enemy's artillery were entirely silenced and their ranks broken. About 1500 rebel cavalry then attempted to outflank Seigel and cut off his baggage train, which was three miles back, when a retrogade movement was ordered. The train was reached in good order, surrounded by infantry and artillery, and the retreat was continued till a point was reached where the road passed through a high bluff on each side,on which the enemy's cavalry was posted in large numbers. By feint as if intending to pass around the bluff, Seigel drew the cavalry in a solid body into the road, at a distance of 150 yards from his position, when by a rapid movement of his artillery he poured a heavy cross fire of cannister into their ranks, at the same time the infantry charged at double quick, and in ten minutes the State forces were scattered in every direction. Eighty five riderless horses were captured and 65 shot guns; a number of revolvers and bowie knives were picked up from the ground. Col. Seigel did not surround Carthage, as reported yesterday, but attempted to reach a piece of woods north of the town, and after two hours of desperate fighting, in which all the forces on both sides were engaged, and in which Lieut. Toskin thinks the enemy lost nearly 200 killed, he succeeded doing so, and the rebels retired to Carthage, and Col. Seigel fell back on Sarcoxie, whence he proceeded next day to Mount Vernon.

Lieut. Toskin left on the evening of the 7th, and rode to Rolla, 153 miles, in 29 hours.

Hemets and General Sweeney's commands, five miles, and Col. Brown's regiment, 16 miles, from Mt. Vernon, were pressing forward to reinforce Col. Siegel. Lieut. Col. Wolff was not killed, as reported.

MONTGOMERY OVER THE BORDER.—A private letter dated Ossawatomie, Kansas, July 1, published in the Boston Journal, states that Capt. Montgomery had gone into Missouri on the Government secret service. He had under his command Jennerson's company of cavalry, 100 men, and a company or more of infantry, 150 men, all picked men and good fighters. He had already had a brush. His advanced guard was fired upon at about twenty miles beyond West Point, by about thirty ambushed rebels, and two of his men killed and several wounded. The main body, being close at hand, were immediately drawn up in battle array, a charge was made, and not a man of the thirty was left to tell the tale. Montgomery's business is no doubt to cut off the retreat of Claib. Jackson, in the South; and if anybody can do it, he can.

DEATH FROM HYDROPHOBIA.—We earn from the St. Louis Democrat that Mrs. McRae died on Sunday night at Jefferson Barracks, of hydrophobia. She was the wife of Major McRae, Commandant at the Barracks. About two months ago she was attacked by a furious dog, taroun to the ground and bitten on one of her cheeks and brow. The dog was not known to be mad at the time. On Sunday she was taken seriously ill, with unmistakable symptoms of hydrophobia. The disease progressed with alarming rapidity and terminated fatally on Sunday night, the patient dying in the greatest agony.

☞ The principal scene of disturbance and conflict in Missouri, Thursday, was in the northwestern part of the State, where a strong band of rebels gathered on the line of the Hannibal and St. Joseph Railroad. A force of Federal troops has been sent to disperse them. At the last accounts from Gen. McClellan's division, he was preparing batteries to reduce the rebel camp at Laurel Hill. Some sharp skirmishing had already taken place between the two armies.

NEW HAMPSHIRE ITEMS.

We learn from the Claremont Eagle, that an intelligent and respectable young Irishman, aged about 25 years,was drowned in that town on Sunday morning last.—With the intention of refreshing the horses of his employer by a bath, he rode them into the mill-pond. Finding the horse he rode afloat, he tried to turn him by the bit. The effect was to overturn the horse, and Mr. Quin, being thrown into the stream, was caught and held by the roots of an old stump. Desperate efforts were made to save him, but without avail.

A travelling character of the genus "blackleg" on Tuesday presented to the Teller of the Claremont Bank a one hundred dollar bill on the Blue Hill Bank Dorchester. The Teller passed the bill before the eye of Mr. Farwell, the Cashier, who glanced at the bill and said he presumed it was good. The Teller counted out Claremont Bank bills for the hundred dollar spot, whereupon the stranger handed out three more of the same denomination, which were taken in the same way, and the man left. Subsequently the Teller found that the bills were most perfect *counterfeits*. The stranger was found at the hotel, and invited to exchange money again, which he readily did—evincing some slight trepidation. In less than five minutes the depot stage drew up, and he was off for the cars before any measures could be taken for his arrest.

Mrs. Eunice Hayes, of Milton, is said to be the oldest person in the State. The Congregational Journal puts her age at 110. It should be 100 only. Her centennial birthday occurs next Monday. Her children, grand-children, great grand children and great-great-grand-children propose to celebrate her birth-day at her residence in Milton.

John Marshall, 24 years of age, was drowned in the Connecticut river, at Walpole, on Sunday. A faithful Newfoundland dog attempted to drag him from the water, but a little boy, supposing he intended harm to his master, called him away.

The Journal of Agriculture, published at Manchester, has been sold by Wm. H. Gilmore, Esq., to Francis B. Eaton, Esq., who, as editor and proprietor, will conduct the affairs of the establishment.

The Manchester American states that a terrible shower occurred at Henniker, last Wednesday night, doing an incalculable amount of damage to crops, buildings and other property. The saw and grist mill of Isaac Morse was undermined and turned over, utterly ruining it. The garden of Mr. Morse was filled with sand to the depth of two feet. It is said that so much damage has been done to the road that all the working men in the town cannot repair it in a month. A large meadow near by is covered with earth washed by the flood. The shower was limited to the extent of half a mile.

It is stated that the soldiers of the 1st N. H. Regiment, with but few exceptions, will re enlist for three years. Col. Tappan, as in fact all the staff, are personally popular with their men, and they would follow Col. Tappan and Whipple wherever they will lead.

One of the mills in Dover suspended several weeks ago, and it is the intention for all to suspend during the month of August. The printery has also suspended work.—The interval will be employed in putting the machinery in order and making necessary repairs.

IMPORTANT BILLS PASSED. — In the U. S. *Senate*, Thursday, Mr. Fessenden reported the House bill for the payment of the militia and volunteers, with an amendment making the appropriation five and three-quarters of a million instead of six million dollars. The amendment was agreed to, and the bill passed. The House afterward concurred in the amendment.

In the House of Representatives, on the same day, the Army Bill, appropriating $161,000,000, and Navy Bill, $30,000,000, —were passed:—the latter without debate. On the Army bill, there was an attempt to defeat and embarass.

The President has approved the bill remitting or refunding duties on arms imported by the States, to be used in suppressing rebellion.

TRAITORS EXPELLED.—In the U.S.Senate, Thursday July 11, Mr. Clark called up the resolution relative to the expulsion of Mason and other traitors from the Senate.

Mr. Bayard saw no reason for any more than declaring their seats vacant, but saw reason for charging them with conspiracy.

Mr. Clark said he wanted to deny openly any right of secession. He wanted the men who turned guns on the nation to be expelled from its councils.

Mr. Bayard claimed that the action states no ground for the expulsion of Senators.

Mr. Latham moved to strike out the word expel.

Mr. McDougal said that no man had the right here to a seat who espoused the cause of treason, which entitled them to the axe instead of the halter.

The amendment was disagreed to. Yeas 11—nays 32.

The resolution was then passed—yeas 32, nays 10.

MORTALITY FROM DRINKING BEER.—A Washington correspondent of the Baltimore Clipper thus accounts for the sickness prevailing in some of the New York regiments:

"The proportion of deaths in one or two of the New York regiments, is far beyond what is reasonable, or in the nature of things necessary. The Albany regiment suffers severely. Intemperance is the chief if not the only cause of this. I learn that whilst whisky is disallowed the men, they are permitted to indulge in malt liquors and especially lager beer, under the mistaken impression that such drinks are not injurious. In warm weather, malt liquor, are far more dangerous than alcoholic ones, by reason of their rapid generation of acidity in the stomach, and thereby causing choleric symptoms of varied character.

"A striking instance of the ill effects of malt liquors in very warm weather, was furnished in the town of Newark, Ohio, in the latter part of the very dry and hot weather of the year 1854. Within the short space of thirty-six hours, from thirty to forty persons died of what was called cholera. At first the faculty and the public were stunned with this mortality, but a little investigation showed that in every instance the disease was caused by beer drinking. In several instances the victims resorted to beer to quench the thirst of fever. It is believed that every one who did so perished. The only drinks for some time allowed by the authorities of the town were alcoholic; and as a good price was charged for them, the chance was that they were better than usual."

We can add something valuable to the above statements, viz., that we know a considerable number of men employed in various occupations, who for twenty-five or thirty years have not used distilled spirits, wine or beer,—and have hardly ever been troubled with summer complaints. In many cases black tea is a remedy for such sickness—and is often a preventive. Coffee may often be injurious in such cases.

Gen. Taylor, in his campaigns, drank tea; and if no tea was to be had, he drank *boiled water*. He went through the Florida war in health.

CHEAP LIVING AT NEW ORLEANS — A New Orleans letter reports that beef costs only about one-half what it did last year. Vegetables are very cheap. Coffee 15 to 20 cents per pound. Flour $7 to $8 per barrel. We don't believe it.—*Boston Jour.*

The writer of the letter purports to be a clergyman. Nevertheless, we think he lies about the prices,—for a letter of nearly the same date, which we had from a printer there, tells a different story, and would not have omitted such *good news*, if there were any truth in it.

FORTRESS MONROE, July 10.—General Butler was so well pleased, yesterday, with Hotchkiss' shells, that he ordered a large number for immediate use. They can be projected from ordinary rifled cannon.

Five hundred horses and forage for them for eighty days are on their way to Old Point.

No military movements are taking place near Old Point. The heat is excessive, but the health of the troops is excellent.

The cargo of the prize brig Amy Warwick, is valued at $75,000. This is the fifth vessel captured belonging to Curry & Co., of Richmond. The brig will be sent to Boston.

Capt. Carr, of the Quaker City, visited the coasts from Cape Henry to Cape Hatteras, and discovered that the vessels reported by the ship Charmer, as transports of the enemy, were merely old wrecks.

☞ Many of the English convicts transported within the last ten years to Western Australia,have become reputable and wealthy men. Some are prosperous farmers—some trustworthy and opulent merchants—and one owns twenty thousand acres of land, with several thousand sheep. Mining operations are carried on by them with extensive capital and success.

☞ The Mayor of Baltimore has sent a Message to the City Council, in which he shows the cloven foot of treason and rebellion, through the thinnest shadow of pretended loyalty.

Messrs. Burnett and Vallandigham have done nearly the same thing, in their speeches in the House of Representatives.

Some of the letters from volunteers are highly interesting, and cannot fail, in many instances, to cause the most sedate to smile at some of the incidents of a soldier's life. One letter says to a friend, "my wife came on to see me at our camp. Thank heaven, she brought needles and thread with her. My *rag*-lan had nearly played out. My pants have been drilled to death. I have been walking in my boot-*legs* for three weeks. I wish my wife was a shoemaker. The boys will soon have their new harness. We are as happy as bobtailed horses in fly time."

"ENJOYING LIFE."—I must pity that young man, who, with a little finery of dress and recklessness of manner, with his coarse passions all daguerreotyped upon his face, goes whooping through the streets, driving an animal much nobler in his conduct than himself, or swaggers into some haunt of shame, and calls it "Enjoying life!" He thinks he is astonishing the world! and he is astonishing the thinking part of it, who are astonished that he is not astonished at himself. For look at that compound of flash and impudence, and say if on all the earth, there is anything more pitiable! he knows anything of the true joy of life? As well say that the beauty and immensity of the universe were all inclosed in the field where the prodigal lay among the husks and swine.—*Dr. Chapin.*

☞ Our readers have already been informed of the death of Prof. O. J. Shaw, an eminent musician. Mr. Shaw was a brother-in-law of Rev. Mr. Eddy, of this city. The Telegraph, published at Utica, N. Y., where Prof. Shaw has resided for some time, contains the following allusion to his death:—

The intelligence of the death of Prof. Oliver J. Shaw, will fall sadly on the ear of his large circle of friends in this city. He came here from Albany,some ten years since. In that time he had acquired an acquaintance and friendship with our best citizens, which was justly a source of heartfelt gratulation to himself and to them. While his *presence* was always welcomed by the mature in age, it was a source of unceasing delight to children. Probably no man living knew better, or practiced more gracefully, the little, winning arts that so captivate the young. To see him surrounded by a bevy of his fair young *proteges*, as was often our privilege, one could not but admire the rare adaptability of his nature; in ordinary society, the courteous, well-bred gentleman, but among his much-loved children, *the perfect child himself*. As a musician his gifts were rare and varied. As a composer, the originality of his genius was universally acknowledge. But it was chiefly as an *organist* that he could claim pre-eminence. Without the *depth* of the modern German school, or the intricacy of the English, he had adopted for himself a style truly original. It is not asserting too much to say, that under his management, the music of a church received new inspiration. As an *extempore accompanist*, he probably has left in this country no living equal. He had a way peculiarly his own, of adapting popular airs and ballads to church music, but so skillfully was the transformation performed, that few suspected, while listening to the touching strains of the "Switzer's song of home," — or some other equally time-honored ballad arranged as a hymn—its homely origin.

His musical compositions published, numbering several hundred, were universally successful. But, with all his varied talents, we shall chiefly miss him as the warm, earnest friend—the cheerful companion. Many a little face will look wistfully for his coming, as the season for summer recreation draws near; and many a little form that moved so blithely to the music from his hands of a winter evening, grow sad with waiting for him to come.

His death was truly in keeping with his life. Like a little child, *he went home to his mother to die!* After "life's fitful fever," let us hope "he sleeps well.'

☞ The President, in reply to the request of the House for the correspondence touching the annexation of the Dominican Republic to Spain, states that it is not deemed advisable to communicate it at this time.

☞ Miss Hannah F. Gould, of Newburyport, the poetess, has a rose bush upon which there are no thorns—a very rare bush.

☞ A letter from Capt. Wilson, of the gun-boat Quaker City, says the rebels have rendered the passage of vessels from the Capes to Baltimore exceedingly dangerous.

Virginia is the "mother of States," G. Hosaphat wants to know if she relishes the visits of so many of her children.

The Oxygenated Bitters.
For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—DYSPEPSIA, as well as its long train of evils under their various names.
No medicine *existed*, which would speedily, permanently,effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of
The Oxygenated Bitters.
Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.
Typhoid Fever, Dyspepsia and Debility.
The following letter from Stephen Leavitt,Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:
LAKE VILLAGE, N. H., Nov. 4, 1859.
Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.
Prepared by SETH W. FOWLE & CO., Boston, and sold by
Preston, Kimball, Hutchings, J. H. Thacher, N. P. Thacher, Portsmouth; James F. Packer, Greenland; S. Hanson, Jr., New Market; Foster & Thyng, and Wm. B Safford, Exeter; J. W Green, Hampton Falls; and by dealers every where.

American Women.
America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*undeniably successful in removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.
One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 dawâm

Local.

☞ In Board of Aldermen, Thursday evening, the City Marshal's quarterly report was read and accepted.

A petition of Allen Treat and others, for sidewalk at the upper end of Vaughan street, was refered to Committee on Streets.

A petition, numerously signed, that all existing laws in relation to dogs be repealed, and new ones enacted to apply only to dogs without owners and known to be dangerous, was referred to a committee.

The Mayor and City Treasurer were authorized to overdraw to an amount not exceeding $3000, to pay the school teachers' salaries for the last quarter.

Joel Bean was appointed Assistant Marshal, in place of Daniel W. Sanborn, resigned.

U. S. Ship Sabine. — The crew were paid off and discharged, at this Navy Yard, on Friday. They have been visiting in the city very generally since their arrival, and are pronounced one of the finest crews of all which have ever landed here.

The Secretary of the Navy bears the following high testimony to their efficiency and good character.

Navy Department, 6 July, 1861.

Sir:—In directing the discharge of the crew of the Sabine, the Department desires to express its appreciation of the manner in which they have discharged their duty.

The cruise has been arduous and tedious, on a debilitating station. The service in which she has most of the time been engaged, has been of the highest importance.

It is gratifying to the Department to acknowledge its obligations for the service rendered, and the loyalty manifested, for the Union and the Flag, through an interesting and excited period.

I am respectfully, &c.,
Gideon Welles.

Capt. Henry A. Adams, U. S. N., Portsmouth, N. H.

Narrow Escape from Drowning.—Mr. Edward D. Coffin of this city, and Messrs. Robert Peele and Mark Lowd of Salem, Mass., were on the river in a sail boat on Tuesday afternoon. The boat became unmanageable and ran against Portsmouth bridge and sunk. The gentlemen escaped from drowning by jumping upon the cross-beams and thence climbing up on to the bridge.

☞ The U. S. ships Marion and Dale recently repaired and refitted at this Navy Station, are now about ready for sea, and we learn that the Marion left her moorings at the Yard, and dropped down into the Lower Harbor, on Friday. Her destination is Fort Pickens and the Gulf.

☞ The exhibition of the Boys' High School took place on Friday afternoon, and was attended by a large number of the parents and friends of the scholars. We intended to speak of it somewhat in detail, but from lack of time are compelled to postpone it till Monday.

☞ A drive to Kittery Point is one of the most delightful trips to be enjoyed, even in the attractive suburbs of Portsmouth. From the moment you cross Noble's Island Bridge, till you pass the lower Cove, new beauties of hill and dale, river and ocean, are continually presenting themselves.

The funeral of the venerable Capt. Cutts, at the Point, a few days since, led us to again examine the ancient mansions of the gentry formerly living there; and we were much indebted to the courtesy of Messrs. Oliver Cutts and A. J. Penhallow, (the latter of whom now resides in the fine old mansion built for Lady Sparhawk,) for much interesting information concerning the early history of this interesting locality.

And hardly less prominent, and not less beautiful, than are these departed glories to the Point, or the Navy Yard is to Foreside,—are the continued and repeated evidences of the cultivated taste, judicious liberality, and public spirit of a gentleman whose elegant summer residence lies on the river's bank, between the two places—ever beautifying and improving all about him, erecting and fitting up dwellings, laying out grounds, &c., without hope or expectation of pecuniary return. We need not name him—although none do so "but to praise." And well they may.

☞ In spite of the drought, we never saw Mr. Rogers' Nursery and Grounds, at Kittery, look any more attractive than now. The floral display is rich, varied and profuse. And the passage through Love Lane is as really picturesque and beautiful as ever. Don't fail to visit Mr. Rogers' Gardens at your first opportunity.

Paid Off.—We learn that the N. H. Second Regiment at Washington have been paid off by the State, up to the time of their being mustered into the service of the General Government—Mr. Burnham of the Council having been delegated for that purpose.

☞ Mr. Isaac Nelson Goodrich of this city has received the appointment of Boatswain in the U. S. Navy, and has been ordered to join the steam sloop Pensacola, at Washington.

St. Louis, Mo., July 9.—A special dispatch from Brookfield, Mo., states that Smith's command occupied the brick college building at Monroe, and that 2600 rebels surrounded it and had planted cannon to destroy the building and its occupants. A flag of truce had been sent out, but it was disregarded. Aid from the west will reach Monroe to-night.

A special dispatch from Jefferson City says large bands of armed rebels from Boone and Callaway counties are crossing the Missouri river to join Jackson's forces. Col. Boernstein has sent a detachment of 250 troops and two mountain howitzers, to act in conjunction with the Home Guards at Cole Camp and Syracuse to intercept and drive them back. A squad of cavalry will also be pushed forward on the left flank of Gen. Lyon to keep open communication with him.

A violent tornado of wind passed over the town of Londonderry, at five o'clock Thursday afternoon. Dwelling houses were damaged, barns demolished, and fruit trees and crops ruined. Tall trees were broken or torn up by the roots. The width of the ruined tract is about fifteen rods.

☞ The rebel piracer Jeff. Davis, off Cape Hatteras, last Saturday, took three prizes, viz., the brig John Welsh, schooner J. C. Warner, and another brig. Portell, formerly of the U. S. Navy, is in command Jeff. Davis, and his orders were to take the three vessels into some port of Florida, or near Savannah.

New York, July 12.—The Tribune's Washington dispatch says the rebels are falling back on Manassas Junction. The Secretary of War has expressed to the Quartermaster General a wish that the troops be supplied with more fresh meat, and to change the rations so as to allow more vegetables.

Dr. Wistar's Balsam of Wild Cherry is truly a balsam. It contains the balsamic principle of the Wild Cherry, the balsamic properties of tar and pine. Its ingredients are all balsamic. Coughs, colds and consumption disappear rapidly under its balsamic influence.

☞ The Rockingham Weekly Chronicle, containing a summary of the news of the week, this day published, and for sale at the Chronicle Counting Room: price 3 cents; $1 per year, in advance.

To Owners and Keepers of Dogs.

City Marshal's Office,
Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 39, which is as follows:

Be it Ordained, &c. Sec. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

Sec. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

Sec. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

June17 OREN BRAGDON, City Marshal.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

WINSHIP'S PATENT UPRIGHT

Self-Ventilating Refrigerator,

thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has given a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other.—Milk, delicate fruits and meats can in this be preserved much longer than in any other *Refrigerator.*

HIGH SCHOOL EXHIBITION.

The Annual Exhibition of the Girls' High School took place on Thursday afternoon, and was a very gratifying affair to all who could obtain admission to the room, which was filled in every nook and corner. The walls of the beautiful room were elegantly decorated with evergreen, myrtle wreaths, and boquets,—and the floors animated with the bright countenances of a hundred candidates for the honors of the School, and for the more enduring and solid acquisitions which are to go with them through life.

We have only time to say, that the School never appeared to better advantage, either in deportment or in extent of the various branches of knowledge which have been acquired, for which they are of course indebted to the solicitous attentions of the best teachers. Seven Diplomas were given by the Mayor to the members of the graduating class.

Flag to Second N. H. Regiment. — The Sons of New Hampshire in Philadelphia, who had prepared a reception for the Second Regiment, and also an elegant stand of colors for presentation, were disappointed, as the Regiment went by way of Harrisburg. In a letter to us from a friend at the city of brotherly love, dated July 3d, the writer says:—

"We were deprived of the pleasure of the visit of the Second Regiment here. We had arranged that they should be refreshed, and the pleasure of an escort across the city by Company C., of the Gray Reserves, — through the politeness of Capt. Prevost, — and of the services of a Band of Music. A committee of three, Messrs. A. L. Elwyn, Benj. Orne, and Charles W. Coxe, have since placed the Flag in the hands of Col. Marston, at Washington, with an address to the Sons of New Hampshire, — to be presented to the Regiment at such time as will suit their convenience to receive it; the committee to be there themselves, if convenient, at the time."

The elegant stand of colors, above referred to, was made expressly for the Second N. H. Regiment by the Messrs. Horstmann. The material is wholly of silk, spun from the raw material, and wholly manufactured in the building of the makers. It is made of the best silk that money will buy; its heavy bullion tassels and cord are as handsome as they can be made, and the staff upon which it is mounted is the finest lancewood that could be had. An Emperor's body guard might be proud to receive and carry so beautiful a stand of colors.

Cooking by Gas. — We have seen handsome stoves in which the various processes of cooking meat, baking, boiling, etc. can be readily performed by gas. In this city, as the gas is not kept on through the day, these stoves are not much in demand. There is however a simple and cheap apparatus by which water can be boiled, and tea and coffee readily made by gas, for the morning and evening meals, without making much heat in the house, and in half the time it can be done in a common stove. As this is an important matter in the warm season of the year, we wish to call to it the attention of all who have gas in their houses.

The best gas fixture for the purpose is that which projects from the side of the room. Let it be supported by a prop from the table or the floor, on which the apparatus can rest without bearing its full weight upon the gas fixture. Over a common burner a tin teapot, with a flat bottom five inches wide, holding two quarts of water, will boil in ten minutes.

We understand that the Gas Company will in future put on the gas every evening by or before six o'clock, and let it remain on until after seven in the morning, for the benefit of those who wish to avail themselves of this mode of cheap, speedy, and easy process of obtaining hot water, without the heat of a stove. We once purchased the apparatus of Mr. E. A. Stevens, for sixty-two cents, and presume he has others still on hand. Try it, and our word for it, you will thank us for the hint.

Fort Constitution. — On Wednesday we stept on board the steamer Clipper, at the Pier, and in little more than a quarter of an hour found ourselves at the landing at Fort Constitution. Here the company were permitted to go on shore, and enjoy the hospitality of Capt. Davidson. His battalion was arrayed in the outer section of the Fort, and, by their various evolutions, showed that they had been under a good course of instruction. Two of the companies are in their army dresses; but the members of the third company, from Hampton, are yet in the old clothes they brought with them, — but in exercise they are not behind the other companies. We are not disposed to flatter the commander, whose associations with the Fort extend back not far from forty years, when we say, that in his official dress and position to the corps, the spirit and almost the person of the venerable Col. Walback seemed to be again before us.

River excursions.—The noble Piscataqua ought to have and give support to a good steamer during the summer—opening a constant connection between Portsmouth and the other towns on our river, and with the outer harbor and the Shoals. But as we are not yet so accommodated, we are pleased to see a river steamer ready to serve those who like to be upon the water, and making excursions at so reasonable a rate that all can enjoy them. The steamer Clipper has good accommodations for one or two hundred. The awning, extending nearly the whole length of the boat, is a permanent protection from the sun when shining, and from the rain. She glides so smoothly over the water, that you are hardly made conscious of the operation of the machinery.

Shoals.—A gentleman who spent the last Sabbath at the Shoals reports that Mr. Laighton has had some distinguished guests this week. Among them were ex-President Pierce; Hon. C. H. Peaslee, ex-M. C.; Hon. Clement March, ex-Senator, — and others, whose presence no doubt tended to add to the Xs of the Hon. Landlord, ex-Senator Laighton. Who now doubts that the Shoals is an ex-cellent place of resort?

West Point Cadets.—Cadet Justin E. Dimick, of this city, son of Col. Dimick in command of Fortress Monroe, has been appointed Second Lieutenant of Company A in the Sixth Regiment U. S. Infantry.

PROFESSOR WOOD'S

HAIR RESTORATIVE!

SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes:

ST. LOUIS, July 10, 1860.

G. J. WOOD, Esq.—*Dear Sir:*—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 5 years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one third gray. A few applications stopped its falling, and in three weeks' there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity, at this late day, as I am well aware they are all well known already, and even more wonderful ones throughout the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug; saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article, said to be as good, and selling at about half the price. I have noticed for three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of these charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word, in several instances, merely inserting some name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect satisfaction for baldness, gray hair, scald head, dandruff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, but learned you were now living in New York.

You are at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1920, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WARREN SPRINGS, Perry Co., Pa., June, 7, '59.

PROF. WOOD—*Dear Sir*:—I was induced more than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for years, and had never been able to get anything to do me any good until I used your advertisement in a Harrisburgh paper. I bought a bottle, and am now prepared to recommend it to universal use, for it has completely removed all dandruff from my head, and an application once in two weeks keeps it free from itching and other unpleasantness. I must also state that my hair had become quite white in places, and by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain, in order to have my appearance correspond with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, although I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you. Yours, &c., H. H. ETTER.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARTICLE IN THE FIELD.—Prof. Wood stands on an eminence no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His article is world-wide, and thousands who have worn wigs or been bald for years, are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry. Prof. Wood studied out the human hair, its properties, its diseases, and how to restore its decayed vitality; he saw, as in his own case, that gray hair is unnatural unless the age of the individual had reached fourscore, and he believed that the hair could be re-vitalized. He tried his own case—almost bald and wholly gray at *fifty*—he restored his own hair—and the article he did it with he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Day Book.*

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proven by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the head had become almost bald because of baldness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair. It also has curative powers of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attached to the use of this remedy, and its effects can only be beneficial, as the compound, if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—*Boston Transcript, April 22, 1859.*

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by newspaper puffs. In our own vicinity it has been extensively used, and we believe in every case with every desired result, and receives the universal indorsement of all who have tried it. We therefore recommend it as one of those few genuine preparations which accomplish all they profess, and all the bald and gray could desire.—*Columbian Spy.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years, as persons of the most reliable character. Don't dye till you have tried the Restorative.—*Boston Olive Branch.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums;—but we take great pleasure in recommending Prof. Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and he talks with us in speaking of its virtue. Let all try it, and bald heads will be as rare as snow in summer.—*Baltimore Patriot.*

REAL ESTATE IN NEW CASTLE
FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and it is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord who can keep a good hotel, a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT,

Drs Jackson, Herbert & Co.

15 Greatest Medical Circular Ever Published! 32 Fifteen cts large letter pages for two 3 cent stamps. 15

DRS. JACKSON, HERBERT & CO. are Associated Proprietors of the **National Dispensary**, No. 167 Sycamore street, Cincinnati, established Jan. 1, 1859, for the cure of Private Diseases.

Prof Egbert Jackson, Dr. Robert Herbert and M. Velpeau. Thorough cures effected with almost incredible rapidity, of Gonorrhea, Syphilis, Gleet, Nocturnal Emissions or self-abuse, Impotency, Seminal Weakness, Stricture, *Diurnal Emissions*, in short, every possible form and variety of Sexual Disease, and at the same time the *general health* of the patient improved, where any improvement in that respect is needed.

Our Dispensary Circular, of 15 large 8 in. by 11 in. letter pages, with full and special written Reply, sent promptly, well sealed, to any address for the amount of the postage, six cents! Every young man, whether

SICK OR WELL,

should have one. Also, a Circular intended for ladies only, nine large letter pages, for a 3 ct. stamp. The "Mountain of Light, or Medica Protector," being a book of three hundred pages, one hundred engravings; price, in stamps or money, 50 cts. and one 3 ct. stamp, or 3 for $1 and nine cents in stamps. This book is fully described in our Circular. It is by far the most valuable and deeply interesting book on the subjects treated of, now extant. Offers that in former works were merely hinted at, are here fully explained; it contains a full and explicit key to all the secrets of marriage, love and beauty never before

SATISFACTORILY

revealed in any book in the English language.

Dr. Jackson's Perpetual Preventive—*send for Circular.*

Dr. Jackson's Female Pills, $1—*send for Circular.*

Dr. Jackson may be seen at the Consulting Rooms of the Dispensary, No. 167 Sycamore street, from 8 A. M. to 1 P. M., and from 4 P. M. till 8 P M.; at other hours either Dr. Herbert or M. Velpeau, or both, will be in attendance.

Male patients, when desired, will be furnished with large, airy, comfortable rooms, suitable board and careful attendance, for the few days ordinarily necessary to effect a cure. Patients do not see each other. The most simple guarantee of our ability and good faith promptly given when desired. Fees as reasonable as the very highest medical treatment known to modern medical science, and a very long and varied experience, will admit. P. O. Box 436. Send for Circular, and state your case in full detail, plainly and fully;—and you will receive the Circular and our written reply by return mail. ☞ We will answer no letter unless it contains six cents in stamps. Medicine and instructions sent promptly and carefully to any part of the world.

BININGER'S
OLD DOMINION
WHEAT-TONIC
—FOR—
FAMILY AND MEDICINAL USE.
This natural product of the most nutritious grain, recommends itself as presenting in a concentrated form the nutritive properties of Wheat, and has received the highest encomiums from eminent medical authorities, as possessing qualities that are absolutely FATTENING; this distillation renders it invaluable to those who are suffering from Consumption, Lung Complaint, Impaired Strength, Lack of Vital Energy, and all diseases which, in their incipient stages, require only a generous diet, and an invigorating, nourishing stimulant.
Put up in quart bottles, in iron-bound cases of one and two dozen each, and sold by all prominent Druggists, Grocers and Town Agents.

A. RICHARDS & CO.'S
COMBINED GLUE AND CEMENT.
Is liked by every one in preference to any other in market for many reasons:—
1. Because it is white as snow
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
4. Because it answers a double purpose—it will mend all kinds of Crockery, from China down to the coarsest Stone Ware, and at the same time will mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles mended never separate.
10. Because it is no humbug, but an honest article, as thousands can testify.
SPALDING'S PREPARED GLUE, too well known to need puffing.
PREPARED MUCILAGE, always ready to stick a postage stamp, or fasten a loose leaf; will not mould or sour.

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and am happy to state that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years great sufferer from Salt Rheum, his face covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 98 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound." After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I began a bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*s, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after protracting diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhea, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

MONDAY, JULY 15, 1861.

A PRIVATEER WITHIN TWENTY HOURS SAIL OF PORTLAND.—The fact that one of the C. S. A. Privateers has been capturing prizes within twenty-four hours sail of our harbor, will, *perhaps*, arouse the proper authorities, State and National, to the propriety and importance of taking immediate measures for the protection of our harbor. We think they will now wake up. If they do not, our citizens will very possibly be waked up some morning by the roar of cannon, to receive a demand to pay over a hundred thousand dollars or so, on pain of having the city bombarded! A commander, bold and saucy enough to take prizes so near us, would not hesitate a moment to do it, if he had any idea of our defenseless condition. Let this matter now be attended to at once, and an expedition fitted out to capture this "bold privateer." Our people will learn, after a while, that this war is no boy's play or holiday pastime, and they must be prepared for it.

There are probably several of these privateers off the coast and we hear that several vessels are fitting out in England, suspected to be for this business. We must have our harbors put in a state of defence, and have an efficient coast guard without delay.—*Portland Argus.*

Ship Mary Godell, from New York, for Buenos Ayres, arrived at Portland Friday. She reports that on the 9th inst., lat. 39 10, lon. 67 20, S. E. from South Shoal of Nantucket, was fallen in with by a privateer, who sent a crew on board, and kept possession of the ship for an hour, when they allowed] the vessel to depart, having put on board of her the captains of three brigs and a schooner,—prizes previously taken by her,—as well as three mates, two second mates, three boys, and a steward.

The priavteer is the full rigged brig Argo, of and from Charleston, S. C., about two hundred tons burthen, with a crew of sixty men, armed to the teeth. The brig was armed with four broadside 12-pounders, and one long 32-pounder on a pivot, 'midships. The guns are described as old and apparently condemned pieces. The "Argo" is identical with the brig Echo, which was captured and carried into Charleston about two years since as a slaver.

The manner of proceding of the pirates in making prizes, is to hoist a French or Dutch flag and evince a desire to communicate. If this fails to attract, they next display a signal of distress, and when sufficiently near "show their teeth" and take possession.

☞ The revenue cutters Morris and Caleb Cushing and the sloop-of-war Vincennes left the Charlestown, Mass. Navy Yard on Friday evening, to act in concert for the protection of commerce from the piratical crafts which infest our waters.

NEW YORK, July 13.—Cutters Jackson, Crawford and Vatina sailed yesterday evening, to intercept the pirate brig Jeff. Davis. The gunboat Iroquois sails to-day on the same errand; also the Henrietta.

A dispatch to the Herald says that the two young females who enticed Capt. Goodwin of Connecticut from the camp, (and is now a prisoner,) were yesterday taken prisoners by Lieut. Upton, and are now held at Tyler's headquarters, as hostages, until the return of the captain. [They have been released.]

☞ The great *Volunteer Bill* passed the U. S. House of Representatives, Friday July 12. By this bill the President is authorized to accept the services of 500,000 volunteers.

In the Senate, the Volunteer Bill was reconsidered. Amendments were made, providing that volunteers serve for three years. The bill passed—35 to 5.

The Force Bill was passed—36 to 6.

The bill for the better organization of the military establishment was taken up. An amendment was adopted increasing the army rations—providing 22 ounces of bread or flour instead of eighteen: one pound of hard bread; fresh beef instead of salt; and when required, beans and rice; and potatoes, when practicable, 3 times a week; when not practicable, other food equal in value.

☞ In the U. S. House of Representatives, Friday, Mr. Blair offered a resolution tion to expel John P. Clark, of Missouri, for holding a commission in the State Guard of Missouri under the rebel Governor, and taking part in the engagement at Booneville. Adopted—94 to 45.

THE REBEL STATE COMMITTEE.—The Bath Times confers this title on those disunionists in Maine, who have recently undertaken to call a Democratic convention there: and who, as the Times has it, "assume to speak *for* the Democracy, and to issue a call to the Democracy, when they have no more right, no more authority, to speak thus, than Beelzebub has to issue a call for an ecclesiastical council in the New Jerusalem."

NEW HAMPSHIRE ITEMS.

A correspondent of the Manchester Mirror states that on Thursday, about 5 P. M., after a thunder shower, the water of Massabesic Pond commenced rising, near the Island Pond House, and very soon formed a spout "estimated to be at least 1000 feet high." The spout was tunnel-shaped, tapering very gradually from the water surface, until reaching about 800 feet elevation, when it spread out into the shape of an umbrella top, extending hundreds of feet in diameter, and in contrast with the black clouds beyond, presented one of Nature's most beautiful scenes. It remained stationary about ten minutes, and then moved towards Johnson's Beach, where a picnic party were in the nick of time to get a ducking. As it passed the beach, it carried off all the boats along shore, and also twisted off branches of trees three or four inches through. Some one sang out, "Lie down on your faces," and as the whirl passed, the trees were bent down to the ground, touching the backs of the prostrate persons. The spout coming in contact with some woods near the shore, got "aired," and broke with a noise like distant cannon, and then the air was filled with branches of trees, leaves, sticks, &c. The whole performance lasted 15 minutes. The editor adds, "the waterspout tore the fences down, tipped over the bath house and made clean work in its course just east of the Island Pond House, but fortunately did not reach the house. It was terrific, frightful to all who saw it there."

Another spout, on what is called by many "Long Pond," south of the Massabesic, occurred on the same day. It is represented as rising like a tunnel large end down, and then changing into another tunnel—the small end joining to the small end of the first, and seeming to be scooping out the Pond.

Senator Clark of this State, says the Concord Statesman, asked the Secretary of War if more regiments from New Hampshire would be accepted. Mr. Cameron said he should be glad to accept them, after Congress passed bills giving the administration more men and money, because New Hampshire soldiers arrived at Washington all ready for the field.

Hon. E. H. Rollins, Member of Congress from this State, has received a donation of five hundred dollars from Paul J. Wheeler, to be appropriated to the use of the company from Newport.

Mr. Fred. A. Kendall, of Concord, is a member of the Eleventh Indiana Regiment, the corps whose thirteen scouts held at bay fifty Virginia horsemen, and slew twenty-three of them, in the border fight near Cumberland.

A swarm of bees have taken up a residence in the granite false chimney on the front gable of the State House; at least they were there all through the session of the Legislature, and worked full as busily as the human community below them.

The Statesman is responsible for the statement that when the Legislative hall was cleared of rubbish after adjournment, there was found in the desk of one of the members a letter, which closed with this injunction, "*Jane see get her a 24 hoop skellington.*"

We have already ventured the opinion that the Volunteers write graphic letters. One of the 2d Regiment writes a very interesting letter to a newspaper, and closes as follows:—

The call for church has sounded, and as Rev. Mr. Parker's sermons are too good to be missed, I close *for a day or two*, hoping some thing will soon turn up to interest you more than the recital of our every day affairs.

At Laconia, on the Fourth, Col. Dolloff's company of old members of the old 10th and 29th regiments of State Militia, appeared for general muster and parade. The Gazette says the ranks were filled with gray-haired veterans, and the parade was an interesting spectacle. The company went through the regular muster field duties of the day with an accuracy and celerity hardly excelled even by the younger sons of Mars, who have more recently joined the ranks.

Stephen C. Lyford, Jr., of Laconia, a recent graduate at West Point, has been appointed Second Lieutenant in the First Regiment of Dragoons.

☞ It requires some skill in balancing to ride on two horses at once; and so, in like manner, it must be a task of some difficulty for a man to support and defend the United States government, at the same time that he gives aid and comfort to the rebels, who aim to overthrow it.

In like manner, papers or parties pretending loyalty to the country, and yet doing all they can to weaken its defences, are showing not only their hypocrisy, but their folly. Their neighbors see through their shams, and pity or despise them, as the case may be.

LOUISVILLE, July 13.—Trains on the Nashville Railroad have been busy transporting soldiers from Camp Cheatham to East Tenessee. It is thought this sudden irruption of soldiers would find East Tennessee unprepared.

VICTORY IN WEST VIRGINIA.

The rebels have been routed at a place called Rich Mountain, or Laurel Hill, in Western Virginia; the U. S. army having captured guns, tents, wagons, prisoners, &c. A dispatch dated Roaring Run, Va., July 12, says:

A battle was fought yesterday afternoon at Rich Mountain, two miles east of this place, where the enemy, numbering about 2000, under Col. Pagram, were strongly entrenched. About 3 o'clock in the morning, Gen. Rosencrans, with portions of the 8th, 13th and 13th Indiana and 19th Ohio regiments, left this place, and after a very difficult march of seven or eight miles, cutting a road through the woods, succeeded in surrounding the enemy about 3 o'clock in the afternoon.

A desperate fight immediately ensued, lasting about an hour and a half, resulting in the loss of about 60 of the enemy killed and a large number wounded and taken prisoners, some of the latter being officers. The enemy retreated precipitately, leaving behind six cannon, a large number of horses, wagons, camp equipage, &c. The loss on our side was about 20 killed and 40 wounded.

Gen. McClellan's official account is dated Rich Mountain, 9 A. M., July 12, and reads as follows:

We are in possession of the enemy's works up to a point on the right of Beverly. I have taken all his guns, a very large amount of wagons, tents, &c., everything lie bad, a large number of prisoners, many of whom are wounded, and several of their officers. They lost many killed. We have lost in all perhaps 20 killed and wounded, of whom all but two or three were in the column under Gen. Rosencrans, which turned their position. The mass of the enemy escaped through the woods, entirely disorganized. Among the prisoners is Dr. Taylor, formerly of the army. Col. Pagram was in command.

Gen. Rosencrans' column left camp yesterday morning, and marched about eight miles through the mountains, reaching the turnpike two or three miles in the rear of the enemy, defeating an advanced post and taking two guns. I had a position ready for twelve guns, near the main camp, and as the guns were moving up, I ascertained that the enemy had retreated. I am now pushing on to Beverly, a portion of Col. Rosencrans' troops being within three miles of it. Our success is complete and almost bloodless. I doubt whether Wise and Johnston will unite and overpower me. The behavior of the troops in the action and to-wards the prisoners was admirable.

[Signed] G. C. MCCLELLAN,
Maj. Gen. Comdg.

☞ Mr. Morris Goodwin, who died a few days since, in Eliot, Me., at the age of 81, was one of the oldest and most respectable citizens: he had never in his life been sick enough to call a physician; and on the day before his death he was about his farm as usual, in apparent health, except a trembling of the limbs, to which he had been subject for several years. On the morning of his decease, his wife thought him to be asleep when she went down stairs, —but returning shortly, she found him dead.

NEW YORK, July 13.—A dispatch to the World says the rebels at Mathia Point were treated to about 20 shells a few days since by the Freeborn, scattering them and destroying a house. There is no battery there.

An escaped negro says there were, yesterday morning, five regiments about Fairfax Court House, and eighteen pieces of artillery, twelve of which were in a battery. The three advanced regiments are South Carolinians. Their baggage has been taken back to Manassas and their batteries command every approach, while the trees have been felled in the woods.

Four South Carolinians were captured this afternoon by Lieut. Tompkins. Their statements indicate a retreat of the rebels.

☞ It is said, on the authority of the Washington correspondent of the Philadelphia Inquirer, that contracts have been entered into with responsible parties in New York for building two war steamers of large size, to be plated with steel of four inches in thickness. Also that the government are about to steel-plate two New York steamships.

INFERNAL MACHINES IN THE POTOMAC. *Washington*, July 12. — The Freeborn gun boat, Lieut. Lowry commanding, arrived up this morning from Acquia Creek. She has been cruising between that point and the mouth of the river, preventing communication between lower Maryland and Virginia. The service was active, arduous and dangerous. Sunday noon was at Acquia Creek with the Resolute, Pawnee, Pocahontas. Two large oil tanks were discovered floating down towards the fleet with the ebb tide. When within a quarter of a mile, a small boat was sent from the Pawnee to reconnoitre them. It was discovered that they were infernal machines. One struck the rudder of the Resolute, and became detached from its buoy and sunk. The other careened over, and the fuse was put out by dipping in the water. The latter was hauled on board the Pawnee. It had a cylinder made of boiler iron, 5 feet long and 18 inches in diameter, and was filled with all sorts of destructive elements designed to blow the Potomac squadron to atoms. The machine weighed about 400 pounds. Connecting the cylinder with the cask or buoy, which was full of the coil of a slow match, was an India rubber coated fuse. The machine looks devilish. The Freeborn brought it up to the Navy Yard, where it attracts great attention, thousands visiting it.

NEW YORK, July 13.—A dispatch to the Herald from Baltimore says it is reported that the Grand Jury failed to find a bill against the imprisoned Police Commissioners.

GEN. MCCLELLAN'S VICTORY in West Virginia, is a very important one, as to its consequences, though looking at the number slain, it is too small to please those readers who delight in frightful tales of carnage.

The position now occupied by the armies under Generals McClellan, Patterson, McDowell and Mansfield—severally located in Western Virginia, at Martinsburg, the Arlington line of the Potomac, opposite Washington, and the Federal capital itself renders a successful advance movement from both ends of the line at any time available. Gen. McClellan has not less than 30,000 men between the Ohio river and the Alleghanies; Gen. Patterson commands 25,000 more at and near Martinsburg. The line of the Potomac fronting Washington is guarded by a force of nearly 40,000 men under Gen. McDowell, threatening Manassas Junction, while about 40-000 more are encamped in the Federal capital, under Gen. Mansfield. It will thus be seen, remarks the Boston Courier, that the manœuvres of Gen. Scott, slow and cautious as they have been, leave the Union army in a magnificent position for attack at any moment when it is deemed necessary to attempt a grand combined forward movement.

The leaders of the rebel forces see all this, very clearly, and so do the best informed *southern rebel* editors;—but their *northern allies* seem to be as blind as bats!

GOOD NEWS FROM MISSOURI.—The band of rebels, 1200 strong, with two pieces of artillery, which gathered on the line of the Hannibal and St. Joseph Railroad, were easily dispersed by the troops sent against them. Some prisoners were taken, but few lives were lost. The road is now clear of obstruction.

The fight on the 11th lasted until dusk. The last shot from Col. Smith's guns dismounted one of the enemy's. Just then Gov. Wood fell on their rear with 300 cavalry, completely routing them, taking 75 prisoners, one gun, and a large number of horses. Twenty or thirty of the enemy were killed, but not one of the federal forces, although several were severely wounded. Gen. Tom Harris, the rebel leader, escaped, leaving his horse.

Capt. McAllister, reported killed, was only severely wounded. He will probably recover.

☞ Gen. Lyon, in Missouri, has taken possession of the St. Louis State Journal printing office, and suppressed the paper, as a rebel journal, giving aid and comfort to the traitors.

ST. LOUIS, July 12.—A good deal of excitement existed in this city to-day, in consequence of the suppression of the Journal, by Gen. Lyons, but there was no disturbance.

The rebels are gathering in considerable numbers around Booneville, and the U. S. troops there have been under arms every night since Wednesday, expecting an attack. A similar condition of things exists at Lexington, and reinforcements, especially artillery, are needed at both points.

The Home Guards of Miller county have taken possession of Tuscambia and captured a cannon and hoisted the American flag in front of the Court House.

The Home Guard of Osage county dispersed the rebels at Chamois and arrested the leaders; but afterwards released them on their taking the oath of allegiance to the United States.

PLOT TO CAPTURE ANOTHER STEAMER.—*Baltimore, July 12.*—Another plot to seize the river steamers by the rebels has transpired. The steamer Chester, was sent by the Government a few days since down the bay in search of the schooner fitted out by Col. Thomas—(French lady)—but returned unsuccessful. Yesterday morning the steamer Pioneer left here for her usual trip to Annapolis and Eaton, and on returning this evening, landed four prisoners at Fort McHenry, on a charge of piracy, having been concerned in the seizure of the St. Nicolas. The Pioneer left Cambridge this afternoon. The prisoners came to Cambridge about 12 o'clock on Thursday night, with a large box filled with sabres, bayonets, cartridge boxes, buckshot, &c. They were arrested by civil authority, and taken in custody by a platoon of guards, who had charge of them until they reached the fort. Two of the prisoners were recognized as Baltimoreans, and are said to belong to Col. Thomas's expedition.

Steamer Arrow, which left here yesterday, with a detachment of troops, made another search for the French lady's schooner, and found her aground on a shoal off Egg Neck Narrows. She had been abandoned by her crew. A guard was placed on board of her, and a tug has been sent to tow her up.

There seems to be no doubt that the design was to seize the steamer Chester.—When the Pioneer left Cambridge, a prominent secessionist, on the wharf, gave three cheers for Jeff. Davis, which was the signal for a free fight between the secessionists and Union men there gathered. Pistols and bowie knives were freely used. Some of the passengers think several parties were seriously injured. Gov. Hicks was seen standing on the wharf.

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available for that most distressing of all diseases—DYSPEPSIA, as well as its long train of evils and or their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

LAKE VILLAGE, N. H., Nov. 4, 1859.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was soon restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

Prepared by SETH W. FOWLE & CO., Boston, and sold by

American Women.

America is justly proud of its beautiful women, but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure, when all other means have failed,—*moderate exercise and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 daw3m

DOGS—DOGS.

"Is thy servant a dog?" No, dogs are to be our masters, according to some obtuse people, who fancy they are more humane and appreciative than those who don't go in for giving our city up to dogs.

"Every dog has his day," and we are willing he should; but sensible persons don't want the brutes to have *all* the days,—and nights too, as to that matter.

Let every man who chooses, keep one dog, or twenty—as pigs, or cows, or horses, or sheep; but let him keep them all *on his own premises*. Why should "dirty dogs," the most dangerous and troublesome of all, be the only ones not kept from the streets? Tell us, ye howlers for dogs' rights, if you can. To be sure, tastes differ—and you think it is all nice, neat and lovely, to keep your dog in the house and about you, as does the Irishman his pig or cow. But you object to those animals going at large,—and so do we, and we would also include, and so exclude, the dogs. There is no possible reason for your dogs' liberty, which will not apply with equal force to the pig and cows—that you love and value them and their company, is no argument. That they are dirty, noisy and troublesome, is sufficient reason for clearing our streets of them—even if they were not dangerous, which they are all certainly liable to be, in various ways.

Believing all this,—to say nothing of the utter uselessness of the vast majority of curs everywhere—we rejoiced at the passage of the recent Dog Ordinance, and its temporary enforcement, and the consequent clearing of our streets of dogs—though we should prefer that dogs be forbidden the streets entirely, unless when both muzzled and led. Their presence is of no necessity, benefit or advantage to anybody,—then why allow it?

The enforcement of the Dog Law put out of the way a few of the curs; and excited no little indignation among the dog-fanciers—who fancy also that they are the only ones who have any humanity or love for dogs—though we can't see how a man can *be* a man, and *not* love all good animals, especially dogs. So a new bill, entitled an Ordinance in relation to Dogs, has been introduced in the Board of Aldermen, and laid over one week. This provides for license.

A petition was presented — from 133 highly respectable citizens,— representing that "the existing laws and ordinances of the city, relating to Dogs, are unreasonable and barbarous; that the execution of them tends to promote breaches of the peace and to excite animosities and ill-feeling among our people;" and that "almost all of the dogs kept in the city are inoffensive—that the greater part of them are the objects of much affection on the part of their owners and their families." The petitioners "therefore pray, that all existing laws and ordinances relating to dogs, may be repealed, and that a new law, applicable only to dogs without owners, and to dogs known to be dangerous, may be substituted therefor."

This was referred to a committee, and we trust will not be complied with, unless better reasons are shown for it than these. Are not the most vicious and dangerous dogs often very highly valued and greatly esteemed by their owners? And are there any dogs "without owners" unless you tax them? No, we say,—let every man keep his dogs where he is obliged to keep other animals—on his own grounds.

☞ There was an alarm of fire Friday evening last, but we have been unable to ascertain how it originated. The alarm on Saturday evening was occasioned by a renewed attempt to destroy the lumber-yard of Messrs. Call & Chesley, at the North End. The fire was set in a pile of deck plank, near a shed, but its fortunately early discovery prevented a disastrous conflagration. It becomes our citizens, however, to be constantly watchful, as there is every reason to suppose that there are men or boys in the city who are mean and contemptible enough to endeavor to destroy the property of others in this manner.

☞ A large number of the three months volunteers, who have been stationed at Fort Constitution, have been paid off and discharged. Between fifty and sixty men still remain there, however, and it is the intention to increase their number to one hundred, by new recruits. There seems to be absolute necessity just now that we should have at least that number of men stationed there.

☞ Col. Dulany, U. S. M., who has been stationed at the Navy Yard since February last, has been ordered to take command of the Marines in the Gulf Squadron, numbering about 1500 in all. He will go out in the supply steamer from New York, which will also take 100 marines for the service.

☞ Capt. Raud, of Co. I, Massachusetts First Regiment, is Charles E. Rand formerly of Portsmouth, an excellent and popular officer, who it will be recollected also commanded a company in the ever-famous California Vigilance Committee, and was there arrested for "piracy" by the Governor.

☞ Capt. Darling, of the Capitol police, in Washington, has arrested as a spy of Jeff. Davis, one Taliferro, late a clerk in the Navy Department, a Virginian and a son-in-law of Senator Mason. A large bundle of letters, addressed to prominent rebels in the South, was found upon him; also plans of the locations of our camps in and around Washington.

☞ The Boston Journal, of Saturday night says the advance of the grand army is said to have begun. The N. Y. Commercial states that the New York Fire Zouaves, Col. Farnham, were on Thursday *en route* for Manassas Junction. This intelligence was derived from a private letter received in New York city.

☞ Pensacola has been connected with Montgomery by a line of telegraph. The new signals of the fleet off Pickens distress the rebels very much, as they are unable to read them.

☞ The New Orleans True Delta says the corporation loan for the defense of that city receives but small favor at the hands of capitalists. They will soon have to resort to shinplasters.

Dr. Wistar's Balsam of Wild Cherry is truly a balsam. It contains the balsamic principle of the Wild Cherry, the balsamic properties of tar and pine. Its ingredients are all balsamic. Coughs, colds and consumption disappear rapidly under its balsamic influence.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE, Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 39, which is as follows:

Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.
June17 OREN BRAGDON, City Marshal.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is now offered to give better satisfaction than any yet offered to the public.

REFRIGERATORS.

One of the most economical and indispensable articles in hot weather, is a good Refrigerator, (a poor one is not worth buying at any price.) The attention of the public is invited to

WINSHIP'S PATENT UPRIGHT

Self-Ventilating Refrigerator,

thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has given a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other.—Milk, delicate fruits and meats can in this be preserved much longer than in any other Refrigerator.

A Distinguished St. Louis Physician Writes:

ST. LOUIS, July 10, 1860.

O. J. WOOD, Esq.—*Dear Sir*—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 5 years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity, at this late day, as I am well aware they are all well known already, and even more wonderful cures throughout the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug; saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article, said to be as good, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of these charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word, in several instances, merely inserting some name in place of yours.

I call on you, personally, at your original place of business here, but learned you were now living in New York.

You are at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1220, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WARREN SPRINGS, Perry Co., Pa., June, 7, 20.

PROF. WOOD—*Dear Sir*—I was induced more than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for years, and had never been able to get anything to do me any good until I saw your advertisement in a Harrisburgh paper. I bought a bottle, and am now prepared to recommend it to universal use, for it has completely removed all dandruff from my head, and application once in two weeks keeps it free from itching and other annoyances. I must also state that my hair had become quite white in places, and by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain, in order to have my appearance comport with my age. My bald is now free from trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, although I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you. Yours, &c., H. H. ETTER.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARTICLE IN THE FIELD.—Prof. Wood stands on an eminence no chemist, since the world began, has been turned to inventing a hair tonic, has ever before reached. His fame is world-wide, and thousands who have worn wigs and been bald for years, see now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry. Prof. Wood studied out the human hair, its properties, its diseases, and how to restore its decayed vitality; he saw, as in his own case, that gray hair is unnatural unless the age of the individual had reached fourscore, and he believed that the hair could be re-vitalized. He tried his own case—the most bald and wholly gray at 35—he restored his own hair—and the article he did it with he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Day Book.*

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the head had become almost bald because of sickness, the use of this article has produced a new growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually cleanse the scalp and remove impurities which operate so injuriously to the hair. It also has curative powers of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of this remedy, and its effects are those which claim, as the compound, if it doesn't cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—*Saturday Transcript, April 22, 1859.*

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be exhausted by newspaper puffing. In our own vicinity it has been extensively used, and we believe in every case it has given very desired result and receives the universal indorsement of all who have tried it. We therefore recommend it as one of those few genuine nostrums which accomplish all they promise, and all the bald and gray could desire.—*Columbian Spy.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried the Restorative.—*Boston Times Branch.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums, but we take great pleasure in recommending Prof. Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtue. Let all try it, and bald heads will be as rare as show in summer.—*Baltimore Patriot.*

REAL ESTATE IN NEW CASTLE FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT,

VOL. 18. PORTSMOUTH, N. H., TUESDAY, JULY 16, 1861. NO. 139

Morning Chronicle.

AN IMPORTANT THOUGHT.—A Missouri correspondent of the Congregational Journal says:—"One thing I am confident of, we can never see any more peace while our present State Government is in power. Our Governor is so sure that there is a large majority against him, that it will not be left to a free vote of the people—hence all this traitorous business is necessary to do what cannot be done by fair means."

The writer then offers these reflections, which are worthy of consideration by every person who believes in the Divine Power and Justice of the Maker and Ruler of the Universe:—"I have seen it suggested that in the present war man has one object and God another. So far as this State is concerned, the public mind is being prepared for a change. This preparation is seen in the present position of parties in relation to Union and disunion. The former are aware that slavery lies at the bottom of the difficulty, yet they have no idea of touching it; on the other hand, they think that the only hope of the institution is in the success of the Union party. Their object is to defend themselves against the latter party, who, without regard to the rights of others, seem madly bent on success or ruin.

"The secession party seem to feel themselves the particular guardians of slavery, while few of them own, or ever can with their present habits. No cause can possibly succeed in such hands; and if they are to be the only guardians of slavery, then slavery must become a hated institution in Missouri. This may be the point to which Providence is directing things; that our troubles will culminate in some vast change not now in view, there can be but little doubt."

REBEL TERMS.—The Richmond Whig, thought by some to be the official organ of Jeff. Davis, says:—

This war must go on. The South must fight until the North sues for peace. Pass a non-intercourse act, and then she will soon begin to feel the ruinous pressure of the war. *We must dictate the terms of peace;* the first article of which should be an acknowledgement of the right of secession. This is a fundamental principle. The next article should be that she pay, to the uttermost farthing, *the expense of this war.*—The third is that she pay for the destruction of all *public* property, both *public* and *private*, which she may appropriate to her own use. The fourth is that, as an evidence of her sincerity, she impeach and remove from office Abe Lincoln, indict him and hang him for treason and other crimes.

KEEP COOL!

LANGDON M. PERKINS, (late of the firm of Whidden & Perkins, now dissolved,) having purchased the
ICE BUSINESS
of Mr. GEORGE L. STOKELL, is now prepared to furnish Ice of the very best quality, from the well known Peverley Hill farm, (the oldest establishment in this vicinity,) as heretofore, for family and store use, in any quantity desired. We shall spare no effort to supply parties in such a manner as will give satisfaction to all.
Orders for daily or transient supply of Ice, left at the store of JOHN STOKELL, No. 41 Market street, or at my residence, No. 89 South street, will be promptly attended to.
LANGDON M. PERKINS.
Portsmouth, June 8, 1861.

ICE. ICE. ICE.

JOSEPH W. WHIDDEN is fully prepared to furnish regular and transient customers, promptly, with ICE of the purest and best quality, as heretofore, on the lowest terms—and would solicit the patronage of old friends and the public generally.
Orders may be left at the Store of Mr HENRY M. CLARK, Congress Street.

A. RICHARDS & CO.'S
COMBINED GLUE AND CEMENT.
IS HELD by every one in preference to any other in market for many reasons:—
1. Because it is white as snow.
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
4. Because it answers a double purpose—it will mend all kinds of Crockery, from China down to the coarsest Stone Ware, and at the same time will mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles mended never separate.
10. Because it is no humbug, but an honest article, as thousands can testify.
SPALDING'S PREPARED GLUE, too well known to need puffing.
PREPARED MUCILAGE, always ready to stick a postage stamp, or fasten a loose leaf; will not mould or sour.

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. WALKER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe it will effectually cure it.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely cured me from suffering several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 50 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering with a painful attack of Neuralgia and Rheumatism, and it proved to be a most decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I feel leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which effected decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 18, 1856.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is not can be any better general remedy.
One of the very best physicians in Boston has said *"that it is the best preparation of Bitters that has ever been offered to the public."*
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

TUESDAY, JULY 16, 1861.

NEW HAMPSHIRE ITEMS.

The descendants and relatives of the widow of the late Daniel Hayes gathered at the homestead, in Milton, on Monday, on which day the old lady was one hundred years of age. There were nearly three hundred present, including five of the fifth generation. The party carried their own provisions, and spread the tables in front of the house in the shade of some noble elm trees, which were set out by the old lady when the road was opened to the house. She moved to the homestead with her husband, previous to the celebrated "dark day" in 1780, on which day her husband was doing the first plowing ever done within the limits of the town of Milton. They were the first settlers in Milton. The house which they first built has been rebuilt and used for many years as a public house; the materials of the old house were built into the new. The land which they took up when they first went there, is now occupied by her descendants, and is valued at $40,000.

The Abbott Guards of Manchester, (second company) have offered their services for the 3d Regiment. The Irish Volunteers, of the same city, who have been under a good drill, have the assurance of being received by the State.

An old lady named Railes was run over and instantly killed by an engine at East Lebanon, Saturday afternoon.

We have the mortifying intelligence that the rebel privateer steamer Sumter has taken *seven prizes* into a Cuban port, and burned a ship at sea, which she could not take care of Is it not time for a volunteer navy?—*Boston Advertiser.*

Certainly it is:—and as Senator Hale's bill for this purpose is before Congress, and will doubtless pass,—owners of proper vessels in every port should be thinking of the subject.

We have vessels and men enough to seal up every rebel port,—and to take care of any pirate that swims. Congress cannot be too quick about their action on this subject.

N. H. Volunteers. — Gov. Berry of N. H. has been informed that the War Department will accept one regiment or ten additional, provided they are as well equipped as those already sent out. The Governor and Council meet on Wednesday to consider the matter.—*Boston Journal.*

It should probably read *one* or *two* regiments.

Funeral of Mrs. Longfellow.—The funeral of the lamented wife of Prof. Longfellow took place at noon Saturday, at her late residence in Cambridge, and was very largely attended. The remains were laid out in the library, where the terrible accident occurred, and it was a singular circumstance that the flames in no wise disfigured the beautiful face of their victim. The Rev. Dr. Peabody conducted the services at the house, and Rev. Dr. Gannett at the tomb. A procession of 100 carriages, including 20 from Boston, followed the remains to Mount Auburn, where they were deposited in a tomb on Indian Ridge. They were enshrined within a rich rosewood casket, heavily silvered. The funeral of the deceased occurred on the anniversary of her wedding day.—*Transcript.*

Hon. Nathan Appleton died Sunday in Boston. Mr. Appleton has been long one of the most prominent members of the community, and universally respected for his intelligence, integrity, and benevolence. In youth he pursued his studies in Dartmouth College, but left it for mercantile occupations, to which and to manufacturing interests his life has been in general devoted. He has been twice a member of Congress. Mr. Appleton was a warm friend of his country, and of the school commonly classed as conservative.—Mrs. Longfellow, whose heart-rending fate we have so recently recorded, was his daughter. He leaves a large fortune, and with it the "memory of the just." He was born in New Ipswich, N. H., in 1779, where his family settled at an early period in the history of New England.

Prizes Given Up.—A firm in Boston has received a letter dated Cienfuegos, 7th inst., which says that all the prizes brought into that port by the privateer Sumter had been given up to their officers and would all resume their voyages on the following day. When the Sumter arrived, her captain inquired of the Governor of the Port if the captured vessels could be held as lawful prizes. He was informed they could not be held as prizes in Spanish ports, and were accordingly released. The Sumter soon after left the port.

A MONTH IN CAMP.

Dr. A. B. Crosby, Surgeon of the 1st Regt. N. H. V., communicates to the Boston Medical and Surgical Journal for July, an interesting account, entitled "A Month in a Volunteer Camp." He was appointed on the 1st of May, and at once entered upon the discharge of his duties at Concord.—From his account, we make the following extracts:

Under the general direction of Maj. Seth Eastman, U. S. A., the mustering officer, I inspected every man in the regiment. The inspection was of course not as rigid as for the regular army. It was only necessary that the recruit should be able to hear and see well, give evidence of sound lungs, show sound hands and a free use of all his limbs. Hernia was regarded as an insurmountable objection. Between forty and fifty were rejected under this inspection. As soon as the ceremony of mustering the men into the U. S. service was complete, the whole regiment, in accordance with the army regulations, were vaccinated, although much against the wishes of some of the men.

As soon as practicable, I organized a hospital force. A wooden building was hastily thrown together, sufficiently large to accommodate twenty beds. Near the ridge pole at each end a small swing window was provided, and a suitable stove at the centre of the building, thus securing perfect ventilation. On the 8th of May I commenced keeping a hospital register, according to the regulations of the U. S. A. From the date above-mentioned to the 8th of June—one month—I had received and treated a hundred and twenty-five cases of acute disease. The number of out-patients, was also very large during the month.—Some mornings, as many as fifty out-patients were provided for, and the average of this class of patients was as high as fifteen per day. Out of this number, only one has died—a patient with double pneumonia.—He was a feeble young man of 19,—Arthur Cline, of Lyme, N. H.,—and died after an illness of eleven days, greatly beloved and respected by all who saw him. "If I cannot march with my regiment," he said, a few hours before his death, "I would rather die here."

The 1st Regiment N. H. V. has undoubtedly suffered more from disease, with one or two exceptions, than any regiment in the field. The encampment at Concord, situated on a dusty sand plain, was particularly unfavorable for the men. They were lodged in wooden barracks, with poor roofs; the weather was rare much of the time wet, and the hospital constantly full. The State equipped the regiment with great generosity. Through the kind co-operation of Gov. Goodwin and Gen. Joseph C. Abbott, I was enabled to provide the medical department in a most satisfactory manner. Our medicine chest, hospital stores, &c., were abundant for the campaign, and we were prepared to open a hospital with twenty beds, wherever we might be landed. We were also provided with two ambulances, one for two and one for four horses,—the latter so arranged as to carry twenty men at full length, or thirty when sitting erect.

On the 25th of May we left Concord, being obliged to leave twenty men behind us, some of them convalescing with pneumonia, &c., and a few with measles. On Tuesday, we marched through Washington and out about two miles from the city, into the park of a gentleman named Fletcher. It is a most beautiful bit of turf, surrounded by fine old oak trees, called Kalorama—a Greek word, as I judge, meaning "beautiful view." My hospital tent was soon pitched, and ten men put to bed. The measles now came thick and heavy; yet, notwithstanding we had a storm of five days, our cases did much better than I have usually observed, in my own practice, in private families. I attribute the favorable result in our cases of acute disease to certain hygienic measures which were scrupulously carried out in all cases. First, every patient has had his whole body sponged over with hot soap suds once every day; and if suffering from much febrile excitement, twice. Second, all our patients have had the most simple nourishment, properly cooked, and in quantities carefully graduated to their wants. Third, there has been an abundance of fresh air always about the patients, and the beds changed as often as every other day.

I had a trench dug around the edges of the hospital tent, six inches deep. At the most depending corner a gutter is dug off for some distance, so that in case of rain the drainage is perfect, and the ground under the canvass remains perfectly dry. The ground is then covered with a layer of dry straw, and our single bed sacks, filled every time they are used, with fresh straw, rest upon this layer. My hospital force is divided, so that one half is on duty twelve hours during the day, and the other half during the night. The patients are thus sure of good nursing both day and night. In case the air is very damp, a little alcohol poured into a shallow pan, and burned in the centre of the tent, dries the air perfectly, and the experiment need not be repeated more than once in two hours.

Of the diseases, 58, or nearly one half the cases, were measles—which may be regarded as accidental; yet there remain 67 cases of miscellaneous affections—a large number for a regiment of healthy country men, only a month in camp. Much, I believe, if not the greater part of this disease, has originated from the carelessness of the men themselves, who in spite of all remonstrances throw themselves on the damp ground, exercise no care in diet, however much cautioned, and then wonder that they are sick.

The prescriptions for out-patients have been very numerous—not less, on a moderate calculation, than five hundred for the month. The water at Kalorama contained lime and magnesia, so that diarrhœa troubled the troops somewhat, but plenty of bathing and a diet of scalded milk and burnt bread proved efficient in checking it. On the march, men are inclined to drink a great deal of water, which troubles them very much afterwards. I myself find that a canteen filled with cold tea, without sugar or cream, is the most refreshing drink on a march, if taken in moderate quantities. Those who get whiskey into their canteens, are sure to go down before a march is over, either from sun-stroke or drunkenness.

LETTER FROM KANSAS.

Wyandotte Co., June 30.

Dear T.:—We have had quite exciting times here for the last three weeks. Capt. Prince, with two companies U. S. infantry, came down from Fort Leavenworth, June 11, and occupied Kansas City. June 13, sent sixty men with a flag of truce to confer with the secessionists at their camp near Independence, 12 miles. While they were parleying with Capt. Holloway, (commander of the rebels,) his men were trying to flank the U. S. party by creeping along behind fences. Lieut. Simpson remonstrated with Capt. H., who motioned for his men to go back, but as they still pushed forward, Lieut. Simpson, (who had orders not to fire,) ordered his men to wheel and retreat. As the head of the column turned, they were fired upon, and one of the party shot across the knuckles of his bridle hand, and another through the shoulder. The United States party returned to Kansas City, but the secessionists succeded in shooting their own men, in their over-eagerness, and Capt. Holloway and three others were killed. The next day, the dragoons returned in force, and the rebels beat a precipitate retreat, leaving behind them tents, horses, provisions, &c. Then the United States party left, and after visiting Independence returned to camp at Kansas City. Thus ended the famous battle of Rock Creek.

The affair at Booneville was not much more bloody—only two soldiers killed and a few secessionists. Gov. Jackson left, and Missouri is pretty nearly straightened out. Last week, the First and Second regiments Kansas volunteers, with five hundred U. S. dragoons and two companies Light Artillery, left Kansas City and Wyandotte for the South. Their probable destination is Fort Smith, Arkansas. We have received no late news from them. There were one hundred and fifty-eight six-mule wagons in the train. Gen. Lyon was to march from Lexington to join them. Gen. Jim Lane is to command the Kansas brigade, and we shall probably hear from it before long.

Eighty dragoons and fifty six wagons passed our house a few days ago for the war.

Fortress Monroe, July 13.—The rebels confess losing two officers in their encounter with Hawkins' thirty Zouaves against their 150 troops a few days since, near Newport News. One of them was Col. De Russey.

A Normansby evaporator is being put into operation at the Fortress, which will produce 1000 gallons of fresh water from sea water daily.

The immense volume of smoke at Sewall's Point, was probably from burning of timber and brushwood.

Forty-five of Col. Bendix's regiment strolled from Newport News without leave, and were surprised a few miles from camp by a large party of rebels, foot and horse. One of the latter was killed, and several wounded. A number of our men fell into the hands of the rebels. On the return of those who escaped, seven companies of the 7th regiment went out, but have not yet been heard from.

Gen. Butler this afternoon went to Newport News to inquire into the matter. Col. Bendix was at Old Point, attending the Court Martial of Col. Allen, which progresses slowly.

From latest information there must be a considerble force at Big Bethel.

A messenger has just arrived from Newport News, who states that twelve of Bendix's men are missing.

WAR ITEMS—Monday Evening.

Gov. Letcher of Virginia is alarmed at the rebels' defeat and retreat—and calls for more Virginians to fight.

According to the most trustworthy reports there are 7000 troops at Fairfax Court House and 2500 at Centreville. The Union Virginians think there will be no stand made this side of Manassas.

Gen. McClellan has been telegraphed to release privates and non-commissioned officers on simple parole of honor upon their taking the oath of allegiance, and pledging themselves not to take up arms against the government. As to commissioned officers he is to exercise his own discretion, but under no circumstances is an officer or private, formerly in the U. S. army, to be released.

It is rumored that Senator Carlisle has information that a prominent officer of the Confederate army is about to tender thro' him to the government three regiments of Virginians.

Springfield station, nine miles from Alexandria, and one mile south of Fairfax, is occupied by federal troops.

Cincinnati, July 15.—Gen. Garnett, who commanded the rebel army routed by Gen. McClellan, was killed by an Indiana soldier in a regular battle fought yesterday eight miles from St. George.

Gen. Banks has arrested Archer Garnett, of the Bellair Light Dragoons, as a traitor. These dragoons are *quasi* rebels.

It is stated on the authority of a cabinet officer that an officer of the rebel army in Western Virginia has arrived with a proposition that a majority of the forces now there under the rebel flag, should run up the U. S. flag and avow allegiance to the federal government.

Augusta, July 13.—The 6th Maine regiment, Col. Knowlton, leaves Portland Wednesday morning, and will arrive in New York Thursday morning, en route for Washington.

☞ The Newburyport Bridge corporation has declared a dividend of one dollar per share, payable on the 22d inst.

Baltimore, July 14.—There is a report of the assassination of Gov. Hicks, but it cannot be traced to a reliable force.

VICTORY IN VIRGINIA

The United States army commanded by Gen. McClellan meets with continuel success in Western Virginia. The complete rout of the rebel force at Rich Mountain is succeeded by the retreat of Gen. Garnett, without a blow. There is a prospect that he may be intercepted and his forces captured or dispersed. Col. Pegram, who commanded at Rich Mountain, offers to surrender the remainder of his troops—about 600 men—who are represented to be repentant, and ready to lay down their arms. Gen. McClellan has agreed to the proposal, and the whole corps will surrender as prisoners of war. They are much reduced by hunger.

A dispatch from Washington says that "Gen. McClellan's dispatches have diffused general joy. None share in it in a greater degree than Gen. Scott himself. The intelligence seemed to make the military hereabout impatient for an opportunity to achieve results similar to those narrated."

Gen. McClellan's official statement, dated Beverly, July 13,—says;—

The success of to-day is all that I desire. We captured six brass cannon, of which one is rifled, and the enemy's camp equipage and transportation, even to his cups. The number of tents will probably reach 200, and more than 60 wagons. Their killed and wounded will amount to fully 150, with at least 100 prisoners, and more are constantly coming in. I know already of ten officers killed, and prisoners. Their retreat was complete. I occupied Beverly by a rapid march. Garnett abandoned his camp early this morning, leaving much equipage. He came within a few miles of Beverly, but our rapid march turned him back in great confusion, and he is now retreating on the road to St. George. General Morris is to follow him up closely.

I have telegraphed for the two Pennsylvania regiments at Cumberland to join Gen. Hill at Rowlesburg. The General is concentrating all his troops at Rowlesburg, and will cut off Garnett's retreat near West Union, or if possible at St. George. I may say we have driven out some 10,000 troops strongly entrenched, with the loss of eleven killed and thirty five wounded.

Provision returns here show Garnett's force to have been 10,000 men. They were Eastern Virginians, Georgians, Tennesseans, and I think Carolinians. I trust that Gen. Cox has by this time driven Wise out of the Kanawha Valley. In that case I shall have accomplished the object of liberating Western Virginia. I hope the General-in-Chief will approve of my operations.

Another official dispatch of Gen. McClelland, from the same place, dated July 14, says;—

I have received from Gen. Pegram propositions for a surrender, with his officers and the remnant of his command, 600 men. They are said to be extremely penitent, and are determined never again to take up arms against the General Government. I shall have nearly 900 or 1000 prisoners to take care of when Gen. Pegram comes in. The latest accounts make the loss of the rebels killed some 150.

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—Dyspepsia, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

Lake Village, N. H., Nov. 4, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the Oxygenated Bitters, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, Stephen Leavitt.

☞ We will say now, as we promised and intended to say on Monday, that we passed Friday afternoon last in a most pleasant and, as it seemed to us, profitable manner, at the Exhibition of the Boys' High School. Indeed, there was little wanting which is requisite to render a visit to the school pleasing; many of the parents and friends of the scholars manifested by their presence their interest in the school, and their appreciation of the advantages afforded by it; and the boys, by their ready answers and correct deportment, gave good evidence of the faithful performance of duty both by teachers and by scholars.

The school-room itself could hardly have been rendered more attractive. We suspect some slight emulation between the scholars of the two departments, occasioned the profusion of fragrant and beautiful flowers which were so tastily arranged and appeared so prominently in every part of the room.

The exercises were highly interesting and there was sufficient variety to destroy the monotony which is sometimes attendant upon such exhibitions. The answers to questions were promptly given; the reading was, we think, better than one usually hears on such occasions: the declamations, as a general thing, were good; while the gesticulation was in most cases easy and graceful.

But there was one new feature introduced which tended greatly to enhance the pleasure of the visitors, and which, we trust, as an augury of the future, will prove of decided advantage, not only to this school, but to all the schools in the city. This feature was, singing by a choir composed of members of the school, Mr. Amos Pearson presiding at the piano. A very agreeable feature was a solo by one of the pupils, which was received by the audience with quite a flutter of pleased surprise. The boys labored under great disadvantages, yet placed the most undoubting reliance upon the ability of their conductor to extricate them from all difficulties; and the result proved their confidence not misplaced.

We were informed that they had had but four rehearsals together, and that the pieces, with one exception, were entirely new to the boys; taking this fact into consideration, their singing in itself afforded a strong argument why instruction in music should be furnished all those who attend our High School. For if this choir, with the few rehearsals they had been permitted to have, were enabled to do so well, what limit need we put to our anticipations of what they would be enabled to accomplish, could they have continued and faithful instruction? We believe the time is coming when music will be held in as high esteem, and become as popular a branch of education, as even reading now is; and all good citizens would naturally desire that Portsmouth should not be the last to introduce it. Shall not the youth of the city who attend our High School, *next term*, be permitted advantages which have been already too long withheld from those who have enjoyed the other inestimable advantages which our school system affords?

The exercises of the graduating class were finely closed by an original composition and valedictory address from one of their number.

At the close of the exercises, diplomas were awarded, by his Honor, Mayor Simes, to Masters Richard Call, Nathaniel Cate, William Cate, John E. Colcord, Woodbury Curtis 2d, George W. Parker, James A. Spalding, Lyman D. Spalding jr., John Tilton, Charles Tredick, Asa Walker and Thomas Yeaton, who graduate at this time.

Remarks were then made by Rev. Dr. Burroughs, and Rev. Messrs. Patterson, Folsom and Hartwell, complimenting the scholars on their advancement, and congratulating them upon the advantages which they enjoyed.

The remarks of Rev. Dr. Burroughs seemed to us peculiarly felicitous, and the rapt attention with which an eloquent and touching allusion to the National Flag was received, showed that he had touched a chord in the heart of even the youngest of his hearers.

"America" was then sung, the audience rising and involuntarily joining their voices to swell the grand old hymn. Concluding prayer by Rev. Mr. Waterhouse.

The "after-piece,"—not on the bill,—was the gallant presentation of bouquets by the boys, to young lady graduates and other fortunate individuals. Altogether it was a most pleasing affair, and we only regret not attending the young ladies' entertainment the day previous.

☞ The U. S. sloop-of-war Marion sailed from the lower harbor on Sunday morning. The Surgeon, who was first ordered to join her, was detached last week, and A. Schriver took his place.

PERHAM'S EXCURSION should attract the notice of the travelling and pleasure-seeking public. It is not once in a score of years that Washington can be visited so cheaply and never at a time of more interest.

☞ Thomas Barri, formerly of this city, has been appointed Captain in the regular army.

☞ Mr. Nelson Goodrich, who has recently been appointed Boatswain in the U. S. Navy, on Tuesday evening was presented with a costly and elegant sword, by several of his friends in this city. It was entirely unexpected by him, yet was a handsome testimonial, worthily bestowed.

CINCINNATI, July 15.—Gen. McClellan met and again defeated the rebels, 12 miles from St. George, Va., yesterday afternoon. Gen. Garnett, commander of the rebels, was killed while attempting to rally his retreating forces. The rebels were completely routed by Gen. Morris. All their camp equipage was captured, with many prisoners, and 50 killed. Our loss was four killed and a few wounded.

There is now no rebel force with McClellan's district.

CONGRESS.—On Monday, John W. Forney was elected Clerk of the Senate.

In the House, a resolution was adopted, that the Secretary of the Treasury be requested to employ a sufficient force to protect our commerce from the pirates who now infest our seas.

A resolution was passed, the Senate concurring, to adjourn next Friday.

☞ John McKay, a discharged seaman from the Sabine, fell from the platform of the cars, near Boston, on Saturday, the wheels crushing his right arm. The limb was amputated at the Mass. General Hospital.

NEW YORK, July 14.—A special dispatch to the Herald from Baltimore says that Mr. May returned from Richmond last night, sick.

The better nations become acquainted with each other, the fewer will be their prejudices, and the more likely will they be to love and respect each other. Just so with Herrick Allen's Gold Medal Saleratus—the more you know of it, the more you want to, and the more anxious you are to have your friends become its patrons. It not only makes the best Biscuit, Bread, &c., but it cures dyspepsia and strengthens weak stomachs. It has no equal. Most of the Grocers have it.

The power of Medicine over disease.—We know of no better illustration of this fact than the wonderful effects of the *Oxygenated Bitters* in eradicating from the system Dyspepsia, and functional diseases of the stomach, as well as restoring impaired digestion.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE, Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 39, which is as follows:

Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

A large lot just received, and for sale by the dozen or single box, by BRACKETT HUTCHINGS, 4 Market street. apr24

REFRIGERATORS.

One of the most economical and indispensable articles in hot weather, is a good Refrigerator, (a poor one is not worth buying at any price.) The attention of the public is invited to

WINSHIP'S PATENT UPRIGHT

Self-Ventilating Refrigerator,

thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has given a description of it in his new work on Natural Philosophy, as the best illustration over practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different favors cannot impregnate each other.—Milk, delicate fruits and meats can in this be preserved much longer than in any other Refrigerator.

Bartlett's Polar Refrigerator,

With two food chambers and a water tank; a very convenient article.

☞ Mr. Vallandigham, in the U. S. House of Representatives, introduced a resolution about the constitutional disqualification of Col. Marmon and other officers of the Volunteers, as Representatives in Congress.

Whereupon, Mr. McKnight moved to insert Mr. Vallandigham's name, for after his speech of Wednesday the Committee on Elections ought to examine his credentials, and ascertain whether he had not been accredited to the wrong Congress.

The resolution was tabled—92 to 51.

☞ The Virginia Legislature, in session at Wheeling, are doing well. In the House of Delegates, a resolution to instruct the Senators to vote men and money without stint to the Government, and to oppose all compromise until the rebellion is crushed, passed with only one dissenting vote:—and the resolution of Mr. Vance of Harrison, to protest against Mr. Lovejoy's resolution for the repeal of the fugitive slave law, was tabled by a large vote.

AYER'S CATHARTIC PILLS.

Are not only safe, pleasant and unexceptionable. Are recommended by the medical faculty, and your friends and neighbors. These pills have stood the test of time, and have been in demand upwards of twenty years, and would be used if you knew how well they are adapted to prevailing ills. Take Ayer's Pills and you will find them a good friend when you need a cathartic. They purify the blood, and by the relief they give to the sick they are enabled to attend to business and enjoy life. They eliminate the humors from the body into channels where they purify the system from disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general congestion, suffering and disease. While in this condition, exposed to the contagious, take Ayer's Pills, and see how quickly they restore natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common case, is also true in many of the deep-seated and dangerous disorders. The same purgative effect expels them. Caused by similar obstructions and impurities of the vital functions of the body, they are equally, and many of them surely, cured by the same means. None who know the virtues of these Pills will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons.

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

Dr. Ayer: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of a disease once upon her head and face that had become incurable for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. E. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their extraordinary superiority over any cathartic we possess. They are mild, but very certain and efficient in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach

From Dr. Edward Boyd, Baltimore.

Dr. Ayer: I cannot answer you what complaint I have cured with your Pills better than to say all of my patients who have taken your Pills have expressed themselves as highly pleased with them as a family cathartic in my daily contact with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, Pa., May 1, 1852.

Dr. J. C. Ayer. Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to strike from the foul stomach which they cleanse at once.

Yours with great respect, ED. W. FREBLE, *Clerk of Beaver Co. Pa.*

Bilious Disorders—Liver Complaints.

From Dr. Dunham Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the Liver very marked indeed. They have proved the most powerful tonic effectual for the cure of bilious complaints that any one could I can mention. I sincerely rejoice that there is at last a purgative which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb. 1858.

Sirs: I have used your Pills in my general and family practice for about four years, and cannot hesitate to say they are the best cathartic we employ. Their prompt action on the liver is quick and decided, and probably there is no one medicine in the list of compounds of that organ. Indeed, I have seldom found a case of indigestion or torpid liver that it did not readily yield to them. Individually yours, ALONZO EDWARDS, M.D., *Physician of the Marine Hospital.*

Dysentery, Diarrhœa, Relax, Worms.

From Dr. A. L. Lucas, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in estimation one of the best cathartics I have ever found. Their alterative effect upon the liver makes them an excellent remedy, when given in small doses for bilious complaints and dyspepsia. Their unexceptionable form will recommend them to the favor of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. A. H. Brown, Pastor of Baptist Church, Hudson.

For years I have used your Pills with decided success in my family and among those I am called to visit to discover, by regulate the organs of digestion and purify the blood, that they are the very best cathartic I have known, and I can confidently recommend them to my friends. Yours, A. H. BROWN.

WAYNE, Wyoming Co., N. Y., Oct. 24, 1857.

Dear Sir: I am widely and favorably known in this section, and feel that I can conscientiously recommend your Pills as an excellent purgative to cleanse the system and purify the fountains of the blood.

Yours, respectfully, REUBEN H. P. P.

Constipation, Costiveness, Suppression, Inflammation, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Kennedy, Baltimore, Md.

You have kindly asked my opinion of your Pills as a family cathartic. If others of our fraternity have found them as effective as I have, they should join me in speaking of them as one of the medicines which rather from that consideration, which, although well enough in itself, is the prerogative of others that are worse. I believe on occasion congestion in the liver, but your Pills affect the system and cure the disease.

From Rev. E. Sewell, Physician and Minister, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promoters of the natural secretion when a body of family cathartic approached, and also very efficacious in clearing the stomach and expel worms. They are actually the best physic we have, and I recommend no other to my patients.

From the Rev. Dr. Hendee, of the Methodist Episc. Church

PLANTER HOUSE, Columbus, Ga., Jan. 6, 1856.

Friend Ayer: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my limbs and bowels so severe that my recovery was despaired of by the physicians. Nevertheless, I had the best of physicians, the disease grew worse and worse until I tried the effects of your excellent pills in Richmond, Dr. Mackenzie's Vegetable Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SAMUEL CHAPMAN, Baton Rouge, La., 4 Feb. 1856.

Dr. Ayer: I have long used your Cathartic Pills, and *believe the Good*—a painful disease that had afflicted me for years. VINCENT SALDELL.

☞ Any one of the Pills in market contains Mercury or Calomel, although a valuable remedy in skilful hands, is dangerous in a public pill, from the direction given to those that frequently follow its incautious use. The pills contain no mercury or mineral substance whatever.

☞ One, 25 cents; six boxes, or a dozen for $1.

REAL ESTATE IN NEW CASTLE FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunity for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth Harbor and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT, MARKET SQUARE.

WASHINGTON ITEMS.—Gen. Wilson will soon introduce into the Senate a bill providing for taking possession of personal property in the Rebel States by the general officers of the army. So far as needed for the support of troops, it will be so used but other articles will be sold in home or foreign markets, and converted into cash. For everything so taken, certificates will be given to the owner, without the power of transfer, to be paid at the expiration of the war to those holders who have been loyal to the government, but to be confiscated in cases of aid and comfort to the rebellion.

Last Saturday night, after the departure of the Federal troops, four Virginians visited Poolesville to capture two sick Federal soldiers at the house of a Mr. Mestayer, but had to retire without them, owing to the spirit displayed by Mr. Mestayer's daughters.

☞ Gen. Fremont will establish his headquarters at St. Louis. His old friend Kit Carson is alive and loyal, and it is expected will join Gen. Fremont in his Western and Southern campaign.

☞ A Washington dispatch says:—Intelligence has been received from the squadron off Charleston, that more vessels were now there, and there is no possibility of running the blockade.

☞ The U. S. Senators, Wiley and Carlisle, from Virginia, were admitted to seats and sworn in, on Saturday. A motion against their admission was negatived, 35 to 5.

☞ Jeremiah S. Putnam has been appointed Collector at York, Me., vice Geo. G. Bowden, removed.

KEEP COOL!

LANGDON M. PERKINS, (late of the firm of Whidden & Perkins, now dissolved,) having purchased the
ICE BUSINESS
of Mr. GEORGE L. STOKELL, is now prepared to furnish Ice of the very best quality, from the well known Beverley Hill farm, (the oldest established in this vicinity,) as heretofore, for family and store use, in any quantity desired. We shall spare no effort to supply parties in such a manner as will give satisfaction to all.
Orders for daily or transient supply of Ice, left at the store of JOHN STOKELL, No. 41 Market street, or at my residence, No. 30 South street, will be promptly attended to.
LANGDON M. PERKINS.
Portsmouth, June 8, 1861.

ICE. ICE. ICE.

JOSEPH W. WHIDDEN is fully prepared to furnish regular and every day customers, promptly, with ICE of the purest and best quality, as heretofore, on the lowest terms—and would solicit the patronage of old friends and the public generally.
Orders may be left at the Store of Mr HENRY M. CLARK, Congress Street.

A. RICHARDS & CO.'S
COMBINED GLUE AND CEMENT.
is liked by every one in preference to any other in market for many reasons:—
1. Because it is white as snow.
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
4. Because it answers a double purpose—it will mend all kinds of Crockery, from China down to the coarsest Stone Ware, and at the same time will mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles mended never separate.
10. Because it is no humbug, but an honest article, as thousands can testify.
SPALDING'S PREPARED GLUE, too well known to need puffing.
PREPARED MUCILAGE, always ready to stick—a postage stamp, or fasten a loose leaf; will not mould or sour.

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well." D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say to you that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Mill street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.
TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles E. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic s*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*has it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pints as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

WEDNESDAY, JULY 17, 1861.

A CHANGE.—The expulsion of John B. Clark of Missouri from the House of Representatives, on Saturday, marks something of a change in our political world. The ground of expulsion was Clark's appearance in arms against the Government, having been one of those followers of Gov. Jackson of Missouri who were routed at Boonville. He had violated the oath and forfeited his place. Yet this is the same Clark whose resolution opened the *Helper crusade* in the House at the beginning of the last Congress, which resulted in the withdrawal of John Sherman as the Republican candidate for Speaker.

What a commotion was raised! Many were led to believe that Sherman and his friends were enemies of their country, and not to be trusted, while Clark was felt to be a vigilant patriot and worthy of conservative approbation. Less than three years roll round, (says the Boston Journal,) and Mr. Sherman is elevated by his constituents to the Senate of the United States, and Clark, caught in the ranks of traitors with arms in his hand, is expelled from his seat in the House, the country saying amen to it. It is some consolation that the progress of this crisis has served to teach the people who is who.

☞ Mr. William Mure, British Consul at New Orleans, has just published a Card in the Picayune, confirming the statement that a great many British subjects had been forced into the rebel army. He says:—

It is not the fact, as you suppose, that one or two isolated cases of British subjects who enlisted in the army, and having thought better of it, then invoked my protection, made the basis of Mr. Russell's statement, or, as you call it, "monstrous invention." But *it is the fact* that since the 28th of April to the present day, with very slight intermission, many British subjects, some of whom were only a few weeks in the country, were seized and forcibly carried off from the levee, steamboat landing, boarding house, &c., to the different places of rendezvous of military companies. When the men resisted, they were frequently assaulted, knocked down, and being overpowered, carried off in furniture wagons to the headquarters of these embryo companies, where the most violent threats were used to compel them "to sign the papers."

Within the last few days there have been over twenty applications of a similar kind, and some of the men, according to the evidence, have been most severely maltreated. One woman alleges that her husband was seized on his way to procure medical help for their child; that it was three days before she discovered the rendezvous where he was confined, and when she saw him he was tied by cords, and so disfigured by bruises that she scarcely recognized him. She was not allowed to hold any communication with him, but was threatened with prison if she troubled them again!

I do not wish to trespass upon your columns by multiplying instances. *Instead of one repenting volunteer, there have been about sixty cases of impressed British subjects reported at my office.*

WILLIAM MURE.

This does not look as if *volunteers* were so very plentiful or earnest. The statement cannot be doubted nor explained away. There is no doubt whatever, that when threescore British subjects have been impressed by the rebels in New Orleans alone, hundreds and even thousands of American citizens have been forced into their ranks, all over the South. The numerous denials of this fact are just so many lies.

☞ The Washington correspondent of the New York Tribune states that the dispatches recently delivered by Major Taylor under a flag of truce, covered a long argument on privateering, and a threat of retaliation in case the pirates of the Savannah or of any other vessel were hung. Toward the end of the document, there was some allusion to a proposed exchange of prisoners, but its burden was piracy.

It is certain, either that *these* pirates, the very first taken, should be hung—or else that the U. S. government should never hang any more pirates.

As for any threats of retaliation by the rebels, it is well known that they hang innocent men now, whenever they see fit;—and the necks of some of their great men, who threaten most, may yet be in danger.

☞ J. Madison Cutts, father of Senator Douglas's widow, publishes a card, by desire of that lady, requesting the friends of the departed statesman not to raise contributions for herself and children. Mr. Cutts is able and willing to provide for them.

BALTIMORE, July 15.—Gov. Hicks arrived here this evening in excellent health, and is somewhat surprised at the news of his assassination.

NEW HAMPSHIRE ITEMS.

Nearly all the dealers in Somersworth have agreed to close their stores every evening at 6 1-2 o'clock.

The Great Falls Advertiser states that it has been informed by members of the Cornet Band, that they would be pleased to "discourse sweet music" on Market Square, in that town, one or two evenings each week, if they could have a proper stand erected for their accommodation. Of course, the citizens will avail themselves of the liberal offer. Why cannot Portsmouth have such street concerts occasionally? But no band ought to be expected to play for nothing.

On Saturday last Mr. J. M. Thompson, of the Glen House, performed the unprecedented feat of driving to the summit of Mount Washington, in a wagon drawn by his celebrated horse "Sorrel Tom," without unharnessing, himself riding all but ten rods of the route. The passage up occupied 3 1-2 hours, and the return trip was accomplished in less time, Mr. T. riding all the way down. Not the slightest injury was sustained by the man, horse or carriage.

THE TORNADO, last week, as it passed through Candia, did considerable damage. A gentleman writing from there says it was a sublime and wonderful sight, apparently about twenty-five rods in width, and prostrated nearly everything in its path. Dea. Patten's barn and shed, H. C. Matthews' barn, and S. Colcord's barn and shed were all unroofed. The roof of Charles Bigford's house was taken off, and the chimney blown down. J. Carpenter's house and numerous other buildings were badly injured. Stone walls were blown over, trees uprooted and twisted off, and the damage to the town is no trifling sum.

We hear of the tornado as far northeast as Northwood. It swept down trees and forests the entire distance.

Massachusetts agents are in this State to enlist men for their new regiments. As it is understood to be settled that we are to have a third regiment, our military fellows had better hold on for a good place in their own State. There will be as good pay and perhaps a better chance for promotion in our own ranks.

WASHINGTON, July 15.—The following official dispatch has been received by the War Department:

HUTTONVILLE, Va., July 15.

Col. E. D. Townsend, Ass't Adj. Gen.:

Gen. Garnett and his forces have been routed and his baggage and one gun taken. His army is completely demoralized. Gen. Garnett was killed while attempting to rally his forces at Carricksford, near St. George. We have completely annihilated the enemy in Western Virginia. Our loss is but 13 killed and not more than 40 wounded, while the enemy's loss is not far from 200 killed, and the number of prisoners we have taken will amount to at least 1000. We have captured seven of the enemy's guns in all. A portion of Gen. Garnett's forces retreated, but I look for their capture by Gen. Hill, who is in hot pursuit. The troops that Gen. Garnett had under his command are said to be the crack regiments of Eastern Virginia, aided by Georgians, Tennesseans and Carolinians. Our success is complete, and I firmly believe that secession is killed in this section of the country.

(Signed,) GEO. B. MCCLELLAN,
Major Gen. U. S. Army.

A WOMAN FOR THE TIMES.—The Troy Times says, an elderly lady who attended a meeting of the First Vermont Regiment just before they left for the seat of war, certainly evinced the most patriotism of any we have yet heard of. As soon as the prominent speakers had finished their patriotic speeches, the old lady arose, full of enthusiasm, and said she thanked God that she was able to do something for her country; her two sons, all she possessed in the world, were in the regiment, and the only thing she had to regret was that she could not have known it twenty years ago—she would have furnished more of them.

WASHINGTON, July 15.—The reign of terror in Loudon county, Va., is at its height. Notice of the militia muster for to-day, was given on Saturday, when the citizens were told to be ready to be drafted into the militia to fill up the ranks of Beauregard's forces. All the Union men of Waterford have determined to escape. Twelve escaped Saturday night and evaded the rebel pickets for nine miles; arriving at the ford of Point of Rocks, they crossed and got inside of the lines of the 1st New Hampshire regiment, where they were kindly cared for, and came to Washington this evening. During yesterday the rebel pickets were seen to drive back several squads who were coming in the direction of the ford. They are supposed to have been some of the escaping party.

☞ A Washington dispatch says: "The Secretary of State has made a reclamation on the Spanish Government for the surrender of the American vessels carried into Cienfuegos by the pirate steamer Sumter. No doubt is entertained of their immediate release, with their cargoes, and of a prohibition of the entrance of rebel pirates into West India ports.

AN IMMENSE SCHOOL OF WHALES.—The English papers report that one hundred and fifty-nine whales were stranded near North Uist, an island of the outer Hebrides, Scotland, on the 6th of June.

☞ Large bodies of troops, comprising several Regiments of Volunteers, Griffin's battery, provided with rifled 12-pounders, an extra amount of ammunition and an extra number of horses; also Lieut. Greene's fine battery of rifled cannon, went over to Alexandria and vicinity from Washington, on Monday.

☞ In the U. S. Senate, Monday, the Army Appropriation bill, and the bill to increase the military establishment, were passed with amendments. In the House, a bill to define and punish conspiracy was passed—123 against 7.—A resolution directing an inquiry into the relations and intercourse of Mr. May of Baltimore with the rebels, was passed.

☞ It is rumored that the vacancy on the bench of the Supreme Court, occasioned by the death of Judge McLean, will be offered to Hon. Jos. Holt of Kentucky, whose loyalty has been proved, and is only equalled by his eloquence and the ability he has exhibited in the legal profession.

NATIONAL FORCE IN VIRGINIA.—The following is the reported strength of the four grand divisions of the Union army in Virginia:

Gen. Patterson—central	35,000
Gen. McDowell—northeast	45,000
Gen. McClellan—northwest	45,000
Gen. Butler—southeast	20,000
Total	135,000

PRIZE OFFERED FOR FLAX COTTON. The Rhode Island Society for the encouragement of Domestic Industry has offered a premium of $500 for the best bale of prepared flax cotton, of not less than 50 lbs. It must be proved that the article is of a quality, and can be produced in quantity, and at a price to be an economical substitute for cotton.

PHILADELPHIA, July 12.—A letter from Havana, dated June 10th, says that the Captain General ordered privateer Sumter off and retained the prizes, the cargoes being Spanish property. The vessels are held for the action of the home government. It is almost certain that the vessels were all captured within three nautical miles of the coast of Cuba.

LOUISVILLE, July 15.—Ex-Secretary Holt made a grand unconditional Union speech, last Saturday, to a large audience. It was received with unqualified applause.

A dispatch from Richmond says the authorities are impressing Union prisoners hitherto on parole, in consequence of the action of the Federal authorities touching privateers.

☞ As soon as the recent seizures by privateers were known, the Navy Department issued orders to the Federal vessels at New York, Boston and Hampton Roads, to proceed without delay in pursuit of them. The Niagara has gone on the same errand

HARRISBURG, July 16.—Officers commanding the reserve lately encamped in Cumberland, occupied New Creek bridge, Piedmont, and New Creek Village. The enemy precipitately retired upon the approach of our force.

Capt. Taylor's company pursued and captured a wagon filled with plunder.

☞ Godey's Lady's Book, for August, 1860, has for a frontispiece, Mind your steps, a figure of juvenile dancers; the fashion plate, the Farm Yard, &c.—Mr. & Mrs. Rasher have a couple of amusing chapters.

☞ D. A. Brown, of Webster, Mass., has a tame rat, which he has trained to catch and devour flies. What a pity that all rats could not be as usefully employed.

☞ A slight fire in Boston on Sunday evening last, was occasioned by a couple of rats, they having gnawed some matches in a drawer.

ST. LOUIS, July 15.—The Springfield correspondent of the Republican says Indians entered Missouri with Arkansas troops.

NEW YORK, July 15.—The race yesterday between Flora Temple and Ethan Allen and running mate Socks, was won by Allen and mate, in three straight heats.—Time: 2:22 1-2, 2:22, 2:23 3-4.

FROM EUROPE.—*New York, July* 15.—Steamship Saxonia, from Southampton, July 3d, arrived at 5 o'clock this afternoon.

The great fire in London is still burning.

A new Indian loan of £4,000,000 has been introduced into Parliament.

In France, the Patterson family case has been decided. The appeal was dismissed and the first judgment confirmed.

Spain abandons all claims against Morocco to declare Tetuan the property of Spain, to render it impregnable and to colonize the territory.

Three hundred Republicans have risen in insurrection in Lorca.

Two Bourbon committees have been discovered at Naples and 500 muskets seized.

A plot to assassinate Garibaldi has been discovered, and the Government has taken measures to watch the entrance to Caprera.

On the discussion of the loan bill in the Turin Chamber, Signor Musalino said that England was the only true friend to Italy, and insisted on the immediate evacuation of Rome by the French. Farini supported the French alliance as the foundation and shield of the popular rights of all Europe.

The Patrie says that disturbances have taken place at Naples.

The Sultan of Turkey has introduced great reforms in the imperial household; 500 servants have been dismissed. He has reduced the civil list from seventy-five to twelve millions.

NEW YORK, July 10.—A Washington dispatch to the Herald says that the British Consul at Richmond has laid before the British Minister official documents respecting recent cases where the blockade of the Chesapeake has been broken; passes having been issued by Gen. Butler permitting private individuals' vessels to pass. Copies of these papers, purporting to bear Butler's signature, are among the documents communicated. Lord Lyons has called the attention of the Government to these facts, and requests explanation.

Skirmishing continued across the Potomac, below East Falls, all day Sunday. The place was exposed by the withdrawal of the federal troops, and it is feared the enemy will cross the river and destroy the government property.

ST. LOUIS, July 10.—An officer of Siegel's command, from Springfield, 12th, reports all quiet there. Capt. Conrad's company, left at Neosho, by Col. Siegel, was surrounded by 1200 Arkansas cavalry and given ten minutes to surrender. Gen. Price demanded that they should be delivered to the Missouri troops to be shot, which the Arkansas officers refused. Their arms were then taken from them and an oath administered, when they were marched to Springfield under an escort of Arkansas troops. There are 10,000 Missouri and Arkansas troops at Neosho.

QUINCY, ILL., July 15.—Brig. Gen. Hurlbut of the volunteers has issued a proclamation to the citizens of Northwestern Missouri, denouncing the false and designing men seeking to overthrow the Government. He warns them that the time for tolerating treason has passed, and that the man or body of men who venture to stand in defiance of the supreme authority of the Union peril their own lives in the attempt. He guarantees protection to all the peaceable citizens, but urges the necessity of their organizing and taking a part in the reconstruction of society.

EASTPORT, PA., July 15.—The Colonels commanding at Camp Washington have been notified by telegraph to hold their commands in readiness to march at an hour's notice.

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—DYSPEPSIA, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

LAKE VILLAGE, N. H., Nov. 4, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to make a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

Prepared by SETH W. FOWLE & CO., Boston, and sold by

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excess and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28dawlm

DOGS—DOGS.

There is no end to the "communications" (written and verbal) we receive, concerning dogs. One man, who takes hold of the matter sensibly too, wants to know why the stray animals should not be impounded, for fine and redemption, like cows—the chief argument against which is, that most of them are not worth the trouble, and the costs would not be paid. We believe the State law against loose hogs is, or was, that the hogreeve kills all he finds in the street, and has half for his trouble.

A correspondent, unknown to us, sends us the following by mail:

Messrs. Editors:—It is discouraging and contemptible, that a petition for repeal of the Dog Law should have reached our City Council. What dog is *not* dangerous? Who knows himself safe in presence of *any* one? The desire to keep these dirty, worthless, and dangerous animals is an evidence of that weak and selfish mind, which is ever a hindrance to prosperity and rational happiness. AN OLD SUBSCRIBER.

A physician in this city, tells us that he has had, since last Spring, three cases of severe wounds from dogs—two men and a girl.

And another gentleman tells us that as he was slowly riding across Market Square, with a very valuable team, a few days since, his horse was nearly thrown down by a couple of large dogs, which, either in playing or fighting, rolled under his feet. Who would have been to blame, had injury resulted to horse or driver, or if the animal had become frightened and ran away, endangering the public?

The economical view of keeping dogs instead of sheep, we have more than once presented. In confirmation of it, the Newburyport Herald says that "a short time ago a census showed that Essex county had 390 sheep and 3500 dogs, which was a very poor account for old Essex—more dogs, 9 to 1, than sheep. There is perhaps no one thing so much needed for the renovation of our pastures, overgrown with briars and low bushes—for the redeeming of our worthless lands and changing them to green fields—than the use of sheep; but it is next to impossible to protect them here against the dogs that will sometimes go miles and miles in quest of prey."

We learn that a counter petition is to be presented to the Aldermen, asking that the dog-law be *not* repealed.

"Compound for sins they are inclined to,
By damning those they have no mind to."

Let a man—be he officer, preacher or writer—say a word in condemnation of one offence against the public, and forthwith he is referred to some other, as more flagrant and worthy of his attention. Talk of enforcing a cow law, and the grieving and aggrieved owners of brutes pasturing in the road, want to know why the slaughter-houses are not cleansed or removed; and the proprietors of these, in turn, ask why the liquor-shops are not closed, or the houses of ill-fame abated; and the owners of dogs that throng our streets, wish the cows to be kept out also. And so do we,—desire *all* these things; and have brought many a breeze about our ears for advocating almost each and every one. But nevertheless, we hope we shall not fail to speak a word when we can, for the good of the public—though we don't hold ourselves infallible, and our columns are always open for the correction of any error inadvertently promulgated.

THE STAR SPANGLED BANNER.—*Messrs. Editors*:—Our people are somewhat behind the times in displaying the stars and stripes. In every large town and city I visited on my way to the seat of war, I saw a greater display of our Flag than in Portsmouth. Nearly every house of any size had a Flag waving over the door, or fastened at the gateway. The fine residences in New York were, with few exceptions, decorated with the flag; and nearly every church had a staff attached to the spire at an angle of forty-five degrees, from which waved the stars and stripes.

By the way, in walking up to Wibird's Hill yesterday, I noticed a fine Flag-staff, with a Flag, which I think is the best in the city. The staff is 200 feet in height.—It has an iron ladder reaching to the top-mast, and is furnished with a large gilt vane. It is quite useful, as well as highly ornamental, to the neighborhood. Messrs. James W. Bowles, Elisha Tripp and others were instrumental in its erection. H.

☞ Commencement at Harvard College occurs to-day. Among the exercises, we notice a dissertation, "The Death of Count Cavour," by Charles Christie Salter, of this city.

The exercises connected with the 45th Annual Visitation of the Divinity School, took place on Tuesday morning. An essay was pronounced by Mr. Joshua J. Laighton, of this city,—entitled "The Witness of the Spirit as Evidence of Christian Truth."

☞ The steamer Clipper is announced to make two trips to-day. The Cornet Band are to be on board this evening, and if a trip by moonlight, and a concert on the water, are not worth fifteen cents, what is?

HACKING.—Portsmouth was never before so well supplied with accommodation carriages, as now. The advertisements of all the (three) proprietors of hacks will be seen in our columns this morning. We believe the Messrs. Sides, a few years ago, introduced the first *new* coach which has been brought here for a long while, at least, and it is an elegant carriage yet.

Then, recently, Mr. Perkins procured an very stylish turnout, which he announces, with his others, to run from Mr. Blaisdell's stable.

And now Mr. Dennett (who is well known as one of the public's oldest, most faithful and popular servants in this capacity,) has a splendid new team,—safe, comfortable and exceedingly genteel.

Whether the enterprise and good taste of the owners shall be appreciated and rewarded as they deserve, (and as we hope they will be,) for their heavy outlay, or not—the riding public certainly is benefitted by the march of progress. In this connection, we will just say that it will doubtless surprise some of our readers to be told that a first class hack and team costs from $1000 to $2000.

☞ We are informed that the members of the Hampton Company (enlisted for three years) and the three months volunteers, stationed at Fort Constitution, presented Sergeant Davidson, a few days since with an army regulation sword and a silver trumpet. On Tuesday, the Hampton Co further further testified their good will toward him and their appreciation of his endeavors to perfect them in drill, by presenting him with a fine spy-glass—an act not less creditable to them than to him.

☞ Our former townsman, Adjt. Thomas Barri, of the 5th Massachusetts Regiment, and recently appointed a Captain of the 11th U. S. Infantry, has been offered the command of one of the new regiments being organized in Massachusetts.

THE CREW OF THE SABINE.—Between one and two hundred of the crew of the frigate Sabine, passed through Boston, Saturday evening, most of them en route for New York. Some of the men-of-warsmen have been on a long cruise and received from $400 to $600. Two of them, who together had about $1000 in gold in their pockets, were taken care of by some of the Police, Saturday afternoon, they being intoxicated, and surrounded by several suspicious characters. A well disposed shipmate promising to look after them, they were allowed to depart in the last train to New York.

☞ The 6th Maine Regiment leaves Portland this morning, at 7 o'clock, for the seat of war. Should they get away as early as is intended, they will reach this city about ten o'clock.

Persons residing near the depot will do a kind deed and certainly receive the most heartfelt thanks of the soldiers, if they will only be on hand with a liberal supply of cold water to satisfy the inevitable cravings of thirst.

The better nations become acquainted with each other, the fewer will be their prejudices, and the more likely will they be to love and respect each other. Just so with Herrick Allen's Gold Medal Saleratus—the more you know of it, the more you want to, and the more anxious you are to have your friends become its patrons. It not only makes the best Biscuit, Bread, &c., but it cures dyspepsia and strengthens weak stomachs. It has no equal. Most of the Grocers have it.

The power of Medicine over disease.—We know of no better illustration of this fact than the wonderful effects of the *Oxygenated Bitters* in eradicating from the system Dyspepsia, and functional diseases of the stomach, as well as restoring impaired digestion.

Atwood's Quinine Tonic Bitters,—the best Aromatic Tonic ever offered to the public.—All the Druggists have it. See advertisement.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE.
Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 29, which is as follows:

Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

June17 OREN BRAGDON, City Marshal.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring it, gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

REFRIGERATORS.

One of the most economical and indispensable articles in hot weather, is a *good* Refrigerator, (a poor one is not worth buying at any price.) The attention of the public is invited to
WINSHIP'S PATENT UPRIGHT
Self-Ventilating Refrigerator,
thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof. Silliman has given a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chamber. Articles of different flavors cannot impregnate each other.—Milk, delicate fruits and meats can in this be preserved much longer than in any other Refrigerator.

Morning Chronicle.

☞ The Charleston (S. C.) Courier, in a recent issue, opens an editorial in the following lugubrious strain:—

"We should prepare for defeat. In the confidence of our might and courage, this admonition may appear unnecessary, and in calling to mind the disgraceful behavior of our enemies in recent battles it may strike us as ridiculous. But it is a needful and wholesome caution, and we urge it with sincerity and earnestness. Our enemies are mustering in large numbers; they are armed with the best weapons; they have been under the instructions of competent officers, and each body is strengthened by the presence of old United States regulars. Some of their Generals have abilities and resources. And, in addition to all these considerations, battles are not always decided by strategy or even courage. A single mischance may turn the tide of success. A circumstance, in itself insignificant, may snatch victory from an army at the moment it is about to grasp the glittering prize."

AYER'S CATHARTIC PILLS.

Are you sick, feeble, and languishing? Are you out of order, with your system deranged, and your feelings uncomfortable? These symptoms are often the prelude to serious illness. Some ill or sickness is creeping upon you, and should be averted by a timely use of the right remedy. Take Ayer's Pills, and cleanse out the disordered humors—purify the blood, and let the fluids move on unobstructed to health again. They stimulate the functions of the body into vigorous activity, purify the system from the disturbances which make disease. A cold settles somewhere in the body, and obstructs its natural functions. These, if not relieved, react upon themselves and the surrounding organs, producing general aggravation, suffering, and disease. While in this condition, opposed by the derangements, take Ayer's Pills, and see how quickly they restore the natural action of the system, and with it the buoyant feeling of health again. What is true and so apparent in this trivial and common complaint, is also true in many of the deep-seated and dangerous distempers. The same purgative effect expels them. Caused by similar obstructions and derangements of the natural functions of the body, they are rapidly, and many of them surely, cured by the same means. None who know the virtues of these Pills will neglect to employ them when suffering from the disorders they cure.

Statements from leading physicians in some of the principal cities, and from other well known public persons:

From a Forwarding Merchant of St. Louis, Feb. 4, 1856.

DR. AYER: Your Pills are the paragon of all that is great in medicine. They have cured my little daughter of a tumor across upon her bowels and that had resisted humanity for years. Her mother has been long grievously afflicted with blotches and pimples on her skin and in her hair. After our child was cured, she also tried your Pills, and they have cured her.

ASA MORGRIDGE.

As a Family Physic.

From Dr. J. W. Cartwright, New Orleans.

Your Pills are the prince of purges. Their excellence is far surpass any cathartic we possess. They are mild, but very certain and effectual in their action on the bowels, which makes them invaluable to us in the daily treatment of disease.

Headache, Sick Headache, Foul Stomach.

From Dr. Edward Boyd, Baltimore.

DEAR DR. AYER: I cannot answer you what complaint I have cured with your Pills better than to say *all that we ever* have with a purgative medicine. I place great reliance on an effectual cathartic in my daily contest with disease, and believing as I do that your Pills afford us the best we have, I of course value them highly.

PITTSBURG, PA., May 1, 1855.

DR. J. C. AYER, Sir: I have been repeatedly cured of the worst headache any body can have by a dose or two of your Pills. It seems to arise from a foul stomach which they cleanse at once.

Yours with great respect, ED. W. PREBLE, *Clerk of Steamer Clarion*

Bilious Disorders—Liver Complaints.

From Dr. Theodore Bell, of New York City.

Not only are your Pills admirably adapted to their purpose as an aperient, but I find their beneficial effects upon the liver very marked indeed. They have in my practice proved more effectual for the cure of bilious complaints than any one remedy I can mention. I sincerely rejoice that we have at last a purgative pill which is worthy the confidence of the profession and the people.

DEPARTMENT OF THE INTERIOR, Washington, D. C., 7th Feb., 1856.

SIR: I have used your Pills in my general and hospital practice ever since you made them, and cannot hesitate to say they are the best cathartic we employ. Their regulating action on the liver is quick and decided, and generally they are an admirable remedy for derangements of that organ. Indeed, I have seldom found a case of bilious disease in which they did not do good, when given to them. Fraternally yours, ALONZO BALL, M. D., *Physician of the Marine Hospital.*

Dysentery, Diarrhea, Relax, Worms.

From Dr. J. G. Green, of Chicago.

Your Pills have had a long trial in my practice, and I hold them in esteem as one of the best aperients I have ever found. Their alterative effect upon the liver makes them an excellent remedy, where given in small doses for *bilious dysentery and diarrhoea.* Their sugar-coating makes them very acceptable and convenient for the use of women and children.

Dyspepsia, Impurity of the Blood.

From Rev. J. V. Himes, Pastor of Advent Church, Boston

DR. AYER: I have used your Pills with extraordinary success in my family and among those I am called to visit in disease. To regulate the organs of digestion and purify the blood, they are the very best remedy I have ever known, and I can confidently recommend them to my friends. Yours, J. V. HIMES.

WARSAW, Wyoming Co., N. Y., Oct. 24, 1855.

DEAR SIR: I am using your Cathartic Pills in my practice, and find them an excellent purgative to cleanse the system and purify the *fountains of the blood.*

JOHN G. MEAHAM, M. D.

Constipation, Costiveness, Suppression, Rheumatism, Gout, Neuralgia, Dropsy, Paralysis, Fits, etc.

From Dr. J. P. Vaughn, Montreal, Canada.

Too much cannot be said of your Pills for the cure of *costiveness.* If others of our fraternity have found them as efficacious as I have, they should join me in proclaiming to the benefit of the many who suffer from that complaint, which, although bad enough in itself, is the progenitor of others that are worse. I believe customers to originate in the liver, but your Pills affect that organ and cure the disease.

From Mrs. E. Sweet, Physician and Midwife, Boston.

I find one or two large doses of your Pills, taken at the proper time, are excellent promotives of the *natural secretion* when wholly or partially suppressed, and also very effectual to clense the stomach and upper bowels. They are so much the best physic we have that I recommend no other to my patients.

From the Rev. Dr. Hamilton, of the Methodist Episc. Church

PULASKI HOUSE, Savannah, Ga., Jan. 6, 1856.

HONORED SIR: I should be ungrateful for the relief your skill has brought me if I did not report my case to you. A cold settled in my bones and brought on excruciating neuralgic pains, which resisted all remedies. Nothwithstanding I had the best of physicians, the disease grew worse and worse, until by the advice of your excellent agent in Baltimore, Dr. Mackenzie, I tried your Pills. Their effects were slow, but sure. By persevering in the use of them, I am now entirely well.

SENATE CHAMBER, Baton Rouge, La., 5 Dec. 1855.

DR. AYER: I have been entirely cured, by your Pills, of *Rheumatic Gout*—a painful disease that has afflicted me for years. VINCENT SLIDELL.

☞ Most of the Pills in market contain Mercury, which, although a valuable remedy in skilful hands, is dangerous in a public pill, from the dreadful consequences that frequently follow its incautious use. Those, however, are entirely free from any mineral substance.

☞ 200, 25 cents per Box, or 5 Boxes for $1.

Prepared by Dr. J. C. AYER & CO., Lowell, Mass.

REAL ESTATE IN NEW CASTLE FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and affords opportunities for fishing, bathing, boating, &c., &c., at hand.

The increasing work of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT, MARKET SQUARE.

Portsmouth, N. H., May 18, 1861.

VALUABLE FARM FOR SALE.

Being out of health, and having no family, I offer for sale my FARM in Kittery, known as the "CUTTS FARM," consisting of about 125 acres of mowing, tillage, orchard and pasture land, with a two-story DWELLING HOUSE and BARN, SHEDS and other out-buildings, all in good repair.

The land is excellent, and has a good orchard of 200 grafted fruit trees. The situation is very pleasant, on the road from York to Portsmouth, about three miles from the latter place—and would furnish to the purchasers not only an excellent farm, but a very desirable residence.

Terms of sale easy, and immediate possession given. For further information, call on the subscriber, on the premises.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of LIQUORS, WINES, &c., and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

MARY O'CONNER,
THE VOLUNTEER'S WIFE.

BY MARY A. DENNISON.

An' shure I was told to come here to yer honor,
To see if you'd write a few words to me Pat;
He's gone for a soger, is Mister O'Conner,
With a stripe on his arm and a band on his hat.
An' what'll you tell him? It ought to be slay
For such as your honor to speak wid the pin,
And say I'm all right, and that mavourneen Daisy
(The baby, yer honor,) is better agin.

For whin he wint off, it's so sick was the childer,
She never held up her blue eyes to his face;
And whin I'd be crying, he'd look but the wilder,
And say, would I wish for the country's disgrace?

So he left her in danger, and me sorely greeting,
And followed the flag with an Irishman's joy.
O! 'tis often I dreamed of the great drums beating,
And a bullet gone straight to the heart of me boy.

And say will he send me a bit of his money,
For the rint and the doctor's bill due in a week;
Well, surely there's tears on your eyelashes, honey;
Ah! faith, I've no right wid such freedom to speak.

You're overmuch trifling—I'll not give you the trouble;
I'll find some one willin';—oh! what can it be?
What's that in the newspaper folded up double?
Yer honor—don't hide it—but read it to me.

What! Patrick O'Conner? no, no, it's some other;
Dead! dead! no, not him; 'tis a week scarce gone by;
Dead! dead! why, the kiss on the cheek of his mother—
It hasn't had time yet, your honor, to dry.

Don't tell me—it's not him—O, God! am I crazy?
Shot dead? oh! for love of sweet heaven say no;
An' what'll I do in the world wid poor Daisy?
Oh! how will I live? and Oh! where will I go!

The room is so dark—I'm not seein', yer honor;
I—think—I'll go home;—and a sob quick and dry,
Came sharp from the bosom of Mary O'Conner,
But never a tear drop welled up to her eye.
—*Boston Traveller.*

☞ Phillips Exeter Academy sends a large number of students to our colleges this Fall—twenty-four to Harvard, four to Yale, and some, probably, to other institutions. Besides the eminent Principal, Dr. G. L. ICE. ICE. ICE.

JOSEPH W. WHIDDEN is fully prepared to furnish regular and transient customers, promptly, with ICE of the purest and best quality, as heretofore, on the lowest terms—and would solicit the patronage of old friends and the public generally.

Orders may be left at the Store of Mr. HENRY M. CLARK, Congress Street.

A. RICHARDS & CO.'S
COMBINED GLUE AND CEMENT:

Is liked by every one in preference to any other in market for many reasons:—

1. Because it is white as snow
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
4. Because it answers a double purpose—it will mend all kinds of Crockery, from China down to the coarsest Stone Ware, and at the same time could mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles needed never separate.
10. Because it is no humbug, but an honest article, as thousands can testify.

CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.

GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—J. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings for several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 39 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1859, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles E. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of one of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonics* and *stomachics*, and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pints as well as quart bottles, in order that all may convince themselves of its superior merits.

Morning Chronicle.

Portsmouth, N. H.

THURSDAY, JULY 18, 1861.

RATIONS: — SPECIALLY BEANS. — A Washington letter says:

The Military Committee have under advisement the increase of rations in the Army and Navy. Now, the daily bread of the soldier is eighteen ounces; it is proposed to make it twenty-two ounces, with meat in proportion. It has been proposed to cut off beans and substitute rice or hominy. It is said that beans, as they are generally cooked in camp, are productive of much disease. Anti-scorbutic edibles are also recommended, especially sour krout. The committee doubtless would receive suggestions from those who have had practical knowledge of camp life and camp fare. It will be seen that government will not let the soldiers, who are standing up for the defence of their country, live on short rations.

We suppose all the old men and some of the youngsters have heard what used to be a common saying, "The Lord sends meat, but the Devil sends cooks."

And, if experience is worth anything, in the camp or out of it, in the ship or on shore, —the fault of unwholesomeness is not in the *Beans*, but, as the letter hints, in the *cooking*.

Fifty years ago, *baked* beans were a luxury in this part of the country:—and *boiled* beans were a staple family dish on the tables of many farmers, laborers, and mechanics.

A quart of beans, a pound of pork, and a gallon of water, were put on together and boiled, making about five quarts of bean soup. Some families boiled the beans in the water, adding the pork when the beans began to break.

The beans were washed before boiling, but not usually soaked.

The settlers, 150 years or more ago, used to make their bean and pea porridge thinner still.

We never heard of bean porridge hurting any body, and suppose it never did. But with the advent of cooking stoves, came an avalanche of baked beans, cooked something after this fashion: 1. Put 2 qts. of beans in soak with one or two quarts of water, and let them stand all night. 2. In the morning, pour off the water, if any; or if dry, pour on a little, and then off, so as to leave the beans nearly tasteless. 3. Put in one or two pounds of pork, and a little water, and bake the whole mass till the fat of the pork becomes oil, and till the water is mostly evaporated, and the beans are reduced to a paste or pulp.

This is a common dish, of which many people eat heartily, and which, as every doctor knows, disagrees with a large proportion of the eaters, making them sick in various ways.

Whether these facts will be of any service in the camp we know not:—but of this we are certain,—while the people generally cooked their beans in the form of porridge, they were not known or thought to be hurtful:—but when baking became universal, the beans began to hurt many eaters:—and the attempts to *improve* them by adding molasses and saleratus, only make a bad matter worse.

RAPID PROMOTION.—Among the officers on board the U. S. sloop-of-war Richmond, which has just returned from a voyage to the Mediterranean was a Passed Midshipman, Edward Terry. The Richmond returned to New York last week, and all the officers who were above Mr. Terry in command, resigned. Mr. Terry had reached home, but when these resignations were tendered, he was called to New York to take charge of the Richmond, and is now in command of the craft.

KILLED BY FALLING DOWN STAIRS.—Mrs. Mollineux and her husband had been visiting a friend in Brooklyn, N. Y., one evening last week, and after a happy interview they started to leave for home, when Mrs. M. fell backwards down a long pair of stairs she had not observed, and her brains were dashed out upon the floor. She was not dead when taken up.

☞ At Neosho, Missouri, it is said there are 8000 or 10,000 rebels in the field, partly from Arkansas. They have lately captured a company of loyal volunteers, disarmed them, and released them.

There is a considerable loyal force at Jefferson City.

☞ Large numbers of the Kentucky volunteers, who went to Camp Boone, near the northern line of Tennessee, are daily returning to their homes, disgusted with their fare and treatment, and say they want to hear no more about Jeff. Davis or the Southern Confederacy.

CONGRESS.—The Loan bill has passed both branches of Congress, and awaits the President's approval. One of the thirty amendments authorizes the Secretary of the Treasury to exchange for coin, or in payment of public dues, Treasury notes bearing 6 per cent. interest for a period not exceeding twelve months, provided that the amount so issued shall not exceed twenty millions.

In the U. S. Senate, Tuesday, the resolutions approving the acts of the President were discussed by Messrs. Breckinridge and Lane.

In the House, Mr. Washburn reported a bill to make the blockade more effective and to stop piracy. It authorizes a temporary increase of the navy, by the hire or purchase of vessels, and the appointment of officers to command them. Three millions of dollars are appropriated for this purpose. The bill was referred to the Committee on Naval Affairs.

NAVAL DEFENSE OF COMMERCE.—In the U. S. House of Representatives, Tuesday, Mr. Washburn, from the Committee of Commerce, reported a bill to make the blockade more effectual and put a stop to piracy. It was in accordance with the views of the Secretaries of the Treasury and the Navy, and Commodore Paulding. He asked its immediate consideration.

For the purpose of delay, to help the rebels, and to cut up our commerce, Mr. Burnett wanted it referred to the Committee of the whole on the State of the Union. But on motion of Mr. Washburn, it was referred to the Committee on Naval Affairs.

The bill provides $3,000,000 for hiring, arming, and manning vessels, &c.,

Every Commercial paper will approve the step. The Boston Courier says;—

No doubt this city and New York could furnish a great many vessels and men, at present unemployed and quite fit for the requisite service. We dare say Marblehead and Gloucester alone could supply the Government with enough of the very sort of craft, needed, and with crews unsurpassed in seamanship, hardihood and bravery, which, if sent forth in numbers enough, would sweep the waters of every Confederate sail in a month's time, and deter other adventurers from such enterprises. So far as the build of the vessels is concerned, they are as well adapted to the employment as those in the service of the seceders.—The indications are, to be sure, that the war is to come to a speedy close; but, otherwise, it is indispensable that the most ready and efficient means should be employed, outside of the navy itself, to secure our commerce from dangers, involving great present embarrassment, if not eventual loss. This is a case, in which "red tape" seems to have tied the hands of the appropriate Department, and we can but hope that recent events will have the effect to loosen them forthwith.

☞ The Portsmouth, Va., correspondent of the Richmond Examiner says the first rifled cannon has been turned out at the Navy Yard, and in a few days it will be able to turn out long range guns as fast as needed.

☞ The Augusta Constitutionalist says Gov. Morehead stated there that an overwhelming majority of the people of Kentucky were in favor of secession, but local influences and a deficiency in arms placed the State under a temporary restraint.

A YOUNG HUSBAND AND FATHER DROWNED.—An exchange states that Wm. H. Fogg was drowned while bathing at York Pond, at Canton, Mass., on Saturday. He was 18 years of age, and leaves a wife and one child.

THE DOGS.—They have established a Dog Pound in Patterson, N. J., which is successful in ridding the streets of worthless curs with which they have lately been infested. A system of this kind should be established this season in Newark. The dog days are approaching. On Friday evening last, a dog supposed to be mad ran through various streets in the 5th Ward and is known to have bitten three other dogs.—*Newark Journal.*

NEW YORK, July 17.—A Washington dispatch to the Commercial says a messenger to the War Department states that Fairfax Court House was occupied at sunrise, the rebels having previously abandoned the place.

Later.—It is currently reported that Fairfax is occupied.

HUDSON, MO., July 16.—800 troops came up ahead of the passenger train this morning. They were fired into, when a fight ensued, and seven rebels were killed. A man caught with a gun in his hand was immediately hung. Three Union men were killed.

WASHINGTON, July 17.—Steamer Yorktown has been razed by the rebels, and mounted with 8 64-pounders. The upper machinery is protected by a bomb-proof barricade. Her hull is also iron-plated for 30 feet abaft the wheel-house.

☞ The honorary degree of Doctor of Laws was conferred by Harvard College upon Gen. Scott, Wednesday. As his name was pronounced, the audience seemed wild with excitement.

☞ The officers and crew of the privateer Savannah, indicted for piracy on the high seas by the Grand Jury of the U. S. Circuit Court, are arraigned at New York.

PHILADELPHIA, July 17.—A letter from Martinsburg, dated 14th, says Patterson is moving on Winchester by two routes.

☞ Rev. Mr. Waterhouse, who has recently assumed the pastoral charge of the Christian Church in this city, was previously settled over a Society in Providence, R. I. The Evening Press, of that city, July 8th, spoke of his departure from among those with whom he had been associated for nearly four years, as follows:—

The Rev. Ivory F. Waterhouse delivered yesterday afternoon a valedictory discourse to his congregation in this city. The house was filled to overflowing, and the discourse listened to by a most attentive audience, who were deeply moved by its solemn words of farewell, and its earnest and affectionate exhortations to Christian steadfastness and Church unity.

We learn that the additions to the Church since the incumbency of Rev. Mr. Waterhouse, have been 153; 29 of whom had been previously connected with other Societies. He has baptized 109 persons, performed 61 marriages, attended a few more than that number of funerals, and made more than three thousand pastoral visits.

Having accomplished a laborious and most successful ministry of three years and eight months in this city, during which he has endeared himself to all who justly estimate pastoral devotedness; unaffected piety and marked pulpit abilities, Mr. W. carries with him to his new field of labor the sincere respect of this community, and their best wishes for his future welfare and usefulness.

At a meeting of the Church to which Mr. Waterhouse officiated, held the same afternoon, at the close of Divine service, resolutions were adopted, expressive of their regret at his departure, and "cheerfully recommending him for his uprightness, Christian integrity and faithfulness as a minister of the Gospel, to any people among whom his lot may be cast."

GEN. MCDOWELL'S ARMY.—*Washington, July* 16.—General McDowell's army doubtless commenced a forward movement this afternoon.

The departure of Col. Einstein's 27th Pennsylvania Regiment for McDowell's command, yesterday, makes the 50th full regiment that has been sent him from here, averaging 1000 men each, that is, exclusive of regulars, 2500 of whom have already joined him, with 1000 more, including 600 marines, two full batteries of light artillery, &c., yet to be transferred to his command

The Rhode Island regiment, the N. Y. 71st and the 2d New Hampshire regiments, and the marine and irregular flying artillery marched over Long Bridge at 3 o'clock to-day, their several bands playing "Dixie."

Col. Burnside rode along by his Rhode Island regiment, literally loaded down with boquets.

The grand corps d'armee doubtless numbers about 55,000 men.

FORTRESS MONROE, July 15.—Dr. Bellows, President, Mr. Olmstead, Secretary, and Mr. Bruce, member of the Sanitary Commission, proceed to Washington tonight.

Dr. Bellows states that he found the condition of the troops at Newport News in many respects better than elsewhere, and had our volunteers at Old Point good clothing, matters would be greatly improved.

The Committee state that in many parts of the country there is danger of a pestilence in the army if immediate measures of remedy are not taken.

The greatest carelessness exists as to personal cleanliness and camp police.

Mr. Russell says the Committee have a herculean task, and the American camps were worse than those in the Crimea.

HARRISBURG, July 16.—Col. Charles J. Riddle, commanding the reserve lately encamped in Cumberland, occupied New Creek Bridge, and on Sunday by order of Gen. McClellan, Col. Kane of the same brigade occupied Piedmont, and Capt. Ervin took post at New Creek Village.—The enemy precipitately retired upon the approach of our force. Captain Taylor's company pursued and captured a wagon filled with plunder. On Monday morning the enemy attacked Capt. Ervin's position, but were vigorously repulsed, leaving two dead, and taking some wounded away.—There was no loss on our side.

NEW YORK, July 16.—A special dispatch from Baltimore to the Herald says that a small-field piece and a number of carbines and cartridges were found in houses searched to-day. Two rifles and a large quantity of ship boarding-knives were found on Marshal Kane's premises to-day. John Dunn, while hurrahing for Jeff. Davis as the soldiers were quietly passing, was seized by a policeman, and on resisting received a fatal wound with a pistol butt.

BALTIMORE, July 16.—Col. Pinckney, commanding at Annapolis, made a descent upon Cambridge, Sunday, in a propeller, with a hundred men and a field piece. They escorted Gov. Hicks here.

Gov. Hicks responded to a serenade tonight in a strong Union speech, in which he expressed unalterable devotion to the Union. He felt more than ever that Maryland's only safety was in the Union. He was enthusiastically applauded.

CINCINNATI, July 18.—On Friday night three companies of the 2d Kentucky Regt. attacked 600 rebels between Mad River and Barbersville, in Western Virginia, completely routing them, and killing ten or twelve rebels.

Gen. Cox's brigade is rapidly moving up the Kanawha.

NEW YORK, July 17.—The Aldermen have ratified the ordinance appropriating half a million for the families of volunteers. The Board also resolved to invite in reception all regiments returning from the war, the expenses to be borne by the members of the Common Council in their individual capacity.

☞ Reports from Arizona and New Mexico state that the secession feeling there is very strong. It will be necessary to send U. S. troops to Fort Bliss to repress the rebellious excitement.

WASHINGTON, July 17.—An officer of the 12th N. Y. Regiment, direct from Martinsburg, brings news that Gen. Johnston broke up his camp on Bunker Hill last Monday, and commenced a retreat of the whole army towards Winchester. Gen. Patterson, with his entire force, immediately went in pursuit, about 11 miles in the rear of Johnston, Tompkins' R. I. battery leading the van.

600 rebel cavalry, under Col. Stewart, at Bunker Hill, charged the 23d Penn. Regiment, without seeing the battery, which opened fire, breaking the charge. The flying rebels were pursued by Col. Thomas' regular cavalry, who captured one captain and a private.

WASHINGTON, July 16.—The general movement was in the direction of Fairfax Court House, which is no great distance from the right of McDowell's line, though it is nearly fourteen miles from the extreme left of the army. They will halt for the night this side of Fairfax Court House, which the enemy will probably evacuate tonight, and resume their march in the morning. They take with them three days' rations. Four mounted batteries, eight siege guns and several squadrons of cavalry are in the column.

☞ A gun that needs no flint or percussion cap, is the latest European invention.

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—DYSPEPSIA, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

LAKE VILLAGE, N. H., Nov. 4, 1859.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

Prepared by SETH W. FOWLE & CO., Boston, and sold by

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excess and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 dawlm

Local.

☞ The Navy Yard continues to present an active and busy scene. Over eleven hundred men are now employed there, in different capacities, and the disbursements amount to more than $40,000 monthly. At the Charlestown, Mass., Navy Yard, the whole number of workmen, on Tuesday, is reported to have been fifteen hundred.

Since the commencement of the present troubles, the number of watchmen stationed at different points on the yard, has been somewhat increased, yet there is a half-defined fear in the minds of many that the force even now is not too large.

As orders have been received to have the frigate Sabine ready for sea as soon as possible, she has been dismantled, and will be refitted, manned and sent away with all possible dispatch. For two weeks past there has been a great scarcity of water, and it has been found necessary to obtain a supply from this city, for the use of the yard and the ships.

Surgeon A. A. Henderson has been ordered to the U. S. steamer Richmond.

☞ The sloop-of-war Dale left the Navy Yard on Wednesday morning, and dropped down into the lower harbor. She was once condemned, but subsequently was thoroughly repaired in the dry dock, and is now one of the best vessels of her class in the Navy. She carries sixteen guns.

☞ The following young ladies, having completed the prescribed course of study at the High School, were presented with Diplomas by His Honor, Mayor Simes, at the close of the exhibition on Thursday afternoon last:—Misses Virginia Bufford, Fannie A. Mathes, Mary A. Brooks, Annie L. Rogers, Ella A. Peirce, Ellen E. Rand, Helen A. G. Brewster, and Alice A. Norton.

There was an omission of the name of Frank W. Rand, in our list of those who received Diplomas at the Boys' High School, on Friday last.

☞ Another Regiment of Maine's noble and patriotic sons passed through our city, Wednesday noon, en route for the seat of war. They were conveyed to Boston in a train of nineteen cars. A baggage train, of eighteen cars, followed soon after, transporting the horses, fifty-six in number, nine army wagons, and two ambulances; besides the baggage. The wagons were manufactured at the establisment of Kimball & Emerson, Portland.

OUR HARBOR OPEN TO THE ENEMY! —*Messrs. Editors:*—Are we not in need of a coast guard, and a Harbor Police? The Southern pirates and rebels have been within a hundred miles of us; and for all we know, may have been in closer proximity, or may be before we know it. The Southrons are desperate and it is their policy to do all the harm they can, to the North, and I think our city ought to be better protected from bombardment, and our Navy Yard from destruction. New Hampshire has but a moiety of sea-coast, which should be well fortified, from Maine to Massachusetts. Let us be up and doing, like our neighboring cities, and be prepared to give the traitors a warm reception, should they come. H.

☞ In the Police Court, on Tuesday, a boy, about twelve years of age, convicted of habitual truancy, was sentenced to the House of Reformation during his minority. Two women, charged with keeping disorderly houses, were ordered to recognize in the sum of $100 each for their appearance before the S. J. Court.

☞ We are indebted to Mr. James H. Head, for a couple of dozen of sample Envelopes, of as many different patterns, illustrated (not to say ornamented,) with all sorts of Union or anti-secession devices,—most of them more graphic than beautiful.

☞ We are indebted to John S. Harvey, Esq., Insurance Agent, for a neat Map—"Bird's-eye view of the Seat of War" in Virginia, &c., just issued by the celebrated Home Insurance Co. of New York.

☞ Dr. Frank Fuller of this city has been nominated Secretary for Utah, and the nomination has been confirmed by the Senate.

☞ A Washington correspondent of the Providence, R. I., Evening Press, thus refers to our 1st Regiment and those with which it is associated:—

The 71st New York regiment and the 24 New Hampshire regiment are united with the two Rhode Island regiments, and now form a brigade. The New York regiment is the one who met the 1st, "Nine miles from the Junction," and treated them so kindly. This is one incident that makes the union so pleasant, and these four regiments, you may rest assured will make a most efficient corps. Great and universal will be the disappointment if, in case of actual conflict, they do not render an account of themselves corresponding to their high reputation.

☞ A Sergeant and four men of Co. E, 1st New Hampshire Regiment, were captured by the rebel cavalry at Point of Rocks, on Sunday.

☞ On Wednesday afternoon, a little past 4 o'clock, fire was discovered in the two story wood-house attached to the dwelling of Mr. George Annable, No. 35 Deer street. The fire department and citizens rallied promptly, and soon relieved the neighborhood from what was, at the beginning, the prospect of a large fire,—as the burnt building was very near the Eastern Railroad Depot, and in a cluster of wooden houses. The building was about half destroyed.

☞ An attentive correspondent, at Hampton, informs us that a new bell of 1500 lbs. weight has been placed in the tower of the Town-House. Hon. Christopher S. Toppan of this city, contributed one hundred dollars towards the purchase of the bell. Mr. Toppan will be remembered by his native townsmen for many generous acts.

On the morning of the 4th a splendid flag was thrown to the breeze in Hampton: a present from Joseph Ballard, Esq., of Boston.

☞ The following appointments have recently been made:—

Alfred J. Leavitt, of Hampton, Keeper of the Lighthouse at White Island, Isles of Shoals.

J. Warren Dow, Postmaster at Hampton, vice John A. Towle.

Enoch J. Tilton, Postmaster at Hampton Falls, vice J. C. Green, removed.

John L. Hobbs, Postmaster at North Hampton, vice Thomas D. Hobbs.

☞ At the commencement at Harvard College, on Wednesday, the degree of A.B. was conferred on Frank Warren Hackett, James Rundlett May, and Charles Christie Salter, of this city, and Joseph Herbert Senter, of Lynn. That of A. M. was conferred upon Mr. John Pearse Treadwell; and that of M. D. upon Alfred Houston Haven.—Among the graduates of the law school, was Joshua J. Laighton, A. M., of this city.

☞ The Galveston Civilian says the blockade of that port is complete. The steamer South Carolina, which arrived July 2, has captured five vessels.

The better nations become acquainted with each other, the fewer will be their prejudices, and the more likely will they be to love and respect each other. Just so with Herrick Allen's Gold Medal Saleratus—the more you know of it, the more you want to, and the more anxious you are to have your friends become its patrons. It not only makes the best Biscuit, Bread, &c., but it cures dyspepsia and strengthens weak stomachs. It has no equal. Most of the Grocers have it.

The power of Medicine over disease.—We know of no better illustration of this fact than the wonderful effects of the *Oxygenated Bitters* in eradicating from the system Dyspepsia, and functional diseases of the stomach, as well as restoring impaired digestion.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE, Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 39, which is as follows:

Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

June17 OREN BRAGDON, City Marshal.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warmly recommended by those who have tried any yet offered to the public.

A large lot just received, and for sale by the dozen or single box, by BLACKETT HUTCHINGS, 4 Market street. apr24

REFRIGERATORS.

One of the most economical and indispensable articles in hot weather, is a *good* Refrigerator, (a poor one is not worth buying at any price.) The attention of the public is invited to

WINSHIP'S PATENT UPRIGHT

Self-Ventilating Refrigerator,

Thoroughly ventilated and thoroughly built. It preserves all meats, &c., in a cool and healthful state.

This Refrigerator is the only one ever offered that is perfectly ventilated, and in so scientific yet simple a manner that Prof Silliman has given on a description of it in his new work on Natural Philosophy, as the best illustration ever practically tested of perfect ventilation.

The temperature is always uniform. The air never becomes stagnant. There is no waste of ice. The warm air cannot enter upon opening the doors. Access to the ice is had without disturbing the provision chambers. Articles of different flavors cannot impregnate each other. Milk, delicate fruits and meats can in this be preserved much longer than in any other Refrigerator.

Bartlett's Polar Refrigerator,

With two food chambers and a water tank; a very convenient article.

PROFESSOR WOOD'S

HAIR RESTORATIVE!

SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes:

ST. LOUIS, July 10, 1860.

O. J. WOOD, Esq.,—*Dear Sir*:—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restoratlve, after a trial of 5 years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one-third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity, at this late day, as I am well aware they are all well known already, and even more wonderful once throughout the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug, saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some other article, said to be as good, and selling at about half the price. I have noticed two or three articles in myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of these charlatans have not brains enough to write an advertisement, as I notice they have copied yours, word for word, in several instances, merely inserting some name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray hair, scald head, dandruff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, but learned you were now living in New York.

You are at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1920, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WARREN SPRINGS, Perry Co., Pa., June, 7, '60.

PROF. WOOD—*Dear Sir*:—I was induced more than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for years, and had never been able to get anything to do me any good until I saw your advertisement in a Harrisburg paper. I bought a bottle, and am now prepared to recommend it to universal use, for it has completely removed all dandruff from my head, and an application once in two weeks keeps it free from itching and other unpleasantness. I must also state that my hair had become quite white in places, and by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain, in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, Sir, I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper. If it is worth anything to you. Yours, &c., H. H. KITER.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARTICLE IN THE FIELD.—Prof. Wood stands on an eminence no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached. His fame is world-wide, and thousands who have worn wigs or been bald for years, are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for chemistry. Prof. Wood studied out the human hair, its properties, its diseases, and how to restore its decayed vitality; he saw, as in his own case, that gray hair is unnatural unless the age of the individual had reached fourscore, and he believed that the hair could be re-vitalized. He tried his own case—almost bald and wholly gray at 37—he restored his own hair—and the article he did it with he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Day Book.*

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy as a restorer of the hair to its pristine vigor. Where the head had become almost bald because of sickness, the use of this article has produced a luxuriant growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair. It also has curative powers of another description. In many cases pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of this remedy, and its effects can only be beneficial, as the compound, if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—*Boston Transcript, April 22, 1859.*

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by any puffing. In our own vicinity it has been extensively used, and we believe in every case with every desired result, and receives the cheerful recommend of all who have tried it. We therefore recommend it as one of those few genuine nostrums which accomplish all they profess, and all the bald and gray could desire.—*Columbia Spy.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried the Restorative.—*Boston Ohio Branch.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums;—but we take great pleasure in recommending Prof. Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtue. Let all try it, and behoolds will be as rare as snow in summer.—*Baltimore Patriot.*

VALUABLE FARM FOR SALE.

Being out of health, and having no family, I offer for sale my FARM in Kittery, known as the "CUTTS FARM," consisting of about 125 acres of mowing, tillage, orchard and pasture land, with a two-story DWELLING HOUSE and BARN, SHEDS and other out-buildings, all in good repair.

The land is excellent, and has a good orchard of 500 grafted fruit trees. The situation is very pleasant, on the road from York to Portsmouth, about three miles from the latter place,—and would furnish to the purchaser not only an excellent farm, but a very desirable residence.

Terms of sale easy, and immediate possession given. For further information, call on the subscriber, on the premises.

15 Greatest Medical Circular Ever Published! 15

Fifteen cts large letter pages for two 3 cent stamps.

DRS. JACKSON, HERBERT & CO. are Associated Proprietors of the **National Dispensary**, No. 167 Sycamore street, Cincinnati, established Jan. 1, 1859, for the cure of Private Diseases.

Prof Egbert Jackson, Dr. Robert Herbert and M. Velpeau. Thorough cures effected with almost incredible rapidity, of Gonorrhea, Syphilis, Gleet, Nocturnal Emissions or self-abuse, Impotency, Stricture, Female Diseases, *Diurnal Emissions*, in short, every possible form and variety of Sexual Disease, and at the same time the *general health* of the patient improved, where any improvement in that respect is needed.

Our Dispensary Circular, of 15 large 8 in. by 11 in. letter pages, with full and special written reply, sent promptly, well sealed, to any address for the amount of the postage, six cents! Every young man, whether

SICK OR WELL,

should have one. Also, a Circular intended for ladies only, nine large letter pages, for 3 ct. stamp. The "Mountain of Light, or Medical Protector," a new book of three hundred pages, one hundred engravings, price, in stamps or money, 50 cts. and one 3 ct. stamp, or 8 for $1 and nine cents in stamps. This book is fully described in our Circular. It is by far the most valuable and deeply interesting book on the subjects treated of, now extant; matters that in former work were merely hinted at, are here fully explained; it contains a full and explicit key to all the secrets of marriage, love and beauty never before

SATISFACTORILY

revealed in any book in the English language.

Dr. Jackson's Perpetual Preventive—*send for Circular.*

Dr. Jackson's Female Pills, $1—*send for Circular.*

Dr. Jackson may be seen at the Consulting Rooms of the Dispensary, No. 167 Sycamore street, from 8 A. M. till 2 P. M., and from 4 P. M. till 8 P. M.; at other hours either Dr. Herbert or M. Velpeau, or both, will be in attendance.

Male patients, when desired, will be furnished with large, airy, comfortable rooms, with board and careful attendance, for the few days ordinarily necessary to effect a cure. Patients do not see each other. The most ample guarantee of our ability and good faith promptly given when desired. Time is reasonable as the very highest modes of treatment known to modern medical science, and a very long and varied experience, will admit. P. O. Box 436. Send for Circular, and state your case plainly and fully, and you will receive the Circular and our written reply by return mail. We will answer no letter unless it contains the price in stamps. Medicine and instructions sent promptly and carefully to any part of the world.

SEASONABLE KOURTING.

I love to kourt in winter
The many girls I no,
When all around is drery
And kivered up with sno;
I love to kourt in winter,
Bekawse the old folks dred
The cold and stormy weather,
And hurri oph to bed.

I love to kourt in spring time,
When awl is bright and gay,
And Nature smiles so sweetly,
To chase the kold away.
I love to kourt in spring time,
Bekawse the girls, you no,
They look so orful pretty,
In dresses cut so lo.

I love to kourt in summer,
When all things are in blume,
And yer I think that kourting
Will ever be my dume;
For I have asked just twenty one
Of all the gurls I no,
To have me for their loving one,
And they have answered—No!

KENTUCKY.—We have very good news from Kentucky, which State, so far as the moral influences which affect the contest are concerned, is the key to the whole position. A highly competent judge of the condition of things there writes us, that all they need in Kentucky is to be satisfied of the rightful purpose of the administration and the *strength* of the Union, which will best be shown by the success of our arms in Virginia. In such case, the attempt to move Kentucky from her Union position will be in vain. He also assures us, that the message of the President will not change a single man in the State from Union to Disunion.—*Boston Courier.*

is liked by every one in preference to any other in market for many reasons:—

1. Because it is white as snow.
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
4. Because it answers a double purpose—it will mend all kinds of crockery, from China down to the coarsest Stone Ware, and at the same time will mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles mended never separate.
10. Because it is no humbug, but an honest article, as thousands can testify.

CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND

Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.

TESTIMONIALS.

Having been constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well.—D. D. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.

I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be imagined, except by those who have suffered. I tried one bottle of your Compound, and can honestly say that I believe myself entirely cured.—JOHN A. MORDO, Pearl St. House, Boston, Mass.

Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—R. R. HODGKINS, No. 1 Old State House, Boston.

My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.

I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1858, when I was suffering with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—A. LORD SMITH, Ex-Member of Congress from Maine.

TESTIMONY OF JUDGE KITTREDGE OF VERMONT.—Charles F. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTREDGE, Fair Haven, Vt., Dec. 1st, 1860.

The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.

This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic* A and cannot fail to meet the wants of the debilitated.

It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, is said is invaluable.

For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.

One of the very best Physicians in Boston has said "*Atwood's is the best preparation of Bitters that has ever been offered to the public.*"

Put up in half-pints as well as quart bottles, in order that all may continue themselves of its superior merits.

FRIDAY, JULY 19, 1861.

NEW HAMPSHIRE ITEMS.

A large wild-cat was shot on Saturday last at Warren. It measured three feet seven inches from the end of the nose to the tip of his tail, and was nearly two feet high. He had previously killed several sheep and lambs.

John Donley, for many years a fireman on the Cochecho Railroad, was instantly killed at Alton, on Monday, by the explosion of the boiler of a portable engine used for sawing wood, which he was running. The boiler was torn into fragments, the largest of which was thrown up the side of a hill seven or eight rods. He leaves a wife and two children. His age was about 35. Two other men sawing wood were slightly injured.

The Dover Enquirer "understands that most of the shoe manufacturers in New Hampshire, and probably in New England, are shut out from the contracts for furnishing shoes for the soldiers, by the Government proposals in all cases requiring them to be made of oak-tanned leather, little of which is used or made in this section. The leather here is hemlock-tanned, and is probably equal, if not superior, to the oak-tanned."

The Manchester Mirror thinks nothing demonstrates more clearly the power of steamers over hand engines in putting out fires, than the fact that the change in that city has called for ten times as much water as before. They had not a reservoir belonging to the city that the steamers could not drain in a few minutes.

The house, barn and out-buildings of Mr. Geo. Hall, in Mason, were entirely consumed by fire on Wednesday night last, together with a large amount of his household furniture, pretty much all of his farming tools, one hog and a few hens. The fire was first discovered in the barn, where it is supposed to have been set by an incendiary. Loss, $3000; insured for $1500.

In the New Hampshire Insane Asylum are six patients whose madness arises from love troubles; one from use of tobacco; one from extraction of teeth; one from worms; one from bad trade; five from death of near friends; three from hard work; and four from ungovernable appetites. The asylum is in excellent condition; spent $31,604 61 last year, and has on hand in funds at interest, accounts and cash, about $33,290 58. In less than twenty years it has received 1841 patients. There are about 88 males and 108 females in the institution at present.

A couple of gentlemen from Massachusetts opened enlisting offices in Manchester a day or two ago, and Wednesday morning started for the depot with about thirty men. At car time, the train was ready but the boys were not. It appears they enlisted for the fun of the cigars and accompaniments, and considered the whole thing a joke. Massachusetts, it is stated, by the operation, gains one volunteer—a Frenchman, 54 years old, obtained at considerable expense.

THE WAR NEWS of the week is highly interesting and important. The grand central army, under command of Gen. McDowell, began its forward movement Tuesday night, the various divisions amounting in numbers to about 50,000 men. It is not generally expected that they will meet with very serious opposition until they reach Manassas Junction, 27 miles from Alexandria. The advance entered the village of Fairfax Court House, 18 miles from Alexdria, Wednesday noon. The rebel troops stationed at that point had previously retreated, and our forces met with no opposition.

Gen. Patterson marched from Martinsburg on Monday morning, and that evening reached Bunker Hill, from which place the advance guard of Gen. Johnston had fallen back towards Winchester.

Gen. McClellan, at the last accounts, was pushing for Romney. Romney is 30 miles N. W. of Winchester, on an air-line; Martinsburg is 20 miles N. of Winchester. Manassas Junction is 50 miles S. E. from Winchester, and 36 E. from Manassas Gap. And from Winchester to Manassas Junction, by way of the Gap, is 60 or 70 miles. The reader will perceive that these distances are not exact—as roads do not always run on *air lines*, especially among mountains and streams.

☞ The Pope has sufficiently recovered to celebrate mass at St. Peter's.

☞ The sloop-of-war Dale went to sea, Wednesday morning.

NEW REGIMENTS.—We make the following extracts from a letter in the Coos Republican, written by its editor, Col. Henry O. Kent, who has acted as Assistant Adjutant General during the organization of the 1st and 2d Regiments:—

It is probable that measures will soon be taken to fill up one or more regiments from this State. A messenger has visited the Department, and if a requisition is now issued by Secretary Cameron, enlistments will commence at once. The regiment will be provided with the regulation uniform, hat and equipments, a decided improvement in style over the present. The coat is a frock, dark blue, with short skirts; the pants blue, with a black Kossuth hat, looped upon the left side, with an army clasp; a bugle and the figure and letter of the regiment and company on the front. The entire uniform is serviceable and becoming, and will have the additional advantage of corresponding with the regular uniforms issued by the government from time to time.

A change is soon to be effected in affairs at Fort Constitution, Portsmouth. The entire command is to be paid off immediately. After this, enlistment papers will be presented to three months men, for three years, and those who do not enlist will be discharged. Officers will then be commissioned and the command held in readiness either to garrison the Fort or join the third regiment.

Arrangements are making for supplying the Second Regiment with a regimental band. The government give extra pay and rations, and from the regimental fund the expenses are to be defrayed. The band and regiment ask the State to furnish instruments and a uniform in the first instance, which will be done, and the regiment provided with suitable music. The Keene Band is the one which is to join the regiment under this arrangement. It will probably go on immediately. The Manchester Cornet Band, which went on with the Second, is coming back with the Mass. Eighth.

☞ Although the rebellion has kept back Southern students from Harvard College,—of whom quite a large number have annually entered there,—one hundred and twenty-three candidates presented themselves for admission on Monday. Of these, one hundred and ten were admitted, and as that number will be increased at the beginning of the fall term by the admission of new candidates, it is thought the class will be quite as large as that of last year.

It was not our intention to make a lawyer of our friend, Mr. J. J. Laighton, in such a summary manner, on Thursday morning; he is a graduate of the Divinity School.

The first LL. D. ever conferred by the College, was conferred upon Gen. George Washington, on the occasion of his taking command of the American army; and the last ever conferred was upon Gen. Winfield Scott.

☞ The sloop-of-war Cumberland arrived at the Charlestown, Mass. Navy Yard, Tuesday evening, and will go into the dry dock for repairs. She left Portsmouth Navy Yard last fall, and was afterwards flag-ship of the Gulf squadron. At the time of the burning of the Norfolk Navy Yard, she was rescued from the hands of the rebels by the most extraordinary efforts, but was considerably injured in being taken over the vessels sunk to obstruct the channel, and so leaked badly, and now comes for repairs. She was formerly a frigate.

☞ A letter to the World from Columbus, Ohio, says that by an arrangement between the Secretary of War, Gen. McClellan and Gov. Dennison, all the rebel prisoners taken by the Federal army in Western Virginia are to be sent to Columbus, to accommodate whom a large prison house is now being constructed at Camp Chase.

☞ Officers at Richmond estimate that there are 10,000 men at Yorktown and from 10,000 to 20,000 at Norfolk. From personal observation, a gentleman estimates that at least one quarter of the Virginia troops are cavalry, well mounted, armed and equipped with cutlasses all sharpened.

The Pensacola troops at Richmond generally concur in the impossibility of taking Fort Pickens. It is said they were induced to come North from representations that Fortress Monroe would fall more easily.—Many Northerners came with them, as their only possible chance of getting out of Secessiondom, and they will probably desert or turn against the rebels in the first engagement.

Provisions were plenty at Richmond, and vast crops of cereals were being harvested.

☞ We copied, on Wednesday, an item, which has appeared in nearly all the Boston papers, stating that all the officers on board the sloop-of-war Richmond, who were above Passed Midshipman Terry in command, had resigned, and that he had been called to New York to take charge of the vessel. We have since learned that the Commander, Captain, 1st and 2d Lieutenants, Surgeon, Paymaster, and perhaps other officers, have *not* resigned. The Captain is Capt. John Pope of this city.

A STRONG AND ODOROUS COMPARISON. Prentice is entitled to the credit of the following:—

Gen. Pillow is said to be fond of running parallels between himself and Gen. Scott. There is about as much resemblance between them, as between a thunder peal and an onion peel.

EDITOR, PREACHER, AND SOLDIER.—We receive a paper called the Star of the Pacific, published at Petaluma, California, by A. C. Edmunds, editor and proprietor. Mr. E. is a Universalist preacher, and in his June number he gives us this item:

We are now a soldier, having enlisted as a private in the First Regiment of California Volunteers. We served in the Mexican War with the 2d Regiment of Ohio Volunteers, and having long since ignored all political parties, we know nothing but the Union, "one and inseparable, now and forever." The Star will continue its regular monthly visits, being left in the hands of a responsible agent. We shall continue its editor—writing regularly from the seat of war. We shall make a short trip through the interior; after which we shall leave the Star to the liberality and patriotism of our friends for support.

A bullet would kill this soldier as quick as any man:—but travel will not hurt him. In the month of April, he was sick one week,—and says:—

Traveled by stage, 6 miles; on foot, 316; total, 322 miles. Sermons preached, 24; contributions received, $95.70; total expenses for same period, $59.10; leaving a balance of $36.60 for preaching 24 sermons and travelling 316 miles on foot. Our monthly receipts for the Star, about $450. We increased our list in every town where we had time and strength to labor.

☞ Daniel S. Dickinson, of New York, well known as a leader of the Democratic party, says to the rebels:

"You desire peace! Then lay down your arms, and you will have it. It was peace when you took them up, and it will be peace when you lay them down. It will be peace when you abandon war and return to your accustomed pursuits. Honorable, enduring, pacific relations will be found in complete obedience to the provisions of the Constitution, and not in its violation or destruction."

To the would be neutrals, he says:

"You will not consent that the general government, the government of the whole people, should march forces over the "sacred soil" of a State of the Confederacy, to maintain its own dignity and authority, to check rebellion, and save the capitol from conflagration and the archives from destruction; but you should stand admonished that there is no soil sufficiently sacred, under the broad aegis of the Constitution, to shelter armed rebellion or treason, and that the government of the United States has not only full right and lawful authority to march its forces over every inch of territory between the St. Lawrence and the Pacific, to stop the progress of enemies, whether foreign or domestic; to put down rebellion, or to arrest those who despoil its property or resist the execution of its laws;—but that it is its first and most solemn duty to do so.

☞ The Missouri State Journal, which was suppressed by Gen. Lyon, in St. Louis, for weeks published the most monstrous falsehoods, and refused to correct them, when proved to be utterly false. Thus it persistently clung for days to its original version that Lyon and his entire force had been captured at Boonville. These fabrications were productive of immense mischief among the lower classes, principally Irish. They were, further, a serious obstruction to the government by its stories being copied by the newspapers of the interior and at the South, where the mischief spreads unchecked. Its editor, Joseph W. Tucker, is now under bonds to await an examination before the U. S. Commissioner, on the charge of treason.

WASHINGTON, July 17.—The following dispatch was received to-night at the headquarters of the army, dated Fairfax Court House, July 17, 1861:—

To Col. E. D. Townsend:—We have occupied Fairfax Court House and driven the enemy towards Centreville and Manassas. We have an officer and three men slightly wounded.

The enemy's flight was so precipitate that he left in our hands a quantity of flour, fresh beef, entrenching tools, hospital furniture and baggage. I endeavored to pursue beyond Centreville, but the men were too much exhausted.

Most respectfully Yours,
IRWIN MCDOWELL, Brig. Gen.

NEW YORK, July 17.—A special dispatch from Baltimore to the Herald says there will be a grand review of nearly 6000 troops to-morrow. The Massachsetts 6th are under orders for the homeward march. They are to be presented with the identical rebel flag flaunted at them on the 19th of April. The Boston Light Artillery and Major Deven's Rifles will also return in a day or two. It is reported that the Webster Regiment takes the place of the Rifles. Most of the troops will re-enlist. Papers found here seriously implicate New York parties in the 19th of April attack.

LOUISVILLE, KY., July 17.—A detachment of Zouaves was sent to the depot last night to prevent further attempts to resist the orders of the Surveyor in reference to the shipment of contraband articles over the Nashville Railroad.

The Chief of Police has prohibited noisy and boisterous shouting in the streets as likely to produce a collision.

The Raleigh Register of the 10th, says that steamer Winslow captured off Cape Hatteras 3d inst., schooner Herbert Martin, of Branstable, Mass., with a cargo of sugar and molasses, valued at $30,000.

AN "AVALANCHE" REPORT.—The Memphis Avalanche of the 12th has a story that the steamer Sumter had entered Berwick Bay bringing 55,000 Enfield rifles, and rifled cannon, taken from an English ship bound to New Orleans, which had been ordered away from the Belize by the blockading squadron.

☞ The entry of the Federal troops into Fairfax is said to have been inspiriting beyond description. The main street was filled with soldiery, marching with fixed bayonets and loaded guns, cheering for the Union, and bands playing the "Star Spangled Banner." As soon as the 6000 infantry had passed, the cavalry, which were in the rear, the artillery being in the front, dashed through the town on a gallop, in chase of the retreating traitors, whom they followed three or four miles towards Centreville; but the great heat preventing a forced march of the infantry, they returned.

The column which occupied Fairfax was composed of two brigades under Cols. Porter and Burnside, and contained two batteries of flying artillery, two Rhode Island regiments, the New Hampshire 2d, and the New York 8th and 71st, eight companies of regulars, five companies of cavalry, and perhaps one or two other regiments.

General McDowell was placing guards all over the town. Col. Marston of the New Hampshire 2d Regiment placed a guard around the court-house building as soon as he entered the town.

The rebel flag was still flying at the Court House when the advance of the division, with a band of the 1st Rhode Island Regiment playing the national airs, entered the village. It was taken down by some men of the 2d Rhode Island Regiment and handed to Gov. Sprague, who transmitted it to Gen. McDowell. Soon afterward the regimental flag of the 2d New Hampshire Regiment was placed over the Court House. In the village of Fairfax Court House, a large amount of tents, muskets, equipments, flour, bacon, and hospital stores belonging to the rebel army, were captured.

MISSOURI.—A company of secessionists, under Magoffin, a brother of the Governor of Kentucky, had a skirmish on Tuesday morning, 16th, with the Georgetown Home Guard between Sidelia and Georgetown. The guard had seven killed, the secessionists three. Magoffin retired to his farm, six miles northwest of Georgetown, where he encamped with 700 men. His force was constantly increasing. Gen. Harris with 800 men was encamped 13 miles north of Fulton, Calloway county. The Federal forces, it was thought, would probably give battle on Thursday morning.

Col. Boernstein has announced that he will administer no more oaths of allegiance, but keep all prisoners confined until they can be released without detriment to the cause of the government.

FORTRESS MONROE, July 17.—Two steamers from Norfolk were seen landing troops this morning at Sewall's Point, where it is apparent formidable preparations are making to annoy our shipping and perhaps the Fortress. There are doubtless also masked batteries at Willoughby Point and opposite Rip Raps. These preparations, however, will be ineffectual in view of the terrible engines of destruction to be brought against the rebels opposite the Fortress, if they endeavor to disturb us.

Sewall's Point has no strategic importance, and Norfolk and Portsmouth are not on the road to Richmond, but should the rebels annoy Old Point they will at once be routed.

SYRACUSE, MO., July 17.—A company of Federal troops came here to-day, and arrested a number of secessionists, taking them to Jufferson City. It is said that three or four of the arrested parties had taken the oath of allegiance, but afterwards joined Jackson's army.

The telegraphic lines West and South are down, and the company have abandoned all hopes of repairing them for the present.

CAIRO, Ill., July 17.—Last night some secessionists at Nashville, Washington Co., Ill., destroyed several dwellings belonging to loyal citizens. They hoisted a secession flag, and several Union men were notified to leave.

HURRAH!—The origin of this exultant interjection is probably unknown to nine-tenths of those who use it. It is as old as the Sclavonic race, for aught we know, and is as commonly heard on the banks of the Vistula as on those of the Hudson. From the coast of Dalmatia to Behring's Straits it is the cry of warlike assault and the shout of victory. In this country we put it to all sorts of congratulatory and defiant uses, and its most tremendous "vocal effects" are comprehended in "three times three and a tiger." The source of the word is in the primitive oriental idea that every man who dies for his country goes to Heaven—*Hu-raj*, the Sclavonian derivative, meaning literally "to Paradise."

NEW YORK, July 18.—A Washington dispatch says a courier from McDowell's headquarters reports that the army this morning marched for Centreville.

A force was left at Fairfax. It is reported that the rebels under Gen. Johnston are endeavoring to effect a junction with Beauregard. The Federal scouts report 30,000 to 40,000 rebels at Centreville and Manassas Junction.

Another dispatch says it is rumored that an engagement had taken place at Centreville, but it is unconfirmed, though probable.

CONGRESS.—In the House, on Thursday, Mr. Colfax of Ind. reported a bill that all prepaid letters to soldiers be forwarded from the point where addressed to the point where the soldiers are stationed, without further charge. Passed.

The Judiciary Com. reported that no evidence has been furnished to implicate Hon. Henry May of Maryland, of criminal intercourse with the rebels.

ACCIDENT.—Marcellus Burleigh narrowly escaped from losing his life at the Androscoggin Mill in Lewiston, Me., on Friday, 12th inst. His overalls caught in the shafting of the card room, and he was being drawn between the cards, when he was seized by the operators in the mill, and their united efforts caused the fabric to yield. He escaped with a mangled ankle.

A NICE DOG STORY.—A butcher from Inverness, Scotland, had purchased some sheep at Dinwall, and giving them in charge to his dog, left the road. The dog drove them on till, coming to a toll, the toll-wife demanded her dues. The dog looked at her, and, jumping on her back, crossed his fore legs over her arms. The sheep passed through, and the dog took his place behind them, and went on his way.

A farmer, living on the line of the Troy and Boston Railroad, stopped a passenger train, on Thursday last, by waving his hat. "What's the matter?" screamed the engineer. "Matter!" said the farmer, "nothin' as I know of." "Then, what did you swing you hat for?" said the engineer. "O!" said the farmer, "why, *I was fanning myself!*"

☞ The forward movement of the troops has nearly cleared out the hospital. The sick are unwilling to be out of the ranks when an action is anticipated.

"As my strength was, then even so is my strength now," said Joshua. So will every one say who is now troubled with weak stomachs and worn out digestive organs. If they will now and forever use Herrick Allen's Gold Medal Saleratus—for whenever it has made an acquaintance, it "sticks closer than a brother,"—it will be your protector and shield, besides always giving you nice, light and digestible Bread, Biscuits, Puddings, Cakes, &c. Try it. Most of the Merchants sell it. Depot 112 Liberty Street, New York.

The power of Medicine over disease.—We know of no better illustration of this fact than the wonderful effects of the *Oxygenated Bitters* in eradicating from the system Dyspepsia, and functional diseases of the stomach, as well as restoring impaired digestion.

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—DYSPEPSIA, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

LAKE VILLAGE, N. H., Nov. 4, 1859.

Messrs. Seth W. Fowle & Co., Boston.—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition. I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Furrill of East Boston) sent me a bottle of the OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

Prepared by SETH W. FOWLE & CO., Boston, and sold by

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Lowness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 dawâm

AN ASTONISHED SOUTHERNER.—The Northampton Courier says that a gentleman arrived in that town last week from Columbus, Miss., who believed until he reached the loyal States, that Congress was in session at Chicago. The belief that it is doing business there and that all the archives of the Government had been removed there, is universal at the South.—He was greatly astonished to learn that Congress was quietly in session at the "old stand" in Washington.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE, Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 39, which is as follows:

Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.
June17 OREN BRAGDON, City Marshal.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in *its easy application*, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

PROFESSOR WOOD'S

HAIR RESTORATIVE!

SEE WHAT OTHERS SAY OF IT.

A Distinguished St. Louis Physician Writes:

ST. LOUIS, July 10, 1860.

O. J. WOOD, Esq.—Dear Sir:—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 5 years. I commenced using your Restorative in January, 1855, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one third gray. A few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity, at this late day, for I am well aware they are all well known already; and even more wonderful ones throughout the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken pleasure in recommending your Restorative, and exhibiting the effects in my own case. In several instances I have met with people who pronounced it a humbug; saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article, said to be as good, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of these speculators have not brains enough to write an advertisement, as I notice they have copied yours, word for word, in several instances, merely inserting some name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray hair, scald head, dandruff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, but learned you were now living in New York.

You are at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1926, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WARREN SPRINGS, Perry Co., Pa., June, 7, '60.

PROF. WOOD—*Dear Sir*:—I was induced more than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for years, and had never been able to get anything to do me any good until I saw your advertisement in a Harrisburgh paper. I bought a bottle, and am now prepared to recommend it to any diseased one, for it has completely removed all dandruff from my head, and an application once in two weeks keeps it free from itching and other unpleasantness. It has also stated that my hair had become quite white in places, and by the use of your preparation, has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain, in order to have my appearance comport with my age. My head is now of less trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, altho' I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper, if it is worth anything to you. Yours, &c., H. H. KITER.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARTICLE STILL HELD.—Prof. Wood stands on an eminence no chemist, whose attention has been turned to inventing a hair tonic, has ever before reached, and, like his name is world-wide, and thousands who have worn wigs or been bald for years, are now, through the use of his preparation, enjoying their own natural growth of head covering. So much for chemistry. Prof. Wood stolen out the human hair, its properties, its disease, and how to restore it, and accomplished it; he saw, as in his own case, that gray hair is unnatural unless the age of the individual had reached fourscore, and he believed, that the hair could be restored. He tried his own case—almost bald and wholly gray at 27—he restored his own hair—and the result did it with he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Day Book.*

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to be what it claims, viz: to restore the hair to its pristine vigor. Where the head had become almost bald, because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair. It also has curative powers of another description, for it is said that pimples and other disfigurements of the skin disappear wherever it is used. There is no hazard attaching to the trial of this article, and its effects are of a most beneficial, in the end, and, if it does not cause a man ill, improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—*Boston Transcript, April 22, 1859.*

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual trials and experiments which cannot be enhanced by newspaper puffs. In our own vicinity it has been extensively used, and we believe in every case without exception, it has received the universal indorsement of all who have tried it. We therefore recommend it as one of the most genuine preparations which accomplish all they profess, and all the bald and gray could desire.—*Columbia Spy.*

WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried the Restorative.—*Boston Olive Branch.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for nine cases out of ten they are quack nostrums, but we take great pleasure in recommending Prof. Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Finley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtues. Let all who fear, and bald heads will be as rare as snow in summer.—*Baltimore Patriot.*

REAL ESTATE IN NEW CASTLE FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT,

MAJ. R. F. GOODWIN, having taken the well known CITY HOTEL, CONGRESS STREET, recently occupied by Mr. J. B. Flagg, invites the patronage of his friends and the travelling public generally.

Extensive improvements have been made, and no effort will be spared to insure the comfort and convenience of his guests, at the most reasonable rates.

An excellent stable is connected with the House, and Carriages and Saddle Horses will be ready at all times to convey guests to any part of the city or vicinity.

Portsmouth, May 14, 1861.

Ocean House, Rye Beach, N. H.

Will be opened on the 12th of June, for the accommodation of permanent or transient company. The House has been thoroughly renovated in the best of order. The proprietors are determined to meet the views of the public in regard to charges for board. The prices will range from $5 to $14 per week, being governed by the rooms selected.

Letters should be directed to

COMBINED GLUE AND CEMENT.
Is liked by every one in preference to any other in market for many reasons:—
1. Because it is white as snow.
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
4. Because it answers a double purpose—it will mend all kinds of Crockery, from China down to the coarsest Stone Ware, and at the same time *will* mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles mended never separate.
10. Because it is no humbug, but an honest article, as thousands can testify.
SPALDING'S PREPARED GLUE, too well known to need puffing.

CERTAIN CURE, CERTAIN CURE,
—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well. D. L. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered more than can be told, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured. JOHN A. MORDO, Pearl St. House, Boston, Mass.
Gardiner's Rheumatic and Neuralgia Compound has entirely relieved me from sufferings of several years' standing.—W. E. HODGKINS, No. 1 Old State House, Boston.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 59 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of decided benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE RITTERDON OF VERMONT.—Charles F. Gardiner, Esq.,—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever tried.—WM. C. RITTERDEN, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonic* and *stomachic*s, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said "*that it is the best preparation of Bitters that has ever been offered to the public.*"
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

Morning Chronicle.

Portsmouth, N. H.

SATURDAY, JULY 20, 1861.

THE DELIVERY OF FUGITIVE SLAVES by army officers is being discussed, and a petition is in circulation in Lynn, addressed to Hon. J. B. Alley, asking the removal of Col. Cowdin for delivering a fugitive to his master. It would not seem to be the duty of our army officers to take any notice of slaves—to induce them to run away or to return them if they did run away, and in one case they are as deserving of praise or censure as in the other. If a slave runs away, any citizen of the United States has the legal means of his recovery. But his means are legal, not military—in the constitution, and the laws made in accordance with the constitution, and not in the sword or bayonet. He should seek his redress in the law and by the law. We have not sent troops to Virginia to steal negroes or otherwise interfere with them, more than with other property, and God forbid that our troops should be turned into bloodhounds to scent the track of fugitives. They should have nothing to do with them *pro* or *con*, more than with the trees, stone walls or houses.—*Newburyport Herald.*

There is some force in this remark, because there is some truth in it; yet there is this difference between the real and supposed cases, viz. that slaves, unlike houses, stones, etc., are *animals*, and can use their legs:—and another difference is, that they are *men*, and can use their tongues, and hands, and brains.

In *theory*, our grand army of the United States have *nothing to do* with slavery; in *practice*, they come in contact with it every day they march in the slave States.

The slave power, by its lords and its minions, made this war,—and in defending our capital, our government and our national existence,—slavery may probably get some back-handed knocks.

Neither the president, nor the army, nor Congress, go into a crusade against slavery *per se*,—but if in the *melee* the peculiar institution and some of its peculiar friends should get trampled under foot, there would be very few mourners to go about our streets.

BY THE DISPATCHES of Friday morning, we have interesting details of the advance of our army into Virginia. The Orange and Alexandria Railroad is in full possession of our men as far as Fairfax station, full half way from Alexandria to Manassas Gap Junction. The obstructions in the way were speedily removed. Gen. McDowell on Thursday advanced to Centreville and found it deserted, save by a solitary patriot, who hoisted the American flag. Centreville is 28 miles from Washington. A battle is believed to have occurred at Bell River, five miles from Manassas Junction.

In Western Virginia our forces have moved from Martinsburg to Charlestown, Winchester being so strongly fortified that an attack upon it was temporarily deferred. Harper's Ferry was occupied Thursday, and it was ascertained that the rebels had retreated five miles from Winchester.

The advance of the U. S. army will be gratifying to all the loyal States. Gen. Scott has waited his time. He has stopped till McClellan has cleared Western Virginia, and is pressing on, cheered with victory, at the head of more than 40,000 soldiers of the Northwest; till Patterson, with another column of 25,000, has used up the last chance of Johnston, and is bearing down through the central region. Now, with an army of 50,000 well-drilled and hopeful soldiers, he sends Gen. McDowell towards the interior, leaving Gen. Mansfield with 40,000 more at Washington, Gen. Banks with 3000 at Baltimore, and Gen. Butler with 15,000 to hold Fortress Monroe and watch the rebels at Yorktown and elsewhere in the southeast. These different forces make full 180,000 men in Virginia and Maryland, more than 100,000 of them on the march southward.

JEFFERSON CITY, July 18.—The mail carrier brings news of a fight three miles this side of Fulton, Calloway County, between Col. McNiel with 600 men, and Gen. Harris with about 1000 men. Six Federals and 80 rebels were killed. 200 of the latter were taken prisoners. The rebels were completely routed.

Later and more reliable accounts state that 12 Federals were wounded. Only the advance guard of the Federals were in the engagement and were fired upon from an ambush. The rebels fled after the fight, some of them going quietly to work in the fields. Gen. Harris was not in the fight, but quietly looked on at a safe distance.

Later.—An official dispatch from Col. McNiel states that he met Harris and completely routed him. Our loss was twelve wounded. Harris' force was considerably demolished. His men are unmanageable, and left Fulton by every road leading out of town. About 700 State troops were wounded.

The camp at Wood Spring is supposed to be broken up.

NEW HAMPSHIRE ITEMS.

Ex-Governor Anthony Colby has been appointed by the Governor and Council, Adjutant General of the State. A noble man for the place.

The Governor and Council met at Concord Wednesday evening, and were in session until midnight. It was decided to raise a Third Regiment, and the necessary papers are to be sent out immediately.—Davis Island, Lake Winnepissoogee, having been proposed for a camping ground, was visited Thursday for examination. The tents for the new regiment are ready, and it is intended that the troops shall go into camp on the 1st of August.

James M. Williams, the murder of Vannassas Wyatt, at Warren, attended service on Sunday, for the first time since committing the deed. Thirty-two of the best citizens immediately left the house. One man, Col. Isaac Merrill, was so excited that he left his hat in his pew, and went home bareheaded. Williams is to have his second trial in August. He is one of the five who have committed murders in Grafton county within the past eighteen months.

On Thursday, July 11th, two small boys were picking berries near the railroad track, in Keene, and as the passenger train passed, a billet of wood thrown from the engine or tender, struck one of them, Jerry Murphy, on the head, making a frightful fracture of the skull. His recovery was considered doubtful.

The Sons of New Hampshire in the Golden State are preparing a magnificent $300 silk flag to be presented in their behalf to the N. H. Volunteers serving in the war for the Union and the Constitution.

☞ The Washington National Republican, in giving an account of the departure of the Burnside brigade on Tuesday last, thus refers to our New Hampshire 2d:—

Down Seventh street came the second New Hampshire, with Congressman Marston at its head. The men of this regiment are a good kind to fight with. Their fathers were about when Louisburg was taken, and Quebec—Stark's New Hampshire rangers led the way up the heights of Abraham, or Wolfe's regulars had never seen the plateau at the top—and they were present at Bunker Hill, that old defeat which history has perverted into a victory, and speaks of in the same line with Thermopylæ. There is good blood in these New Hampshire men.

The Brigade consists of:—

Battery of the 1st Rhode Island Regiment.

Battery of the 2d Rhode Island regiment, 6 guns and 6 caissons.

Second Rhode Island regiment, Col. Slocum, with their band.

Second New Hampshire regiment, Col. Marston, with drum corps.

New York seventy-first regiment, Col. Martin, with Dodworth's band.

As the brigade marched up the avenue, headed by the gallant Burnside, it presented an appearance never yet excelled on that street. All the regiments looked extremely well, and the men were in the best of spirits. General Burnside, who is in command of the brigade, received a large number of bouquets along the route.

The brigade takes with it only rations enough for three days, and but little baggage—indicating that its work is to be done quickly and effectively.

CHARLESTOWN, VA., July 17.—Communication with Harper's Ferry will be opened to-morrow from this point, and a force stationed there. The whole force has reached here, except the 4th Connecticut Regiment.

But a small force is now stationed at Martinsburg. Much of the provisions left there has been returned to Williamsport and thence will be sent to Harper's Ferry by canal.

Capt. McMullen took possession of a quantity of corn left at the depot here by the enemy. The Home Guard dispersed to-day in very fast style as the 2d Cavalry and Philadelphia City troops charged into the town from both sides.

Many of the inhabitants, heretofore regarded as violent Secessionists, are now strong Unionists.

It is reported that there are earthworks of an important character in the neighborhood of Winchester, and that an abattis of formidable proportions has been found on the road leading from Bunker Hill to Winchester.

WASHINGTON, July 18.—Twenty-four army wagons loaded heavily with boxes of muskets left the arsenal at 5 o'clock this afternoon on the Washington Branch road; probably for Colonel Sawyer's Martinsburg regiment.

The gunboat Freeborn has been thoroughly repaired at the navy yard and was launched this evening. She will receive her armament and provisions and immediately rejoin the Potomac river police. Her owners are offering to sell her to the Government for a gunboat.

The Quartermaster General is actively engaged in the preliminaries for the construction of gunboats for Western waters.

The Secretary of the Treasury, in reply to the resolution of the House, says he has not sufficient force to protect the United States commerce from pirates. Congress, however, will provide for that.

☞ A bill making naval appropriations to the amount of $30,170,886.29, has passed both houses of Congress. The appropriations are to the 30th of June, 1862, with arrearages for the year ending 30th June, 1861.

SYRACUSE, MO., July 18.—The rumor of the fight yesterday near Georgetown was a Secession hoax. They also started a story that Syracuse and Florence would be burned last night. Citizens kept a vigilant watch, but no attempt was made.

CONGRESS.—In the U. S. Senate, Thursday, July 18, Mr. Foot of Vt. was chosen President pro tem., to serve during the remainder of the session. The Senate passed the bills providing for an Assistant Secretary of the Navy, and for the better organization of the marine corps. The bill to authorize the employment of volunteers was passed, and also the bill for the better organization of the military.

Mr. Powell offered an amendment, that no part of the army or navy be used to subjugate or hold as conquered provinces, any sovereign State lately one of the United States, or in any way interfere with African slavery.

Mr. Lane said he would like to add, "except to suppress rebellion and hang traitors."

Mr. Sherman said it was no part of the object to subjugate States or abolish slavery, unless the issue be forced on us; but rather than one inch of the country should be torn away by traitors, he would have the slaves liberated, but disclaimed any intention of this kind. Mr. Sherman offered to substitute, that the purpose of the military establishment was to preserve the Union, defend the property and maintain the Constitution and authority of the Union.

After debate, Mr. Lane's amendment was lost—11 against 24.

Mr. Sherman's amendment was agreed to—33 to 4, viz., Breckinridge, Johnson of Mo., Polk and Powell.

Mr. Breckinridge moved to add to Mr. Sherman's amendment, that "the army and navy are not to be employed to subjugate any State or reduce any territory or province, or for the abolition of slavery." Lost, yeas 9, nays 30.

The amendment as amended was agreed to. The bill passed.

In the House, a bill passed, remitting the fines of vessels arrived at Northern ports with irregular clearances. A bill also passed to pay volunteers from the time they arrive at the place of rendezvous, instead of the time they are mustered in.—Mr. May's visit to Richmond was brought up, and that gentleman explained his course at some length—in which explanation he showed himself such a Union man as Gov. Magoffin of Kentucky; he should have remained in *Richmond*, where he would have been much more at home than in Washington. He got out of order, and was sustained in it by Mr. Vallandigham, though not by the House.

GEN. MCDOWELL'S ARMY.—*Sangeties Station, (18 miles from Alexandria, on the Orange and Alexandria R. R.) July 17.*—We have had the pleasure of seeing the enemy flying before us, but in consequence of the roughness of the march and owing to the heavy guns which we have, they are succeeding in making their escape without fighting. We are now in full possession of the railroad as far as this station. The enemy commenced retreating during the day and barely escaped by the old Fairfax road, which is occupied as far as Fairfax Station by Col. Wilcox, who took eleven prisoners. Col. Miles is in possession of Fairfax Court House.

The official dispatch of Gen. McDowell to Lieut. Col. E. D. Townsend, Asst. Adj. Gen., at Washington, dated Fairfax Court House, July 18, states that:—

Each column encountered about the same obstructions, viz., trees felled across the road, but the axe men cleared them in a few minutes. There were extensive breastworks thrown up at this place, and some of them with embrasures revetted with sand bags. Extensive breastworks were also thrown up at Fairfax Railroad Station and on the road leading to Sangeties. A great deal of work has been done by the rebels, and the number and the size of the camps show they have been here in great force.—Their retreat, therefore, must have damaging effect on them. They left in such haste that they did not draw in their pickets, who came into one of our camps, thinking, as it occupied the same place, that it was their own. The obstructions to the railroad in vicinity of the Station, including the deep cut filled in with earth, can be cleared in a few hours. The telegraph poles are up with the wires upon them.—I look to have railroad and telegraph communication in a very short time. Much flour, some arms, forage touts, camp equipage, &c., were abandoned by the rebels.

Numerous trophies were brought to Washington, including the Commissary tent of the 3d South Carolina regiment, guns, books, coats, hats and Palmetto buttons, and a halter manufactured in New York.

All the masked batteries so much talked of turned out to be nothing more than infantry breastworks of the meanest style of construction.

☞ Gen. Patterson, instead of advancing from Bunker Hill toward Winchester, as was expected, has made a movement to the left, and taken post with nearly his whole force at Charlestown, a few miles from Harper's Ferry, on the line of the railroad between the latter place and Winchester. There are doubtless good reasons for their manœuvre, which, however, seems to have caused much surprise in the army.

LOUISVILLE, July 18.—Detective Bright to-day seized near Salt River three thousand dollars worth of leather, on the way in wagons from Portland to Tennessee.

A special dispatch from Pensacola, 14th, to the Mobile Register says Capt. Clauton's Montgomery Mounted Rifles fired on a launch of a Federal steamer that morning, near the East Pass, killing several men, including the commanding officer.

☞ It now appears that the story about General Butler and the blockade was a shallow trick of the rebels to involve our government in a quarrel with that of Great Britain.

BATTLE AT BULL'S RUN.

NEAR MANASSAS, July 18—4 P. M.
Via Washington, 19th.

A severe battle was fought this afternoon at Bull Run, 4 miles south of Centreville. Col. Richardson's Brigade, consisting of the Massachusetts 1st, Michigan 2d and 3d, New York 12th, Ayer's battery and Benjamin's two 20-pounders; also detachments of other regiments were detailed as skirmishers—all under command of Gen. Tyler.

The skirmishers at half-past 12 discovered a masked battery.

Our batteries, after an hour's fighting, compelled the enemy to withdraw.

The skirmishers then advanced. They went in nobly, and were received with a tremendous fire by the enemy, who were concealed behind breastworks across a deep ravine.

Ayer maintained his position till all his shell and cannister were gone. He did great execution, and retired with the loss of one man killed and three wounded, while nearly all his horses were disabled.

The Mass. 1st and N. Y. 12th regiments suffered severely.

Gen. Tyler withdrew the troops from the woods, and took up a position under cover of the batteries. A heavy cannonading followed.

The rebel loss must have been very severe from our shells.

The rebel position was a very strong one.

About 2000 of our troops were under fire during the engagement, and behaved nobly.

The enemy did not leave his position in the woods.

LATER.

The total loss on our side is estimated at 30 killed and 30 wounded.

At half-past 4 Gen. Tyler ordered our forces to retire, it being necessary to relieve Capt. Brackett's cavalry, which had done the most severe service. The day was excessively hot, and the horses were thirsting for water, which could only be obtained at Centreville.

Only about 1000 of our force were at any one time engaged.

The rebel force is estimated at 4000, with 8 guns.

Col. Wilcox's division, including the Fire Zouaves, moved from Fairfax station to-night to the flank.

The enemy's battery will undoubtedly be taken to-morrow. It is thought to be one of a line of batteries from Ocotink Creek to Manassas.

WASHINGTON, July 19.—About 20 were killed and wounded yesterday at Bull's Run. The rebels are still in possession, and it is expected will make a stand there.

Wilcox's brigade arrived at Centreville last night. The federal forces lie over to-night to reconnoitre. An attack on the batteries is expected to-morrow.

A negro has arrived from the rebel camp and reports that his master, Col. Fontaine, was killed, with a large number of rebels.—This is confirmed by a member of the Mass. 1st, who was in the engagement.

PHILADELPHIA, July 19.—The Inquirer has a dispatch that there was a terrible fight last night at Manassas Junction, and the stars and stripes float over it.

Later.—The Inquirer reiterates its statement, and says the capture of Manassas Junction has been announced to Congress.

☞ Sch. Lapwing, at Holmes' Hole, reports that Thursday spoke Sow and Pigs Light-ship, and learned that a Southern privateer captured a brig and pilot boat off No Man's Land the same morning.

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—DYSPEPSIA, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

LAKE VILLAGE, N. H., Nov. 4, 1859.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition. I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a Bottle of the OXYGENATED BITTERS, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, STEPHEN LEAVITT.

Prepared by SETH W. FOWLE & CO., Boston, and sold by

Preston, Kimball, Hastings, J. H. Thayer, Noble Fletcher, Portsmouth; James P. Packer, Greenland; S. Hanson, Jr., New Market; Porter & Thyng, and Wm. B Safford, Exeter; J. W. Green, Hampton Falls; and by dealers everywhere.

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Low state of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle, containing over 50 pills, by return mail. my28 dawlm

☞ In the Police Court, on Friday, Robert Huse, found guilty of being a common drunkard, was sentenced to the House of Correction for two months and to pay costs, taxed at $3.96.

Gilbert Armstrong, for brawl and tumult, was sentenced to the House of Correction for five days, and to pay costs, $4.03.

John O'Donnell, for obstructing an officer, and endeavoring to rescue a prisoner, was fined $5.00 and costs, $4.03, and put under bonds in $20 to keep the peace. He appealed.

We are pleased to learn that our active and efficient pound-keeper, Mr. J. F. Adams, is well supported. A complaint was made against him recently for an alleged assault on some persons who attempted to obstruct him in the prompt performance of his duties, but he was discharged by the Court.

☞ The following figures show the comparative numbers of arrests for being drunk in the streets of Portsmouth—one year under the *old* law, and one under the *new:*

From July 4, 1859, to July 4, 1860 . . . 264
From July 4, 1860, to July 4, 1861 . . . 341

There have been many cases of *lodging*, when they have been drunk, that were not mentioned on the records for the term when B. Norton was Marshal.

By the old law, a trial and a fine or imprisonment followed arrests for single acts of drunkenness; by the new, the drunkard is arrested, kept till he is sober, and then dismissed.

The Massachusetts law, from which ours is copied, stood only one year; ours is going into its second.

☞ The National Republican, published at Washington, in speaking of the appointment of Dr. Frank Fuller, of this city, as Secretary for Utah Territory, says, "few more accomplished men than Dr. Fuller have gone out to the Territories. Still young, he has seen much of life, is of attractive manners, and has all the address, accomplishments, and capacity needed for the difficult position to which he is appointed."

☞ Another attempt to burn the lumber in the yard of N. L. Merrill & Son, on Daniel Street, caused the alarm on Friday night. Lumber thrown overboard.

☞ Capt. Isaac T. Doughty, U. S. Marines, succeeds Major Wm. Dulany, at the Navy Yard. Surgeon M. G. Delaney, who has just returned in the Sabine, succeeds Surgeon A. A. Henderson, ordered to the steamer Richmond.

☞ There is to be a Chowder Party at the Hanson House, Dover Point, this (Saturday) afternoon and evening. Steamer Clipper will leave Pier Wharf at 3 and 7 1-2 P. M., for the Point. Fare 20 cents.

☞ The Claremont Eagle states that Gov. Berry has signified his intention of visiting Claremont very soon, in compliance with an invitation extended to him with reference to the location of the Third Regiment.

WASHINGTON, July 18.—Messrs. Nixon and Frank, members of the House, who went to Fairfax Court House yesterday with the army, report that the Union men there had been in the woods for days to avoid impressment. Farmers residing out a few miles were extravagant in their expressions of joy at the arrival of our troops. Some had run the rebel pickets and reached McDowell's division.

Seven thousand axes have been forwarded to the army in Virginia. The cavalry sent with the army are to be employed principally in holding positions in the rear.

The three months troops will be mustered out of the service and paid at the rendezvous in the several States from whence they came.

☞ The kerosene oil factory situated at 338 Stanton street, New York, was destroyed by fire on Monday night, together with a row of stables, eight horses, and a large amount of harnesses, &c, were destroyed. The factory was valued at $5000. The fire was caused by the ignition of the escape volatile gas from a still.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE, Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 29, which is as follows:

Be it Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it well testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and sold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.

PORTSMOUTH CONTRIBUTES EQUALLY TO THE LEARNED PROFESSIONS.—Among the Graduates at Harvard College this week we have the names of the following young gentlemen of this city: JOHN PEARSE TREADWELL, who graduated at the Law School; JOSHUA JAMES LAIGHTON, at the Divinity School; and ALFRED HOUSTON HAVEN, at the Medical School.

The degree of A. B. was conferred upon FRANK WARREN HACKETT, CHARLES CHRISTIE SALTER, and JAMES RUNDLETT MAY, who are to continue the equilibrium, it being understood that Hackett studies Law; Salter, Divinity; and May, Medicine.

GREENLAND.—Railroad connection has deprived many travellers from viewing some of the handsomest country scenery, which can usually be found far "off the track," and on the old roads, which have had the advantage of many years for the growth of ornamental trees by the wayside. A ride from Portsmouth to Exeter, always considered as pleasant as any in this section, is every year improving in beauty. In Greenland the ancient March homestead, now owned by Hon. Clement March, is newly fenced for more than half a mile on the road, by the handsomest stone wall in Rockingham county. The beautiful granite, split from a quarry in Raymond, is light, with wavy veins, compactly set, and the whole length of the wall sufficiently even and firm to be the foundation of a large structure. The whole aspect of the farm and neighborhood are in keeping. Nor is this without counterparts in other farms in the well named town of *Greenland.*

FIRST GREEN CORN.—We received on Friday, July 19th, from T. Gerrish Furber, Esq., of Newington, the first sample of new Corn fit for cooking that has appeared in our market. Last year, 1860, we received from him some of about the same quality on the 21st.

The first green corn appeared in the market in 1859, July 20; in 1858, July 20; in 1857, July 25; in 1856, July 23; in 1855, July 18; in 1854, July 20; in 1853, July 22.

It thus appears, that although the season has been regarded backward, the warm weather of this month has brought vegetation as forward as on other years, and somewhat in advance of the average.

A SPARTAN MOTHER.—A few days since we heard a mother make the remark—"I have but one dear son, and he is in the service of his country, and at an exposed station. I feel anxious for him—but if he falls, I have the consolation of knowing that it will be in defense of those glorious Stars and Stripes." We shall not soon forget the enthusiasm with which it was spoken, nor that pure patriotism which led a mother to resign an only son for her country.

INDIAN RICE.—Dr. S. Baker has obtained from Mr. E. Meriam a sample of the Indian Rice, which Mr. M. gave a notice of in the Journal a few months ago as adapted to northern cultivation.—It should be sown in fresh ponds, with mud (not sand) bottom, in the fall. It will afterwards seed itself.

The eight thousand bushels of corn damaged by the fire on Daniel street last week, was sold at auction for about $1000.

GEN. SCOTT'S DESSERT.—Gen. Scott apologized to his guests at a dinner party yesterday for the dessert, "but, after all," he added, "I don't believe that it will disappoint you." After the cloth was removed, the butler brought in a telegram announcing Gen. McClellan's victory.—*Washington Despatch.*

"As my strength was, then even so is my strength now," said Joshua. So will every one say who is now troubled with weak stomachs and worn out digestive organs. If they will now and forever use Herrick Allen's Gold Medal Saleratus—for whenever it has made an acquaintance, it "sticks closer than a brother,"—it will be your protector and shield, besides always giving you nice, light and digestible Bread, Biscuits, Puddings, Cakes, &c. Try it. Most of the Merchants sell it. Depot 112 Liberty Street, New York.

The power of Medicine over disease.—We know of no better illustration of this fact than the wonderful effects of the *Oxygenated Bitters* in eradicating from the system Dyspepsia, and functional diseases of the stomach, as well as restoring impaired digestion.

PROFESSOR WOOD'S

HAIR RESTORATIVE!

SEE WHAT OTHERS SAY OF IT:

A Distinguished St. Louis Physician Writes:

ST. LOUIS, July 10, 1860.

O. J. WOOD, Esq.—*Dear Sir*—Allow me the pleasure and satisfaction of transmitting to you the beneficial effects of your Hair Restorative, after a trial of 6 years. I commenced using your Restorative in January, 1854, since which time I have not been without a bottle on hand. When I commenced the use, my hair was quite thin, and at least one third gray. After a few applications stopped its falling, and in three weeks there was not a gray hair to be found, neither has there been up to this time.

After my hair was completely restored, I continued its use by applying two or three times a month. My hair has ever continued healthy, soft and glossy, and my scalp perfectly free from dandruff. I do not imagine the facts above mentioned will be of any particular advantage to you, or even flatter your vanity, at this late day, as I am well aware they are all well known already, and even more wonderful and thoughtful out the Union. I have occupied my time in travelling the greater part of the time the past three years, and have taken pleasure in recommending your Restorative, and exhibiting its effects in my own case. In several instances I have met with people who pronounced it a humbug; saying they had used it and without effect. In every instance, however, it proved, by probing the matter, that they had not used your article at all, but had used some new article, said to be as good, and selling at about half the price. I have noticed two or three articles myself advertised as above, which I have no doubt are humbugs. It is astonishing that people will patronize an article of no reputation, when there is one at hand that has been proved beyond a doubt.

Apparently, some of these charlatans have not brains enough to write an advertisement, as I notice they have copied your, of course, word for word, several instances, merely inserting some name in place of yours.

I have, within the past five years, seen and talked with more than two thousand persons that have used your preparation with perfect success—some for baldness, gray whiskers, to stop dandruff, and every disease the scalp and head are subject to.

I called to see you, personally, at your original place of business here, but learned you were now living in New York.

You at liberty to publish this, or to refer parties to me. Any communication addressed to me, care box No. 1620, will be promptly answered. Yours truly, JAMES WHITE, M. D.

WARREN SPRINGS, Perry Co., Pa., June, 7, '60.

PROF. WOOD—*Dear Sir*:—I was induced more than a year ago to try your valuable Hair Restorative to clean my head of dandruff. I had suffered from it for years, and had never been able to get anything to do me any good until I saw your advertisement in a Harrisburgh paper. I bought a bottle, and am now prepared to recommend it to universal use, for it has completely removed all dandruff from my head, and supplied in its place a new growth of hair, which has been restored to its original color. I am now 50 years of age, and although I have used two bottles of the Restorative, no one has any knowledge of it, as I allow a few gray hairs to remain, in order to have my appearance comport with my age. My head is now at least trouble to me in keeping it clean, &c., than at any time since I have been a child. I consider your preparation of great value, and, either I do not like to expose myself, I consider it my duty to say so. You can use this, or any part of it, in any shape you think proper. It is worth anything to you. Yours, &c., H. H. ETTER.

ALL HAIR DYES ABANDONED—WOOD'S GREAT ARTICLE IN THE FIELD.—Prof. Wood stands on an eminence no chemist, whose attention has been bestowed to inventing a hair tonic, has ever before reached. His fame is world-wide, and thousands who have worn wigs, discarded them for years, are now, through the use of his preparation, wearing their own natural and luxuriant head covering. So much for Prof. Wood. Wood studied out the human hair, its properties, its diseases, and how to restore its decayed vitality, to now, as in his own case, that gray hair is unnatural unless the age of the individual had reached fourscore, and he believed that the hair could be re-vitalized. He tried his own case—it must well and wholly gray at 37—he restored his own hair—and the article he did it with he gave to the world. Get WOOD'S HAIR RESTORATIVE, and take nothing else.—*N. Y. Day Book.*

WOOD'S HAIR RESTORATIVE.—Unlike most specifics, this is proved, by unimpeachable evidence, to possess great efficacy in a restorer of the hair to its pristine vigor. Where the head had become almost bald because of sickness, the use of this article has produced a beautiful growth of thick, glossy hair. It is therefore a valuable preparation for all classes. Its ingredients are such as to effectually eradicate dandruff and other impurities which operate so injuriously to the hair. It also has curative powers of another description. In many cases plays as a restorer of the fairness of the skin—they pear wherever it is used. There is no hazard attending to the trial of this remedy, and its effects can only be beneficial, as the compound, if it does not cause a manifest improvement, is incapable of doing harm, as its component elements are perfectly innocuous.—*Boston Transcript, April 22, 1859.*

WOOD'S HAIR RESTORATIVE has acquired a reputation from actual test and experiment which cannot be enhanced by mere eulogy. In our own vicinity it has been extensively used, and we believe in every case with every desired result, and receives the universal indorsement of all who have tried it. We therefore recommend it as one of those few genuine nostrums which accomplish all they profess, and to all the bald and gray could desire.—*Columbia Spy.*

PROF. WOOD'S HAIR RESTORATIVE.—In another column will be found an advertisement of this well known and excellent preparation for restoring gray hair to its original color. The Hair Restorative also cures cutaneous eruptions, and prevents the hair from falling off. We have seen many authentic testimonials in proof of these assertions, some of which are from gentlemen whom we have known for many years as persons of the most reliable character. Don't dye till you have tried the Restorative.—*Burlington Gazette Branch.*

WOOD'S HAIR RESTORATIVE.—We are not in the habit of puffing every new discovery, for in nine cases out of ten they are quack nostrums, but we take great pleasure in recommending Prof. Wood's article to all whose hair is falling off or turning gray. Our well known contributor, Wesley Johnson, Esq., has experienced the benefit of its application, and joins with us in speaking of its virtue. Let all try it, and bald heads will be as rare as snow in summer.—*Baltimore Patriot.*

REAL ESTATE IN NEW CASTLE FOR SALE.

The TAVERN STAND in Newcastle near the road leading from Newcastle Bridge to Fort Constitution, is offered for sale on reasonable terms. The house has been recently put in a perfect state of repair, roof shingled, and house painted and papered throughout the interior, and is in every way fit for immediate occupation. It contains fifteen rooms, and is convenient for the business of hotel keeping and boarding. The House is within a few rods of Fort Constitution, and ample opportunities for fishing, bathing, boating, &c., are at hand.

The occupation of the Forts at the mouth of Portsmouth harbor, and the contemplated repairs of Fort Constitution promise here to an active and energetic landlord "who can keep a hotel," a handsome remuneration for a very small outlay.

Apply to THOMAS J. TARLTON, Esq., near the premises, or to WILLIAM H. HACKETT,
MARKET SQUARE.

PURE LIQUORS AND WINES FOR PRIVATE USE AND MEDICAL PURPOSES.

We offer to the country trade and consumers, a complete assortment of **LIQUORS, WINES, &c.,** and would say that our experience of more than FORTY YEARS as Importers, is not only a sufficient guarantee for the **Purity of our Goods,** but that it enables us to offer advantages to buyers that cannot be excelled by any house in Boston. Owing to the difficulty of procuring, in many towns, a strictly pure and reliable article of *Liquors and Wines* for medicinal and other purposes, we have for many years given special attention to filling orders for PRIVATE USE; and consumers will find it greatly to their advantage to send their orders to us direct, as we employ no travelling or other agents whatever. Persons who require *Pure Liquors or Wines* in large or small quantities, may rest assured that all orders will receive our best personal attention, and that every article sent from our house will be satisfactory in every respect. Communications by mail will receive prompt attention, with full and complete catalogue of goods, prices, &c.

15 Greatest Medical Circular Ever Published! 15

letter pages for two 3 cent stamps.

DRS. JACKSON, HERBERT & CO. are Associated Proprietors of the **National Dispensary**, No. 167 Sycamore street, Cincinnati, established Jan. 1, 1859, for the cure of Private Diseases.

Prof Egbert Jackson, Dr. Robert Herbert and M. Volpeau. Thorough cures effected with almost incredible rapidity, of Gonorrhea, Syphillis, Gleet, Spermatorrhœa or self-abuse, Impotency, Stricture, Female Diseases, *Diurnal Emissions*, in short, every possible form and variety of Sexual Disease, and at the same time the *general health* of the patient improved, where any improvement in that respect is needed.

Our Dispensary Circular, of 15 large 8 in. by 11 in. letter pages, with full and special written Reply, sent promptly, well sealed, to any address for the amount of the postage, six cents! Every young man, whether

SICK OR WELL,

should have one. Also, a Circular intended for ladies only, nine large letter pages, for a 3 ct. stamp. The "Monuisia of Light, or Medics Protector," a new book of three hundred pages, one hundred engravings; price, in stamps or money, 50 cts. and one 3 ct. stamp, or 8 for $1 and nine cents in stamps. This book is fully described in our Circular. It is by far the most valuable and deeply interesting book on the subjects treated of, now extant; matters that in former works were merely hinted at, are here fully explained; it contains a full and explicit key to all the secrets of marriage, love and beauty never before

SATISFACTORILY

revealed in any book in the English language.

Dr. Jackson's Perpetual Preventive—*send for Circular.*

Dr. Jackson's Female Pills, $1—*send for Circular.*

Dr. Jackson may be seen at the Consulting Rooms of the Dispensary, No. 167 Sycamore street, from 8 A. M. till 1 P. M., and from 4 P. M. till 8 P. M.; at other hours either Dr. Herbert or M. Volpeau, who both will be in attendance.

Male patients, when desired, will be furnished with large, airy, comfortable rooms, suitable board and constant attendance, for the few days ordinarily necessary to effect a cure. Patients do not see each other. The most ample guaranties of honorable and good faith promptly given when desired. Fees as reasonable as the very highest modes of treatment known to modern medical science, and a very long and varied experience, will admit. P. O. Box 638. Send for Circular, and state your case plainly and fully,—and you will receive the Circular and our written reply by return mail. We will answer no letter unless it contains six cents in stamps. Medicine and instructions sent promptly and carefully to any part of the world.

"THE HAMMOND LINIMENT"

THE HAMMOND LINIMENT IS A SAFE, SURE and SPEEDY REMEDY, THE HAMMOND LINIMENT

—FOR—

NEURALGIA, RHEUMATISM, LUMBAGO, SCIATICA, BRUISES, SORE THROAT, CHILBLAINS, HEADACHE, SORES, PILES; PAIN IN BACK, SIDE, LIMBS & CHEST.

The best evidence of its worth is the testimony of those who have been relieved and cured by its use.

"THE HAMMOND LINIMENT"

has been used in our families with the very best results. We therefore recommend its use to all who may be afflicted with either of the above troublesome diseases, as we have found it to be what the proprietors claim.

☞ By the ship Lydia Skofield, from Liverpool, arrived at Boston on Tuesday, came an old English artillerist, who has fought in many great battles in all parts of the globe, and who now desires to join the Federal army. He was too poor to pay his passage and was obliged to work for it. He left a pension of thirteen guineas per annum, which he forfeits by this violation of Her Majesty's proclamation.

☞ In Washington, and even in the camps across the river, ice is liberally supplied, and affords a great relief. Gen. McC. well thinks it almost indispensable to good health, and prefers that the men should drink the coldest water rather than touch liquor of any kind. If all were as temperate as he, there would be less disease and disturbance in the army.

RIFLED MUSKETS AT THE SPRINGFIELD ARMORY.—The production of rifled muskets at this armory has been increased to 3500 per month, which is more than were ever produced at the same time at Harper's Ferry and Springfield together; and in less than three months the manufacture will be carried up to 5000 per month.

☞ Among the numerous amusements at South Amboy, N. J., on the 4th of July, was a woman's race of one hundred yards, in which two young ladies entered for the premium. Miss McCliffen carried off the prize, beating her competitor by but a length or two, and receiving immense plaudits from the audience.

"PREPARE TO PUCKER."—In the programme for the celebration of the Fourth at the Reform School, Hartford, Conn., was this item:—Yankee Doodle—to be whistled by the entire company.

☞ The Pine and Palm states that John Brown, Jr., has resolved to enter the army. He will enter the service in Kansas, either under Montgomery or in the same brigade.

☞ A battery has been invented in Detroit which, with the aid of six men, will discharge three hundred and twenty balls per minute.

A few weeks ago a seamstress threw herself into the Seine because she had failed in obtaining anything after having bought twenty-four lottery tickets; and a workman, for a similar reason, threw himself out of a window on the fifth story of a house near the Bastile.

The New Orleans papers are gloating over a telegraphic announcement that "forty thousand bales of American cotton" were destroyed by the fire in London. It was "India cotton" that was burned.—*Boston Journal.*

The celebrated ex-dansouse, Mrs. Lyne Stevens, once Duverney, is about to be married to the Duke de Richelieu. She is about the handsomest woman that ever 'floated."

A. RICHARDS & CO.'S
COMBINED GLUE AND CEMENT.
Is liked by every one in preference to any other in market for many reasons:—
1. Because it is white as snow
2. Because it has no disagreeable smell.
3. Because it is so clean and nice.
4. Because it answers a double purpose—it will mend all kinds of crockery, from China down to the coarsest Stone Ware, and at the same time will mend any piece of Furniture, or anything made of wood.
5. Because any one can use it.
6. Because it is ten times stronger than any other Glue in the Market.
7. Because it only costs the same as other Glues, and is worth ten times more than any other.
8. Because, if it don't prove as recommended, purchasers can have their money back.
9. Because the articles mended never separate.
10. Because it is no humbug, but an honest article, as thousands can testify.
SPALDING'S PREPARED GLUE, too well known to need puffing.

—FOR—
RHEUMATISM AND NEURALGIA.
GARDINER'S
RHEUMATIC AND NEURALGIA
COMPOUND
Is a certain, safe and permanent cure for Rheumatism, Neuralgia and Salt Rheum. It is an internal remedy, driving out and entirely eradicating the disease, requiring no change in diet or business, and may be taken by children and persons of the most delicate constitutions with perfect safety.
TESTIMONIALS.
Having been a constant sufferer from Neuralgia for eighteen months, and been driven by excruciating pain to the trial of numberless remedies without obtaining relief, I was induced to try "Gardiner's Rheumatic and Neuralgia Compound." I have taken but one bottle, and am entirely well. D. B. BAXTER, Dry Goods Dealer, No. 5 Appleton Block, Lowell, Mass.
I have been afflicted with Salt Rheum in its worst form for a long time, and suffered very much during spring, except by those similarly afflicted. I tried one bottle of your Compound, and can honestly say that I believe myself entire ly cured. JOHN A. MORDO, Pearl St. House, Boston, Mass.
My son, ten years of age, has been for three years a great sufferer from Salt Rheum, his hands being covered with sores, and in constant pain. One bottle of your Compound cured him.—J. W. HAMMOND, 99 Milk street, Boston.
I certify that my friend, Wm. T. Glidden, Esq., presented me with a bottle of "Gardiner's Rheumatic Compound," in 1856, when I was suffering, with a painful attack of Neuralgia and Rheumatism, and that it proved to be of unlooked benefit.—ALBERT SMITH, Ex-Member of Congress from Maine.
TESTIMONY OF JUDGE RITTEDGE OF VERMONT.—Charles E. Gardiner, Esq.—Dear Sir,—I beg leave to add my testimony in favor of "Gardiner's Rheumatic and Neuralgia Compound."—After suffering twenty years with Rheumatism, more or less, and last year with a very severe attack, I took one bottle of your Compound, which afforded decided relief. I think it the best and most efficacious medicine for that disease I ever used.—WM. C. KITTERDGE, Fair Haven, Vt., Dec. 1st, 1860.
The Rheumatic and Neuralgia Compound has been taken by hundreds of persons for Scrofulous Humors with great benefit.

ATWOOD'S
QUININE TONIC
BITTERS,
The Best Aromatic Tonic ever offered to the Public.
RECOMMENDED BY THE FACULTY
For Its Superior Medicinal Qualities.
This elegant compound, which has secured the confidence and endorsement of most of the leading Physicians of New England, is a palatable and efficient form of *Quinine*, containing all the peculiar virtues of PERUVIAN BARK, carefully combined with various *tonics* and *stomachics*, and cannot fail to meet the wants of the debilitated.
It is a mild *tonic* to the stomach, increasing the appetite, assisting digestion, pre-eminently good in dyspepsia, strengthening and invigorating to the digestive and nervous systems after prostrating diseases; and in fever and ague, or kindred complaints, its aid is invaluable.
For diarrhœa, dysentery and cholera morbus, the public may rest assured there is nor can be any better general remedy.
One of the very best Physicians in Boston has said *"that it is the best preparation of Bitters that has ever been offered to the public."*
Put up in half-pint as well as quart bottles, in order that all may convince themselves of its superior merits.
For further particulars reference is made to the printed circulars.

MONDAY, JULY 22, 1861.

NEW HAMPSHIRE ITEMS.

Mr. Alonzo Durgin, of the Manchester Print Works, while assisting in putting up a line shaft in one of the basements, on Friday, was caught by a broken pully in motion, and carried around the shaft eighteen or twenty times. He was bruised in a most shocking manner. The space between the shaft and the timbers above was only about two feet. His over-frock, which wound around the shaft, was torn off, with the exception of the wristbands, and Mr. Durgin fell to the floor, without a bone broken, although he supposed an arm had been torn off and that death was immediate. It was thought he was not fatally injured, though the revolutions of the shaft are about eighty per minute.

Mr. Moses Page was badly injured in Dover on Monday last. He was standing on a staging superintending the unloading of a cargo of coal, when a large bucket, used to hoist the coal, came in contact with the staging, causing it to break, precipitating Mr. Page some distance upon the coal below.

New Recruiting Officers have been appointed for the 3d Regiment in Manchester. The papers are to be sent out immediately.

The Governor and Council have postponed the appointment of Quartermaster, and the field officers of the third regiment, until a week from next Tuesday.

The Manchester American says Gov. Berry believes that the Third Regiment can be organized and equipped for service in three weeks' time, at least. The number of companies asking for admission is quite large.

Fountain Fire Association, No. 3, of Dover, on Monday evening last presented their Clerk, "the Champion Hose Carriage man," a beautiful Revolver as a token of the high estimation in which they hold him. Mr. Champion has recently obtained the berth of Captain's Clerk, U. S. N., and the presentation took place the evening before his departure. Speeches were made, songs sung, and the good feeling of all manifested in a happy manner.

In the course of a week or two our first regiment will retire from the war.

On the 29th of June Harvey U. Colburn was thrown from a load of wood, a mile from Nashua, and so badly injured that he died in twenty-four hours. The horse became frightened when descending a hill, and an Irishman, who was on the load, caught at one of the reins and turned him into the gutter, throwing both off. Young Colburn fell between the horse and wagon and was badly kicked and bruised. He was fifteen years and eight months old.

About thirty-five members of the Granite State Guards, with a few others, met on Monday evening, in Somersworth, to adopt measures to secure the enlistment of a company of sixty-four members, who shall then choose their officers, and offer their services to the Governor, for the third regiment.

Congress.—Friday, July 19, the Senate passed the Civil appropriation bill, and a bill for the payment of volunteers from the time they actually enter the service, previously to taking the oath. Mr. Bayard of Delaware spoke in opposition to the resolution approving the acts of the President. In the House, Mr. Crittenden asked leave to submit resolutions defining the objects of the present war. Objection being made, the resolutions were not received. The bill appropriating $3,000,000 to purchase or charter vessels for the temporary increase of the navy, was passed in concurrence. The bill for the better organization of the military, contains a provision requiring Cadets at West Point to renounce all allegiance except to the United States. The House adjourned to Monday.

☞ The inward freight depot of the B. & M. R. R., in Boston, was burnt on Saturday morning. The whole loss, including the building and freight, is estimated at but about $5000, which is fully covered by insurance. The books and papers in the depot office were all saved uninjured. The fire originated in some cotton waste, it is supposed from spontaneous combustion.

☞ The London Saturday Review makes merry over Mr. Russell's letters to the London Times, dissecting them with a very sharp scalpel, criticizing their style with acrimony, and abusing them roundly in terms both general and specific.

Headquarters 2d Regt. N. H. V.
Washington, D. C., July 17th.

Messrs. Editors:—It gives me great pleasure to inform you that our Regiment have taken three days rations with them, and gone, with the two Rhode Island Regiments and the 71st New York, which constitute a brigade under the command of Brigadier Gen. Burnside, on a travelling tour into the state of Virginia. The men went off in fine spirits, hoping that an opportunity would soon be offered them to do something for their country's good. Gen. Burnside exercised the Granite State regiment the night previous to their departure; and he told them that he was highly pleased with them. Gov. Sprague was present on the occasion. Gen. Burnside told Col. Marston that the regiment looked well, and he took them to be a stout, rugged set of men, and from their readiness in the various evolutions, he thought New Hampshire might well be proud of her Granite boys.

The government paid off our regiment yesterday, and I tell you the boys were glad to get it, for the most of them were awful short of the needful article. The most of the men have sent their money home to their families for safe keeping. They feel well satisfied with the treatment received from the Government, and that is more than they can say about their native State. When Councillor Burnham was sent out by the State, with the pay-roll and money to pay off the volunteers for their services, it was made out in such a bungling manner that there didn't seem to be head or tail to it. Some men were paid when the State did not owe them anything; and others got nothing when there was money due them. There was considerable excitement about the matter, and if there had not been promises made that the matter should be speedily rectified, things might possibly have turned out somewhat different from what they now are. I hope that, for the honor and credit of the State, the matter will be immediately adjusted, so that all may get what is justly their due.

Gen. James Wilson (and daughter,) formerly of our State, (but now of California,) has for the last fortnight been with our regiment, and a few days ago he addressed us in an eloquent manner. While he was thus addressing the regiment, you could see tears trickling down the cheeks of many of the soldiers, as he feelingly portrayed to them the benefits and blessings of a free and enlightened government; he explained to them what their duty was to their God, and to their country in this the hour of its peril; and assured them that the prayers of fathers, mothers, brothers and sisters, in the Granite State, were daily ascending to Heaven for their protection in the hour of danger. Mr. Wilson and daughter have been very kind to the soldiers, having furnished the needy ones with money, and many very useful articles. He expects to go along with the regiment as far as he is able, for he likes the boys of his native State, and he wants to be with them. Should they get into an engagement while he is with them, he means to walk right into the fight, and sing out to the boys that "Long Jim" is with them, and they must give the rebels "particular." The soldiers gave him nine rousing cheers that made the welkin ring.

We have lately formed in our regiment a Sabbath school, and we also have prayer-meetings twice a week which are well attended, although it is difficult for some to get a chance to take part in the services, our time being so fully occupied.

The sick men of the regiment, with the cooks and all of the camp equipage, still remain on the old ground as usual.

Yours, D. F. S., One of the Guards.

☞ Marshal Kane, of Baltimore, and B. Welch Owens, have been indicted for treason. It is said a presentment was also found against Col. I. R. Trimble, who commanded the citizen volunteers on the 19th of April, and who is supposed to be in the rebel army. Capt. Thomas, the "French lady," and three others, have been indicted for treason and piracy.

Washington, July 19.—On the earnest representation of Senator Latham, the steamer Keystone State will leave New York to-morrow to convoy the Northern Light from Aspinwall with over two millions in treasure. This duty performed she will cruise for the pirate steamer Sumter.

The President has transmitted to Congress the official correspondence containing an invitation from the British Government to appoint a joint commission with reference to the development and preservation of the Newfoundland fisheries. The President recommends the necessary legislation on the subject.

The Senate to-day, in Executive session, rejected the nomination of Miguel A. Otero as Secretary of New Mexico, it is said owing to his secession proclivities.

New York, July 19.—The Commercial's Washington dispatch says—"dispatches to the War Department say Gen. McDowell's advance has *not* moved on Manassas to-day. There had been no fighting since yesterday. The Federal forces were reconnoitering the position."

The Post's dispatch says the official report states 12 of our men were killed and 40 wounded yesterday. It is thought more of our men were killed and wounded in the woods near the creek. The rebel loss is supposed to be heavy. One of the South Carolina Colonels was killed.

Further Particulars of the Battle at Bull's Run.—The rebels who fought the federal troops at Bull's Run are said to be those who were driven back from various points between Fairfax Court House and Centreville; and in addition to them reinforcements of five regiments were sent up from Manassas during the action, which continued about five hours. Despite the various rumors, the condition of affairs at the close of Thursday may be clearly characterized as a drawn battle, there being no decided result. The rebels nowhere showed themselves during the battle, being concealed by the woods, ravines, and entrenchments, from which they directed their fire.

Mr. McClernand, a member of the House, believes, from what he ascertained at the seat of war on Thursday, that the rebels had 50,000 men at the Junction, or that could soon be concentrated there.

The great part of the wounded of the federal forces are quartered in the Stone Church, where every attention is paid to their comfort. Fourteen of the dead were buried Friday morning. Several amputations have taken place.

The rebels are still in possession of their principal batteries. Their pickets approach to within 150 yards of ours. With a spy glass large bodies of rebels were seen moving to the right and left, apparently extending their base line of operations, not retreating. Batteries are being erected on our side, commanding the enemy's works, which are of a substantial character. Owing to the slight repulse with which we met, the movement against the rebels will be more carefully planned and of greater magnitude than was at first contemplated. The batteries of the rebels were scientifically worked.

Our troops are all eager for the fight. They have constructed tents with their blankets thrown over stacked arms There is plenty of food, including fresh beef.

Friday afternoon a general order was read to all the troops, prohibiting theft of all descriptions, and enjoining respect for persons and property, and stating that the least penalty for violation will be incarceration in Alexandria jail, and for crimes of magnitude the severest penalties known to military laws. The order also states that we have invaded Virginia to restore persons to their lawful rights, and to secure their good will. Soldiers were not at any time to be judges of the acts of the Southern people. To this the troops acceded by clapping their hands and huzzaing for their commander.

All rumors of fighting on Friday are untrue. The Fort Pickens battery, Major Hunt, arrived at Centreville Friday afternoon.

It has been ascertained that the first battery beyond Centreville was abandoned by the rebels before our troops retired, Thursday night. Thirteen prisoners were captured by our troops.

Saturday evening's dispatches say:

The strength of force on our side actually engaged at Bull's Run was not more than 800 men. This small force made almost entirely the fight with about five thousand rebels.

An army officer, who left Gen. Patterson's division, on Friday, states that he had already commenced the line of march towards Winchester, but the main division moved slowly and with great circumspection.

☞ Gen. Cox, on Friday, ordered a detachment of Ohio troops, with two guns, and the Ironton Cavalry, to reconnoitre near the mouth of Pope Creek. They discovered some 1500 rebels, strongly entrenched on Seavey Hill, with a masked battery of two guns. Our men were fired upon from the masked battery and a log-house. After firing forty rounds our men crossed the Creek and silenced the battery, but their ammunition giving out they were compelled to retire, with a loss of four killed, seventeen wounded and three missing.

☞ A steamer with a brig in tow, for Boston, fired a gun for a pilot off No Man's Land, and the Josiah Sturgis put a pilot on board. The captain of a light-boat saw the vessels together, and supposed the steamer to be a privateer, and that she had captured the brig and the pilot boat.—Hence the story of "another privateer."

☞ Gen. Mansfield, at the headquarters of the department of Washington, has issued an order stating that fugitive slaves will, under no pretext whatever, be permitted to reside or be in any way harbored in quarters and camps of troops serving in that department. Neither will such slaves be allowed to accompany troops on the march.

☞ At the Charlestown Navy Yard, it having been ascertained that a few men, not citizens of the United States, were employed, an order has been issued that all such shall be discharged. Naturalized foreigners are required to exhibit their papers to the clerk of the yard.

☞ All the churches in San Francisco have hoisted the American flag, to remain until the war is over.

Louisville, Ky., July 16.—The Charleston Mercury, of the 15th, says a large frigate, supposed to be the Minnesota, arrived off the bar yesterday. There are now four vessels in sight. The brig Perry occasionally appears.

The Norfolk correspondent of the Richmond Dispatch says—"We are in possession of facts warranting us in the belief that we have amongst us a great many scoundrels who sympathize with the North, and would gladly aid in our subjugation."

On the 13th inst., a desperate fight occurred amongst the rebel companies in Norfolk, during which two were killed. Cannon are being successfully rifled at the Gosport Navy Yard.

Fortress Monroe, July 19—Midnight. A party, consisting of Maj. Rawlins, Capt. Holliday, and Jenkins, Lieut. Johnson, a private, and R. W. Shurtleff, of the Illustrated News, left Hampton without permission, on a scout party, poorly armed, and only one mounted. They were surprised in the woods by twenty dismounted horsemen. Rawlings was instantly killed. Johnson and Shurtleff were seen to fall, and must have been made prisoners. The others escaped. The body of Rawlins was recovered. At least two rebels were shot.

Kansas City, July 19. — Gen. Lyon, who is marching South toward Springfield, has about 6000 men, including Maj. Sturgis' command, 24 pieces of artillery, abundance of ammunition, and a full train of baggage wagons. McCulloch and Jackson have retreated across the Arkansas line to drill their troops. Their available force is placed at 17,800 men. — Gen. Lyon's strength will be between 10,000 and 12,000.

Jefferson City, July 18.—Capt. Cook's company of Home Guards has captured eight rebels. Among them was a messenger from Jackson, bringing letters to different persons. In one letter Jackson begs for more men, and admits that he lost 500 men in the battle at Carthage.

Washington, July 19.—An official dispatch from Maj. G. B. McClellan, dated Beverly, July 19, says one of Cox's regiments, the 2d Kentucky, defeated and drove 600 of Wise's men out of Barbourville, Cabell Co., on the 16th.

☞ Lieut. Edwin M. Webber of Somersworth, has been appointed Quartermaster of the detachment of infantry stationed at Fort Constitution, under Capt. James Davidson.

☞ Gen. Pope has issued a proclamation to the people of Missouri, giving his reasons for occupying the northern part of the State, and virtually declaring martial law.

☞ A volunteer artillery company has been placed at Fort Scammell, Portland, Me., and a battery of rifled cannon, owned by the State, is to be mounted immediately.

☞ Harper's Magazine for August is a good number, and "the times" do not seem to cause a lack of interest in its pages. For sale by J. H. Foster.

☞ The 2d and 4th Regiments, Mass V., returned to Boston on Friday afternoon, their three months' term of enlistment having expired.

The Oxygenated Bitters.

For years medical science had been taxed, and the skill of the physician exhausted, in the hope of discovering some remedy available to cure that most distressing of all diseases—Dyspepsia, as well as its long train of evils under their various names.

No medicine *existed*, which would speedily, permanently, effectually and radically cure and expel these diseases from the system, until *Dr. Green* made known his discovery of

The Oxygenated Bitters.

Such is its remarkable power and peculiarity, that cases which for years have baffled the most potent medicine and the highest professional skill, yield to this remedy as readily as if the disease were but of a day's standing. For all diseases of the Stomach and Digestive Organs, and for General Debility, it is equally salutary and certain.

Typhoid Fever, Dyspepsia and Debility.

The following letter from Stephen Leavitt, Esq., a well known and worthy citizen of Lake Village, is but the testimony of thousands of like sufferers:

Lake Village, N. H., Nov. 4, 1859.

Messrs. Seth W. Fowle & Co., Boston,—Gentlemen:—Eight years since I was attacked with *Typhoid Fever*, which left my digestive organs in a very feeble condition I was totally unable to perform labor; I could eat but the lightest and most simple food without causing distress; and the various medicines which I had taken produced no favorable alteration in the disease. I continued in this miserable condition for several months, until a brother-in-law (Mr. Joseph Burrill of East Boston) sent me a bottle of the Oxygenated Bitters, with such strong assurance of its virtues, that I was induced to give it a trial. I had not quite exhausted the contents before the effect was visible, and gave sufficient encouragement to persevere in its use; and I was in due time restored to a comfortable state of health. This remedy I have since recommended to some of my dyspeptic friends, and always with the most satisfactory results. Yours, Stephen Leavitt.

Prepared by SETH W. FOWLE & CO., Boston, and sold by

Preston, Kimball, Hutchings, J. H. Thacher, N. P. Thacher, Portsmouth; James P. Packer, Greenland; S. Hanson, Jr., New Market; Porter & Thyng, and Wm. B. Safford, Exeter; J. W Green, Hampton Falls; and by dealers every where.

American Women.

America is justly proud of its beautiful women: but how many die annually, or prematurely lose their health and youth for want of a remedy suitable to their peculiar ailments. That remedy is found in SIR JAMES CLARKE'S FEMALE PILLS. We know hundreds of cases where they have been used with the greatest success.—In all cases of Nervous and Spinal affections, Pain in the Back and Limbs, Heaviness, Fatigue on slight exertion, Palpitation of the Heart, Loaness of Spirits, Hysterics, Sick Headache, Whites, all the painful diseases occasioned by a disordered system, these Pills will effect a cure when all other means have failed,—*moderating excesses and removing obstructions*, whether from cold or any other cause. Suffer no more anxiety or low spirits, but try them. For full particulars, get a pamphlet, free, of the Agent.

One dollar and six postage stamps sent to any authorized agent, will insure a bottle containing over 50 pills, by return mail. my28 dawtu

CHRONICLE EXTRA.

MONDAY AFTERNOON, JULY 22.

LATEST NEWS!

BY TELEGRAPH TO THE CHRONICLE.

From the Agent of the Associated Press.

BOSTON, July 22—4 o'clock.—After the triumph of the Federal troops in the earlier part of the day, in which they fully repulsed the enemy, they marched to Manassas Junction.

At this point Gen. Johnston's division joined the rebels, when the tide of victory turned; and our army, seized with sudden panic, took to flight.

They fled with precipitation, and Gen. McDowell was unable to rally them.—Throwing away their knapsacks and muskets,they continued to fly until they reached Washington, the ground all the way being strewed with men who fell exhausted.

A general gloom prevails in Washington. Sherman's and three other batteries, with the heavy seige train of rifled 32 pounders, fell into the hands of the enemy.

The Zouave Regiment,all but about 200, were killed.

The New York 69th is also badly cut up.

[We do not place implicit reliance upon this report—but give it as it comes to us.—Manassas Junction is 27 miles from Washington; rather a long "run."—*Chron.*]

Local.

☞ At an adjourned meeting of the Board of Aldermen, on Friday evening, a new dog law was passed, in compliance with the petition presented some days since. The bill was passed by one majority—one member of the Board being absent. It must now go before the Common Council for their concurrence, of course; and until this (very uncertain) result is attained, the present law remains in force.

☞ In the Police Court, on Saturday morning, Havillah F. Downing and Henry Nutter were found guilty of brawl and tumult on Islington street on Friday night, and were fined $4.46 each, from which they appealed. Ordered to file bonds in the sum of $30 for their appearance before the S. J. Court in October.

DEATH AT THE JAIL.—James Smith, seaman, was brought to this port recently in the ship Pam Flush, being sent here by the American Consul at Liverpool. He was charged with mutiny on board that ship, while on the passage from San Francisco to Liverpool. Here an examination was held before an U. S. Commissioner, and Smith was committed to jail, where he died on Friday night. His disease was consumption.

☞ We shall certainly hold in grateful odor, the memory of those friends at Rochester, N. H., who sent us that liberal basket of fragrant treasures a few days since—a brace of ample bottles of delicious "apple-juice," flanked by a myriad of exquisite pond lilies; the "bouquet" of the liquid being almost equal to that of the watery flowers themselves. It were worth one's while to be a nymph or naiad for a season, to revel amid such otto sweets as these lilies dispense. F.

☞ The ship Sarah E. Pettigrew was seized a few weeks since, off the bar at New Orleans, and taken to the levee. Some of the papers stated several days ago that she had been condemned by the courts; we did not copy the statement, as we were told that sufficient time had not elapsed since the seizure for the action to be taken, and the news to arrive North. But we are informed by one of the owners that she has been condemned by the Southern courts. We are also informed that the captain was advised by the pilot not to attempt to enter, but to bear away for a Northern port. He is now a lieutenant on board of one of Jeff. Davis' privateers, which may account for his reckless disregard of the timely advice.

The ship was built in Portsmouth in 1857, is 1193 tons burthen, had been recently coppered and repaired, and originally cost $83,000.—The freight money of her former voyage amounting to $17,000, had been invested in salt, which constituted her cargo. The total loss to the owners, therefore, is $100,000. One-quarter of the vessel was owned in New Orleans, and the remainder by gentlemen residing in this city.

☞ We understand that the United States ships Marion and Dale, which have just sailed from the Navy Yard, were each furnished by Rev. Mr. Medbery, our City Missionary, with fifty Bibles and fifty Testaments, from the American Bible Society, New York.

☞ Stephen Kenrick, Esq., for the Building Committee of the Candia and Manchester Branch Railroad, has issued a hand-bill, inviting proposals for the grading, masonry and stone work of the Candia Branch Railroad, to be made as early as may be. Col. Kenrick, who appears to have the matter in charge, is a gentleman of untiring energy and perseverance, and doubtless the road, under his direction, will be speedily completed.

MARRIED,

In Boston, July 18th, by Rev. Henry M. Dexter, Mr. CHARLES F. BARTLETT to Miss ABBIE A. HICKEY of this city.

DIED,

In this city, on Sunday, 21st, DANIEL TAYLOR SHORES, aged 2 years and 5 months, son of J. Foster Shores, Jr.

SAN FRANCISCO, July 4.—The first daily overland mail coach left Placerville on the 1st inst. It was escorted out of town by an immense concourse of citizens with music and salutes.

Gov. Downey has issued some sixty military commissions to officers of various companies in this State.

Three companies of the 4th Infantry arrived in San Francisco from Oregon.

Austin Smith, late of the Navy, left and turned over his office to his successor last week. He departed by the steamer of the 1st inst., for Panama. It is believed that he will enter the rebel army. He is a son of Gov. William Smith, of Virginia.

The day after Smith left a suit was commenced against him for over $14,000 entrusted to him as an agent.

The San Francisco Times says Smith paid all the demands of his secession friends, but none of those of loyal men, and took all the books of the Navy Agency with him, leaving the affairs of the office in inextricable confusion.

Another arrival brings news to the 7th: The Union Democratic Convention, numbering 640 delegates, had been in session in Sacramento since the evening of the 4th. A sound platform was adopted. Eight ballots had been had for Governor. The contest is very bitter.

WASHINGTON, July 20th.—Up to one o'clock, nothing of peculiar interest has been received from the seat of war. Gen. McDowell was concentrating his forces and reconnoitering. He is acting with caution and deliberation, preliminary to the renewal of the conflict. Reinforcements will be sent to him to-day.

It is supposed that Johnston's column has effected a junction with Beauregard.

Gen. Patterson has been superseded by Gen. Banks, who has been succeeded at Baltimore by Gen. Dix.

There are no rebel troops at Aquia Creek. All have gone to Manassas.

"As my strength was, then even so is my strength now," said Joshua. So will every one say who is now troubled with weak stomachs and worn out digestive organs. If they will now and forever use Herrick Allen's Gold Medal Saleratus—for whenever it has made an acquaintance, it "sticks closer than a brother,"—it will be your protector and shield, besides always giving you nice, light and digestible Bread, Biscuits, Puddings, Cakes, &c. Try it. Most of the Merchants sell it. Depot 112 Liberty Street, New York.

The power of Medicine over disease.—We know of no better illustration of this fact than the wonderful effects of the *Oxygenated Bitters* in eradicating from the system Dyspepsia, and functional diseases of the stomach, as well as restoring impaired digestion.

To Owners and Keepers of Dogs.

CITY MARSHAL'S OFFICE, Portsmouth, June 14, 1861.

Having received directions from the Board of Mayor and Aldermen to strictly enforce Ordinance No. 29, which is as follows:

Dog Ordained, &c. SEC. 1. If any owner or keeper of any dog shall suffer such dog to be at large within the limits of Portsmouth, without a wire muzzle, well secured, he shall forfeit and pay therefor a fine of two dollars for each offence, to the use of the city, to be recovered before the Police Court upon due complaint, which it is hereby made the duty of the City Marshal, to make or cause to be made.

SEC. 2. And it is hereby made the duty of the City Marshal and the Assistant Marshals to kill or cause to be killed, any dog found within the limits of this city, and not on the premises of the owner or keeper thereof.

SEC. 3. Any person may lawfully kill any dog, found within the limits of this city, going at large in violation of the provisions of this ordinance.

The same will be enforced as directed, on and after Monday, June 24, 1861.

HUTCHINS' HAIR DYE,

THE VERY BEST NOW IN USE, as many thousands who have tried it will testify.

The great superiority of this Dye consists in its easy application, having but one preparation. It also contains twice as much as any other, and gold at a much less price. This Dye imparts to the hair the most natural color of any yet discovered; and instead of injuring, it gives it the beauty and elasticity of youth. This Dye is having the largest sale of any Dye in the market, and is warranted to give better satisfaction than any yet offered to the public.
